Dear Dean Judson.

In the absence of Dr. Wells I shall have charge of our Course 9 in Pathology, a course which calls for the study of autopsy material by the students. Some of these autopsies it is possible to obtain from various South Side hospitals, but in the past we have relied a good deal on a weekly autopsy which Dr. Wells performed at the County Hospital. It is very desirable that this arrangement be continued. There is this difficulty in the way however, that I am not on the staff of the County Hospital and according to the rules would not be entitled to hold autopsies.

Accordingly, Dr. Wells suggested that I consult you concerning the possibility of an appointment for me as Associate Pathologist on the staff of the Hospital. It is the opinion of Dr. Wells that this might be accomplished by your making such a recommendation to the President of the Board of County Commissioners.

The department, and I personally, will be greatly favored if this can be done.

Very truly yours,

[Signature]

H.T. Rickatto
CHICAGO

October 6, 1949

Dear Dean Johnson,

I am pleased to inform you that I have decided to accept the position of Associate Professor of Medicine at the University of Chicago. The opportunity to join the faculty of this great institution has been a source of great excitement for me.

Regarding the possibility of an appointment as Associate Professor on the faculty of the Hospital, it is my understanding that I may be evaluated by the Board of Governors of the Hospital. I look forward to this opportunity.

Thank you for your consideration. I will be happy to discuss this further.

Very truly yours,

in certain places. I am trying to get therefore a contribution on the part of some one who may be interested in this very important investigation which will enable the trip to be made. $200 will cover the necessary expenses in addition to what can be provided here. I trust that I am not presuming in writing to see if I could secure your help in this matter.

Very truly yours,

Mr. Bryan Lathrop,

Old Colony Building, Chicago.

My dear Mr. Lathrop:-

I am writing in the hope that I may interest you in an important investigation which is now under way by a member of our medical staff. You may have read of the ravages of a certain form of spotted fever in recent years in Montana. The fever is very curious and apparently beyond control. Dr. Ricketts of our Department of Pathology has been making a careful investigation in the life habits of the microbe which causes the disease. He has made interesting and in some ways remarkable progress. We have provided all the available funds to enable him to carry on the investigation, but it now seems necessary for him to visit Montana to secure specimens of the tick which transmits the microbe. It has been the belief of investigators heretofore that the tick could not be found in the winter at all, but Dr. Ricketts is convinced that he will be able to secure some
November 20th, 1906

Mr.獾, Mr. Jardine,

Of Colonial Building, Chicago.

Mr. Jardine:

I am writing in the hope that I may interest you in an important investigation which may have some bearing on the reverse of a certain form of spotted fever in recent years in Montana. The fever in very rarely curable and apparently by any means. Our Department of Bacteriology has been making a careful investigation in the hope of finding a curative agent. We have made considerable progress so far and have brought to bear upon the investigation satisfactorily large numbers of samples from all over Montana. It may be necessary for you to send samples to the bacteriologist in the hope that we may see some improvement of the tick which transmits the disease. It has been suspected that the tick could not be found in the winter at all. Dr. Richette is continuing to work to secure some
in certain places. I am trying to get therefore a contribution on the part of some one who may be interested in this very important investigation which will enable the trip to be made. $200 will cover the necessary expenses in addition to what can be provided here. I trust that I am not presuming in writing to see if I could secure your help in this matter.

Very truly yours,

H. P. Judson

Your letter of November 26th has reached me and I am very sorry that owing to the many obligations which I have assumed, which are large in proportion to my means, I find myself unable to undertake any new ones. I hope you will pardon me, therefore, for not responding as I would like to do to your suggestion in regard to the interesting work of Dr. Ricketts.

Very truly yours,
November 27, 1906.

Henry Pratt Judson, Esq.

University of Chicago,

Chicago.

My dear Mr. Judson:

Yoer letter to Frasor DDS

Your letter of 19th July

has reached us and we are about to reply.

If you desired to have me dictate your words

I shall be glad to do so.

Please remember to bring me to the laboratory

as of Plasco.

Very truly yours,

October 2nd, 1906.

My dear Dr. Hektoen:-

Your favor of the 29th of September is at hand. I understand that Dr. Ricketts needs $431 for his investigation over and above the amount which can be assigned from your departmental appropriation as it now stands. Further, that the Memorial Institute is ready to assign to him $150 for this purpose. This leaves $281 to be provided. I further understand from Dr. Ricketts' letter that in case the Board of Health at Montana obtains the appropriation it needs that this entire sum will not be required. I have arranged to credit your department with $281 for supplies and expense of the investigation on Spotted Fever, to be conducted by Dr. Ricketts. In case the appropriation is made by the Montana Legislature, making it unnecessary to use this entire sum, the balance unused will be covered back to the University.

Very truly yours,

H. P. Judson
My dear Mr. Horraces:

Your letter of the 29th of
September is at hand. I understand that Dr. Ricketts
needs $827 for the investigation over and above the
amount which can be sequestered from your department.
Appropriation as it now stands, therefore, that the
Memorial Institute is ready to supply to him $1,070 for the
purpose. The balance $827 to be prorogued. I further
understand from Dr. Ricketts' letter that in case the
Board of Health at Montana objects to the appropriation
I have written to the Senate with your department with $827 for
support, any expense of the investigation no longer
required to be communicated by Dr. Ricketts. In case the
appropriation is made by the Montana Legislature, making
it unnecessary to use this entire sum, the balance unused
will be conveyed back to the University.

Very truly yours,

H. J. [Handwritten]
Memorial Institute for Infectious Diseases
Chicago

Sep. 29, 1906

Mr. H. P. Judson,
President of University of Chicago,
Chicago

Dear Sir:

I enclose Dr. Rickells' estimate of money necessary to study spotted fever. From this it appears that $431.00 are needed in addition to what the department can do. The estimate appears to me to be a reasonable one and I would recommend that this sum be provided.

By virtue of a special arrangement
the Memorial Institute for Infectious Diseases
stands ready to contribute $150.00 toward Dr. Pickels' work provided the rest of the $431.00 is secured. The institute wishes to pay the money directly to Dr. Pickels in case this proposition proves acceptable which I hope it will.

Yours Very Respectfully,

J. Henloew
Dear Professor Hektoen:

I estimate the cost of animals needed for the study of spotted fever, from this date until the last of March, as $560. Under the plan of study which I have adopted, I hope by that date to complete the investigations as to etiology, characteristics of the microbe including its cultivability, the questions of immunity vaccination and serum therapy, and the pathologic anatomy of the experimental disease.

In any case it is intended to drop this line of study during the latter part of March, and to repair to Montana to take up the study of the tick as the means of transmitting and perpetuating the disease. For this part of the work I am relying on the State of Montana and the residents of the infected districts for financial support.

If the study of the subjects now in hand has not been completed by the latter part of March, it is my intention to take it up again when I return from Montana, and the expense for such further investigation may well be left for later consideration.

I have estimated $250 as the sum of money which the department might reasonably devote to my work, from the appropriation of 1906-1907. The department has, so far, paid $52 for guinea-pigs, and $9 for one monkey. It also owes me $60 for monkeys for which I have paid. Hence of this $250, the department is already under obligations to the extent of $121, leaving $129 which it may yet, with reason, devote to my special work.

The following statement itemizes the estimated expenses:

(next page)
CHICAGO
September 28, 1935

Dear Professor Hessen:

I am pleased to see the opportunity to work with you and to study under your guidance. I have always been interested in the subject of insulin and its synthesis, and I am eager to contribute to the field of hormone research. The work I plan to undertake will be in the area of insulin synthesis and its physiological properties.

The Department has recently increased the research budget, and I am fortunate to be able to undertake a project that I believe will be of significant importance. The project will involve the synthesis of insulin, and I am eager to begin my work as soon as possible.

I have been in contact with Dr. Smith, who has expressed interest in my work, and I am confident that my research will be well-supported by the Department. I am looking forward to working closely with you and to contributing to the field of hormone research.

I am confident that my work will be of significant importance, and I am eager to begin my research as soon as possible. Please let me know if there is anything I can do to assist in the project.

Sincerely,

[Signature]

The following statement summarizes the details of my experience:

[Text]
30 monkeys at $9.  $270.
300 guinea-pigs at 0.50  150.
Sheep and goats  20.
Other small animals  20 to  4.0
One horse  100 or  80.
Total  560.

Less the sum the department may yet expend  129.

Net balance needed  431.

The need of the horse is as yet problematic, yet it cannot be left out of consideration in a complete plan for the work, since the preparation of an antiserum must be one of the things sought for.

In the nature of things the State of Montana should pay the cost of this investigation. Yet it so happens that there are no funds for such purposes, and that the State Board of Health is powerless because of a most insignificant appropriation. A strong movement is on foot to improve the laws and to allow the Board of Health sufficient money for such work, and it is hoped that the legislature which meets in January will relieve the situation. In case this is done the State Board of Health has expressed itself as more than willing to support this work. To await such action is to lose the opportunity of pursuing an original line of work which promises important results. Competitors are ready to enter the field and are in the field now.

Very truly yours,

[Signature]
The need of the future is as yet unpredictable. Yet it cannot be
left out of consideration in a country that has not the means
to make sure of its existence, that of one of the finest resources
of the United States.

In the name of China, the spirit of China, we are mighty men, if
we combine our strength and throw the weight of our power
against the pace of a great incarcerator of mankind.

In that event, we shall see the day and we shall learn the lesson
of humanity to know that the way to freedom is to know how to
fight for our freedom. For much more we are to learn the lesson.

In China, where misery is stamped, with lifeless fetters ironed
on to our feet, where money is our health, and health and money
are the life and the spirit of the people. To work with vigor in
the face of opportunity, to meet the challenge of our age, to
make ourselves worthy of the name of Chinese men, to reach for
the heights, to keep on the right way.

With our hearts to the right, we

Dear President Judson:—

December 31st, 1906.

I returned from Montana last Sunday evening and had to go immediately to Battle Creek, Michigan, because of the sickness of my children, hence my report to you has been delayed for a few days.

Dr. R. T. Ricketts,

The University of Chicago,

Through my experience with the tick in the laboratory I was able to follow out certain reasonable possibilities concerning its probable habits of hibernation. Some of these possibilities were the 29th inst. and am very glad to learn that you exhausted without a great deal of trouble, but at the expense of have been successful in getting the ticks. Send considerable time I settled finally on two probable lines of search which gave the most promise and began work on them. Some Univers- and we will have it attended to. I hope that the city of Montana students were hired to excavate gophers, notices of this expedition may be all that you wish.

Congratulating you, I am,
ticks and offering a reward of 25 cents for each tick delivered in a healthy condition, and the cooperation of the Professor of Biology (Elrod) of the University of Mont.H.P. Judson) secured to carry on the incubation of rather large masses of material which was supposed to contain ticks in a quiescent state, the purpose being to "bring them out". Unfortunately I was sick for a few days and the progress was not as rapid as was desirable. I was obliged to leave before ticks were found but my faith in the methods was rewarded yesterday by the receipt of thirty-six tines, some of which were dead but a very good proportion of which seemed to be viable. They are still dormant. I also received a telegram yesterday saying that twenty-eight more are on the way. The results so far are all that could be asked for.

I presume I should make a report to Mr. Arnett of the expendi-
tures. I shall confer with him about it. They will exceed somewhat the $125 which was granted, but I shall not present the excess—

CHICAGO Jan. 18, 1907.

Acting President Judson,

University of Chicago:

My dear Doctor Judson:

On Tuesday of this week, the 15th, two men came to my laboratory in the Anatomy Building, representing that they were student reporters, one for the Record-Herald, the other for the Tribune. They wanted some information for their papers concerning my work on spotted fever and said a dean had told them about it. I explained to them that I could not give them any information for publication, that it to do so was contrary to the practice and judgement of scientific workers, that to publish anything in a daily paper would do me injury. They asked me where I had published articles, and I refused politely to tell them.

On the following morning a few paragraphs appeared in the Tribune, being based on one or two articles I had written. Several quotations were made from these articles, and the headlines contained the statement that I was able to prevent spotted fever, which is not correct and has never been claimed.

No report appeared in the Record-Herald.

Since this note appeared in the Tribune I have been asked by a number of my colleagues how it happened, and the secretary of the American Medical Association called me up about it.

I report the incident to you believing it worthy of such drastic treatment as the University is able to dispense to the student reporter for the Tribune who was responsible for the appearance of the note, in spite of my protests and explanations.

I did not learn the name of the reporter nor the name of the dean who was reputed to have given them the suggestion.
IIPE University of Chicago

Chicago, Jan. 18, 1953

Dear President Taft,

University of Chicago

I am pleased to hear that you are interested in the work of the Department and student reporters, one of the Student-Staff, the other for the Tribune. They wanted some information for their report of our contribution to the work of the student journalists. I was able to give them some information, but I am not sure if I explained it clearly because I could not give them the full picture of our work. I was not aware of the importance of student journalists, and the importance of student journalists was emphasized by the President. I was able to give them the information they wanted.

On the following morning, a few paragraphs appeared in the Tribune about the meetings of the Student-Staff and the Student-Staff. These articles were more from the perspective of the student journalists, and the interest of the student journalists increased. When I met the President, I was able to explain my idea to him about the work of the student journalists, and he was interested in the work of the student journalists.

The President mentioned the importance of student journalists in his speech, and I was able to understand his point. Since that time, I have been reading a number of articles on the subject, and I have become more interested in the American National Association concerning the work of the student journalists.

I have the opportunity to meet with the American National Association concerning the work of the student journalists, and I am interested in their work. I hope to have the opportunity to meet with other members of the Association and discuss the work of the student journalists.

Sincerely yours,

[Signature]
June 18, 1938

Dear Mr. Ricketts:

The Board of Trustees at the meeting on Tuesday the 16th inst. at my request voted you a leave of absence during the current summer quarter on full pay. This is in recognition of the faithful and very interesting investigations which you have carried on.

Wishing you all success during the summer, I am,

Very truly yours,

H. P. Judson

Mr. H. T. Ricketts,
Missoula, Montana.
August 25, 1903

My dear Dr. Ricketts:-

I remember very vividly obtaining from you currency to the amount of three dollars when we settled up at Gallogly's - and I am shocked to find that I have no recollection of returning it to you. Enclosed find check, with thanks. I am glad to welcome you back from the wilderness.

Very truly yours,

H. P. Judson

Dr. H. T. Ricketts,

La Secretaría de Instrucción Pública y Bellas Artes suplica a Ud. se sirva honrar con su presencia la ceremonia que se efectuará el 24 del actual, a las 10 de la mañana, en el Instituto Bacteriológico Nacional (Popotla, D. F., calle de Gonzalo Sandoval, 4), para descubrir una lápida conmemorativa en el laboratorio del mismo Instituto en que trabajó el Sr. Dr. D. Howard T. Ricketts, distinguido profesor de las Universidades de Chicago y Pennsylvania, que perdió la vida en el curso de sus investigaciones sobre el tabardillo.

México, 17 de junio de 1910.
3 DRUMSHEUGH GARDENS
EDINBURGH

26th May, 1910.

My dear President,

It was most kind of you to send me the memorial card of Professor Howard Taylor Ricketts, which has just reached me, and for which I wish you to accept my best thanks. I had previously learned with deep regret of the loss which not only the University of Chicago, but the world of science in general has sustained by his premature fate. I should like to be allowed to ask the acceptance of my sympathy by yourself and the University in this sorrow.

I lately wrote to your founder, Mr. John D. Rockefeller, suggesting the institution of some fellowships, exactly the converse of the Rhodes scholarships i.e., the establishment of a fund in order to provide scholarships or fellowships for men in this country who desire to prosecute further studies in America. I have sent a lot of my former pupils to America. Hitherto they have gone mostly to Harvard, Hopkins, and Columbia. I have been turning over in my mind the idea of
My dear President,

I was most kind of you to send me your memorial copy

of Professor Howard T. York's lectures, which I am glad to receive.

I wish you to accept my heartiest thanks. I

have previously learned with deep regret of the loss of so

many in the University at Chicago, and the world of science

will be the poorer for the premature death of your esteemed friend.

I hereby invoke to your consideration, Mr. John D. Rockefeller,

the suggestion for the institution of some fellowships, especially in

the engineering and the arts, to enable the advancement of science

in this country. I wish to procure a further advance in

American science. I have seen a few of my former pupils in America,

and I have been with youresteemed Harvard, Rockefeller, and

California.
saying Chicago as another most desirable objective.

With kind regards and many thanks,

Ever sincerely yours,

Probably Dr. George Gibson

May 5, 1910

SECRETARY OF PUBLIC INSTRUCTION,

MEXICO CITY, MEXICO.

The University of Chicago deeply appreciates your sympathy on occasion of the death of Professor Ricketts. He died a hero quite as much as would a soldier on the field of battle.

HARRY PRATT JUDSON
PRESIDENT.
ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a message should order it REPEATED; that is, telegraphed back to the originating office for comparison. For this, one-half the regular rate is charged in addition. It is agreed between the sender of the following message and this Company, that said Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery of any UNREPEATED message, beyond the amount received for sending the same; nor for mistakes or delays in the transmission or delivery, or for non-delivery of any REPEATED message, beyond fifty times the sum received for sending the same, unless specially insured, nor in any case for delays arising from unavoidable interruption in the working of its lines, or for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

Correctness in the transmission of a message to any point on the lines of this Company can be INSURED by contract in writing, stating agreed amount of risk, and payment of premium thereon, at the following rates, in addition to the usual charge for repeated messages, viz. one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance. No employee of the Company is authorized to vary the foregoing.

No responsibility regarding messages attaches to this Company until the same are presented and accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company’s messengers, he acts for that purpose as the agent of the sender.

Messages will be delivered free within the established free delivery limits of the terminal office. For delivery at a greater distance, a special charge will be made to cover the cost of such delivery.

The Company will not be liable for damages or statutory penalties in any case where the claim is not presented in writing within sixty days after the message is filed with the Company for transmission.

ROBERT C. CLOWRY, President and General Manager.

Professor Howard J. Rickits died
in the city of Mexico of typhus which
in. He was investigating Tuesday last.

Henry Van Judson
ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a message should order it REPEATED; that is, telegraphed back to the originating office for comparison. For this, one-half the regular rate is charged in addition. It is agreed between the sender of the following message and this Company, that said Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery of any unrepeated message, beyond the amount received for sending the same; nor for mistakes or delays in the transmission or delivery, or for non-delivery of any repeated message, beyond fifty times the sum received for sending the same, unless specially insured, nor in any case for delays arising from unavoidable interruption in the working of its lines, or for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

Correctness in the transmission of a message to any point on the lines of this Company can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon, at the following rates, in addition to the usual charge for repeated messages, viz, one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance. No employee of the Company is authorized to vary the foregoing.

No responsibility regarding messages attaches to this Company until the same are presented and accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company’s messengers, he acts for that purpose as the agent of the sender.

Messages will be delivered free within the established free delivery limits of the terminal office. For delivery at a greater distance, a special charge will be made to cover the cost of such delivery.

The Company will not be liable for damages or statutory penalties in any case where the claim is not presented in writing within sixty days after the message is filed, with the Company for transmission.

No. 332.

American Consulate General

Mexico, Mexico, June 25th, 1910.

The Honorable

The Secretary of State,

Washington.

Sir:

I have the honor to inform the Department that on the 24th inst., at the invitation of the Secretary of Public Instructions and Belles Artes, personally presented by Dr. Algeli Gevino, Director of the National Bacteriological Institute of Mexico, I attended the services of the Unveiling of a Tablet to the Memory of the late Dr. Howard T. Ricketts, the Tablet having been placed in the Laboratory used by him during the time he was here making investigation looking to the discovery of the Typhus Germ, in which effort he contracted the dread disease from which he died. Dr. Ricketts was a member of the Faculty and was here in the interest of the University of Chicago.

The Services in the Auditorium consisted of an address by the Director of the Institute and by Dr. Russell M. Wilder, who was assisting Dr. Ricketts in his research, after which we repaired to the Laboratory and the American Ambassador

[Signature]
Mr. Arnold Shanklin,
Consul General of the United States,
Mexico City, Mexico.

Dear Sir:-

I have had the honor of receiving from the Director of the Consular Service in the Department of State at Washington a copy of a report dated the 25th of June, relating to the exercises of the 24th day of that month in connection with unveiling the tablet to the memory of the late Howard T. Ricketts. I beg you to present to the Director of the Institute and to the Honorable Ramon Chaves, Sub-secretary of Public Instruction and Fine Arts, an expression of the high appreciation of the University of Chicago for their part in the services. Please add that the University also has been greatly touched and gratified by the attitude of the Mexican officials in all this distressing matter. Such courtesies and deep feeling as they have shown cannot fail to draw closer the bonds of friendship between the two countries, and especially between all those in the two republics interested in the progress of science.

Very truly yours,

H. P. Judson
I have had the honor of receiving from the Director of the
Commission Service in the Department of State at Washington a
copy of a report dated the 15th of June, relating to the occurrence
of the 24th day of that month in connection with maintaining the Capitol
for the memory of the late Honorary Commissioner. I beg you to
present to the Director of the Institute my best wishes.

W. A. Hoffman, Secretary of Public Instruction and Fine Arts.

In expression of the high appreciation of the University of Chicago
for your part in the occasion, please note that the University
may be of service in the educational work of the University by
helping to maintain the two committees and especially the
good fellowship and cooperation of the Allies of the
University.

Very truly yours,

H. R.

Mr. Trevor Arnett,
The University of Chicago.
Mr. F. A. Brown
The University of Chicago
President University of Chicago,
Chicago, Ill.

Dear Sir:-

In the bill of expenses of Dr. H.T. Ricketts, investigation of spotted fever, there is an item as follows:

"Salary for 7 months at $75 per month, by Maris E. Mauer"

The appropriation for this work was released December 1, 1909, and according to the wording of the law had to stop with the death of Dr. Ricketts. The Board of Examiners who pass on all bills presented to the State have asked what months Doctor Mauer was employed, and state that they can allow under the laws of the salary from the first of December up to the date of Dr. Rickett's death in May.

Kindly let me know what months Dr. Mauer was employed for which this bill for $525 is rendered, and whether she was employed from the first of December, 1909, to May 12, 1910, that being the only time that the Board is permitted under the law to allow the expense for.

An early reply will be greatly appreciated, as the Board is anxious to allow every item possible on the Rickett account, but are bound absolutely by law.

Yours truly,

Secretary.
DEPARTMENT OF HEALTH
HELENA
September 19, 1910

President University of Chicago
Chicago, Ill.

Dear Sir:

To the file of expense of Dr. N. H. McKee, in
accordance of attached letter, there is an item as follows:

"Salary for 7 months at $75 per month for Booth of Dr.

The appropriation for this work was released December 1,
1909, and recognizing the work given by the law had to stop
with the death of Dr. McKee. The Board of Examiners
were no on file as personal request of the name hereunder

after whose death Doctor Haver was employed, and place what they

can show under the law of the state from the time of

reception to the date of Dr. McKee's death in July.

Kindly let me know what amount I have

employee for which this file for removed, if

wherever else was employed from the time of December, 1909.

to May 1, 1910, please find the only time the Board

is pertaining under the law to follow the expense for

to any reply will be entirely appropriate as

the Board is anxious to follow every item possible on the

receipt of account, putting found unexplained to law.

Yours truly,

Secretary.
September 27, 1910.

Dr. T. D. Tuttle,
Department of Public Health,
Helena, Montana.

Dear Sir:—

Your favor of the 19th inst. was duly received. I have made an investigation of the subject to which you refer, and am informed that Dr. Maver was employed from the 1st of December, 1909, to May 12, 1910, the date of the death of Dr. Ricketts.

It would, therefore, as I understand, be lawful for the Board to allow the expense for that period. The fact that Dr. Maver continued employment for the rest of the fiscal year in order to aid in closing out the work which Dr. Ricketts had begun I assume from your statement could not be paid from the appropriation in question.

I beg to express appreciation of the courtesy of the Board in the matter. The University deeply feels the loss of Dr. H. T. Ricketts, and considers that his work in Montana, while tending toward the benefit of the people of that state, was in particular a contribution to the field of medical research of no mean importance.

Very truly yours,

H. P. Judson
September 31, 1940

Dr. J. D. Tucker,
Secretary of Public Health,

Dear Sir:

Your letter of the 15th inst., we have just received.

It was made to understand that my name was not employed from the date of December 10th to May 15th. I think the fact of the absence of Dr. Tucker.

If you want presentation of my name the names of family to the Board of Directors, after the expiration of your period of term continue to this year in order to meet these three years.

Yours truly,

H. Tucker
The main portion of these files covers President Harper's Administration and the earlier part of President Judson's, 1906-12.

This blue sheet indicates that the letter to which it is attached belongs in the period 1912-1923 of President Judson's Administration, or in President Burton's Administration, 1923-1925.
The main objective of the paper was to investigate the potential benefits of introducing a new technology into the existing industrial process. The results showed a significant improvement in efficiency and cost savings. The implementation of this technology is expected to lead to a reduction in environmental impact, aligning with the current sustainability goals.
Ellicott, Dec.

January 4—1915

President—Harry Pratt Judson.

Ellicott, Dec.

My dear President—Judson,

As a personal token of my appreciation of the tribute recently paid by the Trustees of the University of Chicago to his memory of my husband, I am sending to you, today, the portrait to be placed in the new memorial laboratory.

May I, through you, express to the Trustees, my deep appreciation of the honor shown him in the naming of this building?
And my great pleasure in
knowing that this work will
be dedicated to his life, every new
go forward in a line so
ideally adapted to his needs
and purposes.

Best greetings for the New Year
to you and to Mrs. Jordan.

Sincerely yours,

[Signature]
Chicago, January 6, 1915

Dear Mrs. Ricketts:-

Your kind favor of the 4th inst. was duly received, and the portrait came yesterday. I need not say how gratified we all are, and how pleased we shall be to have the portrait find a suitable place in the Laboratory. Mr. Jordan has been conferring with me about it, and the Departments concerned have selected a proper spot in the main hallway. Near it we shall place a bronze tablet containing the inscription that has been brought
Deer Mr. Rockefeller:

Your kind letter

of the 6th inst. we only received

and the young lady came yesterday.

I see not yet how gratifying we still are,

and how pleased we still feel to have the

patience find a suitable place in the

department. Mr. Jacobson has been

complaining with me of it, and the

department conscious have selected a

brother boat in the main harbor. We

if we shall place a prime target comfit-
to your attention.

With sincere regards, I am,

Very truly yours,

H.P.J. - L.

Mrs. Myra T. Ricketts,
