My dear Sir:-

I wish to extend a very cordial welcome on behalf of the University of Chicago to the new work to which we are informed you have consented to give yourself. I think I may assure you that there has always been a good feeling between the two Universities in Chicago, and I am confident that this good feeling will continue. I look forward with great pleasure to meeting you and having our forces here strengthened by your presence.

I have been told by George F. Jones, brother of the former President of Northwestern University, that his name has been mentioned for the work in Port Deposit. I think I can assure you from personal knowledge of his career that if appointed he would make a successful administrative officer. His experience, as well as his education should fit him for a position of high responsibility.

Yours very truly,

W. R. Harper

none the less because the report that I have accepted the presidency
of Northwestern University is incorrect. Were I coming to Chicago,
I should hope to have the advantage of your advice and assistance.
I shall be glad to present your letter to the Trustees of the Institute,
if a vacancy in the directorship takes place.

Dear President Harper,--

Int'l. University
Relations

I write to consult you with reference to a matter of inter-scholastic courtesy. We have been engaged in the course of the last few days in making up mailing lists for the announcements of courses to be given in our Graduate School during the academic year 1897-98. These announcements have hitherto been sent to instructors and students in those Universities which do not make a feature of Graduate work. We have not sent any to the University of Chicago, for we have not wished to appear as entering at all into competition. Does it not seem desirable, however, that the Graduate students of our American Universities should be encouraged to move more freely from University to University, much as is done in the Universities of Germany? That the need of some such system is becoming felt among the students themselves is sufficiently evinced by the publication of the Graduate Handbook, which has been recently undertaken by the Federation of Graduate Clubs. We feel, therefore, that our announcements might with propriety be put into the hands of your students, and it would give us great pleasure to see in like manner the announcements of your Graduate work in the hands of our Graduate students, and of our present Senior Class.

May I ask for an early expression of your views on this point?

Very sincerely yours,

C. C. Harrison
