Mr. Ward  
to  
William Harper

My dear Sir.

Mr. Ward,  
formerly Mr. Conley  
of The Lake Shoe  
Drm. is arranging  
for a course of  
lectures, or rather  
talks, to be given  
in his drawing-  
room, about the  
month of June

What  
shall

by Frank Sanborn  
of Concord  
Massachusetts.

Mr Sanborn is  
the last of that  
School of Philosophers  
which included  
Hawthorne, Emerson,  
Thoreau & Alcott,  
and gives us  
the rare opportunity  
of listening to  
Personal Reminisc.

ences of the  
grand men of  
those early New  
England days.

I am assisting  
Mr Ward in preparing  
a list of those  
whom we think  
would like to take  
advantage of this  
course and beg to  
ask the favor of  
a list among  
your Professors

and Instructors. to  
whom invitations to  
the course may be  
advisedly sent.

Sincerely hoping  
that I am not over-  
presumptuous in  
making this request  
I am, believe me

Very truly yours

My dear Dr. Harper:--

Many of us are very much concerned lest what seems to us the persecution of Colonel Parker should result in his leaving Chicago. This, we feel, would be a public calamity, and a severe blow to the educational movement which is now --as many of us think-- much more active than it is in the East. I know some results of Colonel Parker's training, which I consider practical and admirable.

I know you are interested in his work, but cannot resist the temptation to say this word.

Of course, this note requires no answer.

Very truly yours,

Sydia Avery Coouley Ward
