may be suggested from the fact that although at present engaged to begin work July 1st on an unusually good selling proposition, he wishes to arrange his affairs so that he can undertake it with the greatest possible assurance for your son.

After my long conversation with him I feel more than ever the desirability of having a son with such alertness, good manners, athletic ability, and fine spirit. Is there any likelihood of Mr. Morris' going in Chicago and is living with his parents at 6354 Stewart avenue soon, so that I may send Mr. Bell to see him? His telephone number is Stewart 705. I had a long talk with him on Saturday. Indeed, Mrs. Robertson and I had him at luncheon, and talked with him freely about the importance of the work suggested, and the great desirability of undertaking it. He himself deeply feels the responsibility and the opportunity. He especially regards this as a great opportunity for him because only at the present time can he undertake such a task. He enters the law school this autumn or winter, and immediately after graduation therefrom will find it necessary to begin serious work in his profession. He realises also the opportunity and importance of acquaintance with a man like Mr. Morris. His spirit

My dear Mr. Morris:

This afternoon there arrived in good order a very interesting annual of Swedish art and literature. Mrs. Judson and I will take great pleasure in studying it.

I can imagine how extremely busy you have been during the past winter, and hope that you and Mrs. Morris have both come through it in good health, and that the children too are enjoying Swedish life. We are well, and busy, as usual. Affairs at the University are going on pleasantly. We are planning in June a great celebration, in honor of the twenty-fifth anniversary of the founding of our University.

I wish you could be here to help us.

Chicago, Ill.

Dear Mr. Judson:

I have just ascertained this morning the school to which I referred while talking to you on August 5th., as likely to be suitable for Mr. Morris' son, is the Milton Academy, Milton, Mass. The reason the writer considers this school is that this is the school Tommy Blake will attend this Fall, and Mr. Morris' son is very fond of Tommy.

Young Blake is a boy of a great deal of character, very self-reliant and straightforward, and he and Ira have always hit it off well together. Unless you find there is some objection to this school, I would consider it the best school for Ira, taking everything into consideration.

Mr. Kaun favored me with a call yesterday afternoon. I wish to thank you very much indeed for your kindness in this matter. I may add that arrangements have been made with Mr. Kaun.

With kindest regards, Sir, I remain

Dear Mr. Judson,

I have just received your letter this morning. The school for which I was appointed to the position of Mr. Morton, as well as to the Milton Academy, Milton, Mass., to succeed Mr. Leete, has been selected for the opening of the school. I trust to go to the school at once; I will write you the facts and results.

Mr. Morton, your letter is very much appreciated. Your school, as a part of the best part of the country, and as well as the others in the United States, is an example of the best work that is being done. I hope you will be able to continue in your position as a professor.

I have received a letter from Mr. James M. White, with a copy of his address. I wish you to know very much enjoyed to hear from him in his letter, and I hope you will continue to work with Mr. White.

Very truly,

I am sending you with this same mail some Russian newspapers covering the recent disturbances, which were given to the Minister and which he asked me to send to you with his warmest regards, knowing that they will be of interest to you.

As you no doubt are aware, we have been extremely busy here and have had our Legation staff increased by several diplomatic officers from different parts of the world, but even so we are hardly able to keep up with the work that pours in on us. You will be very glad to hear that our work here has been extremely gratifying to our friends in Washington and that the Minister has been advised of this, showing that the work he is doing is appreciated. Personally I can assure you that we are working from early morning until late at night and there is nothing left undone that can be done to emphasize the fact that our Legation shall be

I am sure the Minister will write you personally as soon as he returns, but it was very necessary for him to break away from work for two or three days, but inasmuch as I wish these papers to go in our next pouch I am writing you this letter.

Will you please extend my very best wishes to Mrs. Judson and accept same for yourself.

Dear Mr. Francis:

Your favor of the 1st of August from Stockholm was received, and the Russian newspapers to which you refer have come also. Thank you very much for sending them, and please give my regards and appreciation to the Minister. Incidentally, I have at hand one of my staff who can translate Russian for me, so that I shall expect to have the whole thing made luminous, and I am sure it will be interesting.

I am very glad to have your report on the work done by the Legation, and of its standing in Washington. That of course pleases me, but does not surprise me; it is what I should fully expect. Mrs. Judson had a letter yesterday from Mrs. Morris, and I hope that the whole family are well and happy in Sweden. Mrs. Judson joins me in cordial regards.

Dear Mr. President,

Your letter of the 15th instant on the subject of the United States of America's recognition of the new government of Mexico reached me today. I appreciate the friendly tone of your letter and the hope expressed that you will receive the same cordiality and interest I have received from my colleagues in the government of Mexico.

I am very glad to have your report on the work done by the delegation of the United States in Mexico. The fact that the American representatives have been so cordial and friendly toward the Mexican delegation is evidence of the good will between the two countries. I hope that this good will will continue and that we will work together for the benefit of both nations.

Very truly yours,

The three weeks which I spent there were filled with wonderful experiences and my time was so crowded that I necessarily had to leave some things undone. Among these was this letter which I intended writing to you before my departure to thank you for your pamphlet on London World Politics, which I have read with the greatest interest since I came on board the ship. The Bibliography mentioned...
on the 27th page of this pamphlet is something
which I wish I had seen earlier. I was not anxious
while in America to obtain a good line of books on the
war question, but failed to do so. The list which you
mention seems very comprehensive and I would be
most grateful to you if you would obtain for me a
complete collection of these books. One or two of them
I have already read, but

nevertheless like to have
copies as it is almost
impossible for me to obtain
any literature dealing
with this subject. The books
can be procured at A. E.
McLaughlin's in Chicago or
Brentano's in New York
and should be sent through
The State Department in
Washington in a private
pouch which goes to the
legation in Stockholm or
every outgoing steamer.
There is an account in both
State Foreign Handbook on
The war, and the authoritative
documents published by the
Department of State, War, and
Navy. Collect the War
information series, which
would be very acceptable if you could
please do it. My deep
interest in this subject
makes me desirous of
obtaining information from
every source possible. The
pamphlets mentioned in the
War Information Series are
numbers 1, 3, 4, and 6. I

If there are any copies and
the title can be sent to
me care of the American
Legation, Stockholm, I shall
be very grateful to you for
attending to this. Which
will add one more good
deed to the many for which
Mr. Morris and I are
indebted to you. The books
mentioned in the extra
notice on page 78, namely:
The pamphlets issued by
the Pan-German Union,
you will give this matter
from early attention, I shall
probably take the literature
in my hands some time
in April, the steamer on
which we are returning to
Norway is booked to sail
from New York again on
April 7th, but will probably
be delayed so that you
might have time to send
the volumes on this ship.

Remember me to Mrs.
Judson and Mrs. Living, and
tell them how happy I am.

To have that visit with
them in New York.
When I see Dr., I will mention
to him the matter concerning
which your wife spoke to
me namely - his contribution
to the University Red Cross
chapter.

With much love to you
both, and with assurance
of sincere friendship.

Believe me
Affectionately yours,

Christina Lily Holmes.

My dear Friend:

I have your letter of October 36th, written from the Century Club, New York, which I have read with a great deal of interest. The Rockefeller Board are certainly doing fine work in starting a movement for the school of medicine connected with the University, as you wrote. My best wishes to you for the complete success of same.

I have received several cables from Mr. Warwick Greene of the Rockefeller War Relief Committee, and from these I would take it that the matter is being gone into thoroughly. Of course my only interest in the matter is in cooperating with your Board, which Mr. Greene requested me to do and which I did because I believe it to be great humanitarian work. The great friendship the Crown Princess of Sweden has shown me enabled me to put Mr. Greene in close relationship with

I have your letter of October 28th, 1829.

Your friend, the Secretary of the Treasury, New York, from whom I have learned

with great interest the record of the Treasury

which he has personally signed, the record in evidence of

the supposed action of your address to him.

I have seen several copies of your letter,

without knowing the contents of the Secretary's report,

and I am now in possession of the copy of the report

and the address to the Secretary. With your address, I

have taken notice of the Secretary's report, and I am

presently engaged in the process of obtaining it. The report

explains the action of the Secretary of the Treasury, and

indicates that the Secretary has taken no action in the matter.
Her Royal Highness on this matter, which was what he desired and conferred with me about in Berlin.

I am glad the dog arrived in good condition and that you all liked it.

Were you surprised at the results of the election? At first we received news here that Hughes had been elected and it was fully 36 hours later when we were informed correctly of the state of affairs. Naturally I am delighted with the result of the election as you know how serious I regard my career, and I should not want to have the slightest thought of any interruption taking place.

We have been very busy at the Legation here, because, in addition to handling German and Austo-Hungarian diplomatic affairs in connection with Russia, we are now also engaged in a great deal of work for Roumania since it has entered in the war, as correspondence comes direct to us from our representatives in Bucharest and we, in turn, negotiate these matters as they come to us.

I hope you will write to me occasionally and let me know any news. Do not forget that you and Mrs. Judson are continually in our thoughts and we are looking forward to the time when you may pay us a visit.

With love to you both, in which Mrs. Morris and the children join me, I remain,

My Dear Friend:

Thank you very much for the book which I received, entitled "The History of the University of Chicago", which I shall soon read with a great deal of interest.

There has been a great deal of interest occurring in Stockholm and there are many things which I should like to write to you about, which would be of interest to you but which I feel would be better to defer until I am able to see you when I can talk to you quietly about them.

This Legation is still acting as the medium of official negotiations between Germany and Austria in connection with Russia, and now we are also busily engaged in transmitting negotiations from Roumania; we will also soon be interested in transmitting despatches concerning Russian subjects in Turkey. All of these things are very interesting but give our Legation a tremendous amount of work, as you can imagine. However,
it is what I have been looking for and so I am very happy over the situation.

I have received a telegram that Mr. Warwick Greene and Mr. Davis, of the Rockefeller Foundation Committee, are coming to Stockholm to-day to confer with me regarding important matters in connection with this work. Also Mr. Harte, who is to be the representative of the Y.M.C.A., has cabled me from Petrograd that he will arrive here on Thursday to confer on these matters. I have seen a plan of the program, with which you no doubt are familiar, and shall do everything in my power to co-operate on this important work.

I hope you will write to me occasionally and let me know what there is of interest. Stockholm is far from Chicago and all news is eagerly received.

Mrs. Morris joins me in sending love to you all, and believe me

Most sincerely yours,

It is with great regret, and on my own accord, that I am writing to inform you that I have decided to resign from the position of Professor of English at the University of Chicago.

I have been a member of the faculty for many years and have been honored to serve the institution with distinction. However, I have come to the realization that my skills and expertise are no longer aligned with the needs of the department.

I am confident that my new position at the University of California, Santa Barbara, will allow me to contribute to the academic community in a unique and valuable way. I hope you will agree that this is in the best interests of both institutions.

I am confident that you will find a replacement who will be as dedicated and committed to the success of the department as I have been.

Please accept my resignation with my best wishes for continued success.

The date indicates the long time it takes letters to pass to and from Stockholm. The world certainly has changed during wartime. I can imagine the very great amount of labor which has fallen on you, and at the same time regard it as peculiarly fortunate that you are placed at Stockholm rather than at some other point. The important nature of your duties must come in sharp contrast with such minor affairs as must be dealt with by our Ministers, for instance, at Lisbon or at Madrid.

Mr. Warwick Greene has already sailed, and Mr. Arnett, our Auditor, is following in a few days. He will carry this and other material to you. The plan of war relief for prisoners seems to me to be pretty well under way, and I hope that the suggestions of which you wrote me in New York

Thank you very much for your kind favor of me.

I cannot bear to pass up any chance which you may care to see sent to me.

The importance of your attention to your affairs as soon as possible, with your

last fall will be carried out. The Rockefeller Foundation certainly is interested, and will provide funds I think liberally.

The election last November was very curious. We all supposed on election night that Mr. Hughes was successful. It was only gradually that the intimation came from outlying states which indicated the contrary. Frankly, in my opinion the country is Republican, and Mr. Hughes would have been elected if the management of his campaign had been capable. However, we have another four years of the present administration, and I wish it all success. I do not believe that a change at the White House would have caused any change among those diplomats who have shown themselves thoroughly competent, as I told you when you sailed the last time.

We are very busy at the University and in Chicago. Our great medical plans are occupying our attention just now, almost to the exclusion of anything else. We are hoping to establish something of great importance, both to Chicago and to medical science. Mr. Arnett is taking you another letter with enclosures on this head.

Last fall will be carried out. The Rockefeller Foundation

The exclusion last November was very curious. We all
suppose no exclusion right that we, I guess, were necessary.
It was only recently that the information came to our

the country is receptive, and the Rockefeller Foundation had been capable
of effecting the management of the competencies and been capable.

However, we have another form of pressure on the present
administration, and I wish it all succeeds. I do not
believe that a change at the White House would have caused
any change among those diplomats who have known President

We see very much of the University and in Chicago.
Our great papers place so much emphasis that we have

Dear Mr. Morris:

I am sending by Mr. Arnett some material relating to our medical fund. It is a very important undertaking, not merely for the University, but for all Chicago and for the entire medical profession. I am wondering whether you would be interested in joining to some extent with the others who have already aided us to establish the fund. We have to raise $5,300,000 of new money. Up to this time there are subscriptions amounting to approximately $4,400,000, so that we still have $900,000 to get. Any fund subscribed to the endowment remains permanently on the books of the University under the name of the donor, and appears also in the appointments made under the fund in question. Two or three subscriptions amounting to $250,000 or $200,000 each will endow some of the great professorships which are planned to have pay

Dear Mr. Wainwright:

I am sending you the attached material.

It is of utmost importance to our national health. It is not merely a matter of the University, but for all.

I am asking you to consider this matter in your capacity to some extent with the others who have already voiced an objection. The need for this kind of assistance is not for the University, but for all. We have to raise $5,000,000 or near $500,000 to cover the entire operation. We have to raise $5,000,000 so that we will have $2,000,000 to operate the University and fund applicants to the advancement of the same.

And your support to the advancement of the same permanency on the part of the University under the name of the Gordon and Esperson, and the Gordon and Esperson, two of the great benefactors.

I would be pleased to have you pay the.

perhaps as much as ten thousand a year to the proper men who hold these chairs and will thereby be exempted from the necessity of private practice. Their whole time will be given to the University, therefore, in teaching and research. Other funds, less in amount, will be used in like manner for providing for the various Departments. I shall be very much gratified to have your name on our list, attached to some one of the funds such as you might think it proper and expedient to establish.

With sincere regards, I am,

Very truly yours,
