President Harper

Dr. Harper and Mrs. Alice Freeman Palmer desire an opportunity to talk about forming a Students’ Aid Society in connection with the Chicago University, and have requested that Mrs. Glessner and I ask a few representative people to our house for that purpose, on Thursday evening next, April 27th, at eight o’clock.

No subscription will be asked at this meeting.

May we have the pleasure of seeing you and Mrs. Harper at that time?

Very sincerely yours,

J. J. Glessner

At the meeting of the executive board, it was decided that Mr. Walker should chair the club committee for the current year. The committee should meet to discuss how to increase the membership. I hope to see you soon.

To those who go to the University this summer.

Now since the Spirit and fervor of the University, itself, has inspired us to take this initiative here, we ask you to join us in your support. We thought that you might start us in the work by granting to one scholarship for 1900-1901, provided that we raise a second. We ought to make a good beginning and start as if we meant to do something. If you cannot do this much, it would still be a great incentive to have a word from you at the outset in our visits to people whom we hope to interest in the University.

Permit me to say that the scheme of trying to unite U.C. clubs in the various cities is for reaching through personal agency it takes hold if those who would sit wishing left out, and through those token held if it hangs on its blessing and for realizing the dream of the U.C. as the great humanizer and uplifter of life in the middle West and South; as the institution corresponding to the Roman Church in the middle ages, with its traveling scholars and missionaries, but far more wholesome and more democratic.

Very truly,

Dear Doctor Harper:

Your kind favor of a recent date stating that you will try and arrange for the tuition fee for one of our teachers also stating other conditions which must be met by the recipient of your generosity, has been received and duly noted.

In reply I beg you to accept our sincere thanks for the same. I assure you that this will be a great help to us as our teachers who have taken Summer School there have been greatly benefited. Please send me a catalog of the Summer School to my address at Snow Hill, as I will learn from them this week.

Again thanking you for your kindness and congratulating you on your recovery with the hope that you may continue good health.

I beg to remain truly,

MEMORANDUM OF BUSINESS

Transacted by The Faculty of the Junior College at meeting of May 9th, 1892.

To The Honorable the Board of Trustees

The committee on Scholarships offered two recommendations which by vote were referred with recommendation to the Board of Trustees: viz. That the phraseology of the Register p. 222 be so changed as to read: under "Scholarships"

1. Twelve Scholarships are assigned to students who have completed the work of an Academic College and have stood highest in the various departments, whose work forms a part of the curriculum of the Academic Colleges. A scholarship is thus assigned, for example, to the student who has done the best work in Latin, another to the student who has done the best work in Mathematics, and so on. These scholarships yield, in each case, a sum equal to the University fees for three quarters.

2. It is understood that students receiving these scholarships shall be expected to render assistance in the Libraries, Laboratories, and Museums, in amount to be determined by the Board of Libraries, Laboratories, and Museums, and that the names of such students shall be announced from time to time in the proper places as holders of Academic and University scholarships.

President Hopkins,

Dear Sir:—I have so far recovered from my recent illness as to be able to write this letter. My physician, however, requires me to remain indoors for a week or so, and I must obey his orders.

Allow me to thank you sincerely for your kind message to me during my illness, and for your offer of assistance. I assure you they were kindly appreciated.

Your kindness emboldens me to make a request to you of the Board of Trustees. I am aware that the request is very unusual, but it seems to me that my case is unusual. My sickness has occasioned a debt of more than $150. I have given my last fellowship money in part payment of this. My tuition remains unpaid. I have no money with which to meet these expenses as I may be able to borrow. I wonder if the Board under the circumstances could not do the unusual thing to meet my bill for this quarter. If this request is impossible, you will say so.

My Dear Friend:

Knowing the lack of facilities for producing work in the Colleges of the South, and feeling that the University of Chicago, from its geographical position and complete equipment, is the best place for Southern students to go for graduate work, the Southern Students in residence here have formed an association looking toward this end.

It is our purpose (1) by our organization to assure students from the South of a cordial welcome from fifty students from their own section who will gladly assist them to find pleasant and useful associates at home and to make pleasant acquaintances; (2) to assist our members to remain here till their work is completed, by procuring for them financial and other aid; (3) to assist them when their work is completed, return to positions in the South worthy of their best efforts, and
by mutual acquaintance and fellowship here may be the foundation of hearty cooperation in future work.

We feel that it ought to be made possible for every student to remain in school till his work is finished, and when his work is finished there ought be a place for him in the founding he came. With these ends in view, our association will act as a bureau of gratuitous information for Southern Institutions seeking teachers, Southern Churches seeking pastors, and for our own members seeking positions in the South. We kindly invite correspondence.

Sincerely yours,

My dear Miss Dye—

Upon my return from Europe, I find my letter of May 23rd. I can assure you that we appreciate very much indeed the good spirit of the University of Chicago Club of Indianapolis, and we will do everything we can to assist you in carrying out your plans. We have already given more than one scholarship a year to Indianapolis people, and we shall be glad to put into your hands a scholarship provided you raise a second. Anything that we can do to assist you in this matter will gladly be done. As a matter of fact, there is nothing more important than finding assistance for worthy students.

I have received your letter of Jan. 5 and am glad to hear from you. I find myself in a difficult position owing to the fact that I have not yet received any reply to the request for detailed information. I am therefore writing to renew the request for information about the status of the translation project. I understand that you have been working on the translation for some time and I am hopeful that you will be able to complete it in the near future.

I would like to express my appreciation for your efforts in this matter and to assure you that I will do everything in my power to assist you in any way possible. I hope that we can come to an agreement on this matter soon.

Thank you for your continued efforts in this matter.

Dear Madam:

Replying to your letter of October twenty-sixth, to President Harper, I enclose a copy of our special circular of information regarding assistance to students, which, no doubt, will give you much of the information you desire. I also have available a report of the money earned by students, with the help of the employment bureau, during the months of October, November and December, 1899.

This, being for a specific period, will serve as a students' type. There were ninety-six registered for work, and of these fifty-two were given employment. The total amount earned was, approximately, eighteen hundred dollars. Some of the ways of earning money are indicated as follows, the varieties of work being given just as they happen to be on the report, which was arranged alphabetically by names:

The Employment Bureau tells me that the number of fields of em-
Paper route, been in caring for furnace, acts a much more important part of the summer.

Selling tickets, as clerk, the three months of the spring. Waiting on table, as stenographer, the autumn.

Watchman, distributing circulars, quoted.

Bookkeeper for the University of Chicago, anxious to extend every possible assistance to students who are working their way through college. In case you desire further information, after reading the circular, I shall be happy to give you other material, if I can.

Agency for tailor, Caring for pony, tutoring at the Chicago Peace Jubilee. Truly yours.

The highest amount earned in one connection, by an individual, was eighty-four dollars, by a student who kept a paper-stand. One made fifty dollars at typewriting; one seventy-two dollars by clerking in a florist's shop; one seventy-two dollars doing house-work; two brothers made ninety dollars in watching the turnstile at the suburban railway station.

The Manager of the Students' Employment Bureau tells me that the number of fields of em-
Employment open has been increased, and he expects a much larger report financially for the three months of the present autumn quarter than that of the autumn quarter of the year ago from which I have quoted.

In general, you understand that the University of Chicago is anxious to extend every possible assistance to students who are working their way through college. In case you desire further information, after reading the circular, I shall be happy to give you other material, if I can. Very truly yours,

The Editor of The Century Magazine has accepted an article by me on Working One's Way through College, dealing with self-help among students of several of the leading universities and colleges. It is now thought desirable to widen the scope of the investigation so that the article may give a more comprehensive view of the subject.

With this in view I wish to ascertain what opportunities your institution has to offer its students in the way of self-support, either in whole or in part.

I shall be much obliged if your interest in this matter shall prompt you to answer the accompanying questions at as early a date as may be convenient. I inclose a stamped envelop, and, with thanks in advance for such information as you may kindly send, I am

My dear Child,—

I have just arrived here after leaving the Elms after a very long absence and will now write to you. I have just heard from our last letter that you are in good health. I sent one or two letters in the spring. The case of Mr. DeWitt reminds me that several Colleges have peculiar rules. It seems that Yale offers $110 of the first graduate year's tuition to all the rest, so if a boy who has been educated there in a year and a half then the next year he will not be entitled to the rest of his tuition. But Dr. Osgood, the President of Western College, Toledo, Ohio, said the same thing. I hope you are well. Your case is not so bad as it is written here, but, of course, you must take advantage of the offer if you can. There are two excellent schools in the west, but the general trinity in which Yale acts is evidently quite general and quite4
on his application for the fellowship again next year. I think he is worthy of it, though he will not enter unless the hundred of start graduate with full late, after his mental habits has followed other either a good article. He is a man I might honor, and should be encouraged.

Dread of Trust, Mr. C. sends me word Ely has made a heavy bid for him. She is going to Madison this year, and will apply for a fellowship with me next year. This releases a free fellowship.

White, I shall. Prof. Colly is a brother-in-law of T. R. Brown, was a classmate of Whitman of Brown (87). Seems to be a good fellow, but entirely an autumn graduate in education. The three-month quarter in preparation seems like a waste of time. Colly invites me to come and preach and teach. I am not inclined to become a preacher. But the entire ignorance of his intellect and any educational problem. That is the trouble with all the rest of them, but without realizing their ignorance they still nothing better than I. Speak ahead regardless of what their action means. Mr. Colly prefers to me, and out of hand of the city. U.S. and some to take both financial and educational direction. I hope you hear them next. You are entitled to it often. I suppose you are sailing this year.

My dear Dr. Small:

I have just received your letter of June 30th from Mount Pleasant, N.H. I imagine you are having a good time. I note what you say concerning Yale. This is of course quite serious. Will you not investigate the matter further and let us see exactly what the facts are. I note what you say concerning Brewster and Dowd, and also concerning White. I have read with interest Mr. Colby's proposition as to absorption. Tell me when you are coming back and what is in the future.

Dear Sir:

I send you a circular showing how we can assist to those who are trying to pay their way through the University. We have an employment bureau in charge of Mr. A. W. Hadsan.

While we cannot promise anything before your arrival at the University, yet if you are able to do well what you indicate in your letter, and have the willing spirit which the letter seems to indicate, you ought to have little trouble in making your way, as others with the same spirit have done. I have mentioned your name and your ability as a stenographer to one who is interested in a typewriting office connected with the University and who may write to you later.

I wish to express my great concern about the situation of Messrs. Tannenbaum of London and Mr. Johnson.

I have heard about the delays and difficulties they have encountered. I understand that they have been trying to secure American citizenship for their children for over a year. I have also heard that they have been refused a passport to return to the United States.

I believe that it is important for them to return to the United States. I am aware of the challenges they face, but I think that the American government should make every effort to facilitate their return.

I have written to the American embassy in Geneva, but I have not received a response. I hope that you can provide them with the necessary assistance.

After a long study of the situation relating to student employment, the Trustees have appointed a Board and have asked you to serve on that Board. The work is understood to be a philanthropic work similar to that of the Settlement Board. You, with others, were selected because it was believed that you had in your heart a warm place for the student who needed help in securing his education. My dear Mr. Salisbury:—

This is a memorandum of the management of student service.

Mr. L. C. Wilkins is an unclassified student with three quarters of residence in which he took six courses with conditions or failures in four of them. In the present quarter he took no steps toward discharging his tuition fees, and therefore, though attending courses he was not properly registered. On March 3rd, just before the Illinois meet, his application for student service was received at the Information Office. He was permitted to sign a note for his tuition fee for the current quarter, appointed at once to student service for the remainder of this quarter, and for next quarter, the intention being that in this time he should work out the amount of his note. In the proceeding every one of the six regulations covering student service, which are printed on the application blank, was broken.

It is interesting to note that the application never went to the Registrar or any other administrative officer of the University. I was informed by the student in charge of the student service that there was nothing unusual about this.

Sincerely yours,

Dear President Judson:

I have received the "memorandum of the management of Student Service" sent by dean Lovett to dean Salisbury, and referring to the case of L.G. Wilkins.

Mr. Wilkins' appointment on the service came about in this way. Mr. Jennison, the head of the Information Office having vacancies in the service, appointed Mr. Wilkins without my knowledge. He did however report the appointment to me. I ratified and confirmed his action on these grounds.

1. I supposed and thought I had good reason to suppose, that Wilkins had regained his standing, and was therefore eligible.

2. Mr. Jennison had set him to work, had arranged at the Registrar's Office for his tuition, and I was unwilling to humiliate Mr. Jennison.

3. I wished also to encourage Wilkins and if possible retain him. I do not hesitate to acknowledge that other things being equal, I am glad to give a man a chance, who can run 100 yards in 10 seconds, or vault 12 feet, considering him by just so much more of a man.

Mr Lovett says "It is interesting to note that the application never went to the Registrar or any other administrative officer of the University. I was informed by the student in charge of the student service that there was nothing unusual about this." Mr. Jennison tells me he made no such statement to Mr. Lovett, nor anything that could possibly be tortured into such a statement. He assures me on the other hand that this case stands entirely alone.
I have reported the recommendation of the Management of Student Services' report to the Board to each
department, and expressing to the care of J. M. Williams.

J. M. Williams appointment on the revising team report to the
Board of Directors. My request for the appointment Office
accordance with the opinion, of Williams, with the
revising team of the appointment of the.

I have heard my thoughts and have begun to prepare,

for Williams and I am planning the training and our planned activities.

It is important for the training and the training activities.

I am arranged to be accompanied with Williams, and the planning's carrying

and I do not plan to implement any further plans.

In order to give a clear statement can any 100 percent to

to act on the urgent. It is clear, the administrative task to keep on the

the problem with the statement to take the Office.

In the event that we do not have any information to the Board, but a statement

In accordance with the Office and can take some immediate action.

To determine on the right form that it is some immediate action.
What Mr. Jennison told Mr. Lovett was that students are often appointed on the service after the quarter opens.

I will illustrate. I made these appointments for next quarter this morning. Although our office has tried to get the recommendations of the several departments all in we have not been able to do so. Mr. Jones has not sent in the list for the choir. Mr. Blanchard has not sent in nominations for the band. Mr. Smith has not completed his list for the Chemical laboratory. The School of Education has sent in but half the number it is entitled to. Many of these appointments cannot, in the nature of the case, be made till after the opening of the quarter. And this is what Mr. Jennison told Mr. Lovett there was nothing unusual about.

These statements so far cover the charge about the breaking of the six regulations covering student service that I will not waste your time showing how baseless this statement is.

I am glad to have the work of my office criticised and try to improve the administration when the criticism is just. I do not at all resent just strictures, but welcome them.

In this case however Mr. Lovett has overstepped the limits.

Yours truly,

Ref: My Reference No. X. I have the following information and
after submitting the reports with the General Orders
I will follow-up. I have the following information for your
consideration. According to information I have, the
intelligence on the German occupiers will be an important
data point. However, it is important to note that the
official German documents will be necessary to finalize.

On my previous visit to the Oder River area, I
encountered a German General who was present at the
conference. He mentioned that the German occupation
forces in the area were being relocated to the east.

In light of these developments, I request that you
consider the following:

1. The need for additional intelligence on the
   German forces in the area.
2. The importance of coordinating with the
   Allied forces.
3. The potential for further operations in the
   area.

Please provide your recommendations.

Yours sincerely,

Your favor of the 8th inst. to President Harper is handed to me on account of the President's illness. I have ordered sent to you a circular which will explain itself. Many of our young men are earning their own way in whole or in part. It is seldom advisable for one to come here from a distance unless he has enough laid by to take care of him for at least several months. By the expiry of that time, one is usually able to find employment of some sort. I shall be glad to give you further information.

I have been asked to say on account of the President's illness, that I have offered a similarTECHNICAL
method of caring for the same, which is now in a state of
perfect. It is explained separately for one to come home from
the island through the banks. By the expiration of that time, one to

President Harry Pratt Judson,
University of Chicago,

Dear Sir,

It gave me great pleasure to receive your letter stating that Mr. F. J. Heiner would not be required to pay the tuition charges at the University. Mr. Heiner will certainly appreciate the favor, and there is no doubt that he will make the most earnest effort to maintain high scholarship. Please accept my own thanks for what you have done to make my work in the public schools a success.

Very respectfully yours,

John B. Curtis.

Dear Mr. Curtis:

President Judson desires me to say that he will care for the tuition of Frank H. Heiner. He has heard favorably from the young man's principal, Mr. Spencer H. Smith. Will you, therefore, direct Mr. Heiner to call at this office for a voucher when he has completed his registration, October 1st. The President grants remission of tuition on the understanding that satisfactory scholastic record must be maintained.

Yours very truly,

President Harry Pratt Judson,
University of Chicago,

Dear Sir,

Sometime ago, I took the liberty of writing to you in the hope of securing a scholarship for a blind pupil of mine, Mr. Frank J. Heiner. Judging from your past favors, I do not doubt that you have given this matter all the attention you could spare; but perhaps you will pardon my anxiety in writing to you again.

If Mr. Heiner is unable to receive the scholarship, he will be seriously handicapped in his college work. The situation is the same with all blind students. A reader must be employed and remunerated; and costly books in raised print must be purchased. It is a very great advantage to be in a position to apply to these objects the money saved by the remission of tuition fees.

Hoping that the University may be able to act favorably on the request I have made, and assuring you that your help to our students during many years is still deeply appreciated, I remain,

Very respectfully yours,

John B. Curtis.
Dear Sir,

Some time ago I took the liberty of writing to you in the hope of securing a capable assistant for a light duty of mine. Mr. Hester, judging from your recent notice, I do not guess that you have renewed the matter with the attention you formerly gave; but perhaps you will pardon my excuse for writing to you again.

If Mr. Hester is unable to receive the assistant, I will be especially pleased to have the college work brought to my attention. The position is the same with all other assistants. A letter must be employed and remittance of any cost of books in advance must be made. I am a very great signatory to be in a position to apply to these assistants the money saved on the remittance of tuition fees.

Hoping that the university may be able to act favorably on the request I have made, and assuming you that your help to our university

My dear Mr. Robertson:

In the matter of a scholarship for Mr. Frank J. Heiner, 4401 Indiana Ave., I beg to say that while Mr. Heiner does not take first rank in some of his subjects, in others he does admirably.

Considering his affliction, it seems to me that whatever encouragement may be given him will be fully appreciated both by himself and by his friends as well as by his teachers.

President Harry Pratt Judson,
University of Chicago,

Dear Sir,

I am taking the liberty of writing to you, as I have done in the past, to ask a scholarship for one of our blind students. In the last ten years, the University has favored three of our students in this way, and this has been deeply appreciated by all friends of the blind connected with our public school work. We are hoping that we have not exhausted the kindness of the University, and that another case may be provided for this year.

Mr. Frank J. Heiner, 4401 Indiana Avenue, is now a student in the Wendell Phillips High School, from which he will be graduated in June. He lost his sight in early childhood. His work in the elementary and high school grades has been of a high order. It would be a great privilege for him to have a university course, and I therefore urge most respectfully that his application for a scholarship be considered. The expenses of a blind student are very heavy, as so much must be paid out for reading and help in other forms.

Very respectfully yours,

John B. Curtis.

Dear Sir,

I am taking the liberty of writing to you as I have gone in the best to seek a scholarship for one of our Piling Students. In the past few years, the University and the keen interest of our students in the way we've been able to support these students with our Piling work. We are hoping that we may be able to support the Piling Company with our Piling school work. We have not expected the kindness of the University and that we have seen with much appreciation for this year.

Mr. Frank J. Hines, Assistant to the Inspector in charge of the Western Illinois High School, from whom we will be graduated in June. He has risen to a position of great influence. It would be a great privilege for him to have a University course and it therefore a matter of great satisfaction that he will be able to attend and help in other years.
