President of Chicago University
Chicago, Ill.

Dear Sir,

Under separate cover I am mailing you a free copy of "The Correlation of All Philosophy and Science through the Discovery of the Elements."

As the title indicates, it is a pretentious work.
but I know that you will find that it contains the great truth that I claim for it.

It is of course only a fragment of the work that must be done to finally justify the title but it contains the seed.

If you will have some logic can look it over he will find that it advances logic beyond any point previously reached. It is a great work that I am

entrusting to you.

your truly, Geo J. Gallup
Nov. 5, 1911.

Dear Dr. Judson:

I have glanced at the enclosed document and judge that the author has been surprised by the fact that if he takes terms sufficiently abstract he can make them serve almost any series of propositions or else that his mind is unbalanced.

Very sincerely yours,

Geor. H. Mead.
Dear Mr. Professor,

I am writing to express my concerns about the current state of education in our community. It seems that there is a need for more resources and support in order to meet the needs of all students. This is particularly important at a time when many are facing economic challenges.

I believe that education is key to a bright future, and we must work together to ensure that all students have access to the tools they need to succeed.

Sincerely,

[Signature]

Dear Dr. Judson:—

A few days ago you suggested that you would be glad of any suggestion that might arise with reference to a man who would probably be successful in arousing interest among the students in singing. I spoke of Mr. Prothero, a Welshman, of whom I had heard something. I have learned since then that he is the director of the music in the services of Dr. Gunsaulus' congregation. He has some musical degrees — what I do not know. He came here from Milwaukee where he had I understand a considerable vogue. He directed the chorus that sang with Damrosch orchestra in giving the ninth symphony of Beethoven recently in Chicago, and Damrosch is reported to have said that he is the best chorus director in the West. His daughter I believe is in University High School.

Yours very sincerely,

Geo. H. Mead.
Dear Sir, 

Your letter of the 16th inst. received. 

I hoped for your suggestion, and shall take it with the utmost pleasure.

Very truly yours,
