My dear Mrs. Crane:

Thank you very much for your kind telegram. It did us good to know that you were thinking of us on occasion of our homecoming reception. Home is the best place I have found. While I have enjoyed immensely the work of the long Persian trip, and while I believe that on the whole it was useful and that results were secured, even so I am glad to get home. I was well on the entire trip, and come back in the best of health, which, oddly enough, seems to surprise some of my good friends — I should say, to disappoint them. They had rather dismal prognostications, and perhaps would have been somewhat gratified to have found out they were right. In point of fact, they were wrong. I was very sorry not to be able to meet Mr. Crane before he left for Europe, but am sure that he will do a valuable service

Thank you very much for your kind letter. It is so nice to know that you were thinking of me on occasion of our homecoming reception, and that you have enjoyed immensely the work at the long beach trip, and while I believe that on the whole it was successful and that expenses were reasonable, even to me, I am glad to get home, where I的良好 health, which only money seems to improve, saves me of my good fortune — a point in the trip, may some peak in the past of my thoughts which I am glad to gather from them.

So much to tell you that I will go a summary叙述, and perhaps more have been somewhat striking to have young one think, I was very right. In point of fact, they were wrong. I was very sorry not to be able to meet Mr. Crane before he left for Europe, but as we are glad we will go a summary narrative.

My dear Dr. Judson:—

In behalf of the Church Federation Council I wish to thank you heartily for your kindness in speaking at the Illinois Theatre on Monday. I regretted that important meetings of which I did not know at the time the Theatre meeting was planned detained many ministers who regretted the necessity of missing your message; but I have had many indications of deep interest in what you said from those who were present.

Mr. President, Board of Trustees,

In behalf of the Graduate Registration Commission I wish to thank you personally for your kind assistance in securing the Illinois ticket at Muncie. I received your message at Madison and the information of your receipt of my message sent me the utmost joy and relief. My ardent wish was to secure a ticket of mine on the west coast. I have been waiting for your message, and I am very glad of its receipt, as you have already indicated your interest in the graduate registration. Since we were desperate, yours was the surest plan.

My dear Cousin Oliver: Very truly yours,

The telegram from yourself and Gertrude was duly received and appreciated. I have come back safely from a long and very interesting journey. The two purposes I had in mind, namely, the organization of relief in Persia and a study of political and social conditions in that country and adjacent lands, were both accomplished, I think successfully. At all events, I reported in full in Paris to our Commissioners there, in three typewritten volumes, on Mesopotamia, Persia, and Trans-Caucasia, and conferred with them in detail on points which I deemed important. Going out by the Mediterranean, Egypt, Bombay, and Baghdad, I went over the military road to Teheran in our own Ford cars, spent a month in Teheran, making that my headquarters, and returned by way of the Caspian Sea, Black Sea,

My dear Dr. Shaw:

The enclosed is the matter of which we were speaking last week in New York, and is a section of my report to the American Commissioners to negotiate peace, in Paris. I feel at liberty to give publicity to it because it certainly involves nothing of a confidential nature, and because anything that may be said on this subject at this time is very much in point. Of course the special thing which I was emphasizing was, as the title indicates, the relation of the League of Nations to the old civilizations which need modernizing. It is unnecessary to say that the same principles precisely apply to these new states which are being created out of old empires like Austria-Hungary and Turkey. If you have any use for it of course you are welcome.

My dear Doctor Judson:

In my mail this morning is a note from you returning a check sent by the Business Office as honorarium for the material from your report that we printed in the April number. Things of this kind happen not infrequently for two reasons, one of which is inclusive.

A very constant motive in the conduct of this Review is, to adapt your phrase, "the aiding of causes in which we are greatly interested." The consequence is that we are constantly obtaining from active men articles or statements concerning particular matters about which they are directly concerned, and which come from them because they wish to "aid a cause".

If, however, we attempted in giving honorariums to draw a line between writers who have to be paid because they earn their livings by writing articles and others who write articles in order to promote a cause about which they write, we would find ourselves in a rather difficult and delicate position.

While there isn't any need of going into details, I will add a few sentences because I think they will amuse you. Look, then, at this very program for April. Haynes, who is in office at Washington, was very glad to get us to print the article about his own race but it was best to send him a check. Dr. Livingston Farrand's article was really offered to us for
My dear Doctor Leader:

I am writing to report that I have been unable to make a decision on the matter of the proposed office move. I realize the importance of this matter and I believe that it is necessary to take action in order to avoid any further delays. I have discussed the matter with my colleagues and we have decided to proceed with the move as soon as possible.

publicity purposes by the Red Cross, but, from our own standpoint, it was best to send a check. Secretary Baker, in a recent number, made a statement for us on the returning soldiers, and he naturally sent back a little check that was mailed to him, but accepted it when I explained to him that in such cases it was best that we should pay an honorarium which the recipient could apply to some worthy cause in which we all felt a common interest. When J.D. Rockefeller, Jr., wrote an extended article for us in promotion of the drive for Y.M.C.A. and other War activities, it was obvious that we all had as our object the promotion of the same things. He accepted the check for his work and turned it in to the fund.

The thing that you will do in this particular case, I doubt not, is to use this check as a contribution to the fund for Relief in the Near East or apply it in some more personal way to the situation with which you have been and are still concerned.

As ever,

Sincerely yours,

July 28th, 18

Dear Dr. Jordan:

I am afraid that it is quite a number of years since I had the pleasure of indicating a letter to you. I have made two or three personal calls at your office during the period, but have always been unlucky in finding you out of town. But if not very communicative, I do not readily forget old acquaintances.

It has been a pleasure to me to see the progress made by the
stand maintained by yourself and other leaders of thought has made America and indeed the whole cause of democracy your debtor.

And now America is aroused! Her sons are bravely offering their lives for the cause of humanity. Individuality is sunk in a greater thing. As Kantor once said, so we are even prepared today: "Oui mon nom soit flétrit, que le patrie soit libre!" A new mental state is being set up in each individual—the spirit of the individual is forgotten. The priceless value of the things that carry with them no market exchange is remembered. Perhaps, from this will come compensation full measured for the sacrifices now being made.

Today England feels very close to America, not merely because of the material help that the latter brings in the struggle, the certainty of victory, but above all because she now knows that in the fundamental concepts...
of political morality and the freedom the two nations are one belief. Paradoxical as it appears, the future peace and happiness of this gun-balanced world is better assured than at any time within the history of man.

One of the heaviest things to those of us that have felt the call from overseas too strong to resist has been the heroic attitude of our wives and children. In spite of the disruption of family ties, no one is more resolute than they in demanding that the struggle does not cease until France, Poland, and intrigue are beaten utterly to the ground. Even my baby-girl, a little one of six, when at times feeling the separation keenly, bursts out with: "I am hungry for my daddie to come home" usually adds the condition, so write my wife, "when the Germans are beaten." The "Samms" are taking their
baptism of fire like heroes. The stars
and stripes will win great glory. I am afraid that peace must yet in
sight. Next year may bring it but once we
are not banking on it. We
must be patient for the job has to be
done thoroughly.

This letter will find you, I trust,
in good health and with all the hap-
iness that is possible amid the sad-
ness of the present bloody conflict. If
it appears possible at any time that I
may be of service to you or your friends,

Dear Sir:

You cannot be unaware that the solution of the problem of Irish nationality has ceased to be purely local to the British Empire.

The united and aggressive action of the people of Irish blood scattered throughout the world, including some twenty million of them in America, is demanding that the age long question be settled by international advisement.

We are asking you for an opportunity to present this very vital problem before the faculty, student body and friends of the University that the standpoint of the friends of the Irish Republic may have official pronouncement.

To this end, may we ask that you permit one of the National Council of the Friends of Irish Freedom, the Reverend James Grattan Mythen, D. D., Ph. D. of Columbia, Oxford, Utrecht and Bonn Universities, a collateral relative of the immortal Grattan, and who is a clergyman of the Protestant Episcopal Church, to appear before such assembly of the faculty, students, and friends of your institution as may wish to hear this subject discussed.

The Rev. Dr. Mythen will be available for engagements from Tuesday, May 19th to Wednesday, May 28th.

Dr. Mythen would lecture on "Self Determination for Ireland Guaranteed by American War Aims." This lecture would be without expense to the University and no admission would be charged.

Kindly communicate with the Chairman of the Committee and state whether it is agreeable that Dr. Mythen should deliver this lecture at your University on any date which you may specify within the above limits.
