Dear Mr. Judson:—

I am trying to get Commendatore Giacomo Boni, who
made such a reputation in excavating the Forum, to give a course
of lectures at the Lowell Institute next year; and I have an im-
pression his coming may be affected by invitations from universities
etc. Harvard and Yale have both signified their willingness to invite
him, and I write to ask whether you would like to ask him to give two
or three lectures?

Yours very truly,

A. Lawrence Lowell

Dear Mr. Robertson:

By all means, Boni is
an admirable and interesting man.
He also speaks English, as I knew
from talking with him. He ought to
take part from the outset in getting him
to come.

Very truly yours,

Mrs. Hale
Dear Mr. Jenkins,

I am trying to get Commander Glancey and Mr. Cole down to see a concert at St. George's Hall in the county next year, and I have an invitation of the coming couple of years for individuals to invite them. I have a note from Mr. Jenkins who I wrote to ask whether you would like to see him to give two or three lectures on

Your favor in reply to my note was duly received. I fully understand the difficulty of the situation, and trust that you will pardon the suggestion.

Ryerson, President of the Board of Trustees, and a student in the Harvard Law School in 1876-78; and by Professor William Gardner Hale, Head of our Department of Latin, and graduated from Harvard College in 1870.

I am wondering whether your engagements will permit you to give the address at the December Convocation of the University of Chicago. Convocation Day is Tuesday, December 20th.

As you know, we have graduating exercises four times a year, and at the December Convocation we give a considerable number of degrees in all our schools. Your many friends and the many friends of Harvard in Chicago would be rejoiced to have an opportunity of hearing you, and of entertaining you on that occasion. I do not know whether you have made any plans for visiting the Harvard Club here, but it would seem to me that if those plans are not perfected it would be quite possible to combine such an occasion with this. Our usual honorarium ($100) is of course in no sense compensation for service, President Lawrence Lowell, but is intended as a contribution towards expenses. I shall be Cambridge, Mass.

My dear President Lowell:—

The Union League Club of Chicago is accustomed to celebrate Washington's Birthday by a public meeting in the Auditorium, at which an address is given by some distinguished citizen, with an afternoon meeting, sometimes for school children and sometimes of other character, and with a banquet in the evening. The principal address is that given in the morning. We have had Grover Cleveland, and last year Mr. Roosevelt. It is now the desire of the committee on speakers, of which I am chairman, that you should honor us by giving the address next February. I sincerely hope that no other engagement will stand in the way, and that you can plan to do this for Chicago. Of course all the Harvard people here would give it enthusiastic backing, as will everybody in fact. I shall be glad to confer with you later on details.

The Union League of Chicago is

sincerely to congratulate Mr. Field on his birthday by a public meeting

often, the importance of having a person in the home, and do not want

to downplay the importance of the home, any more than I want to

overemphasize the importance of the school to the child. I do now

have (from the old school) some facts that have not been

presented to the public on the question of education. I have been

invited to give a paper on the question of education and I propose

to do so in a manner that will reach the hearts of the people.

I shall plan to go to the Chicago

conferences with you latter on.

Dear President Lowell:

I am wondering whether you can give me some information as to your practice on certain matters connected with the administration of the laboratory departments. What I should like to know is with regard to assistants, especially in the biological departments: First, the rate of compensation; and, second, the amount of work they are expected to render for said compensation. We are at present reorganizing some of our matters in those lines, and your long experience would be, I am sure, very helpful to us.

Dear President Judson:

I have read Professor Jastrow's article, which seems to me vague. In fact, save for a general grievance against trustees in general, and presidents in particular, I do not make out exactly what he is driving at.

I consulted President Hadley on the subject of answering the article, and I found that he felt much as I do, that both Cattell and Jastrow are not to be taken too seriously, and that it would be better to leave the article alone. In fact, to explain the relations of the faculty, trustees and president, and, still more, to set forth the way in which the younger instructors usually suffer from the heads of the departments and oppression which can be, and sometimes is, relieved by the power of the president, would require a very large space, more than a short article would allow. Therefore, I feel inclined to let the matter alone for the present at least.

Very truly yours,

A. Lawrence—Lowell.

I have just returned from a lecture at the University of [University Name]. During the lecture, the speaker, [Speaker Name], mentioned several points that I thought were particularly relevant to our discussion. I believe these points could be of interest to you and may provide new perspectives for our project.

Firstly, [Speaker Name] emphasized the importance of [specific topic] in [context]. He mentioned [example or detail from the lecture]. This is something we have not considered before and could potentially open up new avenues for research.

Secondly, [Speaker Name] discussed [another topic]. He highlighted [specific point or example from the lecture]. This could be a useful approach to [application or research area].

I suggest we further explore these ideas in our upcoming meeting. Perhaps we could invite [Speaker Name] to a follow-up discussion?

Please let me know what you think.

I am glad to get the copy of Judson's letter; and I agree with you that it does not seem advisable for us to do anything here. I doubt whether anything like public sentiment on the subject is being created. I certainly do not come in contact with it. If a president has carried his power to an extreme articles like those of Jastrow or Cattell unquestionably annoy him; but I think we may leave it to the people who are hit to do the work of hitting back.
