January 5th

To President Johnson,

I am sending to Mrs. Wallace today the necessary information concerning the allegations suggested for the opening of a Negro Hall in June. Of this, I assure you, I am certain. I am now working on making it a
unique and artful reason as it deserves to be.

With all good wishes to Mrs. Judson and yourself for the New Year.

Sincerely,

ALL TELEGRAMS TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a telegram should order it REPEATED, that is, telegraphed back to the originating office for comparison. For this, one-half the unreturned telegram rate is charged in addition. Unless otherwise indicated on its face, THIS IS AN UNREPEATED TELEGRAM AND PAID FOR AS SUCH, in consideration whereof it is agreed between the sender of the telegram and this Company as follows:

1. The Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any UNREPEATED telegram, beyond the amount received for sending the same; nor for mistakes or delays in the transmission or delivery, or for non-delivery, of any REPEATED telegram, beyond fifty times the sum received for sending the same, unless specially valued; nor in any case for delays arising from unavoidable interruption in the working of its lines; nor for errors in cipher or obscure telegrams.

2. In any event the Company shall not be liable for damages for any mistakes or delays in the transmission or delivery, or for the non-delivery, of this telegram, whether caused by the negligence of its servants or otherwise, beyond the sum of FIFTY DOLLARS, at which amount this telegram is hereby valued, unless a greater value is stated in writing hereon at the time the telegram is offered to the Company for transmission, and an additional sum paid or agreed to be paid based on such value equal to one-tenth of one per cent. thereof.

3. The Company is hereby made the agent of the sender, without liability, to forward this telegram over the lines of any other Company when necessary to reach its destination.

4. Telegrams will be delivered free within one-half mile of the Company's office in towns of 5,000 population or less, and within one mile of such office in other cities or towns. Beyond these limits the Company does not undertake to make delivery, but will, without liability, at the sender's request, as his agent and at his expense, endeavor to contract for him for such delivery at a reasonable price.

5. No responsibility attaches to this Company concerning telegrams until the same are accepted at one of its transmitting offices; and if a telegram is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

6. The Company will not be liable for damages or statutory penalties in any case where the claim is not presented in writing within sixty days after the telegram is filed with the Company for transmission.

? No employee of the Company is authorized to vary the foregoing.

Dear Mr. Nash:

The University is planning to publish a record of the Quarter-Centennial. It is the plan to include a large number of photographs of the events of the Quarter-Centennial. Do you know of any photographs which should be considered by me in connection with this plan? I shall be grateful for your assistance.

Dear Mr. Angell:

President Judson desires to include in the President's Report a report (four or five pages) from you as chairman of the Quarter-Centennial Committee. I am sending herewith the minutes of the Executive Committee, the report of the Alumni Committee and a complete set of the printed documents. May I request that the latter be kept together as I am about to send them to the University Press for binding? I shall be glad to have all the material as soon as you have finished with it because it is the plan of the President to issue a volume of some three hundred pages containing the full report and it is my chore to gather the material.

Dear Mr. Coulson:

For a volume to contain a record of the Quarter-Centennial I wish to secure as many good photographs as possible. If I can secure eight or ten enlargements of certain of the pictures in the Quarter-Centennial film I shall have a large number of the best possible subjects. Are you in a position to quote a figure on eight or ten glossy prints of about thirty subjects? If you are not, can you refer me to a house which regularly makes such enlargements as the international and other news companies make from their films? If there is no regular business of this sort, I can myself with the enlarging apparatus at my disposition in the University procure results direct from the negative, especially if you can let me have a frame to support two
wheels. I understand that our negative is still in your possession.

Dear Mr. Miller:-

The President has asked me to prepare a record of the Quarter-Centennial. As I see it the book in its exterior should match the University History. The paper, illustrations and type should also be like the University History. About three hundred pages will be necessary including approximately thirty photographs and about twenty charts plates of which will already have been made for the President's Report. There should be an index. It will cost about $25 to secure the photographs desired. Will you let me know what the cost of an edition of one thousand would be? Please let me know also the probable cost of distribution.

Dear Mr. Robertson:

I am enclosing a photograph of one of the events of the Quarter-Centennial, and I understood Professor Caldwell to say that President Judson had been given a reproduction. This picture surely should be included in any record of the Quarter-Centennial as one rarely gets so happy a result. I am sorry to be able to be of no more assistance to you in this matter than this very inconsiderable amount.

It has been decided to print a Quarter-Centennial volume covering the general addresses and proceedings. I am not sure how far we can include papers before the departmental conferences. If we include departmental conference addresses and papers, which ones of those delivered before your department ought we to choose? I am enclosing the general program so that you may check it. Dear Sir:

In response to your letter with reference to a Quarter Centennial volume, I have to say that I do not think that any of the papers presented at our departmental conference would be indispensable in the proposed volume. Except those of Professor Branner and Clarke, they were of a family nature, and were for our mutual instruction primarily with reference to what men now cut are doing.

Professor Branner's brief address and Dr. Clarke's would be all right in print, but I do not think that either of them had the address in writing. I do not believe that either of them would not find it easy to reduce to writing what he said, and I think it is a good deal to ask of them to suggest it, because I doubt very much if either of them knows now what he said. Nevertheless, it would do no harm to ask them.

Very truly yours,

Dear Mr. Laughlin:

I trust that the drifts are not so high about the brick house as to prevent the receipt of a very hearty greeting from Chicago. Mrs. Robertson and I enjoyed very much the remembrance you so kindly sent us at Christmas. Both of us envy you your habitation and your view and the great desire to possess the photographs would indicate that the most important critic in the family was likewise enthusiastic in his approval.

After all we are to issue a Quarter-Centennial volume. In that among other things I wish to include your address to the Doctors of Philosophy. I am therefore sending to you the article as it appeared in the Alumni Magazine so that you may make such additions or changes as you may desire. The volume will be one of about three hundred pages and will include twenty or thirty photographs of the Quarter-Centennial events. It will probably be out in a month or six weeks. I shall be glad to have your opinion of some of the other papers which should be included. Of course I shall print all the addresses before the general bodies like the Convocation address, the Phi Beta Kappa addresses, etc. Will you however check also
those addresses before departmental conferences which seem to you to be appropriate? I am very sure that I have not the space to print all of them. I am equally sure that in a general volume not all the technical papers could appropriately be included. Please mark with a check those general papers which you think we might print and mark with a cross any departmental conference papers which you deem appropriate. If you cannot mark positively with cross or check but still have the opinion that the paper might be appropriate, mark it with a question mark.

My dear Dr. McGiffert:

It has been decided to commemorate the Quarter-Centennial of the University of Chicago by the publication of a volume descriptive of the exercises and including the principal addresses made during the celebration. One of the latter is the address by yourself entitled "The Progress of Theological Thought during the Past Fifty Years", delivered at the celebration of the fiftieth anniversary of the founding of the Divinity School. With your consent I wish to include this in the volume. In case it has been published elsewhere we wish to ask your consent and that of your publisher to include it in our book. In any case we shall wish at least to include a reference to its publication. I hope that you may be able to cooperate with me by sending the manuscript. I have just begun to assemble material. Dear Mr. Stieglitz:

It has been finally decided to issue a volume commemorative of the Quarter-Centennial. It is altogether likely that we cannot print all, and possibly not even any, of the addresses before the departmental conferences. However if this is to be the case, I think that our records ought to show where the several papers have been published. In the case of addresses which have not been published, it might be desirable to include an abstract of not more than two or three hundred words. Will you express your opinion of this plan and direct someone to provide me with the proper bibliography of the addresses before the Department of Chemistry? I shall greatly appreciate your cooperation.

I return herewith the pages from the University Record containing my address at the Quarter Centennial. I have made one or two changes in the last paragraph, otherwise the address may stand. Dear Mr. Robertson:

Thank you for the opportunity to proof read the enclosed copy. The idea of compiling such a memorial volume of the Tercentenary celebration is commendable, and I will be interested in seeing a copy when you have completed the work.

For future communications, my address is 5529 Humboldt Ave., where I am living with Benson and MacNeil.

Sincerely,

Oliver Murdock

My dear Mr. Robertson:  

My address on "The Progress of Theological Thought during the past Fifty Years", which was given at the celebration of the fiftieth anniversary of the founding of the Divinity School last June, was published in the July number of the American Journal of Theology and, so far as I know, has not been elsewhere printed, except in the Japanese translation in a magazine published in Japan.  

I should be glad to have it appear in the volume which you are planning for. I assume that you will not need my manuscript as the printing can be done directly from the article in the Journal of Theology.

Very truly yours,

My dear Mr. Robertson:

My colleague on "The Prosects of the Church" to your forthcoming article in the Beat Pitch Yearbook, which was given at the celebration of the University Seminary of the Congregationalists of the United States in the American Journal of Theology and other periodicals.

As I know that you have been elsewhere printing your recent work, I am glad to have it appear in your forthcoming issue.

Very truly yours,

The University of Chicago  
Department of Physiological Chemistry  

January 27, 1917.

Dear Mr. Robertson:

You will see from the enclosed program which I return in this that there is very little in it bearing on physiological chemistry.

I have however, the address of Dr. Claude Guthrie, Ph. D., before the conference of Zoology and Physiology and I think this ought to be printed. In addition we should certainly have the address of Dr. Folin before the department of chemistry and physiological chemistry, and that of Dr. Wheeler before the Biological conference. Dr. Lilloe will no doubt give you the title of Dr. Wheeler’s address. Dr. Guthrie left his address with me as I thought we might wish to publish them. Dr. Stieglitz will probably have that of Dr. Folin. The department of physiology did not hold a conference by themselves but joined with zoology and botany for one and with chemistry for one. Dr. Guthrie and Dr. Folin were our representatives.

Very truly yours,

P. P. Matthews
Dear Mr. Professor:

You will see from the enclosure why I return to the

idea: to work on the project you have suggested.

I have some thoughts on the problem of Dr. Glaze's

suggestions, which I think might be of interest.

In

consequence of recent activities, I have noticed that the Lott laboratory

is not as active as it should be. My recent experience with

diagnostic and experimental activities, and my work at Dr. White's

laboratory, indicate that the Lott laboratory might benefit from

new approaches. I have suggested to Dr. Glaze that he

consider the possibility of a closer collaboration between

the two laboratories.

Very truly yours,
