Mr. Starr J. Murphy,

New York, N. Y.

My dear Mr. Murphy:

I enclose a letter from Archbishop Ireland presented to me by his special representative Dr. Hoynihan. I thought you would be interested in the last part of it, and that possibly Mr. Rockefeller would be. Of course we have to keep in mind the fact that the Archbishop is wanting some money for his college.

I think we ought to get some facts in reference to the college. If something could be done to stimulate the Catholic colleges to do better work in the line of higher education, a great good would result.

Yours very truly,

W. R. Harper

Mr. Emery R. Thompson

Brooklyn, N. Y.

My dear Mr. Thompson:

I enclose a letter from A. N.

Please I need your consent to me in the special repenent

after Dr. Maistin. I thought you might be interested

in the last part of it and that you will notice

yourself. Of course we have to keep in mind the fact

that the newspapers are asking some money for the college.

I think we ought to get some more in reference to the college. If something cannot be done to ultimate

the Catholic college to no bitter work in the line of

higher education, a great body would regret.

Yours very truly,

Dear Dr. Harper:  

I thank you for your letter of July 15th enclosing that of your  
French friend. The coolness of the latter is refreshing in this hot weather.  

With kindest regards,

My dear Mr. Murphy:

I have been reading Milyoukov's book on Russia which has just come from the University Press, and it has occurred to me that it is something which you would enjoy. I am inclined to think that it is as accurate a presentation of the situation from the conservatively liberal point of view as could be secured. I have directed the Press to send you a copy.

Hoping that you will enjoy it, I remain,

Yours very truly,

W. R. Harper

N. B. I am enclosing copy of letter just sent to Mr. Rockefeller.
My dear Mr. Murphy,

I have been receiving Montana's report on Montana which was just sent from the University. Please say if you received it and if it is something you would enjoy having. I am interested in learning more about the situation from the Montana perspective, particularly being a business point of view as you are so well informed. I have already sent the Press to receive your views.

Hoping that you will enjoy it if you haven't.

Yours very truly,

W.R. Harper

Dear Dr. Harper:

Thank you very much for your kind note of August 1st in which you say you have directed the Press to send me a copy of Milyoukov’s book on Russia. I shall read it with great interest. For lack of better sources most of us have been obliged to form our opinions of Russia on newspaper accounts and the writings of such men as Kemnan, but my experiences of the last two years have lead me to realize that such sources of information leave much to be desired in the interests of truth.

I congratulate the University on having been able to close its fiscal year without a deficit.

asked me about the plans to send a copy of Metzner's paper on
the free of porter sonorad

I am tolerated with great interest. I am aware of your interest in the
work on the paper's application to form our opinion of future on newspaper
communication and its position of such men as Kemnau and by experience of the last two
years have led me to believe that much of the information I have been asked

My dear Mr. Murphy:-

It gives us great pleasure to know that you will be with us next week. Accommodations have been secured for you at the Quadrangle Club and it might be well for you to get off at Englewood and drive directly to the Club. You will find everything waiting for you there. This I think will be the most convenient arrangement. Mr. Gates seemed to enjoy himself at the Club very much. Dr. Goodspeed received a letter from Mr. Gates suggesting that your name be put up for membership and we have done this.

I shall hope to have the pleasure of seeing you soon after your arrival. I have been making some progress the last few days but am not as strong as I could wish. I shall hope that I may have opportunity while you are here to discuss somewhat the affairs of the General Education Board and its policy. We will
try to have matters in shape for you here and I am inclined to think that with the knowledge you now possess of the situation you will not find very much difficulty in getting the additional information which you may desire.

Yours very truly,

W. R. Harpe

Dear Dr. Harper:

Referring to your letter to Mr. Gates of October 30th; I have arranged to leave here on the morning of November 14th, reaching Chicago on the morning of the 15th as you suggest. I shall leave the train at Englewood and drive direct to your office where perhaps your secretary may be able to help me in locating an abiding place. It will give me great pleasure to see you and the other friends at the University.

My dear Mr. Murphy:—

Mr. Allison V. Armour asks me to write to you with reference to the American School at Rome. I am glad to do so as in my opinion the work begun there is exceedingly promising and well deserving of support. Our Latin department is very much interested in it. Two members of our Latin faculty have already been in the school, one as a member of the faculty—Professor Abbott, and the other as a student, Assistant Professor Lange. The University subscribes $250 annually towards maintaining the school. This is mainly by way of giving the institution the moral support of the University. I hope that the school may be maintained by our friends in this country.

Yours very truly,

Mr. Surfs J. Murphy:

Mr. Allison V. Armstrong asks me to write to you with reference to the American School of Rome. I am glad to go as it is in my opinion the work begun there is exceedingly promising and well received at the University of Illinois and the Latin department there. The members of our Latin faculty have already been in the school once as a student, Assistant Professor Lambe, and the other members of the faculty - Professor Appert and the other University professors - have already come to the school.

I hope that the most support of the University may be given the institution the school may be maintaining by our friends in this country.

My dear Mr. Murphy:

I am anxious to make a somewhat systematic study of the salary question. We may or may not here be on the right basis. When we began a dozen year ago our general scheme was on the whole decidedly advanced, although even then there were some discrepancies which were not intended. I do not feel that I am in position to decide on the matter without wider knowledge. The only institutions whose experience and policy would be of any material aid to us I think are Harvard and Columbia with possibly Pennsylvania. They are in large cities where the scale of living is high and is increasing and they also are doing work of a university character. Have you any data with regard to these institutions which you have in such a way that you could put the matter at my disposal? My attention has also been called recently to the fund lately given
The first, I think, is to make a case—

with systematic study of the policy question. When we began a year ago we were not prepared on the subject of the whole. But we have gathered some evidence, some of which was before the war. After the war, we were not prepared. I do not feel that I am in a position to decide on the matter without further knowledge. The only institution whose experience may be relevant to any material in my opinion is the University of Pennsylvania. They are in large cities where the scale of living is high and the demand is intense and they are the most successful. Have you any gates with regard to these institutions with which you have to deal a way that you can put the matter to my committee? My attention has also been called recently to the many letters from
to Harvard for the increase of the salary scale.

We are settling now the matter of budget expenditures and shall be able to arrange within the limits of the plans on which we have agreed. Of course in doing that we are hewing to the line.

Very truly yours,

We are acquainted with the matter of budget expenditure,

and are aiming to avoid exceeding the limits.

Of course, we shall ensure that we adhere to the line.

Dear Dr. Judson:

I have yours of November 20th, and note your suggestion with regard to the use of the word "endeavor" in the last paragraph of the proposed resolutions. The idea back of my use of that word, rather than a categorical statement of what we would do, was somewhat the same as that expressed in the injunction of Scripture—"Let him not boast that putteth on his armor as he that layeth it aside." I am quite willing, however, to make the statement more emphatic if you think best, and suggest the following alternative: "will use its best endeavors to apply this beneficent donation", etc.; or, if you think best, we can strike out the words "endeavor to" and make it read "The Foundation will administer and use", etc. If neither of these strikes you favorably I shall be happy to have a concrete suggestion.

Thanking you for your interest, I am,

Yours very truly,

Dear Mr. Jones:

I have heard of your support of the War Emergency Loan but have not had an opportunity to express my views to you on the matter. The War Emergency Loan is an opportunity to support our government in its war effort. I am proud of the sacrifices being made by our armed forces and believe that it is our duty to contribute to their efforts.

Please consider the War Emergency Loan as a way to support our country. I am confident that the funds raised will be used wisely.

Thank you for your interest in my request.
