My dear Sir:-

I wish to express my thanks and appreciation for your visit to the University last week and for your talk to our students. As you I think know already, I have entire respect for the great work for humanity which you have done, as I tried to point out in the few words at the meeting in Colonial Theatre. You have sought to do practical things in the rescue of men from evil conditions without being troubled by metaphysical points in theology, and you have in the second place never appealed to individual or class hatred as a motive for conduct, but have set before men love in the heart and righteousness in life as a sole means to honorable living. I wish all success to your plans and am confident that they will result in great things for human betterment.

Very truly yours,

My dear Sir:

I wish to express my thanks and appreciation for your kind letter to the University last week and for your talk to our students. As you know, I have had the benefit of your speeches, and I have been impressed by your wise and wise words in the meeting in October. You have been kind to me in the past. In the meeting in October, you have been kind to me and to others present as a guide for conduct and to those present as a guide for conduct and to those present as a guide for conduct.

I wish all success to your plans.

You have doubtless seen by the press that Swarthmore College is to receive a gift on the condition that all inter-collegiate athletics of every kind shall be discontinued. We do not at this time know the value of the gift. I should appreciate having your answers to the following questions with the understanding that I may make such use of them as I see fit:

1. In your opinion, have the trustees of college the right to bind for all times an institution of learning by such a pretentious as the one mentioned above?

2. (a) If so, if the gift should be one million dollars, can you state any reasons why the college should refuse the gift on these terms? Otherwise I should think the matter would at least cause serious hesitation. I cannot see that the amount involved would affect the situation.

It seems to me that a point of Trustees might happen and that your suggestion on the matter of the kind of course if it were nominated as a matter of paramount opinion ought to be stopped as a matter of paramount policy for the college. It might lead to a sort of situation.

Otherwise I think the matter would at least cause serious dissatisfaction. I cannot see that the amount involved would affect the situation.

Los Angeles, Cal., Nov. 9, 1907.

I have just arrived in Los Angeles from San Francisco. I had a most interesting time, of which I should like to give you a fuller account when I return. How busy I was, you may judge from the fact that I spoke fifteen times in the course of the six days that I was there, two-thirds of the addresses being somewhat formal and lengthy, the others of less importance.

I am writing at this time, however, to speak of one man whom I met at Petaluma, and whom I am sure you would like to see when he comes to Chicago. I refer to Mr. Hulbert. Mr. Hulbert is a graduate of Dartmouth College of 1884, and since 1886, has been almost constantly a resident of Korea. Most of this time, he has been in the employment of the Korean Government, and has been in very close touch with the Emperor lately deposed. He came to this country, indeed, as the envoy of the Emperor, with credentials to our own Government and the governments of Europe. He is of course at present a minister without a king, but he is still, at his own expense and on his own responsibility, endeavoring to secure the attention of the people and Government of this country to the situation in Korea.

I am sure that as a student of political science, you will be glad to hear of the things he has to say. Whether

I had a most interesting time, of which I should like to give
you a little account when I return. How pray are you and
your family? From the letters I have received I notice with
interest your interest in the economic, political, and
social conditions of China.

I am writing of this time, however, to express my deep
thanks to you whom I met at Yenching University. I refer to Mr. H. C. Huffard.

Mr. Huffard is a graduate of Dartmouth College of 1928, and
since 1928 has been a member of the Korean Government and has been in very close contact with the
Korean Government, and has appeared in every capacity to the
Korean Government with aspirations to our own Government and the
people of Korea. He is an able and respected minister without a knife and able to fill his own expenses and on the
own responsibility, endeavoring to secure the attention of the
people and government of the country to the situation in Korea.

I am sure that as a student of political science, you
will be glad to hear some of the things he has to say. Whether
it will be needful to make any deduction from them, because of
the enthusiastic temperament of the man, you will be able your-
self to judge. Mr. Hulbert, by the way, is a brother of
Mrs. Gertrude H. Walley who received the Master's Degree from
our University a few years ago, and is now Dean of Women at
the college at Walla Walla, Washington, and of the Professor
Hulbert who gave lectures one summer recently in the Divinity
School.

Mr. Hulbert is to speak in John Dalton Shaw's church
at the University, a word of caution would prevent this. Prob-
ably he would not say them anyhow.

Very sincerely yours,

I asked him tentatively whether he would be willing
to speak on the Educational Opportunity in Korea, and he an-
swered that he would. If it is not practicable to have him
speak in Mandel Hall, I very much wish that he might at least
address the Divinity School.

If you concur in my feeling, you may without further
word from me or Mr. Hulbert, announce him for an address either
on Tuesday the 19th or Wednesday the 20th, and write him a let-
ter to this effect, in care of Rev. John Dalton Shaw. I have
however in no way committed the University to inviting him, having
said to him that I could not of course say whether there would

All of which is to say that to join Peter's House Administration

In explanation of my remark about private statements not perhaps best to be made public, let me say that Mr. Hulbert feels strongly that our Government has not been faithful to its treaty obligations to Korea. If you talk with him, as I hope you will be able to, he will explain this in full; and if you think it unwise that he should say these things publicly at the University, a word of caution would prevent this. Probably he would not say them anyhow.

It is very difficult if not impossible to disentangle these and offer any adequate estimate of their relative weight. That the policies of the present administration count for one of these causes at the present time I think can hardly be doubted. Rightly or wrongly, many people on both sides of the ocean have become convinced that the prevailing political forces in this country are carrying on an indiscriminate warfare against large business enterprise. Dear Mr. Fairweather,

I have just read yours of the 12th inst., and note the plans of Dr. Judson; and we are delighted to learn that Mrs. Judson is coming with him. I will have arrangements made for rooms at the West Hotel, and they will be my guests while in the city. And if they should come on a train without our meeting them at the depot, they can simply go to the West Hotel and find their rooms reserved, Saturday forenoon, December 28th.

We considered several of the best places to hold this meeting; and all things considered, came to the conclusion that this place would be better than the West, Nicollet, Plaza or the Dayton.

I think we will allow Dr. Judson to do just as he pleases in his own town; and I will arrange with the Mayor for a key to the city; and also a key to the "Lid", which will be lifted for 24 hours during his stay, and this is a special favor during these "dry times."

We will see that you have a full report, and I send this letter as a preliminary to a later one which will reach you soon.

Among the postal cards which I have received, accepting the invitation, is one from Rev. Dr. Shutter (the most eloquent speaker at present in our city) in which he states, "I will surely be present", and adds, "Thanks for the privilege".

I will give the meeting my personal attention, and write you later.

I thank you for Denver list and plans. But please remember that we do not copy after Denver.
