My Dear Professor Harper,

You two letters have reached me together here. Thank you for both of them. It will be a great pleasure to me to stay with you. Harper & yourself. Now you are both very kind. I know you will tell me if anything should turn up to the arrangement inexperienced Origin.

As to the degree -- you do me a too great an honor.
My reason for hesitating was (in addition to my great unworthiness for such a cause) that I know I could not (though till today) that the President would ever accept a Fellow of Yale mean to make a D. S. of their University at their Commencement on the 28th inst. and the thought of two such distinctions being given to me. It was in April that I agreed to send a present at the Yale Commencement. If you should decide that it is of you I should decide that it is, I will feel relieved for I feel I will feel relieved for I feel the terribly unworthy of being the President of Chicago. I am my own President and University. It is too great an honor for me. I hope you are well, though. Can you think of you but as having too much work to do. My dear Dr. Harper,

I write to ask if you could allow me to continue my arrival in Chicago till the morning of Tuesday July 4th. My reason is this. In my Moody has arranged to come to his gathering of students
at Northfield. It lasts from Monday June 30 to Monday July 10. I told him of my engagement with you from July 1, and said I could not come unless you could conveniently let me off till the 4th.

There were two reasons (the present at Northfield which I think very special) why I had some thought religious talks with the students of Yale. I paid visits and private conversations with some 30 of them. I felt those seven came more good in my life, so I should like the chance of getting at the large gatherings at Northfield.

But, secondly, Mr. Moore is having me a great deal of experience in calling me to come to Northfield at all. I would not be him.
you cannot let me off the first Sunday of July, would it be
possible for me to get a ticket
June 28th or June 29th? I would
mean a terrible lot of travelling, as I would much prefer
to go to Banff from June 30 to
July 3.

Kindly let me know your
reply to the above? I write
at the beginning of this letter.

not be done, I would be greatly relieved. This is due entirely to my sense of the honor you do me by your kindness, and of my unworthiness to stand in the position. Please do not think of it, my dear Mr. Harper. Who am I that I should be put first in the roll of your doctors of divinity. I have been kept aware, thinking of it. It came at times, I think from it. Put some of mine on mine worthy a let me wait. I beg you to think of this as to agree to it.

18 September 1899.

My dear President Harper:—

I am sure that you are doing all you can to re-inforce the call of the Second Church to Professor George Adam Smith. I have just written to Professor Smith, partly in answer to a letter of his just received and partly by reason of the call to Chicago, saying what seemed fitting in respect to his coming to America. Let us do all we can to keep this man with us. What a charming personality, as well as scholarship, lieth within the man!

It was good to get sight of your face the other morning as we were both going to church. I tried to learn of your conditions the next morning in order to call to pay my respects, but I was unable. The next time that you are here pray let us know that I may extend the freedom of all we can. Remember, too, that if you are here in term time I want you to dine with me in order to meet some of my dear associates.

I am, ever yours,

My dear President:

You may have received a letter of the President of the University of Chicago to the effect that I have been appointed Professor of Political Economy. I am very glad to hear of your appointment to a position of such importance as the presidency of a great university.

I am sure that you will take the same interest in the welfare of the University of Chicago as I have in the welfare of your University.

I am very sorry that you have to leave your post, but I hope that you will be successful in your new position.

I am very happy to hear from you.

Yours very truly,

PROFESSOR G. A. SMITH REVIEWED.

A review of Professor G. A. Smith's "Modern Criticism and the Preaching of the Old Testament" has been prepared by a committee of ministers and elders. The pamphlet is published by Messrs S. W. Partridge & Co. The conclusions of the committee are as follows:

"To avoid obscurity on our position regarding Dr Smith's book, the following summary will make it clear:

1. We consider the teaching of Dr Smith on the revealed character of God in early Israel a manifest perversion of truth.

2. We regard his theory of the patriarchal narrative in Genesis as—
   (a) Destitute of solid evidence;
   (b) Contradicting testimony borne by the writer of the eleventh chapter of Hebrews, and elsewhere in the Bible.

3. We regard the teaching of Dr Smith on the origin and character of the early chapters of Genesis as—
   (a) Unfounded, and (b) directly opposed to the teaching of other parts of Holy Scripture, more especially the writings of Paul and that of the author of the Epistle to the Hebrews.

4. We regard his theory of the origin, character, and late date of the Levitical legislation as—
   (a) Contradicting the testimony which this portion of God's Word itself supplies;
   (b) Contrary to the testimony of Jesus Christ;
   (c) Not by inference, but in terms, contrary to the teaching of a large section of the Epistle to the Hebrews.

5. The theory of Dr Smith as to Messianic prophecy, involves the consequences stated on p. 24.

6. We regard his teaching on inspiration as—
   (a) Contrary to the testimony of Holy Scripture;
   (b) In contradiction to the confessional doctrine of Holy Scripture;
   (c) Entirely opposed to that maintained by all evangelical Churches, and certainly not the doctrine held by the Church of which he is a professor, to break away from its holiest memories, and throw itself into the arms of a scientific, but of an illogical, criticism.

7. His reiterated assertion that Christ has been vested a right or charter to the Church which sanctions many lines on which modern criticism has been conducted, we regard as—
   (a) A claim based on fallacious reasoning;
   (b) Utterly destitute of Scripture warrant;
   (c) Giving a license for fantastical interpretation of Holy Scripture.

The teaching contained in Dr Smith's book has not been the teaching of our Church in the past, nor the sort of criticism it fostered or allowed. We deplore, or, on what it considers good grounds, it is resolved to break away from its holiest memories, and throw itself into the arms, not of a scientific, but of an illogical, criticism.

We hope not.

We believe also that our Church, with God's blessing, can give convincing reasons for the faith it has always cherished much better than any reasons given for the new faith, which seeks to supplant the old. But we deplore that from within the city of the Great King and in the sight of all men, anyone appointed to defend its walls against foreign attack, should, as it seems to us, open its gates to the enemy on grounds so flimsy and unsatisfactory as those contained in this apology for surrender.

Dear Professor [Name],

I am writing to express my deepest sympathy and condolences on the recent loss of my dear friend [Name]. I was shocked and saddened to hear of the news. She was always so kind and thoughtful, and her passing is a great loss to all who knew her.

I understand that you have been deeply affected by her passing as well, and I wanted to reach out to you personally to offer you my support. Please know that you can count on me for anything you may need.

My dear Professor Smith:

I have read with great interest, and at the same time with great disappointment, your letter of December seventeenth. We are greatly disturbed that you cannot be with us, but I can easily see that under the circumstances you are doing the proper thing.

I trust that you will have the greatest possible success, and that the outcome will be what I am sure it must be - a great victory. We will watch the matter from this side of the Atlantic.

We are all very well. I am working now pretty steadily at the commentary and hope to have the first column ready by the first of April. Everything is flourishing. I will write you more fully again.

My dear Professor Smith:-

I am writing to ask whether you would consent to prepare for the Biblical World a paper in which you would tell an ordinary student how to proceed in order to study in some detail the subject, "The Psychology of Prophecy". The student I have in mind would perhaps be the average college or theological student. It would be important not to make the treatment too rigid. The church is full of laymen and ministers who really want to do some good work, but who do not know how to go at it. I am wondering whether you would consent to perform this service. We shall be glad to pay the usual honorarium of $2.00 a page. I have thought that the article should not exceed eight or ten pages.

It is great to have received your letter of

want you certainly to be with us on June 16th for Convocation.

We shall put you down for the same work that you did before,
namely, for a course of lectures on "The Religion of Israel during the
Eighth and Seventh Centuries", and in addition "The Legislative Portions
of Deuteronomy" or "Selections from Jeremiah". This will be fine.

I wish to propose that you will preach for us the five Sun-
days beginning June 19th. Will you consent.

I wish to say that the only place at which you will be per-
mitted to stay while in Chicago is at the house of the President. Mrs.
Harper joins me in wishing most earnestly that you shall be our guest,
as before. We shall not be willing to accept any denial.

You understand that the compensation will be as before --
$1200.00 -- and that you will be with us a little shorter time, namely,
a little over five weeks instead of six full weeks. I hope that this
will be satisfactory.

My Dear President Haigh,

This is just to let you know that I have arranged to leave this about April 15th. I preach in Union Theol. Seminary on the last Sunday of April; lecture twice; go on to Yale for the next Sunday; have a number of lectures to visit friends, and may hope to reach you by the 15th June at the latest.

I am bringing with me a number of new views, on

My dear Professor Smith:

I have received your letter of February 28th and am delighted to get the details. This is splendid. We shall expect you on the 15th of June next.

You have not yet indicated the particular subjects on which you will lecture. The last time you had the Psalms. Will you kindly cable me, and I will pay expense, the topic of your regular course? What particular topic shall it be?

Yours very truly,

Dear Sir:—

On several occasions I have written you asking you to co-operate with me in my plan to make a collection of photographs of the Convocation Orators of the University of Chicago. I hope when you come this time you will bring with you a cabinet photograph of yourself. And if you will also help me by getting a cabinet photograph of the late Henry Drummond I will appreciate the favor greatly. I am also in need of a photograph of Alexander D. Bruce and William Knight but I do not know whether you can help me in this case but if you can I shall be glad to reimburse you for any outlay you may make in this matter.

Yours truly,

Dear Sirs:

On several occasions I have written you saying you to co-operate with me in my plan to make a collection of photographs of the connection of the University of Oxford. I hope now you can come this time you will find the office. I will be there when you come and have a certificate of your arrival. And if you will, I will take you to the University. I will show you the various departments. I am sure you will like to see a photograph of Alexander D'Arcy and William Knight. You will not know whether you can help me in this cause, but if you can, I shall be glad to improve you for any other you may mail me in this matter.

My dear Dr. Smith:

Your letter from India dated February 9th reached me in the hospital. You will be interested to know that I have had a hospital experience this year as well as yourself. I thought that a laboratory course in surgical science and hospital administration would help me perform my duties as president, and so I arranged for a case of appendicitis which proved to be a little more than I had bargained for, but after two weeks in the hospital I am at home again and trust that I shall be able to be on my feet within the next few days. As a matter of fact I had not been well since last April. The entire autumn has been a failure and since the first of February I have been in bed.

Your letter telling me about your plans was very gratefully received. We are more than glad to excuse you from work in Chicago this summer, although I need not tell you that it is a great disappointment to everybody. It

My dear President Harris,

Your telegram of January 11th to Glasgow enquiring if I could
accept Chicago engagement this summer has been forwarded to me here by mail by my mother in
law, lady Buchanan, who tells me the reply by cable giving your new address.

I fear it will not be possible for me to come to Chicago this summer. When I got back to
Scotland in September the meningitis developed by my typhoid
was still so bad, that after a month of medical treatment & Buzziard the nerve specialist in London, forbade me to do any work for the winter & ordered me off to a warm climate.

I chose to come out here, because of the long voyage & because I have 3 brothers & 2 sisters in the country. I am glad to say that the voyage & the project, cold weather climate of the Peruvian home between them wrought a great change in me. I am now nearly free of brain &
My dear Lena, who has suffered is nearly quite better again.

But after having had leave so long from my work at home, I must not venture out to America this summer. I know you will understand, & I trust you will understand with my engagement with you all another time.

It will interest you to know that I have in many places heard of the very good effects of the last course of Hartwell's lectures, by Dr. Calvinist Hall.

This is a wonderful country, the most wonderful in many respects that I have ever seen.
It is a new East to me. The voyage down the Red Sea to along the coast of Arabia (with a sight of Mocha & Aden), and a visit the other day to Peshawar at the mouth of the river leading to Afghanistan and Central Asia, have enabled me to correct a great deal of interesting matter in my article on Ancient Trade & Commerce in the Encyclopaedia Biblica.

My warm greetings to Mr. Keppel. Miss Keppel & your sons. In these absence in my work, my wife joins as heartily as I do,

Dear Mr. President Harper,

I do not think I have ever been more deeply moved by any letter than by your of the 22nd ult. by your bravery and generosity you have warmed my heart. I have thrilled my soul and called you at once and ever since you have been in my thoughts and prayers daily.

Your letter and enclosures

By your kindness and inquiries of heart. That so soon urge your concern you should have remembered me & given yourself the trouble to write me - has gone deep into my heart. I thank you with it all.
I have been eagerly watching for news of you, and at last through a newspaper I have got hold of a fragment which seems to confirm the report.

And the Operation will, I hope, be successful. May it indeed be so.

You cannot value my friendship more than I value yours. You have been an example to me and a help in my work ever since I knew you. And
your confidence in me and your entrusting of work to me was a great inspiration. 'Hocca' has arrived and I will begin to think of it. How you managed it with all the pain from which you were suffering I cannot imagine.

Since September first I have had a bad time. It was found necessary to perform another operation on September 17th and although nearly five weeks have passed I am still on my back. As a matter of fact

Professor George Adam Smith,
Glasgow, Scotland.

My dear Dr. Smith:—

It is exceedingly uncertain whether next summer I shall be living. If I should live I am very anxious to have you come and spend six weeks with you and I cannot express to you the strength of my feeling on this point. On the other hand, if I should be taken away I am much more anxious to have you here to represent the Old Testament Department and help the faculty. In either case will you not come? We will arrange a salary of $1500. for the six weeks including six Sundays. It would be a source of great satisfaction to me if you would let me have "yes" by letter or cable.
My dear Dr. Smith:

I am writing to inform you of my recent decision to leave my position at the University of Edinburgh. Due to personal reasons, I am unable to continue my work as a professor in the field of psychology.

I hope that you can find a suitable replacement. If you require any assistance with the transition, please do not hesitate to contact me.

that operation was only provisional preparatory to another which they will perform as soon as I have recovered sufficient strength. In spite of all this they hold out to me the hope that I may still be able to live a while and do some work. I have never known before what it meant to suffer pain continuously week in and week out, but on this subject you are a past master.

Please give my kind regards to Mrs. Smith and gladden the hearts of all of us here by an affirmative answer to this letter. The work begins June 16th.

My dear President Jackson,

I hear some letters have come to you which have gone astray. I wrote some weeks ago accepting your invitation to give the Convocation address in the 15th of June. Your cable to Glasgow, after I left, was forwarded to me yesterday, and I received it and your telegram yesterday. I am very sorry at the delay I have caused you. I am to be lecturing in Fayette from the 9th to 12th June, and lecturing in New York from the 13th. In the afternoon I shall arrive by 8 o'clock and reach Chicago early on Monday morning by 14th or on.

I am extremely interested in your present situation. I would like to know more about your work and your plans for the future. It seems that you are making good progress. Your work is very important, and I am pleased to see that you are taking it seriously.

I am very pleased to hear that you have been appointed to the position of Department Chairman. This is a significant step in your career, and I am sure that you will do an excellent job. Your work in the Department has been outstanding, and I have no doubt that you will continue to excel in your new position.

I would like to suggest that you consider joining the Union Theological Seminary Board of Directors. This would provide you with an opportunity to contribute to the important work of the Seminary and to have a direct influence on its policies and decisions. I would be happy to discuss this with you further.

Please let me know if there is anything else that I can do to assist you. I am always here to support you in any way that I can.

Sincerely,

I will let you know exactly when I find out about trains from St. Louis to Chicago.

I must leave Chicago earlier on the evening of the 15th or the morning of the 16th for Nashville, Tenn., where I am due to lecture at the Biblical Institute Vanderbilt Union, on the morning of the 17th. Any engagement that lasts till the afternoon of Sunday might suit me. I can leave that 20th. But they tell me I can leave that 20th.

My dear Dr. Smith:—

Your favor from New York is received. I am rejoiced to get in touch with you and to find that you are on the surface of the earth. The letter to which you refer, about the Convocation address, I have never received, and I have been cabling and writing and doing various other things, and had rather come to the conclusion that you had found some hole in the Scotch mountains into which you had crawled, and which you had pulled in after you. I am glad to find, however, that I was mistaken, and that you are a real person in the flesh, and further that you have brought the flesh to this side of the Atlantic. My dear Sir George:

The plans made at the office in New York, subject of course to your approval, are that you are to be the guest of the University of Chicago from and including Thursday, June 6th, to Tuesday, June 11th. It is understood that on Thursday, June 6th, and Friday, June 7th, you will give addresses at the University on the subject of the war. On Tuesday, June 11th, you will give the Convocation Address. Your office expressed a desire that on Monday, June 10th, you should address the ministers of Chicago. I understand that the office in New York will take that up directly with the ministers' association. Of course we shall be glad to be of any service in that matter if desired. It is my thought that on Sunday, June 9th, it would be advisable for you to have a hearing before a different audience from that at the University, in order that the University might not monopolize your time. Dr.

My dear Sir George:

The plans made at the office in New York, subject of conference to your superintendent, are that you will go to the east coast of the University of Chicago from Chicago, June 6th, to Teachery, June 11th. It is understood that no Teachery, June 7th, and Kibby, June 12th, you will give the connection address of your office in the University or the address of the Who.

On Teachery, June 8th, you will give the connection address of your office in the University, or the address of the Who.

I understand that the office in New York will take care of all society with the Ministries, associations, etc., in a matter concerning a matter, but I am afraid that on Sunday, June 16th, it would be impossible for you to have a meeting of the University in order to receive some from the University in your name. We shall be glad to hear from you.

Yours very truly,

My dear President Judson,

Many thanks for your of May 4th which has just reached me. I am delighted at the possibility of a visit to Chicago University between June 8th and 11th. The arrangements you suggest are admirable and I gladly accept them.

I have just received from home a cablegram that my only remaining son has been called to France. He is a subaltern in the Gordon Highlanders, and, I suppose, has gone to join the 1st Battalion of his regiment on that front. If anything should happen to him I fear I would
have to sail for home at once, without coming west. But we must hope for the best.

My eldest daughter is with me, acting as my secretary, and she would accompany me to Chicago. I am very eager to see Mrs. Judson and yourself and my other old friends in Chicago University, and I wish I could speak of my visit with absolute certainty, but I know you will appreciate my position. Should anything happen to one or the other I would not like to leave my wife alone longer than I could help.

In these circumstances would it not be better for you to arrange for...
