My dear President Judson:

I have received your kind letters of January 4th and 18th, which reached me nearly at the same time.

I am very sorry that conditions do not permit the Rockefeller Foundation to take up the Huai River matter, but I sincerely hope that it will nevertheless give this important humanitarian and business enterprise its active moral support.

I desire to thank you for your invitation to lecture at the University. If conditions here permit, I shall be in Wisconsin throughout July, and it would be possible for me to arrange to spend every Friday at Chicago, giving lectures on subjects in international law, international organization, or
Far Eastern civilization. Subjects of present political interest I could not, of course, touch upon at all.

Please give cordial regards to Mrs. Judson, and believe me,

Faithfully yours,

Dr. Harry Pratt Judson,  
President of the  
University of Chicago.

Hon. Paul S. Reinsch,  
Hon. Legation of the United States of America,  
Peking, China.

My dear Mr. Reinsch:

Your favor of the 19th of February

was duly received. I am very much gratified that you can
be with us in July, and can give lectures on successive
Fridays. The first Friday in July comes so near the
national holiday that perhaps it would be just as well
not to use that date. I would suggest that there be four
lectures, on the 9th, 16th, 23d and 30th respectively, and
that the general subject be "Far Eastern Civilizations".
Of course I understand that you could not touch on subjects
of present political interest. I am, however, very sure
that your discussion of this question will be of very great
value and very much appreciated by the University audience.
I am going to ask you to make a suggestion on the matter of
honorarium, which I am sure we shall have no difficulty in
arranging.

With cordial regards to Mrs. Reinsch and congratulations
to you both, I am,

Very truly yours,

My dear Mr. Keppel:

I am very much gratified that you can be with me in Paris and can give lectures on Executives.

Yet, I am not sure that I can do that justice to your lecture in Paris on the 16th, 17th, 18th. I am sure that there will be no difficulty in extending my lecture to the Reichen and Contemporary.

With cordial regards to Mr. Keppel and contemporaneous.

Yours truly,

My dear Mr. Reinsch:

As our budget matters shape up for the year 1917-18 I find to my great regret that I am unable to get any provision for international law. We shall have to mark time again.

I am hoping that you and your family are all well, and that we shall see you again in this country in the not-distant future. Through the China Medical Board I get some advices about members in the Central Flowery Land. At the same time there are many things which I don't know which would be exceedingly interesting. Some day after this generation has passed off the stage I suppose that historians will delve into the records and tell the people then extant many things which are known to not many today. Please give my cordial regards to Mrs. Reinsch, and those of Mrs. Judson also.

Very truly yours,

Hon. Paul S. Reinsch
United States Minister to China
Peking, China
My dear Mr. President,

I am writing to you on behalf of the people of our country who are deeply concerned with the situation currently facing Peking. The Chinese Nationalist Government under President Chiang Kai-shek has been unable to maintain law and order, and the people are suffering greatly. We believe that immediate action must be taken to stabilize the situation and restore peace.

We have been informed that international pressure is mounting, and that the United States is considering measures to support our efforts. We urge you to consider the following:

1. Provide economic aid to support the Chinese Nationalist Government.
2. Send a high-ranking diplomat to Peking to negotiate a peaceful resolution.
3. Urge other nations to join in this effort.

Please consider these requests and take urgent action to alleviate the suffering of the Chinese people. We are counting on your leadership to bring about a peaceful solution.

Very truly yours,

My dear President Judson:

As it is my intention to return to the United States and later than July 1, 1917, and possibly earlier, I have written my associates in America informing them of my arrangements which concern my return to America in connection with our best expectations.

I am kept constantly busy in the various business matters and matters of working, with the utmost energy, until now.

With the warmest regards, I —

My dear Mr. Reinsch:

Yours of last May was received about a month ago and when we were absorbed in the activities for the celebration of the Quarter-Centennial. This is a poor apology for so long a delay in answering. I find it impossible to forecast at this time what we will be able to do at the University July 1st, 1917. Our budget arrangements will be made somewhere near the New Year time next. The financial situation resulting from the war has made us very careful about future plans. I will write you soon after the New Year. Meanwhile, of course, it may quite easily be that that will be too late to carry out your plans.

I hope that everything is going well with you and with China. I sincerely hope that under the new administration the Chinese Republic may be successful in establishing and maintaining order and developing on the lines which the country so greatly needs.
