I must confess my ignorance. I do not know Mr. Babot and I had not heard of his intended journey; I was not aware either whether he was already arrived. Lastly, I cannot conceive for what cause and by what authority he might have been
forbidden to speak within the precincts of your learned university.

I telegraphed therefore to you yesterday for information. The answer just arrived is: "Dobut is at school at Valenciennes."

To interfere at Paris with any use, more information is indispensable. Could you kindly cause one of your secretaries to send me a precise memoir and even of the case, stating when Mr. "Dobut" or "Dobot" is to come, what are his aims.

My dear Mr. Jusserand:

I am writing once more. Perhaps you will grow weary of receiving letters from me. This time I wish to enter a most earnest appeal. It is for your acceptance of our invitation to give the Convocation address December 19th next. We have looked forward with great anticipation to your visit. We will give you a welcome not only at the University but in the city. You have many friends here. I sincerely hope that you will bring Madame Jusserand with you, and of course, while you are here your home will be at our house. Is this not possible?

Sincerely trusting that you will say yes, I remain yours very truly,
June 19th, 1949

Honorable . . . Treasurer,

We regret the importance of the matter.

I am writing once more. Perhaps you will only glance at this letter again, but if not, I would like to impart a point of interest which I feel to your attention. I have recently been in correspondence with the Corporation regarding the Deborah 19th next. We have looked forward with great anticipation to your arrival. We will give you a welcome not only of the University but in the city. You have paid many times.

I am anxious to meet you and fill my holiday recessancy with you, and of course, write you once in your presence with the utmost possible to give not benefaction.

Sincerely yours, that you will see how I remain,

time, it would be desirable to have a general reception. Of course there will be a general reception Monday night at the University to which practically the same people would be invited. I am in doubt therefore whether you would wish to go through the ritual of two receptions rather than one, but of course we will conform to your wishes.

Washington, D. C.

My dear Mr. Jusserand:

A number of citizens of Chicago desire to have the honor of tendering you a banquet while you are here and wish me to see if the arrangement which they suggest will be agreeable to yourself. The most convenient time seems to be Saturday evening. Monday evening the President’s reception will be held at which you will be the guest of honor and Tuesday evening the Convocation. Of course if for any reason you would prefer to have the banquet on Tuesday evening, we could put the Convocation on the afternoon of that day. You might, however, after the Convocation address, find yourself rather weary and not in a mood for attending a banquet.

The question has been raised whether, after the banquet Saturday night, if it is held at that
time, it would be desirable to have a general reception. Of course there will be a general reception Monday night at the University to which practically the same people would be invited. I am in doubt therefore whether you would wish to go through the ordeal of two receptions rather than one, but of course we will conform to your wishes.

It is also suggested by the gentlemen that the banquet might include ladies, or be simply for men. In the latter case Madame Jusserand would be entertained by Mrs. Harper at the same time. This would be a banquet while you are here and wish me to again, of course, will be referred to your judgment.

I may add that the gentlemen who have the matter in hand will be our leading business and professional men and are looking forward with great interest to having the pleasure and honor of receiving you on the night in question as their guest on behalf of Chicago.

Hoping to hear from you in reference to these points and understanding that I am to write you more that day. You might, however, after the Convention on the afternoon of Tuesday evening, in reference to further details, I remain yours very cordially

Your despatch to Dr. Harper was duly received and I am writing in his name to express our appreciation of your prompt reply. After consultation with the committee it is agreed that the banquet will be held Saturday evening December 16th. It seems on the whole expedient that it be a banquet for men owing to the very many social complications which confronted the committee on considering the possibility of having it both for men and for women. It will be understood that if agreeable to Madame Jusserand a dinner for her including ladies will be arranged on the same evening. We shall write you later with full details.

My dear Mr. Jusserand:-

I am sure that you must have felt last night upon your return to Washington, that you were carrying back with you the hearts of all of us. Many expressions of esteem and regard have come to me to-day from those who had not before known you. Your visit has been a source of inspiration and strength to all of us. I wish to thank you first of all personally and also officially.

I know how much it has cost you to make this visit in time and strength. With great appreciation of the service you have rendered us, and wishing you and the Madame our united greetings and best wishes for this Christmas season, I remain

Dear Mr. Ambassador,

I am sure that you will be pleased to learn that your return to Washington will be greeted with enthusiasm. Your expression of interest and support have given us confidence that you will be an active and effective voice for our country.

I am happy to report that the situation continues to improve and that we are making progress in our efforts to achieve our objectives. I would be honored to discuss these developments with you in more detail.

Thank you for your continued support and for your interest in our work.

Yours sincerely,

Very sincerely,

Your dispatch of yesterday was received while the Committee was in session trying to rearrange plans. In point of fact the invitations for the banquet have all gone out and the arrangements have all been made. Of course if the necessity of the case requires the cancellation of these plans we shall cheerfully adapt ourselves to the situation. Under the circumstances, however, as presented by your telegram, we felt warranted in going forward, and will hope that nothing will prevent you from being here on Saturday. The gentlemen of the city who are concerned in the banquet are very much interested in the matter and are anxious to have the privilege of expressing in that way their appreciation of yourself personally and of the nation which you represent. The banquet is planned for the Banquet Room in the Auditorium Hotel. The speeches will not be many. We shall ask the Ambassador to respond to the toast "The President of

Mr. W.H. Rager
I am asked by my friend Mr. J. G. Chalmers, Professor of Political Science, and co-editor of the "International Review," to appeal to you in order to secure as full information as you might be willing to supply concerning the industrial and commercial branches of your University.

Many among us are even now, beginning to consider what changes will be of most use in France when the war is over, and in our present state of national depression we should be willing, in the interests of the University, to employ the services of some of our most promising men, in order to get a vision of the industrial and commercial world, and to bring back to this country the most comprehensive knowledge possible of the conditions under which industry is carried on in foreign countries.

One of the points which in our view is most important is the question of the best form of industrial education, and the most economical way of supplying the necessary technical education. The American system of technical education is undoubtedly one of the best in the world, and it is equally certain that the American system of technical education is not the only one that can be adequately pursued in this country.

We are, therefore, asking you to consider the question of the best form of industrial education, and to give us as much information as you can possibly furnish us with regard to the best methods of teaching, and the best way of securing the necessary technical education.

We are, therefore, asking you to consider the question of the best form of industrial education, and to give us as much information as you can possibly furnish us with regard to the best methods of teaching, and the best way of securing the necessary technical education.

already high technical value, but of raising also the esteem and social consideration due to that kind of studies and to their adopters.

The addition, in the United States, of industrial and commercial branches, to the classical and other courses taught in some of the greatest universities, has had, it is felt in France, important and wholesome results. It would be of great use for the promoters of these ideas to receive as full information as may be practicable, concerning the tuition thus given, its aims (whether only for the higher positions in the industrial and commercial world, or also for more modest ones), and its results. They would like to know whether young men intending to adopt an industrial career are encouraged to follow at the same time the commercial course of studies and reciprocally. Thus informed they would be able to judge to what extent the same may be applicable in our country and to what extent, owing to the difference of race and conditions, they should be altered.

I beg to place this plea before you and to assure you, dear Mr. President, that any documents, explanations or suggestions which the competent member of your University would be so good as to supply me with, to be forwarded to Mr. Chaillot, would be received with sincere gratitude.

I have the honour to be,

Sincerely yours,

My dear M. Jusserand:—

It gives me great pleasure to receive a copy of your address at Harvard on Rochambeau, and I know that I shall enjoy reading it. I suppose that you are in Paris at the present time, and am informed that a presidential campaign is in progress there. I hope that the savoir faire which belongs to every well-bred Frenchman will make that campaign a lesson to us Americans, and that you at least will be more select in the vocabulary used by the respective candidates than has been the case sometimes here. Don't let anything induce the Foreign Office in Paris to believe that you are necessary at any of the European posts. I don't believe the wide domains of France would supply a successor in Washington. Please remember me most cordially to Mme. Jusserand, and if Mrs. Judson knew that I were writing I know that she would wish to send greeting to both.

which would indicate whether there is room in either of these fields for an investigation which would be worth while.

My dear M. Jusserand:

We have a graduate student in the Department of History who is anxious to make his thesis within a certain field relating to France. He has been in France and speaks and reads French without difficulty, and he is able to spend some time in that country, pursuing investigations, as he has no difficulty about money. Two matters have been discussed with him:

1. Some study of the relationship of the Huguenots to the social development of the parts of France, for instance, Rochelle, in which at the time of the Revocation of the Edict of Nantes the Huguenots were especially strong. Of course I do not know whether that is a subject that would lead anywhere.

2. Some study of the maritime activity of France, especially of Brittany and Normandy, in the XVth Century. There have been some things written on this head, and from things that I have come across in my own studies I am convinced that there was a great deal of activity on the part of Breton and Norman voyagers in the African
trade which so far as I know has not been sufficiently worked out by historians. I am aware that it is asking a good deal of you to make any suggestion on these heads, but it occurred to me that you might possibly have come across something on these lines which would indicate whether there is room in either of these fields for an investigation which would be worth while.

Cardially yours,

H. P. Judson

My dear Mr. Ambassador:

Your esteemed letter of the 24th inst. was duly received. I was gratified to hear from you and to see your name attached to a letter once more. The University of Chicago has for a number of years given attention to industrial and commercial branches, and I have asked the Dean of the College of Commerce and Administration to make such a statement as might be of advantage to M. Chailley, which will be sent to you as soon as it is ready.

Much water has flowed under the bridge since our last meeting. Last year I went around the world, visiting China for the Rockefeller Foundation, and reporting to His Excellency the Secretary of State on the situation as to medical education and hospitals. Meanwhile the great cataclysm has befallen the world, and we cannot tell what is before us. You know my warm sympathy with all that you must be undergoing.
Please give most cordial regards to Mme. Jusserand, regards in which Mrs. Judson would join most heartily if she knew I were writing.

Cordially yours,

My dear M. Jusserand:—

One of the most significant occasions in the history of the University of Chicago was the visit of the French Mission to our institution, a worthy record of which event I wish to make in the University Record of which I am editor. Mr. Cyrus McCormick, Jr., promised to secure for me a copy of the speech made at the University by M. Viviani recorded by the French stenographer accompanying the party. I have been unable to secure a copy of the speech from Mr. McCormick and am therefore troubling you with this detail. If you are able to assist me to secure a copy of the speech as delivered by M. Viviani, or if you can refer me to the stenographer who may have a copy, all the members and friends of the University of Chicago will
be indebted to you even more deeply than ever.
I am sure that you will sympathize with President Judson in the desire to make the record of this very significant visit a complete one.
