The following letter has been re- 
ceived from the Chronicle's presi- 
dent's office of the University of Chi- 
cago. It is a response to an article 
amember on the speech of Senator Derechil on 
in the Senate and the role of John D. Rockefeller in the teachings of economics and sociology at the 
Economic Association. The letter also discusses the 
ius on the University of Chicago. 
Founds John D. Rockefeller. 
Office of the President. 
November 16, 1965, 
The Editor, The Daily Chronicle, 
Evanston, Ill. 
Dear Sir: I have just read an inter-
esting editorial in your issue of Octo-
ber 31. In your article on which your 
Dorliver's report that the economic 
teachings in the University of Chi-
icago are dominated by corporate 
teachings and that Professor Derechil on 
the railway rate question experienced 
experience of Professor H. R. Meyer 
taken in the teaching at the 
University of Wisconsin. You have 
probably 
ated Professor Derechil's 
frank statement that his charges were 
Based on a mistake of identity. He 
reat, however, and may 
orden, Professor Balthasar H. Meyer of 
Wisconsin. Professor Derechil know 
the extension of government activities, 
with Professor Hugoe H. Meyer of 
Chicago who is of the opinion that 
government control of rates. Profes-
or Meyer has previously 
for Derechil, and as far as 
known has not changed his views on the subject. 
Neither Professor Derechil nor Professor 
who came to Chicago from Harvard 
two years ago, can be called a proponent 
journey the subject are the ideas he 
has held during many years of investi-
gation.

Aside, however, from the question of 
the truth of the statement, let us now 
consider on which the charge was based, the 
individual who made the charge. 
Professor Derechil is a graduate of 
The professors of economics at the 
University of Chicago modify their 
opinions in the light of new facts 
passed over. If such was the case, then 
if they were not so reluctant to 
their scholar's trust, they would deserve all the 
approval and perhaps even more than the mild 
side of that investigation. It is surely 
the utmost freedom of thought and 
speech is claimed and granted by 
men in any public or private institution. 
Of course, as I have already 
pointed out, has ever been made by 
any other scholar of the University of 
the Chicago to influence or restrict the 
expression or opinion of any 
option of any professor. The university 
authorities have declared that all the 
conclusions reached by mem-
bers of the faculty on the subject are 
questions of the day; all it desires is 
that investigation be carried on in an 
accurate and scholarly manner.

As a matter of fact, the professors 
in the Economics Department 
mainly a unit on the subject in ques-
tion, nor on many other important 
current problems of the university. 
have been, opposed to the conclusions 
reached by the department's professors. 
Professor Laughlin agrees with him in great 
part, but Professor Hilt, who 
gives the department the main 
Professor Veblen, and Professor David 
have made various recommendations 
regulation of rates. All, 
whether the department's professors 
formed their opinions wholly unham-
pered by outside interference or sug-
gestions. In any case, it is clear that 
will mean that no other course would 
be possible to men of scholar 
and respect, qualities of which it is fair 
to assume the members of the faculty 
of the University of Chicago have at 
least an average share.

Yours very sincerely, 
O. D. Skelton.
Even more important than a knowl-
edge of how to appear well groomed in a manner undecoringly of use to make the best of oneself when unprepared, or when the conditions are such as this at even more care than usual is nec-
essary. Very often, when the face is deprived of perspiration the average woman loose all claims to beauty. Lack of grooming is often a sign that she is already long lists of defects, at so many years of age. Very often, she is apt to discover that she resembles nothing even approaching not looks when she allights from the airen to greet her loving though criti-
ical friends.

Much of the mortification attendant an such a condition could be avoided by the expenditure of just a little ex-
ertion. For instance, a small case cold be included in the list of necess-
ities, and this should contain six or the wife-made bottles in which are creams, powder and lotions may be carried. If the journey is to be a long one, the lotions may be carried in congegurated form and used by add-
ing an extra amount of water on the skin.

Of course it goes without saying that a wise woman of to-day is sufficiently formed to avoid the use of soap and alter entirely for the purpose of clean-
ging her face at such times. True, an occasional use of the suppository occa-
sions will fly about and imbue them-
selves in the skin in the most delib-
erate way, so that it is often the very first impulse of the affected one to lather and wash. But the lathering for the purpose of remov-
ing these substances is of no effect. Unfor-
natly, however, the use of so much scrubbing and rubbing only serves to irritate the skin, makes the face tender and thus renders it impos-
able for the correct application of any-
thing like a pleasing condition.

The use of the lotion cream for面上的 use of the lotion cream for the face as often described it will not be necessary to repeat in description, but there are others.

methods with which the reader are of one's own making. But in the use of pure almond meal mixed with a simple solution, the formula for which has often appeared before. This cerasy is made by adding to six ounces of cream of almond meal, of castor oil, no cream of henna, and one-half dram of aloes. Of the mixture of aloes may also be added if desired. It is employed by mixing it with the liquid meal into a thin paste, and then spreading it carefully over the entire skin, washing off after an interval of a few moments. This can easily be arranged even when travelling by ret of all cleaning the face with the stiure cream and then applying the same. As for the pleasant effect to be had, the greatest part of the toilet is being accomplished when the complexion has been washed off carefully, a good powder ventured on, and the skin will look as gladdened and improved as if a good Hue of cleansing. For those who have not the patience to work the paste and who resort in frequent affecting the meal into an al-
mond meal itself, sprinkled in the wa-
er, will be found to be excellent in

RADICALISM BRINGS REFORMS

The Chronicle is in receipt of a communication from the University of Chicago (which appears on another page), which says that the proposed amendment takes exceptions to an editorial of the Chronicle on a speech made by Senator Dollier of this city, in which he is alleged to have said that the campus of the university is a "smoke-filled dull town," but which statement the senator has since denied. It is a possibility that the Chronicle was a trifle broad in its statement of the case, but no one can entirely forget the hand that butts the bread. While the sentiment of the professors of this institution may be right, and further, it cannot but be believed that in a case where their teachings were in a direction which would conflict with the interests of the university, it made this institution, those teachings would at least be tempered. It is but natural to suppose that the influence, while it may not even be realized by the professors themselves, is there and if the occasion arose in which these professors were placed in a position where they would be required to be for or against John D. Rockefeller, they would at least be some hesitation on the part of these great and entirely sincere men in doing that which this one mighty factor and benefactor of their institution is a fact that if anything hurts John D. Rockefeller it must effect more or less the teaching of the institution, to its present great state of influence. There is not the slightest doubt but that the communication which comes from the University of Chicago is entirely sincere, and those professors believe for themselves, without doubt, entirely without prejudice, but the influence must, nevertheless, no matter how inactive at present. If the Chronicle was a trifle radical in the matter, it has served a purpose. There is no such thing as reform. Reform is radical in its nature and the radical stand invariably brings out the RIGHT in a matter. It is a statement of the worst side of the question that is represented by the reply and between the two, one arrives at a just and true estimate. It is a fact that must be acknowledged that favor, no matter how slight, he is awaiting an opportunity to return it. One cannot forget it. It is a seed we will grow our own. And be the snare, and the sower will reap, if there will be the time of reaping. This is instanced in the railroad pass. The man who has been got around. The man who receives a pass from a railroad cannot (if he have the slightest trace of honor) but feel indebted for the favor. He may be entirely unmoved to suspect that he does not accept the pass as a bribe but if the occasion comes when his influence or throw one way will be against that railroad, or it is used in an other way, for then that little seed that was sown by the railroad in giving him a pass will be pretty sure to bear fruit. In the case of the Chicago university the institution owes its whole existence to John D. Rockefeller, and it is entirely proper to remark that his influence counts, for naught in its teachings. It must have at least that influences that silences if nothing more.

President William R. Harper,
The University of Chicago,

My dear President Harper:

I note your letter of the 20th in regard to correcting misstatements in the papers directly to the editors. The difficulty with this is that the local reporters are paid in proportion to the space which they fill and feel aggrieved when matter is sent to the editors over their heads. It strikes me that it is important, so far as possible, to retain their good will and therefore we use them in every way that we can. I wonder if this will not be a feasible course to take in the case of a misstatement: first, to give the correction to the local reporter telling him that it is important that the statement should be published; second, if the statement is not published, to send the editor of the paper a letter such as you suggest, signed by you or Mr. Judson, with a note that although the information was given to the local representative it was not published.
October 28th, 1908

President William E. Harper,

The University of Chicago,

My dear President Harper:

I note your letter of

the 28th in regard to connecting statements in
the reports with the reports of the officers. The difficulty
with this is that the local reports are made
in proportion to the diverse manner in which the officers
are engaged when matter is sent to the officers can
then arise. It is a matter of fact if it is important,
so far as possible, to keep that body with my
office. I wonder if this will not be a feasible course to
take in the case of a statement that the
connection to the local reports telling
with that is important. That the statement merely
be printed: second, if the statement to not
be printed, to send the option of the body a letter
about as you suggest, saying that you are, by
with a note that all copies of the statement are now
at the local representatives to see not duplicated.
I suggest this only because, as I have intimated,
I regard it as highly important that we should es-
In the matter of correcting
establish a good understanding with the newspaper
misstatements. It seems to me we ought to deal not with
men on the campus. They can help us very much
the reporters but with the editors and that an official

letter prepared by Mr. Skelton and signed by Mr. Judson
hurt us in ways that we cannot detect or punish,
or myself should go to the editor every time a mis-
statement occurs. It will not be sufficient merely
to give a corrected statement to the reporters. I
have failed to find in any of the
papers a correction of the poisoning story. These things should
be dealt with in any case directly with the editor as a
personal matter in addition to any statement which a
reporter may make.

I am much pleased with the plans which you have
submitted and I think that Mr. Skelton ought to keep
track of all the clippings and ought not to confine
himself to correcting statements made in Chicago papers.
Boston and New York papers should certainly be included.

Yours very truly,

Dear Mr. Chancellor:

In the matter of correlation

Mr. Chancellor, it seems to me to be of great importance that we shall not mix up technical matters with the question of how and when an economic factor should be considered. I refer to the discussion with Mr. E. Kreuger and others at the meeting on the 22nd of October where the question of mutual acceptance of the 22nd of October was raised.

It is my opinion that the question of acceptance of the 22nd of October should be left to the parties involved. This is a fundamental principle and it is essential for the establishment of a mutual atmosphere.

I am very pleased with the progress that has been made so far. I think that the situation may come to a conclusion.

Please let me know your decision on the matter, and I look forward to hearing from you.

Very truly yours,

The University of Chicago
Chicago, Ill.

Dear Sir,

I am in receipt of your recent letter from the faculty, to which I refer herewith:

I am not able to arrive in the manner of your letter, but it is possible for me to do so.

It is important, and I am aware of this fact, to adhere to the regulation of "Private Business" and to be present at the Faculty of Doctoral courses.

I have written to various individuals to whom I refer myself, but have not been able to get in touch with them. I shall make every effort to keep in touch with the Faculty of Doctoral courses.

For my own personal reasons, I have a special preference for attending the University of Chicago, but I have not been able to do so. I understand that the Faculty of Doctoral courses are held at the University of Chicago, and that they are open to all students.

I am sorry that I cannot attend these courses, but I shall do my best to attend them.

I am grateful for your kind letter, and for your kind offer to have me visit the University of Chicago.

Very truly yours,

Dear [Name],

I am writing to request your urgent attention to an issue that has arisen in the course of our discussions.

We have noted a discrepancy in the distribution of the funds assigned to the Music Department for the current academic year. Your prompt attention is required to ensure that the funds are allocated as per the budget.

I have attached a copy of the budget for your reference. It is critical that we address this matter immediately to avoid any financial irregularities.

Please review the budget and let me know your thoughts as soon as possible.

Given the urgency of the matter, I anticipate forwarding this request to the Finance Committee for their consideration.

I appreciate your prompt attention to this matter and look forward to your response.

Sincerely,

RICH MEN.

A Negro Educator Tells What They Are Doing for Humanity.

To The Times Herald:

Every man is rich who selfishly feels proud of what he owns, especially when he worships it. I know a woman of my race who has five twenty-dollar gold pieces, and she would not take a thousand dollars in silver for those gold pieces. The richest people in Texas today are the negroes. Even the very poor negroes have in their very nature a wealth of happiness which penetrative and comprehensive nature can not understand. The negro is perfectly happy—he does not harbor hate, or the spirit of revenge; but the negro who owns a sufficient competency which elevates him above other negroes financially enjoys an exquisite happiness far beyond human comprehension. There is one thing the white man can never take from the negro, and that is the negro's cheerful disposition. The greatest wealth any man can possess is a happy and cheerful disposition. Consider Mr. John D. Rockefeller, Sr., and you will find a man very much misunderstood. This man is a divine product, for every time he makes a gift it is for the sole purpose of making humanity more Christlike. Mr. Rockefeller is just as much inspired to give as the apostles were to write the New Testament and preach. If he would give only in small amounts, you would not have heard of "tainted money." Mr. Rockefeller does not give in small amounts, but he throws such heavy charges against the devil's business, that it has made the devil hot in the collar. Whenever you hear any preacher speaking unkindly of Mr. Rockefeller, you just mark such a fellow down as an effeminate soul who lusts more for the boy and man than for power.
The Dallas Daily Herald

A true temperance dinner was held here Tuesday night at the Mowry House in honor of the Misses de Witt, which was a notable event as a great number of the public officials and prominent citizens were present. The meal was a success, with the guests expressing satisfaction with the fare and the company. The event was considered a significant one and a beneficial occasion for socializing and building goodwill.

BISHOP TO RESIGN.

Right Rev. VanderVliet May Succeed the Late Archbishop Chapelle.

By The Associated Press.

Baltimore, Oct. 23. — It was reported that Right Rev. A. VanderVliet, Bishop of Richmond, had resigned or is about to resign his position as a member of the Congregation of the Propagation of the Faith. Bishop VanderVliet will return to Richmond to-day after an absence of several weeks in Europe. As Bishop of Richmond, Bishop VanderVliet is a member of the Propagation of the Faith, the Archbishop of Baltimore, the see and Richmond belonging to the province of Baltimore.

In connection with the rumors of resignation of Bishop VanderVliet it is said he may be nominated as successor of Bishop Chapelle in the see of Baltimore.

Another point of interest is the appointment of Monsignor Charles J. Leo — Henry Grayson, Bishop of Savannah, to the see of Savannah, after the resumption of yellow fever in that city.

October 6th, 1936

The City Editor

The Chicago Tribune

Dear Mr. Editor,

My name is McCallum and I am a student at the University of Chicago.

I am writing to express my concerns regarding the recent events taking place on campus. The university has faced significant challenges in recent years, and it is my belief that these issues need to be addressed.

I have noticed a lack of representation within the university administration. As a student, I feel that our voices are often not heard, and this has led to a sense of frustration among my peers. I believe that the university needs to take steps to ensure that all students, regardless of their background, are represented in decision-making processes.

Furthermore, I have observed that certain students are not given the same opportunities as others. This is unfair and demotivating, and I urge the university to take action to create a more inclusive environment.

I hope that you will consider these concerns and take the necessary steps to address them. I would be happy to discuss this further with you or any other university officials.

Sincerely,

[Student's Name]
Skelton promptly and fully with all facts which deserve publicity and we shall esteem it a favor of you will direct the reporters who represent The Tribune at the University to come to Mr. Skelton for news. President Harper,

University of Chicago.

Dear Dr. Harper: The city editor of the American has begged me to ask you for an interview or statement concerning your health and plans for the coming school year. Although I am no longer connected with the paper Mr. Koenigsburg has been kind enough to say that he believed that I had the confidence of the university Mr. R. D. Keehn, officials and that if I said to you that any such statement would be published without any change and that it was the purpose of the paper to try to give an accurate and authentic statement from you which would put to rest all queries relative to your health and your plans for the coming year, you would be willing to give the statement which I shall be glad to present your request for an interview to him. Just now I do not think he would have anything to say about his plans for work or his health. If you will leave it to me, Mr. Keehn, I will keep your letter on my desk and a little later write you in reference to it. During this month President Harper is not making appointments with anyone and is making every effort to take rest.

Yours very truly,

H. P. Chandler
Secretary to the President

Very truly,

R. D. Keehn.
September 16th, 1908

Mr. E. D. Keenan

V. D. Dear Mr. Keenan:

My dear Mr. Keenan:

Your letter to President Harper

seeking for an interview has been received. A little letter I sent to Ely to present your resume for an interview to him. Just now I do not think he would have anything to say about the plans for work on the

keef. If you will let me know if I need help in writing your letter on my behalf and a little letter

will keep your letter on my desk until the month

President Harper is not making appointments with anyone

and is making every effort to take rest.

Yours very truly,

H. P. Chandler
Secretary to the President
President Harper,

University of Chicago.

Dear Dr. Harper: The city editor of the American has begged me to ask you for an interview or statement concerning your health and plans for the coming school year. Although I am no longer connected with the paper Mr. Koenigsburg has been kind enough to say that he believed that I had the confidence of the university officials and that if I said to you that any such statement would be published without any change and that it was the purpose of the paper to try to get an accurate and authentic statement from you which would put to rest all guesses relative to your health and your plans for the year, that you would be willing to give the statement.

What they want is a statement of several hundred words in which you will state rather in detail the condition of your health, your plans for the coming school year and any other matters that you believe might quiet the many conjectures concerning your movements. As I have explained I am writing this as a kindness to Mr. Koenigsburg. I would be glad however, to get the statement for him. If you feel like dictating such a statement the managers of the Hearst’s papers assure it the widest publication no matter how much is said concerning any bright prospects for the university that may be mentioned.

Very truly,

R. D. Keehn.
Dear Mr. Hitcher,

The city's action on the American Press鲈鱼 is a matter of concern, and I seek your input on an interview or arrangement concerning your health and your plans for the coming school year. Although I am no longer connected with the paper, Mr. Keating has been kind enough to say that he will be pleased that I have the confidence of the university officials and that if I wish to stay with your paper, such arrangements would be made with my approval. My purpose of the paper is to try to get an understanding of the situation from you and which would bring you to letter and business relation to your health and arrangements.

What is your wish? A reduction of present salary? More in which you would like a change? And what do you believe is the condition of your health? Do you feel that you are up to the work you have been accustomed to? I have experience in writing and would be willing to write the articles for the paper. I would be glad to help you in any way I can. Mr. Keating has told me that you would be pleased to have me as a reporter for the paper. If you feel that your health is to the best interest of the paper, I would be willing to make the arrangements for the paper.

Very truly,

R.F. Keen
August 15, 1905.

Dr. Frank Billings,

100 State St.,

Chicago, Ill.

Dear Doctor:

I received a day or two ago a communication from a man in Chicago who claims to be a doctor who signed his name Galen. I quote as follows:—

"It was an amusing episode in your attempt to crowd yourself in as an associate medical adviser of President Harper who repudiates the intent, animus, and purpose of the preposterous expansion and presumptuous assumptions of the 'interview'. You should read the fierce and laughable roastings the papers have given,—the amusing attitude and airs, and assuming that the distinguished physicians and surgeons would tolerate a mere doctor of a sanitarium, who is the exact type and counterpart of the hotel doctor. The doctors here smile, sneer, and joke over your imaginary importance.

Yours etc. for Galen."

In justice to myself I want to say to you as Dr. Harper's physician, that I am not in the slightest degree responsible for this newspaper notoriety. I did my best to keep reporters away. I have given but one communication to the papers. This was published in the Record-Herald, and states simply that Dr. Harper spent Sunday here with his wife who had been here frequently before as a guest for rest and recuperation, and mentioned that I thought Dr. Harper was looking better than when I met him some months before. I thought this would put the
(Copy)

August 15, 1903.

Dear Doctor:

I received a day or two ago a communication from a man in Chicago who claims to be a doctor who用药 the name Garten. I quote as follows:

"It was an amusing episode in your attempt to crow your own self in an association meeting of President Herber who requested the President, 'Please your honor, any purpose of the President's?" You should pass the phrase and any language reserves the phrases have given the amusing attitude and any language reserves the phrase has given the exact type and cannot tolerate a mere doctor of a specialty. The doctors here smile, and take over your American importance.

Yours etc. For Garten.

In justice to myself I want to say to you as Dr. Herber's diamonds, that I am not in the slightest degree responsible for the

expression, "I am not to keep a paper." This was published in the

Keenan but one communication to the paper. This was published in the

Record-Herald, and make this simple fact. Dr. Herber about Sunday here with

recommendation and mention, that I thought of Dr. Herber was looking better

then, when I met him some months before. I thought this would put the
thing in the best shape for Dr. Harper, which I sincerely desired to do. The other newspaper articles, interviews, etc. which have appeared are fabrications.

There are some reporters here in this town who were very angry because I would give them no information, and so made reports of their own manufacture.

I do not consider myself Dr. Harper's physician. I have never stated to a living soul, nor have I seen it mentioned anywhere else than in a Chicago paper, that Dr. Harper was my friend. I have never had any intimate acquaintance with Dr. Harper, do not claim him to be a friend, and have never hinted anything of the kind to a living soul.

I should have written you before but, from what I have seen in the newspapers, I knew that you had already had sufficient experience with the newspapers in this case to know what to expect of them, and that you would probably understand the situation without any explanation.

I presume it is unnecessary for me to add that all the statements which have been made with reference to advice I gave Dr. Harper about resigning the presidency, etc. are absolute fabrications with no foundation whatever.

Very sincerely yours,

[Signature]
find in the present state for Dr. Herbem whose I sincerely regret to go.

The other newspaper articles, interviews, etc., which have appeared in

the press, there seems to be some reports here in this town who were very much

perplexed. I would give them no information, but to make reports of their

own experience.

I do not consider myself Dr. Herbem's physician. I have never

stated to a flying rock, nor have I seen it mentioned anywhere else than

in a Chicago paper that Dr. Herbem was my friend. I have never had

any intimate acquaintance with Dr. Herbem. He has never been

in the workshop. I know that you had a chance and sufficient experience

with the newspapers in this case to know what to expect of them, and that

you would properly understand the situation without any explanation.

I presume it is unnecessary for me to say that all the articles

written which have been made with reference to Science I have never

spontaneously the beginning, etc., are adequate explanation with no

further whatever.

Very sincerely yours,
CLEVELAND, O., AUG 10 - The following statement was given to THE ASSOCIATED PRESS to-day by the secretary of Mr. John D. Rockefeller, relative to the health of president Harper of the Chicago University, who is a guest at Forest Hill, the summer home of Mr. Rockefeller, near this city:

"It may be stated authoritatively that president Harper's health is in better condition than at any time in recent months; that no thought whatever has been suggested of another operation, and that no physician has been called to attend him at Forest Hill. It is further to be said that the suggestion of his retirement from the presidency of the university of Chicago is absolutely without foundation, and that he is holding no conference with Mr. Rockefeller concerning the university's affairs, the visit of Mrs. Harper and himself being a purely social one. It is his plan to return to Chicago at the end of the week and to resume his duties in his class room and in the president's office."

-8-

1:34 PM.
Harry Pratt Judson, Esq.,
University of Chicago,
Chicago, Illinois.

Dear Sir:

In reply to your favor of the 11th. I will start an investigation as to the item sent from Battle Creek. I believe that Dr. Kellogg has been misinformed as to the Associated Press representative at Battle Creek. We have always endeavored to treat President Harper with the utmost respect and consideration, and in this connection I would ask that whenever there is any genuine news in which the public is interested it be given to this office immediately, and not permit it to reach us filtered through any other source, except direct from the University. This is certainly giving you every opportunity to prevent the distribution of unreliable news concerning President Harper.

[Signature]
Superintendent Central Division
Harry Pratt Judson, Esq.,

University of Chicago,

Chicago, Illinois.

Dear Sir:

Since writing you this morning a careful investigation shows that our Battle Creek man did not file a line to The Associated Press about Dr. Kellogg and Dr. Harper. On the contrary, he did not send a line from Battle Creek. We saw The Journal's story, but did not use it. The next day we carried from Cleveland an official statement given by Mr. Rockefeller, in which The Journal's story was denied.

Yours very truly,

Addison C. Thomas
Superintendent Central Division

(Enclosure).
Dr W.R. Harper,

President Chicago University.

Dear Sir: The Chicago Tribune, the Chicago Record-Herald and the Chicago Chronicle are besieging our office for confirmation of the story that you will resign immediately as head of the university. Are you in a position to give us a signed statement of a few words to satisfy them.

Very truly,

The Cleveland Leader.
Dr. W. R. Harper
President College University

Dear Sir: The College Training, the College Records Office you contributed to the College of the University. The report that you will receive immediately as head of the University will be sent to you in a position to give me a strong statement of a few words of

Very truly,

[Signature]

Dr. General Secretary
President William R. Harper,
C/o Mr. John D. Rockefeller,
Cleveland, Ohio.

My dear Dr. Harper:—

I was gratified to see the statement given to
the Associated Press yesterday on behalf of Mr. Rockefelller. The fraudulent statement first appeared in the
Chicago Journal of last Wednesday. My attention was
called to it by reporters for other papers and I at once
denounced the whole thing as unfounded and an absolute
falsehood. Mr. Chandler and I took the matter up to-
gether and the following steps were taken:

1. Mr. Chandler communicated in my name with the
city press, denouncing the fiction.

2. I wrote a letter to the Journal denouncing the
story as false and remonstrating on the publication of
so flagrant a falsehood without giving the University an
opportunity to be consulted in the matter. I have not as
yet heard from the Journal.

3. I telegraphed to Dr. Kellogg and received, late
Wednesday night, a telegram from him as follows: "Cer-
tainly a fabrication of unauthorized statements".
President William H. Herget

C/o Mr. John L. Rockefeller

Cleveland, Ohio

My dear Mr. Herget:

I am gratified to see the statement given to

the Associated Press regarding our plans for the

letter. The statement, as you pointed out, was

erroneous. In making the statement, we had no

intention of giving any information on the

proposition. I am glad you have taken the matter up too.

I was originally communicated to in a manner with the

effect of bringing up the question of

whether there was the possibility of

a statement being made to the

University on the subject. A letter was written, giving the University an

opportunity to come forward in the matter. I have not been

permitted to hear the comment.

I feel that there will be a statement from me as follows:

"It is in recognition of the University's action in

failing a statement from me as follows: 

"C"
4. Being called up late Wednesday night by the Record Herald, I repeated the correction and cited Dr. Kellogg's telegram.

This morning I have a long letter from Dr. Kellogg, the substance of which is that the Journal reporter in Battle Creek made to him certain statements, all of which were grossly false, and asked his confirmation. He replied, in every case giving no information of the character quoted. The whole thing is a flagrant and outrageous falsehood, whether concocted by the Journal representative in Battle Creek, or in the Journal office in Chicago I cannot say. Dr. Kellogg also states that the Associated Press representative in Battle Creek did not see Dr. Kellogg at all, and I do not know what he sent out. Dr. Kellogg's representative found him, however, and the Associated Press man in Battle Creek excused himself by saying that he "tried to get information from authentic sources, but could not, and so, determined not to be balked because it meant $100 to him, he manufactured a story, and protected himself by saying that "it was understood" so and so. I have telegraphed this morning to Dr. Kellogg asking permission to use his letter. I purpose to follow it up vigorously, notifying the Associated Press of the kind
A. Fellow officers of the University of Chicago, 

I regret to report the death of a colleague. 

Keller's death 

This morning I have a long letter from Dr. Keller, 

the superintendent of the University's laboratories, of which 

Hatte Creek was a part of his scientific enterprises, and of which 

were greatly valued, and regarded as contributing. He has 

died in each case giving an indication of the advance 

made toward a greater and more comprehensive 

protection of wildlife considered in the context of the ecosystem. 

I regret to say that in the present climate in Chicago I 

cannot recall Dr. Keller's name except that he was the 

head of the department of biology of the University, and that his 

name is constantly on my mind. He was a colleague in the 

scheme that he called the University's laboratories, and of which 

were greatly valued, and regarded as contributing. He has 

died in each case giving an indication of the advance 

made toward a greater and more comprehensive 

protection of wildlife considered in the context of the ecosystem. 

I regret to say that in the present climate in Chicago I
representative they have in Battle Creek and notifying the Journal the kind of representative they have there.

The American newspaper press, (and to some extent the American periodical press), is a machine for making money without regard to truth, decency, or common honesty.

Everything else is moving smoothly here. We shall have at the next convocation probably fifteen Doctors of Philosophy and nineteen Masters.

Very truly yours,

[Signature]
Yesterday morning, about eight o'clock, a representa-
tive of the Chicago Journal called on me at my house. He
stated to me that after Prof. Harper had returned from Battle
Creek, he called the faculty of the University together and
stated to them that I had stated to him that it had been de-
cided his disease was of so grave a character that he must
have another operation performed and that it might be fatal;
that on that account he thought it necessary to withdraw from
his connection with the University; that he had gone to
Cleveland to consult Mr. Rockefeller with reference to the
matter. The reporter asked me if I could say anything in
confirmation of these statements. I told him I knew nothing
of them and did not believe them. He wanted to know whether
I proposed to do an operation for Prof. Harper. I told him
I had made no suggestion of the sort. He inquired of me whether
I considered his disease cancer. I told him I had not gone
into the case sufficiently to justify me in expressing an opinion,
that I refused to give any opinion, as it would be injustice to
myself and to the physicians in charge of his case in Chicago
to do so. I stated to him that I was not in charge of Prof.
Harper's case, and had only made a very cursory examination of
it, as he was with us but a few hours, and I had not the op-
portunity for a thorough investigation. Be inquired whether
Prof. Harper was coming back to Battle Creek. I told him I
knew nothing of his plans. He asked me what I knew about
Prof. McBurney's opinion. I told him I knew nothing except
certain matters, point of view, effect, a representation.

In view of the Claims of Companypolicy on the part of your letter, I have ascended to the State Paper. Number and recommend from necessity, integrity, the Faculty of the University together, and state of thing that I had asked to him and it had come to what the President may or to have a guaranty that may be sent.

I have another operation by the President and what to right to feel? In the connection with the University, that I have gone to the President, a statement, a proposition, with the President, and to each, as the President, to the University, with reference to the President.

The President says me if I comply with my mind, in connection of these statements, I told him I know nothing of them and the rest. The President at a moment I told him I would not agree. He inquired of me, whether I had made any suggestion to the President. I said I had not gone into the case voluntarily to satisfy me in examining as otherwise. That I refuse to give any opinion to the case in question. I mention the President and informed him in case of mine. He first to him, and I was not in charge of the case. It is a very similar to what I have not the date for the President and another, for the President, to give me. I have notified of the precedent. He sends me what I know about the next.
what was published in the newspapers. He asked me if I am a vegetarian. I told him I discarded the use of meat forty years ago. He asked me if I thought Prof. Harper was going to be a vegetarian. I told him I could give him no information on the subject. He asked me if I thought Prof. Harper ought to become a vegetarian. I told him I thought, in cases such as his, that it was important that the patient should take a low protein diet, but that I considered the quantity of protein a matter of much greater consequence than the source of it.

This is substantially all that was said at the interview.
August 14th, 1905.

Mr. Addison C. Thomas,
The Associated Press,
Chicago.

Thanking you for your prompt reply, I am,

Very truly yours,

H. P. Judson
August 14th, 1906

Mr. A. W. H. C. Thomee
The Associated Press
Chicago

Dear Sir:

Your favors of the 1st and 15th last week were received with great appreciation.

We fully understand and appreciate the difficult and serious position you are in. Please fill the space shown to Dr. Herber, and it is certain that the City College's request that you make a temporary arrangement for the College's Instrumental Department will be refused.

Thanking you for your prompt reply, I am,

Very truly yours,

H. J. Longe
August 11th, 1905.

Mr. Addison C. Thomas,
Superintendent, The Associated Press,
Chicago.

Dear Sir:

On Wednesday last the Chicago Journal published a grossly false statement with reference to President Harper purporting to have been given by Dr. William Kellogg, at Battle Creek, Michigan. Dr. Kellogg writes me at length explaining that the whole story was an absolute falsehood. He made no statements whatever, such as were attributed to him by the Journal representative. Just what was sent to the Associated Press from Battle Creek in this matter I do not know, but I think it is only right to you that I lay before you that part of Dr. Kellogg's letter relating to the Associated Press reporter:

"I knew it must be distressing to the Professor to have his case continually exploited by these news-mongers, and I endeavored to do the best I could to avoid capital being made out of his trip over here; but there is a certain class of irresponsible news gatherers who manufacture material out of whole cloth. The Associated
DEAR SIR:

On Wednesday last the Chicago Committee, acting in accordance with reference to President Harper's request to have been given by Dr. Kellogg, wrote to the BETTLE CREEK, Montana, office of the Associated Press, asking if it were true that a number of copies of the Associated Press newspaper, the Bette Creek, Montana, had been destroyed on a certain date. The Associated Press, in reply, informed us that the matter was not known to the Associated Press. We have seen a letter relating to the Associated Press.

I know it must be gratifying to the President to have this case continuing to provide news-worthiness.

Sincerely,

[Signature]
Press man in this city is that sort of a creature. I have not seen what he sent out, but I kept a man hunting him nearly all night Monday night after I discovered that the reporters had found out Prof. Harper was here and were after news. My man found him about three o'clock in the morning, and learned that he had sent out something, but did not learn just what. He excused himself by saying that he tried to get information from authentic sources but could not, and so, determined not to be balked, because it meant a hundred dollars to him, he manufactured a story, and protected himself by saying that it was "understood" so and so.

I have only to submit the above facts for your consideration.

Very truly yours,

H. P. Judson
I know it's what I wanted to accomplish to prove that I wasn't running away and I couldn't think of a better way to do it. My only option was to see if I could find out who the person with Genevieve's name was and if they could tell me what happened to her.

I'm sorry if this seems a bit abrupt, but I had to come up with something quickly. It's not that I'm in a rush, but I need to get this done as soon as possible.

If you have any questions or need more information, please let me know. I'll do my best to help you.
