The President:

The report herewith submitted is late. The causes of delay will hardly apply hereafter.

I. In general.

1. Attendance Fraternities.

1) There were in necessarily a new beare for the
Phi Kappa Psi house before the end of the
quarter, as Mr. Tumee is going away.

2) At the opening of the quarter a copy of the college
regulations was sent to each house by a fraternity,
and a list of the members for the current quarter
was obtained and is on file at my office.

3) An interpretation of the five quarter scale
with reference to students admitted from Morgan
Park is not with advanced standing is desir-able. It will be seen to me that once
students should be in residence two quarters
to be eligible, notwithstanding their advanced
credits.

2. Public Bibliography.

1) The football team has kept up the schol-
   arship record.

Students hoping to be on the baseball team in the regular season and in the base ball team in the spring are looking carefully to their health. The whole summer of the regulation is apparent.

3) The first preliminary for the prizes in the Colleges will come in November.

Student Publications. The only one at present is the WEEKLY. It is conducted

independently. I am just informed that the Cab and Gym is yet definitely planned.

4. Boards & Faculties. Of course the minutes

for details.

The Boardy Student organization, etc.,

1) has defined more carefully some credits related to the contests in public speaking;
2) has permitted plans for a Chicago-Michigan debate provided that no expense is incurred;
3) has taken the same action with reference to a

proposed Chicago-Columbia debate — i.e.,

has called attention to the regulation which requires a guarantee (Register, p.
41, *823, 16). The literal enforcement

of this last regulation will keep us clear of

much disgraceful frauds as some of

the debates and oratorical contests have been in the past.

5. Resuming Announcement. The examiners resume charge of the Announcement. It seems to me that he will accomplish a salutary reform in the procedure in getting them not live full weeks before the preliminary registration.

6. Registration and Statistics

1) The list of students for summer and autumn quarters will be ready for the press by the last of the present week, in the usual place.

2) The autumn registration at present is 1086. The statistical report for the academic year is made after the second term has begun.

3) The method of registration used at the opening of the quarter, so far as matriculating bills is concerned, prove defective because so many incomplete clubs were required. We cannot depend on the accuracy of different students for each, and hence must be careful to perfect the system again before the fall registration.
II. The Graduate Schools.

1. Candidates for degrees at next Convocation.
   The list is not yet ready. Mr. Willis will take the degree of Doctor of Laws. Mr. Chichester has passed the examination — in summer, but not being present Oct. 1. Mr. Fendig is a fermentum (Hist. Phil. Soc.)

2. Courses taken by a very small number of students as follows: Have been already repeated.

3. 

4. 

5. Notice for debate has been announced. The Board has revised the rules, dividing prize between winners.

8. The Graduate Club should have quarters as soon as possible. They have an elaborate program for the year. Have interpreted the President's address.

9. The Graduate Assembly is having a series of big addresses.

I call attention to the suggestion by Dean Talbot, file two reports.
III. The Colleges

The reports of Deans Keny and Gekos are filed herewith. With reference to suggesting Mr. Capps to:
1. I have called the attention of the Examiners to the suggestion of Mr. Capps with reference to the need of an additional section in Ethics and an additional section in Distri.
2. It does not seem to me objectionable for Janins to be in Semirelations, provided
3. I have called the attention of the Examiners to the suggestion in the time schedule at S. 30, and hope it may be possible.
4. As to inaccurate reports of absences, I do not need a better machine, but more care in the party bedroom. I have suggested to Mr. Capps that in each case of discharge, he call the attention of the district to the fact.

The above report with Exhibits attached is respectfully submitted.

October 9th, 1905.

My dear Dr. Hulbert:

We ought to prepare and send out a letter to the chairmen of the various sub-committees of the Committee of One Hundred asking them what they are doing and what they are going to do, offering to help them, for it is not too early to get them to work. Perhaps you will take this up with me as soon as you return from Minnesota. It is particularly important that the meeting in December be a strong one.

Yours very truly,

My dear Mr. Harper:

THE MEETING OF THE ADVISORY COMMITTEE.

The Committee was in session Monday afternoon and evening, December 4, and Tuesday morning and afternoon, December 5. About twenty-five members of the Committee were in attendance. The presence of members of the Faculty at the several sessions was gratifying. With some modifications the enclosed program was followed. The Report of the Old Testament Committee created astonishment at the amount of work accomplished by the department and at the magnitude of its literary output. The statement by Professor Burton took up these recommendations and at the instance that since the publication seemed to be beyond operation or that it was altogether impracticable. The impression of the general opinion was most wholesome, for it revealed plainly the recommendations to be made in the future are not to be seen. The report was read and the several recommendations were to be made. The report was read and the several recommendations were to be made. They wished a vote passed to the effect that information of this sort should be conveyed to the Baptist Press, and to this end they wished the reports which were presented at this session to be printed and sent to the members of the Committee who were not present and also sent in quantities to be distributed in the churches for the enlightenment of the people. Secondly, the opinion was frequently expressed that these problems, which were under consideration by the several Standing Committees, demanded for their ultimate solution the labor of from three to ten years, and that it was a kind of work in which the members of the
THE MEETING OF THE ADVISORY COMMITTEE

The Committee was in session Monday afternoon and evening.

December 5, 1934, twenty-seven minutes after seven o'clock, December 6, 1936, ten minutes before eight o'clock, the Committee met at 9:15 A.M. on the morning of the twenty-seventh session of the twenty-seventh session of the Committee.

The presence of members of the faculty of the School of Public Administration was acknowledged. After some congratulation to the incoming President of the University, the following report of the O.H. of Treatment Committee was read:

The report of the O.H. of Treatment Committee, in the matter of the appointment of the faculty of the School of Public Administration, was approved.

The President of the Association also expressed appreciation of the faculty for their service.

The Committee then adjourned to the next meeting, which will be held on Tuesday, March 4, 1937, at 9:15 A.M.

The President then handed over the reports of the various committees to the Chairmen of the same.
Committee could profitably engage.

From start to finish there was not a jarring note. The presence of Andrews was a great help. He made four or five smooth and telling speeches. The feeling of the Committee towards truly expressed in the minute which was adopted.

The Chairman of the New Testament Committee made a report on which he had evidently expended a large amount of labor and in conclusion offered certain recommendations. At a subsequent session Professor Burton took up these recommendations one by one, and in a very kind and gracious and yet effective way showed in each instance that either the recommendation was already in full operation or that it was altogether impracticable. The impression on the general Committee was most wholesome, for it revealed plainly enough that if recommendations were to be made they must be most carefully pondered.

Every expression by every member of the Committee who talked at all showed that he regarded this as far and away the greatest of theological seminaries, and the one to which all aspiring candidates ought to be recommended by virtue of the facilities and advantages here afforded.

I have written this in the midst of all sorts of turmoil and interruption, but it will at least convey to your mind the truth that the meeting of the Committee was a great success.

Committee on New Testament Synopse.

I have written this to the best of my store of information, and the one to whom the information will be of least concern to know, may the luck of the Committee be a great success.

My dear Dr. Hulbert:

Your suggestion under date of October 25th is exactly the thing I had in mind. A better selection could not have been made. Let us push it for all it is worth. I am sure that with the cooperation of all sides this will be excellent. I propose that you call together the professors whom you name as helping to furnish material, and then the matter all over with them at one time, giving to them copies of the printed questions.

I suggest also that you write also to the chairmen and start them. If you think it desirable I shall be glad to write a letter to the chairmen myself, or, at all events, to have it go out from my office.

I want to thank you for formulating so fully and definitely the extremely intangible suggestion I made to you at our last meeting. Let us push the thing for all it is worth.

Yours very truly,

W. R. Harper
My dear Mr. Herbert:

Your suggestion under date October 8th I am exactly the same I had in mind. A better selection cannot have been made. Let us take the advantage of it and if it is not as I expected I am sure that with the co-operation of all these lines will be excellent.

I bow down that you call together the phonetics whom you name as expert to instruct the material and after they were written fill away with them at once, giving to them copiers of the original manuscript.

I suggest that you write these to the phonetics and ask them to write a letter to the phonetics weekly, or as they return. I want to thank you for your interest and faith.

I have a very important introduction made to you at our last meeting. Let me know the time when it is to be held.

Yours very cordially,

W. R. Herbert

6. The question of Ministerial Supply is a pressing one, and on this question Mathews is better posted than any other Pres. William R. Harper,

University of Chicago.

I shall be glad to receive any suggestions concerning...

My dear Dr. Harper:

What do you say to the following: Ask the Chairman of the following Committees to make elaborate reports, and ask the following Professors to furnish material and render them assistance?

1. Aiding Students - Burton and Hewitt
3. Scandinavian Seminaries - Hulbert
4. Ecclesiastical Sociology - Henderson
5. Ministerial Supply - Mathews

1. Hewitt knows what we are doing in the way of aiding students, and Burton knows what the other seminaries are doing.

2. J. L. Cheney, the Chairman of the Old Testament Committee, told me that he intended to make a somewhat careful study of the Old Testament Department in the foreign universities while he was in Europe this summer. This is my chief reason for putting the Old Testament in the list.

3. Hulbert is already at work on a report on the Scandinavian Seminaries, and on the solution of the Scandinavian problem in his own state.

4. Ecclesiastical Sociology is an unusual discipline in a theological seminary and Clark and Henderson will be specially interested in exploiting it.
