Dear Professor,

I am writing to inquire about the possibility of a faculty position in your department. I understand that the University of California, Los Angeles, is actively recruiting new faculty members.

I have been teaching at XYZ University for the past five years and have published several articles in my field. I am currently working on a book that is scheduled for publication next year. I am confident that my research and teaching experiences would be an asset to your department.

If you could provide me with some information on the position and the application process, I would greatly appreciate it. Thank you for your time.

Sincerely,

[Your Name]
President H. P. J. --2

1.) That the President be an educator of established reputation whose name would attract and ability hold a large body of students and a suitable faculty; or

2.) That he should be an administrator, with special ability in raising money - for the $300,000 is only a beginning.

I am frank to say that my own opinion is decidedly in favor of 1., but others hold to 2.

I realize that you have many demands upon your time, and shall therefore deeply appreciate your compliance with this somewhat large request. I should also be glad to have you suggest the name of some one or more whom you regard as fitted for the place.

Cordially,

My dear Mr. Selfridge:

I was much interested in the series of newspaper articles on the great business which you are initiating in the old world. It must be a matter of absorbing interest to you to get this enterprise well established, and I am confident that your training and abilities will make it largely successful. Your Chicago friends will watch closely and will look for repeated triumphs.

With sincere regards,

Yours,

H. P. Judson

Mr. H. G. Selfridge,

Dear Mr. Vincent:

The enclosed is the record of Lyle Harper.

You know he is the young man related to President Harper in whom the latter was interested. Dr. Harper in fact helped the boy through the Morgan Park Academy, and we have been helping him in various ways in the Colleges of the University. His record is not good. Unless he does better work I doubt the wisdom of his going on or of our continuing to aid him. It seems to me it might be well if you would have a heart-to-heart talk with him young man, and try to get at the case. I think it would be better for you to do it than for any of the other deans.

Very truly yours,

H. P. Judson

Dean George E. Vincent
The University of Chicago
My Dear Sir:—

It is with regret that important business requiring my attendance in this state on the 6th inst. has arisen which will prevent my being in Williamstown on the occasion of the inauguration of the new President. Will you kindly present to him on behalf of the University of Chicago sincere congratulations, and on my behalf personally the hope and expectation that the College during his administration will go on with renewed life and vigor.

Very truly yours,

Dean Pershing

[Institution Name]
My Dear Sir:—

I beg to inform you that the Induction Exercises of Wednesday, October 7, 1908, will begin with Morning Prayers at 9.30 a.m. in the Thompson Memorial Chapel. Opportunity for the putting on of academic dress will be given you in Room ............. on the second floor of Hopkins Hall at any time after 8:00 a.m. You will receive at the room indicated two tickets,—one admitting to a numbered pew in the Chapel, the other entitling you to a seat at the Luncheon. It is desired that you take your assigned place in the Chapel before the procession arrives at that building.

At the close of the Chapel exercises, the Marshals will conduct you from your pew in procession to the Congregational Church where the Induction will be held, and thence to the Edward Clark Hall for the dedication of that building. It is requested that the entire procession remain standing in unbroken order during the brief dedicatory exercises.

On returning from Clark Hall, your division of the procession will stop at Hopkins Hall to permit the removal of your academic dress. Thence you are asked to go directly to the Lasell Gymnasium (across the street) where a place marked by a card bearing your name will be found at the table indicated on your ticket.

An informal reception by President Garfield, to which you are invited, will be held at the President's House as soon as the Luncheon is over. This reception will conclude the exercises of the occasion.

It is understood that the arrangements for your entertainment at the home of Miss Browne have already been communicated to you. Should such not be the case, please accept this as the announcement of your assignment to the place designated.

According to the new schedule going into effect October 5, 1908, trains over the Fitchburg division of the Boston and Maine Railroad will arrive at Williamstown from the east and depart for the west at 5.10, 6.46, 7.49, and 10.00 a.m., and 12.14, 2.13, 4.48, 4.58, 5.26, 9.00, 9.19, and 11.03 p.m.; and will arrive from the west and depart for the east at 1.17, 7.10, 9.39, and 11.20 a.m., and 2.01, 2.12, 3.48, 4.56, 5.51, 6.48, and 8.30 p.m.

I enclose a copy of the programme.

Yours very truly,

Chief Marshal

[Signature]
INDUCTION OF
HARRY AUGUSTUS GARFIELD, LL.D.
INTO THE OFFICE OF
PRESIDENT OF WILLIAMS COLLEGE
OCTOBER 7, 1908

PROGRAMME
Beginning at 9.30 a.m.

Morning Prayers in the Thompson Memorial Chapel
Induction in the Congregational Church
Dedication of the Edward Clark Hall
Luncheon in the Lasell Gymnasium
Informal Reception by the President at the President’s House
GENERAL FACULTY DINNER.

At Hutchinson Hall Thursday evening, October 1, one hundred and twenty eight members of the Faculty met at dinner to exchange stories of summer experiences, discuss plans for the work of the new year and become acquainted with the new members of the Faculty. There seemed to be a general desire to establish the General Faculty Dinner as an annual affair.

At the high table of the Commons were the speakers of the evening: Mr. E. T. Merrill, newly appointed Professor of Latin, "Greeting from the Atlantic Coast"; Mr. Ernst Daenell, of the University of Kiel, appointed by the Prussian Government to lecture in the University of Chicago during the autumn quarter under an arrangement whereby Mr. John M. Manly will lecture during the winter at the University of Guttengen in exchange, "Greetings from Germany"; Mr. J. R. Angell, newly appointed Dean of the Senior Colleges, "A Brand from the Burning"; Mr. H. A. Bigelow, of the Law School, after a year's leave of absence, "Mental Healing"; Mr. Carl Clemens, of the University of Bonn, offering a course in the Divinity School during the autumn quarter, "Greetings from Bonn"; Mr. J. L. Laughlin, who, with Mr. Michelson, will go to South America for the Pan-American Scientific Congress, and is Chairman of the Alice Freeman Palmer Chimes Committee, "The Defense of the Chimes"; Mr. Julius Stieglitz, who during the winter will lecture at the University of California, "A Lecture Trip to California"; Mr. Thomas Allan Hoben, lately pastor of the First Baptist Church, Detroit, Michigan, and newly appointed Professor of Homiletics in the University of Chicago, "Theological Greetings"; Mr. James A. Field, who comes from the staff of Harvard University to join that of the University of Chicago in the Department of Political Economy, "From Harvard to Chicago"; Mr. E. H. Moore, Head of the Department of Mathematics, just returned from the International Mathematical Congress in Rome "greetings from Europe"; Mr. W. D. MacClintock who, with Professor Starr, has been lecturing at Institutes conducted by the Department of Education in the Philippine Islands, "Pacification of the Philippines"; Mr. C. E. Harriman, who is now acting as Secretary of the Harbor Commission for the City of Chicago, "Working for the City"; Mr. J. W. Linn, newly appointed Dean in the Junior Colleges, who during the last year has been with the Youth's Companion, "From Boston to Chicago"; Mr. Henry C. Gale, newly appointed Dean in the Junior Colleges, and interested in the astrophysical work conducted at Mt. Wilson, "Astrophysics in California"; Mr. H. T. Ricketts, whose work in Rocky Mountain Fever recently gained for him the medal of the American Medical Association, "Winning Medals"; Mr. H. E. Slaught, "The Privilege of teaching"; Mr. Frederick D. Bramhall, who has been during the last year Legislative Reference Librarian for the State of New York, "The Return from New York"; Dr. Walther Neher, Imperial German Consul in Chicago.

The President in his remarks spoke of the interesting character of the summer quarter of 1908, calling attention to the total registration for the quarter, 2,991, and to the large number of graduate students, 1,036. He then read the list of new appointments to the Faculties, a list which appears in another place in this number. Finally, he spoke of what in a general way he termed "University Extension", the ways whereby the influence of the University is permeating the world. The list of speakers will indicate the extent to which the members of the University Faculties are engaged in co-operation with other educational institutions. The President spoke particularly of the significance of the presence of Professors Daenell and Clemens. For the establishment of cordial relations between the German Universities and the University of Chicago, great credit is due the Imperial German Consul in Chicago, Dr. Walther Neher.
Mr. H. P. Judson, Pres. U. C.

Dear Sir,

Mrs. C. P. Hale, at my request, asked concerning busts of Dr. Harper or Mr. Rockefeller at the University. She sent your reply per Dec. re: third one.

A woman of Chicago who has lately made a bust of Dr. Huntington for the Huntington Memorial Hospital, also one of our Council in Paris, would like to make one for Mr. Rockefeller or Mr. Rockefeller at Mr. P.'s expense and donate the proceeds to...
The Baptist Old People's Home, now under consideration. This lady has just returned from Paris where she did this work. She is a wealthy woman and all received from her work goes to charity.

Would it be possible for you to lay this matter before Mr. Rockefeller? We know how difficult it is to reach him. If you knew the late Dr. Hendalin, I would like to have you see the bust. This lady has
done a very fine one of her husband. She has it in plaster and bronze. This is for me and she would do the work from photo or so to his home. Should Mr. R. signify his wish to have this work done.

In confidence for if this goes no further I would prefer she should remain unknown to you at present. I will say the lady is Mrs. Philo Rockefeller King.
Her son William married
Mr. Archbold's niece, Miss Marjorie Stahl of Chicago. Mr. Stahl being the Stand-ard Oil Co.'s Secretary here.

I am greatly interested in the formation of The Old People's Home and have written a story, a booklet, which is being sold for the benefit of the cause.

Permit me to send you one as soon as I get a fresh supply. Yours truly,

Mrs. Ernie P. Wood,

With Mrs. Theale,

572 W. 61st Place,
Englewood Sta., Chicago.

Mrs. P. K. R. King's ad. is 552 Dearborn Av.
October 15, 1908

Dear Mrs. Wood:

Your favor is at hand. The matter of which you write is interesting, but I do not think at present the plan is practicable to carry out. While there is no bust at present either of Dr. Harper or of Mr. Rockefeller, there is a plan on foot for the former and the latter I am sure we should prefer to leave to a much later date. Whether we should wish a bust or a statue would depend on the later circumstances, and in any event I am sure that we should wish to have the thing done by a selection from the most eminent sculptors in this country or abroad. Moreover, I should not wish to have the matter done at Mr. Rockefeller's expense. It would come more gracefully in some totally different way. I thank you very much for the suggestion, which I appreciate, and I am sure you will understand the matter as it lies in my mind.

With sincere regards,

Yours,

Mrs. Eunice P. Wood,
512 E. 61st Place, Chicago.
Dear Mr. Morgan,

Your favor is at hand. The matter of which you wrote to me on November 2nd was not, of course, at the business of the Association. I could not have seen the report of the first meeting, as I had to leave the city to go to a meeting of the Association.

I have read the report and find that the matter is one of great importance. I think you are right in using the language of the report. It is clear that the matter is of great importance, and I think it proper that we should take steps to remedy the situation.

With the utmost respect,
Yours,

Mr. Morgan's answer

Mrs. Grace Jones, Chicago.
November 6, 1908

My dear President Eliot:—

News of your resignation has come to us, and I need not say has profoundly interested all your many friends in Chicago. It is with a feeling of regret that I contemplate Harvard University without yourself at the head of it. Indeed, it seems difficult to adjust one's mind to that condition of things. I feel, however, that you have well earned a rest from the cares of administration, and that the great achievements which you have accomplished during your long presidency will be remembered for generations after you and I have passed away from this world. Please accept my very sincere best wishes for your happiness through all the many years which I trust you will have.

Cordially yours,

H. P. Judson

President Charles W. Eliot, Harvard University, Cambridge, Massachusetts.
Illinois Central Railroad Company
Office of Assistant to the President
Chicago

November 7, 1908.

My dear Mr. Judson:

Referring to our telephone conversation sometime ago, when you kindly accepted an invitation to speak at the Guild Dinner of the American Railway Association, on Tuesday evening, November 17th, 1908, beg to advise that I have seen Mr. A. W. Johnston, General Manager of the New York, Chicago & St. Louis Ry., and he asked me to see you and explain that it would be very acceptable if you could refer in your talk to the relation of higher education as affecting the transportation industry. I said to Mr. Johnston that the University of Chicago had been especially active in its school of transportation, and it might be well to touch upon this.

There will be present at this Dinner some one hundred or more prominent railway men, among them many presidents, and I am sure they will all be delighted to hear from you along any other lines that you may wish to speak.

I shall be away from Chicago the greater part of next week, otherwise I would have called personally and explained this matter to you, but on my return I will take the pleasure of calling upon you, so as to be able to give you explicit information as to the time of the dinner, etc.

Yours truly,

Mr. H. P. Judson,
President, University of Chicago,
Chicago.
November 7, 1908

My dear Mr. Johnson:

Referring to your kind letter of the 16th ultimo, in which you accept the invitation to speak at the annual banquet of the American Railway Engineering & Maintenance of Way Association, on March 16th.

I had expected to have an opportunity to call on you personally and go over this question with you, but as the time is growing short, I thought I would take the matter up through correspondence and outline my idea as to the general subject on which we would be pleased to have you address our members.

As most of our members are actively engaged in the engineering profession, it would be perfectly agreeable to us if you could speak to us along the line of relationship between the higher institutions of learning and the engineering profession, particularly with reference to engineering as applied to transportation.

November 12, 1908

424 Hickox Building.

Harry Pratt Judson, Esq.,
President University of Chicago,
Chicago, Ill.

Dear Sir:

Your favor of the 11th inst. is at hand. I note your intention to be in Chicago this week, and would have taken the opportunity of calling upon you, but find I shall be unable to do so. The University has been interested in problems of railway transportation from its foundation in various ways, and I shall be glad to say a few words on that subject. My understanding is that the address is a brief one — ten or fifteen minutes at the outside. If you are in Chicago Tuesday morning I shall be glad to see you in my office. The most convenient time would be either at nine or between ten-thirty and twelve.

Thanking you, I am,

Very truly yours,

H. P. Judson

Mr. Albert W. Johnston,
Cleveland, Ohio.
November 15, 1908

Dear Sir:

You refer to the 11th item to hand. I note your suggestion as to the subject matter of my article, which is in line with what Mr. Pitts remarked. The University has been interested in the preparation of textbooks and monographs from the standpoint in various departments of teaching and research. I cannot see how or why we can improve on this subject. My understanding is that the subject is a part of one - ten of fifteen minutes of the course. If you are in Chicago Monday morning I would be glad to see you in my office. The most convenient time would be either at nine or between ten-thirty and twelve.

Thanking you, I am,

Very truly yours,

Mr. Albert W. Peckson
Chancellor's Office
that the dinner is held to-night. You will please present my
cordial greeting to our friends from Cornell, with the hope that
they will find the contest to-morrow afternoon everything which they
may expect. Of course I may in this reserve the right to an
I greatly regret that a prior engagement makes it
impracticable for me to be present at the dinner this evening. The
custom of a banquet preceding the day of the game in which the two
teams and their friends participate seems to me a very excellent one.
Breaking bread together is the ancient symbol of friendship and good-
gellowship. Intercollegiate athletics are contests among those who
are friends, and who engage in the contest for victory from purposes
quite distinct from those which actuate professional teams in any form
of sport. A college man should be, and I am confident in most cases
is, always and everywhere a gentleman. He can perform his part in
an athletic team with all the energy which the circumstances require,
doing his best to secure a victory for his Alma Mater, and yet never
for a moment fail to be a gentleman. This is to my mind the essence
of college sport. Its maintenance is essential to perpetuity of
such sport, and I am glad to see of late years the strong develop-
ment in our colleges throughout the country of an interest in this
side of athletics. It is as a symbol, then, of this high standard
