Distinguished Persons, Letters of

Harper (Matters about Dr. Harper
Held to For Dec 18, 1905 copy)
April 13-95.

President W. T. Harper, D.D.,
University of Chicago.

My dear President Harper,

It gave me great pleasure to be present by chance at your Convocation the other evening, on my way home from a Western trip which occupied me in Spring recess. I regretted to be obliged to leave just before the conclusion of your address, to catch my East-bound train.

It is truly amazing to see how much you have accomplished in so short a time. I cannot recall the world to which you kindly refer, but the sentiment was that those I meet, whose opinion I most regard, have giving respect for the University of Chicago's increasing faith in both its past and its future, so that I for me have time time since passed from the standpoint of skepticism, that the realization of faith to vast
Some to that of hope—don't know but I may be destined to fall from hope to euthanasiain. At any rate, there have been few educational documents that I study with greater interest & profit than those expressing the many new & suggestive concepts & combinations which emanate from your office.

With hope of great & steady increase & progressive realization of your plans,

I am,

Good Speed.

gratulates Pres. Harper-
on increase in endowment.

"We shall all look to
you for still more mag-
ificent things in the
future."

1895
not checked
G. Stanley Hall of Clark University visits the University, attends Convocation, and is amazed to see what Pres. Harper has accomplished.

Apr 1895
Jan. 4-95.

My dear President Harper,

I cannot forbear sending

you a word of most hearty and sincere congratulation on this magnificent addition to your endowment. We shall all look to you for still more magnificent things in the future.

I am,

most truly yours,

J. W. Hall
January 4th, 1901.

President G. Stanley Hall,
Clark University, Worcester, Massachusetts.

My dear Dr. Hall:

In reply to your letter of December twenty-ninth, I would say that the only institution which has been legally and permanently associated with the University is the Baptist Theological Seminary. Rush Medical College has been associated with the University, but the arrangement is one which can be easily broken by either party. You will find the contract uniting the seminary and the University given on page twelve of my first Annual Report (1897-8), a copy of which I think is in your office. I enclose here with a copy of the contract with Rush Medical College.

Hoping that these may give you the information, and wishing you a happy New Year, I remain

Very truly yours,
Dear Mr. Kellett,

President C. Bennett Hall
Clark University, Worcester, Massachusetts

My Dear Mr. Kellett,

In reply to your letter of December twenty-ninth, I want you to know that the only arrangement with the University at the present time is that in the event of any of you who have been associated with the University in the past being able to exchange one with the University in the present, the exchange can be easily broken, if either party with the University. I feel that for the present I am able to announce the University's令人 on the same terms as my other announcement. Report (FAG-8), a copy of which I have to your office. I enclose herewith a copy of the contract with Wm. McKeen College. Wol.

Hoping that these may give you the information and enable you to judge the New Year, I remain

Yours truly yours,

[Signature]
Clark University,

President William R. Harper, D. D.,

University of Chicago,

My dear President Harper,

By the conditions of our founder's will, we are precipitated into the task of raising money and of trying to federate with two other local institutions here, and I venture at the suggestion of a committee of our Board to ask if we can in some way be permitted to draw upon your valuable experience in this latter task?

What we especially desire to know is upon what terms your federation or affiliation with other preexisting institutions was made. Has there in any case been an actual transference of funds with reservation of rights of administration for a limited time, or until such rights should be voluntarily and one by one surrendered? Has this been effected in any case by a reconstitution of either your Board or any other? I have an impression that your Ogden Fund involved the nomination of a member of your Board by its administrators, but am not certain.

If you could refer us to any sources of information upon this subject or dictate any opinions or suggestions from your wide experience, I need not say that they will be very gratefully received.

Trusting that I am not making too large a tax upon your time or kindness, I am, with the most cordial of all the greetings of the season,

Faithfully yours,

Dictated.

G. Stanley Hall
Dear President Harper,

President William E. Harper, M. D.,

University of Chicago,

My dear President Harper,

I have the pleasure of informing you that we are in receipt of an offer of $100,000 from a committee of friends of our institution to make a contribution to the endowment fund of the University. This offer is contingent upon the raising of an equal sum by the University itself. We believe that we can meet this condition and we hope to do so as soon as possible.

The purpose of this letter is to inform you of the terms of this offer and to request your assistance in the matter. We believe that the University of Chicago is one of the leading institutions of its kind in the country and that a contribution of this size would greatly enhance its standing.

We have been in consultation with a committee of trustees of our own institution and have decided to accept this offer. We hope that you will be able to join with us in this endeavor.

I am enclosing a copy of the letter I received from the committee of friends. I hope that you will find it helpful in your discussions.

I am writing this letter in order to express my gratitude to you for your past support of our institution and to invite you to participate in this important endeavor.

Yours sincerely,

[Postscript]
CLARK UNIVERSITY,
WORCESTER, MASS.

PRESIDENT'S OFFICE

October 27, 1903.

My dear President Harper,

Will you be so very kind as to drop me a personal line, not to be printed or published in any form but to be used solely for a very important committee here, stating your opinion of post graduate University fellowships and scholarships for a few advanced men who are not on their way to a learned profession. Do graduate non-professional or philosophical faculties pay or ought they to do so? Having settled the other affairs in this little institution we have now to answer the question why the institution should not bring in a larger income in the way of student fees. If I may have a word from you on this subject at your convenience for this use only, I should be very grateful,

I am,

Faithfully yours,

C. Stanley Hall
My dear President Harper,

Will you be so kind as to grant me a passport? I am not to be married on Sunday and am afraid the family will not be able to come to see me on this important occasion. I am certain that you will appreciate my request.

I am looking forward to the opportunity of meeting the President of Oxford University and the opportunity to see some of the famous places of England.

Yours sincerely,

[Signature]
November 5th, 1903.

President G. Stanley Hall,

My dear President Hall:

Your note of October 27th came duly to hand. I am strongly in favor of post graduate university fellowships and scholarships for men who are preparing to investigate and to do teaching in the various faculties. A graduate non-professional or philosophical faculty cannot pay and it ought not to be expected to pay. In the very nature of things this is the most expensive educational work that can be undertaken. I had supposed that there could be but one answer to this question.

Wishing you great success in your work, I remain

Yours very truly,

W. R. Harper
November 5th, 1909

Per. President E.ق. Scally, M.P.

Mr. Secretary, Keane

My dear President:

Your note of October 28th came only to hand. I am strongly in favor of your being unreservedly recommended as a fellow of the Royal Society. A graduate of your profession may be of great service in the various scientific and philosophical faculties and may set an example to others. In the wake of private life, I hope you will contribute to the advancement of knowledge in a manner that can be undeceived, I hope, beyond all there can be done by me.

With you great success in your work, I remain

Yours very truly,

W. R. Harte
My dear President Harper,

I have heard with the deepest pain that you are not so well. I cannot forbear sending you a brief message of heartfelt sympathy. I have never had the pleasure of enjoying your intimate acquaintance, but I doubt if there is a man in this country who has a more sincere and unbounded admiration of the magnificent work that you have done in connection with Chicago University. The boundless energy and enthusiasm, the passion for work and the genius for accomplishment that you have shown will abide in its results as a lasting monument, as an inspiration to other men and to youth for generations. Heaven grant that the tide may turn and you will come back to health and vigor! Precious few men in the country who could not better be spared than you!

I am, yours with great respect and admiration,

G. STANLEY HALL
Oklahoma University
Moore, Okla.

December 10, 1962

President's Office

I have been with the Board of Regents for over a year. I have not so well. I cannot report anything new about
my work or official duties. I am very happy with the Board of Regents and the
pleasure of serving you. I have had the
opportunity to serve on the Board of Regents and to participate in the various activities of the Board.

The Board has been very supportive and understanding of my problems.

I am very pleased to be able to offer my services and to participate in the Board's activities.

I am happy to be able to serve you.

Sincerely yours,
