"TO THE HILLS."

I will lift up mine eyes unto the hills, from whence cometh my help.—The Psalms.

The hills! God made 'em every one, an' refreshes 'em with dew.
An' makes 'em golden with the sun to gladden me and you.
Down here there's bitterness an' strife, an' lots o' things seem vain;
An' we make our complaints at life here on the noisy plain.
But there, the hills lift up their heads, an' we can look an' see
Where brooks play in their glistening beds an' sparkle in their glee.

I've watched the hills when just-at-dawn the sun swept up the slope.
An' knew my night of doubt had gone an' left a day of hope.
I've watched the hills at evenin' time, all silvered by the moon,
When from their sides in tones sublime the breezes brought a croon.
An' all the world grew good to me—an' all the world was still.
Oh, them's the times a man can see the glory of a hill!

I reckon David must-'a' been a man like me or you,
That had his own sore fights to win, just as all humans do;
An' he looked to them hills of his that breathed of quiet peace.
Just like our hills where comfort is, an' all our troubles cease.
"I to the hills will lift mine eyes"—I've heard 'em sing the psalm.
An' in each mellow note there lies a blessin' pure an' calm.

II. PROPHETS OF THE OPEN FAITH.

When preferred by the class, the following may be given as evening lectures:

(1) Servetus and the Martyrs; (2) Joseph Priestley; (3) William Ellery Channing; (4) Theodore Parker; (5) Lucretia Mott; (6) Charles Darwin; (7) James Martineau; (8) Ralph Waldo Emerson.

III. RECENT POETS GEOGRAPHICALLY CLASSIFIED.

Six Evening Readings by Mr. Jones.

(1) Poets of Canada; (2) Poets of Australia; (3) Poets of California; (4) Poets of the South; (5) Poets of the Middle West; (6) Anonymous and Obscure Poets.

IV. COMPOSITION WORK, ORAL AND WRITTEN.

A two-weeks' course in practical pedagogy to teachers, [July 17-Aug. 1] led by Miss Charity Dye, Teacher of English in the Indianapolis High Schools. All aspects of composition work considered. Local history, Story-telling, Literature, Life.

V. SUNDAY MEETINGS.

July 17. Opening Address by Mr. Jones, from Luther to Emerson.

July 31. Annual Grove Meeting. Forenoon and afternoon meetings, with picnic dinner. Speakers to be announced.

August 13 and 14. Meetings of The Woman's Congress. Program to be announced.

VI. THE TOWER HILL SUMMER ENCAMPMENT.

The above is an outline of the work of the four-week summer school, which is purposely left as open and elastic as possible, so as to secure to the attendants a real vacation.

The Encampment will be open for the twentieth season July 1, and continue open until September 20, and the life on the hill will be diversified with drives, picnics, social evenings, porch readings, etc., at the pleasure of the guests.

VII. THE ANNE MITCHELL LIBRARY.

A new feature on the Hill this year is the above attractive building, donated by a few friends under the leadership of Miss Bertha Howe of Welawhen. It is conveniently situated under the trees, midway between the...
dining hall and the Emerson pavilion. Miss Cordelia S. Kirkland has donated the nucleus of an attractive library, which is already augmented from other sources. This building contains the post-office and reading room. The ample screened porches make a delightful gathering place.

VIII. THE LOCATION AND HOW TO GET THERE.

Spring Green, on the Prairie du Chien division of the Chicago, Milwaukee & St. Paul Railroad, one hundred and eighty (180) miles from Chicago, is the freight, express and telegraph station. Day passenger trains during the summer season will stop at Helena (flag station) three miles east of Spring Green, shortening the distance and with better roads. Those wishing to reach the Hill with least delay should notify by letter in time for the buckboard to meet the train. Buy your tickets to Spring Green, and if you desire to get off at Helena, notify conductor. A livery at Spring Green is always accessible on short notice.

During the season mail should be addressed to Tower Hill, Wis.

IX. DESCRIPTION.

Tower Hill consists of sixty-five acres in the bluff country overlooking the Wisconsin river. It has its own waterworks and ice house, and telephone connection. A plentiful garden and adequate dairy in connection with the Jenkin Lloyd Jones farm, supply the table.

May the River of our Life, quickened, clarified, sanctified by contact with its humbler sister river among the hills, flow through sluggish brains and quicken them into thought-growths, reach sand-parched hearts and convert them into flower gardens, touch the roots of paralyzed wills and nerve them with a strength to battle like the pine on the rocks, to defy winter storms and summer droughts, to persist in perennial greenness, bearing the fruit of generosity, openhanded helpfulness, and earnest work?

Dear Dr. Harper:

I am to preach at Sage Chapel in the University course at Cornell on the 28th of October. It will be necessary for me to find some supply in my pulpit. I know well the presumption that turns to you; but I would like to have you know that I would prefer to have you stand in my pulpit that Sunday than any other one I know, and in order to have you know that I venture to write this letter and ask you if it is quite out of the question for you to preach for me on Sunday morning of the 28th. I shall be glad to do all I can towards a compensation in a financial way, though I am sure that that will not be a consideration on either side. I ask you most heartily because I want you to know that I have a continued admiration for the work you do and would fain be your friend and helper. I believe you will realize this although on a certain occasion I had to speak what seemed to me at the time a timely

Dear Dr. Webster:

I am to preach at Etna Chapel in the

It will be necessary for me to find some supply in my
church. I know well the presumption that, hence to you;
but I would like to have you know that I would prefer

know that I have a continuing appreciation for the work you
have and would enjoy doing it again and again. I believe
you will receive this statement on a certain occasion

work concerning a possibility after that of ours. But I see you I must fit into the kindliest spirit and my own consideration notwithstanding very well the aspect in which I hope you and the region I have for the work you do. Dr. W. H. Harper,

Chicago University, C I T Y.

Dear Dr. Harper:

Last fall I asked you to preach for me but you were already engaged, but expressed a willingness to do so sometime. I am running out to San Francisco in March to give a course of University Extension lectures under the auspices of the U. of C. on "Prophets of Modern Literature." In this way I hope to put in a bit of work for culture for the University and for the clearing of my own throat from the frog that this hard weather has put into it. Could you preach for me on Sunday March 24th?

I can only offer $25 as an honorarium, but I can offer you an audience that will bid you hearty welcome to a non sectarian Church and what I believe to be one of the freest pulpits in the country, because it reaches out both ways.

Hoping that you can come, if so please indicate your subject if convenient, as we issue a monthly bulletin.

Very respectfully yours,

My dear Miss Chamberlin:

Please look over this letter of Jenkin Lloyd Jones to President Judson, and see what you think of it. I have pondered over it, but as yet to little purpose.

Professor H. P. Judson,
University of Chicago,
Chicago, Ill.

Dear Dr. Judson:

I have had a letter on my mind to you for a long while, and if I don't get it off to you, it will be too late to accomplish the ends I have in mind. I tried hard to find time to see you in person before the vacation carried me away, and now I write this, hoping that you will be beyond its reach during these August days, but that it will eventually fall under your eye and interest you.

Is it not possible for an institution as free to do as it pleases as yours to do something very definite and valuable in the way of adding dignity and efficiency to the Sunday School work of such parishes as are willing to come under your pedagogical circumspection? Your University gives credit to those who do certain work in a certain way in connection with University Extension Centres, High Schools and other academies. Young people of scholarly tastes or academic ideas have a partiality for "marks" all hope some day or another to win a "degree", particularly if they have teaching or other professional ambitions. Would it not be an entirely safe movement on the part of your University to say to such Sunday Schools as are willing to submit their course to the approval of a committee appointed for that end by your institution, when the pupils are able to present at the end of the year a satisfactory record of attendance and to stand an academic examination on the course of study that they have pursued, and have attained the necessary standing that would be required if they had taken the work in the classes arranged on the campus for such, that you will give them credit for the same. Of course such a committee would not undertake to pass on the theological conclusions taught, but only on the work done, the academic standard reached. My idea is that such an arrangement could be devised by a committee appointed by you, of men who have taken Sunday School instruction seriously, that would be equally acceptable to the Jewish, Catholic, Baptist, Unitarian or Independent schools. Such schools should present to your Committee at the beginning of the season in October an outline of the course to be pursued during the year, and at the end the pupil must be able to present to your representatives sufficient evidence that he has done the required "work."

I don't think there is any danger that you would be overrun or that you would be called for to give credits that would in any way embarrass your college work or lower your academic standards, but it would give a touch of dignity to the Sunday School, and it might do a little something to help

hold the brighter young men and women of high school and college age in the school, an end quite as desirable from academic as from a religious standpoint.

I have not stated the proposition very clearly. I have thought over it a good deal, and I hope it will at least commend itself to you to submit it to a few of your colleagues there who are both interested in University and in Sunday School work.

I enclose an outline of the work we did at All Souls Sunday School last year, and also of the work we are going to undertake next year. I would be glad if I could announce that any pupils who will pass a satisfactory examination as to studies and attendance would receive "credit" for the same in the University of Chicago, and of course my case is only one case in point. Such an arrangement I feel sure would be a stimulus at least to the Sunday Schools that are practically within your bailiwick in Chicago.

Don't let this letter intrude upon your vacation, and if it will be more convenient to talk about it than to write, I shall be glad to call upon you and talk it over on my return to Chicago, about the middle of September.

Hoping that your strength is equal to your great tasks, I am,

Very cordially yours,

Enc.
TOWER HILL STUDENTS ENGAGEMENT

1930

TOWER HILL "MOD"

I read that you were interested in the work at the Institute of Technology and that you are planning to come to this country. I am writing to you in this connection. I am a student at the Institute of Technology, and I am very interested in the work being done there. I have been working on a project which I believe could be of great value to the engineering community. I would be willing to collaborate with you on this project, and I believe that we could make significant progress together.

I am also interested in the work being done at the University of Chicago, and I would be very interested in the opportunity to work there as well. I believe that there are many valuable projects being carried out there, and I would be very happy to work on any of them.

Please let me know if you are interested in this opportunity. I am very eager to work with you and to contribute to the advancement of engineering.

Sincerely,

My dear Dr. Jones:

Your favor of the 5th of August was not answered promptly, partly because of my absence from the city, and partly because I thought it best to confer with some others before reaching a conclusion. I am much interested in your suggestion. We certainly are concerned to do what lies in our power to make Sunday school work something stronger and more effective than it often is. We do not at present see our way, however, to taking up the plan which you suggest. Perhaps I cannot cover the ground any better than by enclosing to you herewith Professor Burton's comments. I think you are on the right track, and that there is room for something to be done, and hope that the right way may be found.

Thanking you for the suggestion, and with cordial best wishes,

I am,

Very truly yours,

Rev. Jenkin Lloyd Jones,

Mr. Jones:

Your letter of the 26th of August was not unexpect

ably, partly because of my absence from the city, and partly

because I thought it best to delay some certain plans mentioned

in connection. I am glad to hear that your seasoning is certain

and not continued to go without into our powers to make better school work

somewhat earlier, and more effective than it often is. We do not

expect to be able to cover the upper and better classes

soon, and hope that the right may yet be found.

Thank you for your encouragement, and will continue your service.

Very truly yours,
