Name or Subject: Harlee Letters

October 30, 1891

File cross reference form under name or subject at top of the sheet and by the latest date of papers. Describe matter for identification purposes. The papers, themselves should be filed under name or subject after "SEE."
It is a familiar saying that the first few years of a child's life fix indelible impressions on character for good will. Young children cannot protect themselves—they are subject to the absolute control of their elders—they are what they are made. But, like all human beings, they have what our Declaration of Independence called, "Certain Inalienable rights". Those most fundamental are these three:

Every child has a right to cleanliness,—cleanliness of person, cleanliness of home,—cleanliness of mental atmosphere. A squalid body may easily mean a squalid mind, and that for all life.

Every child has a right to health. Scanty or unwholesome food, foul air, needless exposure to contagion, even if not immediately fatal, may fix permanent physical defects,—permanent handicaps to a useful life.

Every child has a right to happiness. Not merely amusement is needed, it is the whole cheerful outlook on the sunshine and shadow of each day that puts a deep impress on humanity.

The men and women of tomorrow are what we make the children of today.  

Harry Pratt Judson.
As this completes the business which
I have for the Board today, and as this
meeting is my last as President of the
University and as Trustee, I ask to be per-
mitted to say a word in closing.

I appreciate the acting of the Board
at its last regular meeting on matters re-
lated to my personal affairs.

I wish also to express my very sincere
appreciation of the understanding and timely
support which I have had uniformly
from the Board and from each of its
members during all the years in which
I have been carrying on the admin-
istration of the University. The task
the President has been greatly lightened
by this firm and wise cooperation. The full
understanding of the larger aims of the
university is the result of the

same fair consideration which the

Board has always given to the President's
suggestions, has been a continuous factor
in whatever success the College admin-
istration has had. May I add how deeply
I feel not merely the harmony of our official
relations, but also the privilege of very gen-

erous friendship which each trustee
has afforded me? This nice in the College
can be a source of enduring con-

sideration.
I wish also to set on record my great satisfaction at the action of the Board in accepting the administration of the University in the hands of Professor Abbott. For him I have not only a genuine affection, but a sense of his Conditional as a scholar, as an able administrator and as a loyal servant of the University. Chicago from its earliest days. I am sure you have every confidence in the newest accomplishment of my term.

Mr. President, I tender my cordial thanks to you, self and to all, and my heartfelt best wishes for the future prosperity of the great interests under your charge.
Memorandum of Proposition

Dr. Judson.

Dr. Judson to accept the chair of Botany and headship of department with the understanding

(1) That he should begin work January 1, 1904.

(2) That during the first two years he shall be in residence only two quarters each year, receiving his rate salary.

(3) That during the first two years he shall keep his
connection with his New York work,

7. That, if at the end of this period he shall decide that it is not best for him to give up the New York work and devote his entire time to this professorship, he may resign without prejudice.

8. That the salary shall be at the rate of $5,000 a year.
During the months of April–June, inclusive, Rendel Harris expects to be in the United States for the purpose of giving the Library Lectures at Haverford College, and taking part in the Friends' Summer School at Haverford in the latter part of June. R. H. does not contemplate much lecturing outside the limits of these engagements; but, inasmuch as there will be at least two or three weeks not covered by the duties mentioned above, he would be glad to take the opportunity of renewing some of his former academic friendships, and of lecturing in a few selected centres.

The following list suggests some of the subjects that are available; those marked with a star are not to be given in the immediate neighbourhood of Philadelphia:–

2. The Diatessaron, or Harmony of the Gospels made by Tatian.

3. Methods of research in Eastern Libraries.

4. The influence of Homer upon the Early Christian Church. [A digest of certain chapters in my Homeric Creations.]

5. The Literary Environment of our Lord and his Apostles.

6. On the meaning of Certain Obscure Names in the Tradition of the New Testament. [Part of this has appeared in the Expositor for March.]
9. The History of a Certain Group of MSS. of the New Testament: [the group referred to is the celebrated Ferrar-group, and the lecture is only of interest to those who already have some acquaintance with Textual criticism.]

10. The so-called Logia or Sayings of Jesus. Their critical value and use in the interpretation of other documents.

11. The Fourth Gospel; [an easy introduction to some of the problems connected with the Gospel of John.]

13. How to interpret a Pauline Epistle; a study of the 1st Epistle to the Thessalonians. [Part of this has already appeared in the Expositor.]

14. Some hints for the Synoptic Student: [deals with the question of doublets, real or apparent, in the tradition of the Synoptic Gospels.]

15. St. Simon Stylites; an interpretation of Tennyson's poem, with reading.

16. The Mysticism of Madame Guyon: [a brief critical study of the life of a Saint.]

17. Armenia as I saw it in 1896: [an address on the position and prospects of the Armenian people.]

---

* Enquiries as to times and terms should be addressed to J. Rendel Harris, c/o John B. Garrett, Rosemont, Pa.

Harry Pratt

Dean of University of Chicago

President Harper arrived last evening having been snowbound in New Mexico for nearly three days is in good health notwithstanding he seems anxious to remain sometime but feels that French Ambassadors visit and his promise to go East compel him to return next week I telegraph without his knowledge hoping you can arrange for his remaining if so please wire him

A C Bartlett 217 P M
Chicago Jan. 29th, 1896.

Prof. Harry Pratt Judson,

The University of Chicago.

My dear Sir:

I desire through you to acknowledge the courtesy of the committee of arrangements of the Settlement League in inviting me to preside at the settlement meeting this afternoon, and in my absence I beg you to represent me. The work of the League in connection with the University Settlement is most important, and one which should receive encouragement from every member of the University. The Settlement itself seems to me to be one of the most important institutions connected with the University. Any hindrance in its work will be felt throughout the University. Personally and officially I regard the work of the Settlement as a vital part of the University work, and I sincerely hope that such an interest will be aroused throughout the University in this work as to warrant its permanent continuance. I beg you to make to the members of the League and the members of the University interested in the Settlement, the following announcements:

1. A contribution of $500, towards the expenses of the current year has been made by the trustees of the Central Church of which Rev. N. D. Hillis is pastor. This contribution is a token of the interest felt by the church in the work of the Settlement, an interest which it is believed will be greatly increased as time passes.

2. Dr. Hillis and myself have agreed to secure in subscriptions...
Dear Sir,

I am writing to express my gratitude to the University of Chicago for the opportunity to work with the Department of the University. I have been fortunate to be a part of this institution and I am grateful for the experiences I have had.

The University of Chicago has been a significant part of my academic career. I have had the privilege of working with great minds and engaging in meaningful discussions. I believe that the University's dedication to education and research is unparalleled.

I am excited to contribute to the University's legacy and to continue my work in the field of education. I look forward to the opportunities that the future holds for me.

Thank you again for your support and for making my time at the University of Chicago so enriching.

Sincerely,

[Signature]
for the current expenses of this year the additional sum of $1,000, and
the Philanthropic committee may make their plans with this pledge in
mind.

3. The restriction which was placed upon the members of the
Philanthropic Committee in reference to soliciting subscriptions in the
city, now understood to be removed. The circumstances in the case
have changed; and it is my earnest desire that the committee should make
every effort to secure the remaining $1,000, or $1,500, needed to carry
the work to Oct. 1st, 1896.

4. The plans for a David Swing Memorial Hall at the University
Settlement to constitute the particular building of the Settlement have
been prepared, and the cost of erecting the building has been estimated
to be $35,000. The Rev. Dr. Hillis of the Central Church has taken upon
himself the responsibility for securing $15,000 of this sum at the
earliest possible date, with which a portion of the building may be
erected. Those of us who know Dr. Hillis, his energy and the success
which attends his efforts, are satisfied that this money will be
secured at an early date.

5. The Board of Trustees of the Central Church will be asked,
indeed have been asked, to join with the members of the University in
the work of the Settlement, and it is believed that the Trustees of the
Church under the direction of Dr. Hillis will assume in large measure the
responsibility for the current expenses of the Settlement work, it being
understood that the University, in co-operation with the Church, will
provide from its number teachers, lecturers and assistants.

The heartiness with which Dr. Hillis has taken hold of this work
should be a source of encouragement to all of us at the University and
For the current expenses of the year the appropriation may be $1,000,000.

The Appropriation Committee may make after further consideration of the

matter with some explanation of the necessity of the Committee.

The Appropriation Committee in reference to the Appropriation in the

case of the present, I am to inform you that the Committee blame me

very little to secure the remaining $1,000,000 or $1,000,000 needed to carry

the work to October, 1900.

The plans for a new Science Memorial Hall at the University

settlement to continue the general outline of the settlement have

been surveyed and may be ready for the new. The public and the public

will have another voice and in a number of years the necessity

are such that we know the millions of dollars needed will be

secured at our early date.

The Board of Trustees of the University will be ready

to make such an appropriation of the University as

the work of the settlement may require. If I am to make the necessary

changes in the settlement, I am to inform you that the

Committee were in reference to the Appropriation of the settlement knot.

I am not prepared to the Committee with the Gallup,

prairie from the cotton, tobacco, pasture, and resulting

promote a source of expansion to fill the needs of the University and
we should be willing in every way to show our readiness to co-operate with him and his trustees to the fullest extent.

I particularly request, for reasons which will be understood later, that the statements contained in this letter shall not be published in the students' papers published at the University, or in the daily papers, and I am sure that student reporters will comply with the request not to publish the statement.

Yours very truly,

[Signature]

In this connection I desire, also, to recommend that a full consideration be given to certain changes which have been proposed in the constitution yet to be adopted by the Student Body.

To the Christian Union,
CHICAGO

We are all of us willing to confess that our efforts to organize a

University Press and the Press to the fullest extent will

be partially redundant for reasons which will aid in

part the Press' successful operation to the fullest extent.

The publishing program of the University and the

effective support of the Press will be greatly enhanced.

Yours truly,

[Signature]
January 31st 1890.

Dear Prof. Judson,

Your letter and statement have just reached me. I explained to President Harper the importance of keeping from the public the 4th and 5th points made in your letter. Indeed, I thought it was expressly understood that nothing was to be said concerning these plans, until my canvas was completed. But since a full statement of the facts was given out at your meeting, the situation must be accepted. But I am very anxious that nothing should be said through the newspapers, for reasons that I explained to President Harper. Will you do me the favor of seeing the reporters to whom Pres. H. refers, and make sure of their silence? Any public statement through the press rather than through Central Church, who must of course give the money, would imperil my whole canvas. Indeed, it would be impossible for me to explain to the Board of Trustees how our plans became public, and would involve the necessity of my entirely withdrawing from the enterprise. I send this by special delivery. Will you also see President Harper immediately upon his return? I am very sorry he is out of the city. I can hardly explain to you my anxiety in regard to the whole matter. Please say to your reporters, that if they make any statement in regard to my plans, that I shall vacate my canvas and withdraw from the enterprise. Certainly, this should insure their fulfilment of Pres. Harper's request.

Very truly yours,

P.S. I am going out of town for a day or two. This prevents my calling on you in person.
Dear [Name],

Your letter was received and I am glad to know that you have decided to return to the post of [job]. I appreciate your continued interest in my affairs and hope that you will find the conditions here to your satisfaction.

I understand that you have been appointed as the [position] in the [organization]. I am pleased to hear that you will be able to devote more time to your work and I hope that your new position will be conducive to your personal development.

I am looking forward to your visit and I will do my best to make your stay here enjoyable. If you need any assistance or information, please do not hesitate to contact me.

Yours sincerely,

[Your Name]
My dear President:

Although I am not in residence, I must enter my protest to the absurd letter on the cab and game business. It seems to me peculiarly unfortunate in every respect. In the first place are the frightful colors used which is a distinct retrogression to the customs. The dark ages from which the letter clearly makes its appearance has rescued the conscience of gentlemen. Our simple black gowns are well enough. In the second place, there is no earthly reason for the display of academic college dress. In the army there is a simple and practical reason. I daily occurrence, which compels it but we there is no such reason at all. It is simply begging in. In the third place, it compels an extravagant and useless expenditure. I am virtually obliged to them away at least $60 - more which I need for other purposes, any dollars at. But I have to write it on this rubbish. And much more is the expense felt by many who are far less able to afford it than I. It is idle
to say that they can wait. The moral pressure is virtual compulsion. The net effect is to correct
the faculty rate of spelling errors grudgingly, for the benefit, mainly, of Gantt and Leonard.
I am horrified/disgusted with the whole business.

Very truly yours,

H. P. Angel

H. P. Angel.
My dear Mr. Judson:

Will it be too much for me to trouble you to answer the following question, and let me have the answer if possible by Wednesday morning?

What, in your opinion, have been the six, eight, ten or twelve most noteworthy events in the history of the University since July 1, 1896?

By the word "noteworthy" I mean events of interest, and of importance from the University point of view. As an example may I cite the giving of the Astronomical Medal to Professor Barnard. The publication of the book by Professor C. R. Henderson.

I shall be very glad indeed to have you indicate such matters of this character as may have come to your attention. For the trouble which this occasions you, I shall be very grateful.

Yours truly,

[Signature]
1. Univ. School.
2. Return men feet to his work.
3. Haskell Institute.
4. Sunday Biblical Course established.
5. Yerkes Observatory at work.
7. Byr. Michelson's Instrument (calculating machine) can be used particularly.

Mr. Dear President:

This is private. I have to

face facts.

Wednesday morning

P.S.
My dear Mr. Judson:

I have your note of September nineteenth concerning Mr. Herrick's request for rooms. I think you probably do not appreciate the whole situation. Mr. Herrick came to me to enter a requisition for an additional desk. I objected, on account of extra expenditure, and that brought out the question of a room. He was complaining to me in no sense as to your action or non-action in the matter.

It seems to me that we ought to be able to furnish him some additional space.

William H. Harper
CHICAGO
EAST. 80TH, 1898.

My dear Mr. Parker:

I have your note of December 19th, 1898, in which you inquire about the matter of Mr. Kellogg's record for a year. I think you have already got the report of Mr. Kellogg's record for the year 1898. May I suggest that you contact Mr. Kellogg directly, as the matter is of a personal nature.

I appreciate your efforts to solve this problem, and I am confident that Mr. Kellogg will be able to provide the necessary information. If you require further assistance, please do not hesitate to contact me.

Yours very truly,

[Signature]
Memo. from Mr. Judson

1. My suggestion was to relieve the pressure of the physical culture dept. by making the work elective for seniors. I should suppose that upwards of half of those now taking the work would be apt to drop out if it were not required.

2. Prof. Turner has not been able to be here either of the last two Saturdays. His son has had an operation for appendicitis and when I heard last was in a very critical condition. Prof. Turner hopes to be here next Saturday, but indicated that if we should not think it advisable to run the risk of breaking up the work, we should be free to make any other arrangement. I wrote him that I thought it preferable by far to go ahead as arranged. It seems likely that he will be here next Saturday or certainly the following. Meanwhile the classes have had their work indicated and so have lost no time.

H.P.K.
I am writing this to convey the most important information to you.

The situation seems to be quite serious. We need to act quickly to mitigate the consequences.

I suggest we divide the task into smaller, manageable parts.

Let's prioritize the most critical issues first and proceed from there.

Thank you for your attention and assistance in this matter.

Best regards,

Mr. W. W. Jungels,
377 Van Buren Street,
Chicago, Illinois.

My dear Sir:

Dr. Dodson informs me that you wish to see President Harper about some matters connected with your examinations. The President is unable to attend to the matter and says that I may represent him. If you care to call, I shall be pleased to see you any day in my office, Room 10 Haskell Hall. My office hours are from 10:30 to 12:00.

Very truly yours,
January 16, 1920

Mr. W. W. Johnson,
244 W. Jackson Blvd.,
Chicago, Illinois.

My dear Sir:

Dr. Dohren informs me that you wish to see
President Harder about some matters connected with your exam.

Please tell the President to arrange to attend to the matter and
save that I may be present. If you care to call I shall be
pleased to see you either in my office, Room 70, Harold Hall.

My office hours are from 10:30 to 12:00.

Very truly yours,

[Signature]
April 25th 1900

Dear Pp. Indian,

Word is to April 29th has reached me. I will defer my return, as you suggest, preserve for you the first week in July. The announcement suggested is satisfactory, if I hope the lectures will be. Please do not include the Sunday service in the contract. I shall prefer to do that freely, after the...
fashion of Friends.

I should like a spiritual talk with your Z. W. C. A., for example, on some simple subject, such as

"The use of the Concordance
Bible Text-book"

If I could give you a short prepared address on the head

But of this more later on.

I am sorry that I shall miss visiting Boston.

You will hear me read before the time that lecturing

especially wanted.

Yours truly,

R. H. Harris
Professor H. P. Jackson,

Chicago University.

Dear Sir:

Your letter of the 9th is at hand. Permit me to say that if the course in
Civil Government is a one term course, repeated in the Winter and Spring Quarters,
then it is not a matter of importance to me whether I quit it for two or three
Quarters. I had understood that it was
a continuous course, running through
the year. The course in Political Theory
I should very much like to make a
Two Quarter (continuous) course (inasmuch
as the Three seem out of the question), in
the two hour a week course (for the year)
given before by you, the 19th Century was
practically untouched, and the American
theory was given in another course. It is
a matter for the year. Now the American theory
I hope to give especial attention to and am
ready after my studies in Europe last
year to discuss the 19th Century theory
to some advantage. I hope. Hence I am lead
in some cases it is not possible to
see what is going on in the
neighborhood. The reason is that
in the early morning hours,
people often walk or ride their
bicycles to avoid being
disturbed. Even though the
town is quiet, the noise from
the nearby
traffic can be heard. It is
important to
consider these
factors when
determining the
best time to
attend school.
to suggest that the course in Fire History &
Fictional Research be made a two quarter
continuous one. But if you should not
consider it advisable to present the matter
of this extra course to the President, I
am willing to abide by your own decision
in the matter. I am willing to accept
the docentship as it stands, and entrust
the matter of extra courses to your judge-
ment and that of the President; and I
notify the Secretary of my acceptance, by
this mail.

I have ordered the publications to
make you a copy of my thesis and trust
that you may find time to give it an
examination.

Very Respectfully yours,

[Signature]

Hopkinton, Iowa.

1924

Jul 21 1924
My dear Dr. Judson:—

I regret to say that I cannot name from memory the subjects of the lectures which it seems best to ask Rendel Harris to give, and Mr. Davis in your office is unable to find the printed list which I returned to you with the former letter. Perhaps you can put your hand upon it. If not, it will be necessary to write Mr. Harris for another copy of this printed list. Will you do this, or shall I? Meantime would it be well to ask the officers of the Y.M.C.A. to set down Dr. Harris for a talk at their seven o'clock Sunday evening meeting? I judge from his letter that it would also not be improper to ask him to deliver the four o'clock Vesper address.

Yours very truly,

E.D.B.

[Handwritten note: I should ask for 1, 2, 3, 2, 1.]

5-7-1911
CHICAGO, May 7th, 1900.

My dear Mr. Judge:

I write to you that I desire your leave to receive the depositions of the various witnesses that you have taken to the effect that an office in your office is wanted to be occupied by myself.

I hope the position is not the one which I understand to be with the A.T.

Perhaps you can put your mind to the fact that if you should be necessary to write to Mr. Harris for another job of this kind, I will not be unwilling to write to Mr. Harris for another job of this kind.

I am, with the utmost respect,

Your truly,

[Signature]

Dr. A. B. C.
May 7th, 1900.

Mr. Charles B. White,
Granville, Ohio.

My dear White:

I am interested in your letter of recent date regarding the football coach. I had already had a letter or two from Professor Johnston regarding it, and wrote him a brief letter, stating what we tried to arrange last year. Mr. Firth, of whom I wrote you then, is still available. He is preaching somewhere in the north, but is a very desirable man for the place. If you could arrange to give him some work in the Academy, in science, I believe that the problem would be solved at once. Both he and his wife are Baptists. They are good church people, efficient Sunday-school workers, and in every way would fit right into the conditions at Granville.

If it does not seem possible to arrange this, as proposed last year, I might be able to secure for you Mr. Mortimer, a divinity student, who is a great football player and who is highly recommended for his work by Stagg, Gale, and others of
Mr. George White

Granville Office

Mr. Geo. White:

I am interested in your letter of

recent date regarding the音乐会 scheme. I have
already had a letter or two from Professor Johnson
regarding it, and wrote him a prior letter, stating
we must try to arrange last year. Mr. White of

when I wrote you then, to still available. He is
presuming someone in the north, and at a very ge-

expected man for the place. If you could arrange

to give him some work to the Academy in Osage,

believe that the properly would be secured at once.

Both he and my wife are Baptist.

Then are good company

people, especially Sunday-school workers, and in every

way would fit right into the condition of Grandville.

If it does not seem possible to arrange

the scheme as proposed last year, I might be able to ex-

come for your Mr. Morrison, a graminity agent, who

as a great footfall blender and who to rightly reckon

management for the work of the gate, office, and offices of
our coaches.

In regard to the second question, it seems to me that you are putting "the cart before the horse." If I were to ask any of our alumni here for a subscription for athletic purposes, the very first question they would ask would be, how much do you want to raise, and the second question would follow quickly, how much will the boys in college raise? My idea is that you must first make a thorough canvass among the students. Work them hard; secure every dollar in pledges that you can, and then ask the alumni to make up the balance. There are a great many of us who are very much interested in getting an athletic reputation for Denison and reviving the spirit which was so unfortunately killed by the injudicious faculty attitude a few years ago.

By the way, if what was said in the Columbus papers about the Denison pitcher be true, I am inclined to think the alumni will not be very enthusiastic. What we want is absolutely clean college
spirit, and I am sure there are enough of us who will chip in to make it a go if the proper spirit is manifested at home. Don't you think this is the correct point of view?

The best coaches will cost six hundred dollars and expenses for the football season. For that amount I could get Kennedy, the captain of our last year's team, or Ralph Hamill, our famous running half-back, who are absolutely without peers in their particular lines? I am not sure but what I might get Hirschberger for that amount; but I judge that a more modest sum will be what we can secure, and I assure you that I will do everything in my power to help the matter along. Only first let me know what you can do, before I attempt to secure any money from the alumni.

Very truly yours,
spirit, and I am sure there are enough of us who
will adopt it to make it go. It is the proper spirit
in connection with home. Don't you think this is
the correct way of giving the

The past season, well, most all forgotten.
For all the experience for the football season, for
that moment I could get Kennedy, the quarterback of our
fearless team, or Longfellow, and some lyn-
ning half-back who are sufficiently without praise to
themselves. I am not sure what I
might get in preference to that moment; but I imagine
that a more modest man will not do what we can do, and I cannot
speak for what I will do everywhere in it.
Only that for
my own part, you can go before I attempt to become

very fine, quite.
May 9th, 1900.

Mr. W. H. Roper,
Albany, Missouri.

Dear Sir:

Replying to your favor of recent date, I beg to say that we know nothing of Professor Ellis, of whom you write. There is no such position as professor of languages in the University of Chicago, as we have fifteen or twenty different gentlemen teaching the varied languages and literatures of the world and no one man would ever think of instructing in all of them. It seems to be quite evident that, if Professor Ellis gives the impression that he has ever had any connection with the University of Chicago he is drawing on his imagination. However, it is due him to say that there are a number of institutions in and near Chicago which might be meant by him, such as the Northwestern University, at Evanston, the Lake Forest University, at Lake Forest, or even the National University of Chicago, an institution which seels degrees at rates varying from five to one hundred dol-

Iars. Mr. Ellis may have said a Chicago university, rather than the University of Chicago. At any rate, we know nothing of him here.

Very truly yours,
Fa: In my very brief and hasty

it has been shown to me, I

very truly yours,
May 7th, 1900.

President Jerome H. Raymond,

West Virginia University, Morgantown.

My dear Raymond:

President Harper's bank address is Care of Monroe & Company, 7 Rue Scribe, Paris. He expects to be back in Chicago the tenth of June; so that you might be able to catch him in Paris pretty soon. I see by the morning paper that he met Tolstoi and had a very pleasant visit with him.

I note what you say about study for the next two or three years, and I hope you can carry out your plans.

Very truly yours,
My dear President:

West Virginia University
Morgantown

I hope you are well and can go to Chicago in June. I was able to get to see the company at Monroe so that you might have a better opinion of them.

I am writing to say that I hope you will enjoy the meeting. I am looking forward to seeing you at the meeting in Chicago. I hope you will be able to come.

Very truly yours,
May 24th, 1900.

Mr. P. B. Mayfield,
Cleveland, Tennessee.

Dear Mr. Mayfield:

I am greatly interested in your communication of May twenty-second, with its enclosure of the manuscript signed by John Howard Payne. For some time we have been collecting material of this kind as friends have sent it in, with the intention of having soon a museum of American history. We received quite a large amount of material from the World's Columbian Exposition. This we have now in storage, awaiting a suitable building. I am very glad indeed to place the manuscript you send with others of a similar character, and wish to thank you very much for your kindness in remembering us. I will have a note prepared for "The University Record" regarding this and will see that you receive a copy.

Recognizing your interest in such matters as this, I beg to say that we will appreciate any similar papers of historical or sentimental value.
Mr. P. L. Kelly

Glenwood, Tennessee

Dear Mr. Kelly:

I am greatly interested in your company.

I take great pride in my twenty-second "all-color" edition of your company's work. The "memorabilia" section of your bimonthly magazine has been a source of great interest to me. We have been collecting material of this kind as evidence of American history. We are now in the process of creating a museum of American history. The World's Columbus Exposition, which we are now planning, will be most appropriate and suitable for the material you send with this letter. We are grateful to receive this memorabilia.

They thank you for your kindness in sending us.

I want you to know how much I appreciate the "United States Record" which I have received. I will do my best to see that you receive a copy regarding this and all issues. I appreciate your interest in your magazine.

Encouraging your interest in your magazine, I am,

Sincerely yours,

[signature]
which you may find, and which perhaps, like this, may be marked "Worthless".

We should rejoice exceedingly if we were able to take advantage of the opportunities which are presented to us from time to time for the establishment of allied preparatory schools, and that may be a plan of the future, but at present we are forced to confine ourselves to our immediate territory.

Very truly yours,
I wonder if you may find any support perhaps like this.

We would like to express our appreciation of the opportunity which
we believe to be an excellent time for the study
of the treatment of elderly people. We present the
plan of the future, but of the present we are careful
to continue our plans for immediate fulfillment.

Very truly yours,
May 25th, 1900.

Mr. Fred D. Bredshall,
Care of A. C. McClurg & Company, Chicago.

Dear Mr. Bredshall:

I think you will be eligible to compete for the Colonial Dames' scholarship, regarding which you wrote. The assignment will be made upon an examination to be held Friday, June eighth, the period to be covered in the questions being the years 1648-1860. The rules state that only those will be eligible to compete who have taken American History courses sixteen, seventeen and eighteen, in the University of Chicago, who have credit for history courses one and two, or their equivalent, and who have obtained a general average of "B" in the work of the Junior Colleges. I think you have fulfilled all these conditions, and I should be glad to have you join the others in the competitive examination.

Very truly yours,
Mr. P. B. Woodill,

Chairman and Company Chairman,

Dear Mr. Woodill,

I think you will be able to provide the opportunity for someone in the company to take a test which will help decide who will be able to make good on the expansion of the company to be very much in need of the type of person who can be trained in the period of the next 18-24 months to be conducted in the department. Both the general ability and special knowledge are necessary for this position, and I have seen one or two of them abroad who would be well qualified to do the work of the company.

I think you have an idea of the type of person I have in mind for this position, and I am writing to give you your chance in the competition examination. Very truly yours,
June 1st, 1900.

Mr. J. B. Edgar,
San Bernardino, California.

Dear Sir:

The title of "Associate" in arts, literature of science, is conferred by the University upon all those who complete the Freshman and Sophomore years of residence with credit. The plan which you have read about does not contemplate in the least the lessening of the college course to two years, but is simply a recognition of the fact that many are unable to attend a four years' course. The title of "Associate" conferred in this way is not recognized as an equivalent of nor a substitute for the ordinary degree of Bachelor of arts, literature or science.

I send you a circular of information, which gives detailed statements regarding the expenses and the courses offered. All courses offered in the Junior Colleges would be those which one would have to take in order to receive the title of "Associate".

Very truly yours,
June 17, 1969

Mr. H. K. Hageman
Sen. Democrat, Colorado

Dear Sir:

The title of "Associate in Arts" is used to signify the attainment of the Associate degree by those who complete the Freshman and Sophomore years of residence with credit. The plan also awards certain transfers of the college course to two years of work in a university of the State where the Associate course in the same subject is recognized as an equivalent of the Associate of Arts degree after the completion of one year of graduate work in the major field.

I am now a grad student at the University of Colorado and I was wondering if the Associate degree would be recognized as equivalent to the Associate of Arts degree after the completion of one year of graduate work in the major field.

Once I receive the Associate degree, I would like to pursue a graduate degree in engineering.

Very truly yours,

[Signature]
June 5th, 1900.

Miss Katherine D. Blake,
Principal of Public School,
Madison Avenue & 85th Street, New York City.

Dear Madam:

The Alumni of the University of Chicago are not officially represented on the Board of Trustees, although several graduates of the institution are trustees. The Alumni have no voice in the selection of the college instructors, nor in the arrangement of the college curriculum. They have a certain number of elected members in the University Congregation, which is a body composed of members of the faculty and representatives chosen from the Alumni. In this body a great many questions relating to the policy of the University are considered and the Alumni have given expression to sentiments in these meetings which have had great weight in determining the action of the University ruling bodies.

Those who receive the degree of Doctor of Philosophy from the University have a great deal of
influence over its councils, but this is all done unofficially and not through any recognized medium. I take it that your letter seeks information on cases where the Alumni as such are officially recognized.

Very truly yours,
June 6th, 1900.

I have been over the campsite but finds to all gone.

I take it that your letter seems to me one of heroic

manner. Where the attempt at such one as this is not

useless.

Very truly yours,
Mr. Glenn M. Hobbs,

The University of Chicago.

Dear Mr. Hobbs:

I understand that the services of the University band will be required at the Senior College Finals, Thursday evening of this week at 8 o'clock, in Kent Theatre. They will next be needed on Sunday, June 17th. Please have the band report at the east door of Haskell Museum, not later than 3:30, for the march to the Kent Theatre where the Convocation Sermon will be delivered. The services of the band will be again officially required on Tuesday for the Convocation. Please have every man promptly on hand at 2:30 in the Graduate Quadrangle and arrange to play three or four selections before 2:55 when the procession will be formed.

I am wondering whether it would be possible to get the band together in the evening between 8 and 11 to serenade the President's House. This of course is just a suggestion on my part, but it occurs to me that it would make a great hit if you would just surprise the reception by some selections out there in front of the house. If you decide to do this, keep it mum, and if you do not think best in view of the service in the afternoon, of course no one will find any fault.

Yours very truly,
Mr. G. C. N. Hope,

The University of Chicago

Dear Mr. Hope:

I am most pleased to inform you of the important information that I will be speaking at the Senate on May 20th.

The Senate meeting will be held at 9 o'clock, in Kent Hall, and will be followed by reception at the Hotel Biltmore. The reception is expected to last until 10:30, and will be followed by a concert of the University Band. The concert will begin at 8:30, and will feature performances by the University Band and the University Orchestra.

I hope that you will be able to attend the reception and the concert, and I look forward to seeing you there.

Yours truly,
June 12, 1900.

Mr. J. C. Houser,
Superintendent, Danville Public Schools,
Danville, Pennsylvania.

Dear Mr. Houser:

I beg to state that Professor A. A. Killian is a fraud if he states that he holds the degree of Ph.D. and Pd.D. from the University of Chicago. No such man appears among our graduates. We confer no such degree as Pd.D. and if he makes the statement that he got his degree from the "Chicago University", you may be pretty safe in thinking that he secured it from what is known as the "National University, of Chicago", an institution which gives degrees for a consideration and without four years resident course.

Regretting that we know absolutely nothing of him, I remain,

Very truly yours,
June 8, 1940

Mr. T.C. Honore,

Superintendent, Denver Public Schools
Denver, Colorado

Dear Mr. Honore:

I beg to refer you to Professor W. A. Millin in a recent communication from the University of Chicago. I have no such graduate as P.D. and Ph.D. among our students. I was not aware of such a graduate as P.D. and Ph.D. among our students. It is possible that he may have been a graduate from the "Chicago University," you may be partly sure in filling the "University of Chicago," an institution which seems to have given you a considerable name. Without the help of the state, you might have been more fortunate. I hope I have not been too severe in your matter, as the "University of Chicago."
June 29th, 1900.

Mr. S. J. Shearer,
4536 Lake Avenue, Chicago.

Dear Mr. Shearer:

I have asked that a circular of information be sent to you.

This morning I had a talk with Mr. F. J. Miller, in which we went over the matter of your son's admission credits. Mr. Miller says he has no record in his office of the credits due Bert from his work in the Manual training School. I think it would be well for you to get a statement from Mr. Belfield as soon as possible.

I send you a card, on which you will find certain subjects crossed off entirely. These, as I understand, are now ready for presentation for admission. Three subjects in history are checked, thus . Mr. Miller thinks that these should be made up this summer, so that credit may be obtained for them at the examinations for admission, to be held September fourteen to eighteenth. In the circular of information you will find under the gen-
eral heading "History" an explanation showing exactly what is meant by "History 1," "History 2," and "History 4A."

Now to recapitulate: Your son apparently has credit for two units in Greek, two and one-half in Latin, three in mathematics, two in English, one in physics, one-half in physiology; eleven in all. This leaves him four units short. By making up the one and one-half units in history, he will be only two and one-half units short; namely, one and one-half unit in Latin, and one unit in modern languages. This will not be a heavy condition, and can be easily worked off during the first two years of residence.

I spoke to Dr. Harper about Bert this morning, and he says by all means have him go ahead as I suggested to you last night.

Hoping that this information will be all that you need, and being very willing to help you in any way if you seek further light, I remain

Very truly yours,
How to read texts: Your own expertise.

The lesson for this course is based on the Latin, one-half in Mathematics, two in Physical sciences, two of each: one in Physics, one-half in Philosophy, another in art. The lesson for this course is based on the one and one-half units in practical work, one and only two and one-half units in art. The lesson for this course is based on the one-half unit in Latin, one unit in Modern. These will not be repeated, and can be second, fourth, or fourth, the first two years of Latin.

I hope to do this. Further report next time. Then, may I see you. Is there any love in the air? I suggest that you feel it. Expect to hear from me.

Vera Stahl, Kansas.
July 23, 1900.

Dr. D.E. Kerr,
Illinois College of Osteopathy,
Hoping that you will allow me to withdraw my name from the
167 Dearborn Street, Chicago, Illinois.

Dear Sir:

Your letter of July 19th has been received. I appreciate your desire to be courteous and fair and appreciate very much indeed your letter. On the other hand, it is true that many persons who have read the card to which I made reference understand it to be a distinct and definite endorsement of your work. I am not questioning at all the value of your work,—but you will see at once that I must not be placed in the position of recommending it,—and if even indirectly your card produces that impression I am sure that fairness will prompt you to make a change. I wish to add further that your advertisement to the effect that the University of Chicago offered 200 courses by correspondence and that University credit is given to those successfully completing college courses is a statement which contains only half the truth. We place the most rigid limitations on the work of those who study by correspondence and in no case do we give full credit for degrees for this work. The statement which you have made is therefore a misleading one and ought to be corrected or
July 32, 1900

Dr. D. K. Kent

Iowa College of Osteopathy
Des Moines, Iowa

Dear Sir:

Your letter of July 16th has been received.

I appreciate your kind note to be courteous and fair and understand many people want honesty and the letter has been taken as the start that many have not been able to do as their experience was of the nature of your work, and you will see the same effect. I have not been able to get the appointment of your work. I am not deterred by the nature of your work. But you will see the same effect. It is not to be overlooked in the decision of accommodation.

I am glad I have an opportunity your good opinion that by this opportunity I expect that my influence will prove you to have made a change. I wish to add further that your encouragement to the effort that the University of Osteopathy and the University chart to receive to those assistant to complete self when you are assistant, with the assistance of the chart. We place the more with pleasure on the work of those who have

The statement which you have made is

therefore a misrepresentation one any ought to be satisfied or
expanded in order that the full statement should be considered.

Hoping that you will kindly withdraw my name from the card referred to I remain

Yours truly,

[Signature]

Chicago, Ill.,

[Date]

Your favorable consideration is requested for the statement enclosed which was sent you in reference to the card which you have sent us.

The statement was made upon the statement you sent and was intended to make known the method of correspondence study followed at this college.

We can honestly say that we have never had any difficulty in this matter and if you have any objections you will see the matter at once.

Our course is very thorough and is generally acknowledged as such by the medical colleges of this city. We are organized under the laws of the State of Illinois and all of our graduates who have taken the examinations before the State Board of Health and have passed and been certified by that Board.

We number in our faculty men who are teaching in medical colleges of this city and among our patients we number hundreds of

Illinois College of Osteopathy.
SURGERY AND MEDICINE.
OSTEOPATHY = MANUAL THERAPEUTICS.
OFFICE, SUITE 506, NO. 167 DEARBORN ST.

Chicago, July 19, 1900.

Mr. Wm. R. Harper,
c/o University of Chicago,
Chicago, Ills.

Dear Sir:

Your favor of the 16th inst., is at hand. In reference to the card we published, in one corner is a statement by yourself on the subject of correspondence work. You state that you made this statement in connection with correspondence work in general, and for that very reason we quoted you. We have sent out a number of these and in no instance have we found anyone reading it taking it for an endorsement of Osteopathy, not at all, but an endorsement on the correspondence method of study. By looking the matter over carefully and also our College announcement which we send you under separate cover you will notice there is not a line or word that is intended to mislead you object. The advertisement is as follows:

"Our course is very thorough and is generally acknowledged as such by the medical colleges of this city. We are chartered under the laws of the State of Illinois, and all of our graduates who have taken the examination before the State Board of Health, and they number more than twenty, have passed and bear certificates from said Board. We number on our faculty men who are teaching in medical colleges of this city, and among our patients we number hundreds of"

Yours respectfully,
Chicago, July 19, 1900.

Dear Sir:

Your favor of the 10th inst. is at hand. I trust you have received it.

I am sorry to hear of the recent troubles in your city. I have always been a friend of the Old College and have felt that the best interests of the College were the best interests of the students.

I am glad to hear that the College is still going on and that the students are being well taken care of.

I am attached to the Old College and I wish you would consider the best interests of the students and the College.

Yours truly,

[Signature]
Mr. W. R. H. -2- 

Chicago's prominent people not the least of whom are some of the members of the faculty of the University of Chicago. A number of Chicago's bright and well known physicians are taking the osteopathic course with us.

We urgently request that you make a close and careful investigation of everything in connection with our work. I assure you we will show you or your representative every courtesy while looking the matter up.

Recognizing your endorsement of correspondence methods to be of great value I put the following advertisement on one page of an announcement which was distributed by the thousand, desiring that you should receive equal benefit with us in the publication of the quotation to which you object. The advertisement is as follows:--

"The great University of Chicago offers over two hundred elementary and college courses by correspondence. University credit is granted to those successfully completing college courses."

I received a great many letters making inquiry as to whether they could carry certain branches in the university along with our course.

I wish to be courteous and fair in this matter, and will be pleased to hear from you further.

Yours respectfully,
...
August 15th, 1900.

My dear Mr. Judson:

Why are not the courses suggested on the attached sheet good courses, some of them at least, for our college of commerce and politics? In this connection, may I ask you to have prepared a list of the special courses to be offered during the coming year along the lines of what we call the college of commerce and administration? I think that if such a list were given to the newspapers it would be very valuable. This is one of the things about which I am anxious to talk with you.

Very truly yours,
August 17th, 1900.

My dear Mr. Judson:

This is the day of combinations. We ought to make more combinations of courses than we do. It is true that we are not yet rounded out and cannot do much, but is it not possible to combine our courses more in accordance with the method employed by Harvard? Let us talk this over.

Very truly yours,
To Your Intention

Life is like a box of chocolates -
You never know what you're gonna get.

There's nothing quite like the intensity
Of the moment, the raw emotion
It's all about taking a risk
And stepping out of your comfort zone
To experience new things and grow
In the process.

And to think that it's all up to us
To make the most of it.

And life is like a deck of cards
Each hand presenting a new challenge
But with each draw, we learn
And become stronger.

And so, I wish you all the best
In all your endeavors.

And may your path be filled with
Joy, happiness, and success.

Yours truly,
[Signature]
My dear Longfeld:

May 21, 1900

We have had an invitation to send a delegate to the celebration of the 500th anniversary of the establishment of the University of Cracow, which is to take place on the 7th of June next. It is a short time, and of course out of the question for the University to make any outlay in the matter, but at the suggestion of Dr. Arnolt some credentials are sent you for your use, in case you should wish to take a trip to this ancient seat of learning. Hoping that you will have a fine time at the Exposition, and that you will return in good spirits, I remain,

Yours truly,

N. B. We have some question as to whether the 7th of June is to be reckoned "old style" or according to our calendar. Dr. Harper sails for home on the 8th of June. I suppose you have seen his son, and will see him in Paris, possibly by the time of arrival of this letter.
May 8th, 1930

My dear Mother:

We have had an invitation to send a +elegance to
the celebration of the 50th anniversary of the 
Opening of the University of Wisconsin, which is to
take place on the 4th of June next. It is a short
time of our course of the celebration for the Uni-
versity to make any outline in the matter, but at the
suggestion of Dr. Andrik some of the students were sent
you for your use, in case you would like to take a
trip to the event and see the University. Hoping that
you will have a fine time at the celebration. And
that you will return to Bregentz, I remain

Yours truly

K. B. We have some idea for another trip to
June to be reminded of the trip or something to
our competitor. In regard to your note on the trip to
June I suppose you have seen the souv and will see
the pictures, beautifully fit the time of evolution of
August 21st, 1900.

My dear Mr. Judson:

What changes ought we to suggest with reference to courses in American history for next year? I think we can arrange for Mr. Fellows to give a course in modern European history during the autumn quarter.

Very truly yours,
