MEMORIAL
of Members of the Faculties and Officers of Administration
of The University of Chicago

At a meeting, held Wednesday, March 21, 1917, of Members of the Faculties and Officers of Administration of the University of Chicago, called by some of these members, to consider practicable measures of military and scientific preparation in the present crisis of the country, the following memorial was passed, and, signed by its supporters, ordered transmitted to the President of the United States, the Secretary of War, and the Senators and Representatives of the State of Illinois.

We express our conviction that, in the present state of the world, the security and defense of the country would be best assured by an adequate system of universal military training, combined with universal preparation for citizenship and for military, industrial or scientific service in case of war.

We also express our conviction that the United States of America can best further the cause of world-peace, international justice and free development of peoples, if it speaks as a country in a state of complete preparedness for defense.

MEMORIAL

On Memorial of the Faculty and Officers of Administration
of the University of Chicago

At a meeting held Wednesday, March 16, 1919, of Members of the
Faculty and Officers of Administration of the University of Chicago,
attended by some of those members, to consider the tragic announcement of
the death of a member of the community, the following memorial was presented and adopted by the
unanimous order of the President of the United States,
The Secretary of War, and the Senators and Representatives of the
State of Illinois,

We express our conviction that in the present state of the world,
the security and defense of the community must be maintained by an
army of trained soldiers, and in accordance with universal
principle for citizenship and for military, indispensable to national
service in case of war.

We also express our conviction that the United States of America
are bound to the cause of world peace, international justice, and
the development of peoples, if it appear as a community in a state of
complete preparedness for defense.

Chicago, September 25, 1918

My dear Sir:

It has perhaps been brought to your attention that the University of Chicago has been called upon by the government to give instruction to soldiers in surveying and topographical draughtsmanship. As the University itself has previously had occasion to do but little of this work, we are finding it extremely difficult to secure the necessary amount of competent instruction. It has been suggested that possibly we could secure help from some of your staff, and I trust that you may be willing to consider favorably the inconvenience to which you might be put by permitting the War Department to make use of your men and materials to such an extent as you could afford to do. I am sure that you would be rendering a patriotic duty of very great importance.
September 23, 1978

My dear Sir:

I have been asked to call your attention to the fact that the University of Chicago has been called upon by the government to give information to authorities in connection with the Soviet espionage group. We have been asked for information that we have been unable to provide. We have been asked for information that we have been unable to provide. We have been asked for information that we have been unable to provide. We have been asked for information that we have been unable to provide.

I am writing to inform you of the necessity of a complete and accurate report. I am sure that you will be willing to cooperate. I am sure that you will be willing to cooperate. I am sure that you will be willing to cooperate. I am sure that you will be willing to cooperate. I am sure that you will be willing to cooperate. I am sure that you will be willing to cooperate. I am sure that you will be willing to cooperate. I am sure that you will be willing to cooperate. I am sure that you will be willing to cooperate. I am sure that you will be willing to cooperate.
Two of your assistant engineers and two of your instrument men could be used to very great advantage each afternoon in the week except Saturday in field instruction. I am not aware of the exact financial arrangements upon which your men are employed, but I should think that the University might hope to make payments on a pro rata basis for the time actually given. We should certainly be very glad to consider such a plan, and I hope we should find it possible to meet any necessary charges on this basis.

I am told that there is some question of the civil service regulations as applied to the use of the gentlemen mentioned. I suppose that you may perhaps require to secure a ruling on the matter from the civil service authorities, but I venture to enclose a letter from Professor Freund of the University of Chicago Law School, who is an expert on such matters. Certainly I should hope that in view of the purely disinterested and patriotic character of the service the civil service authorities would not hesitate to grant permission for the proposed arrangement.

Yours very truly,

J.R.A. - L.

Superintendent J. F. Foster
South Park Commissioners
Administration Building, Washington Park, Chicago
I am very grateful for the opportunity to meet and discuss matters of public concern.

I am pleased to share my views on some measures of the city service registration as applied to the new law of the government.

I understand that you may have been informed of a notice to all the city service authorities.

I have received a letter from the city service authority of the U.S. and an order of the Superior Court in Chicago, New York, which is an order of the service department of the city service registration and appointment of the service.

The city service registration makes necessary to have an office for the purposes of the city.

Yours very truly.

[Signature]

John L. A. --

Superintendent 4th Division
South Park Commission

Assistant Professor, "Weed" Foundation, Dept. of Agriculture
Dean Angell:

Suggest Mr. Angell send letter (by special messenger) to Supt. Foster, So. Park Commissioners' Administration Bld. (Washington Park) urging him to promote arrangement, provisionally agreed on by his Engineer, Mr. White, and Professor Dickson, this morning, as follows:

The two assistant engineers and two instrument men for assistants be assigned to give field instruction at the University in surveying each afternoon (except Saturday), making use of the So. Park Commissioners' surveying instruments. The University agrees to pay to the So. Park Commissioners pro rata of the salary now received by said employees.

The only possible hitch was the possibility of some violation of the Civil Service rules. After looking over the law, Professor E. Freund of the Law School finds that the proposed agreement will not violate the Civil Service law — see enclosed letter from Professor Freund.

Respt. L. Dreessen
Dear Smitty,

While the news of the latest event in our city has been overwhelming, I wanted to reach out to you personally. The situation has taken a turn for the worse, and I am concerned about your safety.

As I understand, the local authorities have taken measures to ensure our community's well-being. However, I urge you to stay informed and follow the guidelines provided by the government.

If you need any assistance or have concerns, please do not hesitate to reach out. We are all in this together.

Sincerely,

[Signature]

P.S. The city is on alert, and everyone is encouraged to stay indoors.
CHICAGO

Friday Sep 28.

To Mr. Angel:

The impressions formed on Tuesday were fully confirmed by a long interview today. The most satisfactory outside men (measured both from technical and university standards) for us to employ now to make certain of force sufficient to teach Surveying (incl. topographical mapping) to 300 men are:

G. D. Tompkins, Asst. Engineer
T. F. Whallon

both Armour Institute men of several years subsequent
both Armour Institute men of several years subsequent
practical experience in present positions and

situation will be serious for us.

Hence I recommend that you write at once
to Mr. T. C. Phillips, Engineer of Surveys, City Hall,
to Mr. T. C. Phillips, Engineer of Surveys, City Hall,
that he request the Board which employs these
that he request the Board which employs these
two men to permit them to be engaged in
the instruction in Surveying of our army students each afternoon Monday to Friday will begin Oct. 7th, 1915, from Oct. 2 to about Dec. 15, with the agreement the University will pay the Board on the basis of their rates, which are $4.00 and $3.84 per half-day, the same to cover the use of two transit's and one level, as arranged with Mr. Phillips.

PS. Mr. Phillips is a very high grade man (grad. of U. L. 1880 Engineering) in a position fully equal to our better professors, willing to come out here—several times and help us out in several important ways (partly from patriotism & partly since his wife is a U.C. grad.—as I learned at last moment).
Dear Sir:

The University of Chicago has been commissioned by the War Department to train 1500 student soldiers for immediate service. A large number of these men must be trained in surveying of an elementary kind. Professor Dickson of this institution has been in consultation with you about the matter, and I am sure you understand the general situation.

I am writing to ask your cooperation in requesting the Board which employs Mr. G. D. Tompkins and Mr. T. F. Whallon to permit them to be engaged for this Army work. We should like them each afternoon from Monday to Friday inclusive from October 2 to about December 15. We should expect to pay the Board on the basis of their "rates," which I understand are substantially $4.80 and $3.84 per half-day respectively. I understand that if the
Ottawa, September 5, 1918

Dear Sir:

The University of Ottawa has been commissioned by the War Department to train 1500 student officers in the War. It is necessary that a large number of these men must be ready to depart in a few weeks. Instructions have been given to the training school to begin in cooperation with you. I am sure you understand the gravity of the situation.

We must begin to work with haste to be ready for these men. We estimate that about 1000 men leave each afternoon. We expect to begin the training on the basis of their ability. I am aware you are under pressure of work, but I assure you the part of your work in this matter will not take long.
permission were given these gentlemen would be able to
give us the use of two transits and one level, as indicated
by Mr. Dickson in his conversation with you.

We should like to employ Mr. Tompkins part of the
time for indoor instruction. Mr. Whalon we should expect
to use, at the outset anyhow, exclusively for outdoor work
when the weather permits. It would be probable that some
afternoons it might be impossible to go out. In that
case we should expect to give Mr. Whalon ample notification
in the morning.

We shall greatly appreciate any help you can give us
in this matter. I am sure you will understand that it is
a purely patriotic duty, and that the University of Chicago
has nothing to gain from any selfish point of view in
appealing to you for this assistance. I should greatly
appreciate it if you could kindly let me have a telephone
reply as soon as the request is acted upon. The University
telephone is Midway 800.

Yours very truly,

J.R.A. - L.

Mr. T. C. Phillips
Engineer of Surveys
City Hall, Chicago
permission were given these transfers would be able to
be made at the ease of the transfers and any level as indicated
by the decision in the connection with you.

We sincerely hope to employ Mr. Thompson part of the
time for transfer instruction. I do not know how exact this instruction
will be or a special equipment, but we have already
made some arrangements to keep all important to be out. In that
event, we shall be able to give in a few weeks all the
information necessary to you. We have already started to give an
account of the position.

We also greatly appreciate your help and you can get in
as we expect. I must say you will understand that it is
in the matter. I am sure you will probably by the University of
Ottawa and see to keep and settle point at which you
subjects to you. I am sure you can see that we have a telephone
and reply as soon as the telephone is ready when.

Yours very truly,

[Signature]

Mr. T. O. Milling
Manager of Transfer
Office Health Office
Memo to Mr. Angell:

Surveying and Map Making:

1) Store-room and Store-keeper. Mr. Rowe and I independently approached

Major Wygant and found that he would be specially requested by you
detach a student soldier to act as store-keeper, but desired to use in
this way as few as possible students. The Major gave us the impression
he preferred that we make other arrangements if possible.

Hence I suggest that we employ as store-room the suitable

room on 1st Floor of Ryerson which Mr. Lathin says will not be

needed this Quarter for Physics—and engage Mr. Mehm (3)

now Store-keeper for Ryerson Hall as Store-keeper (to care for instrument

room and office stock) by surveying instruments, etc., etc.). As

his duties would be considerably increased, whilst he would

have to work overtime 5 days a week, it would seem fair
to give him extra compensation of say $20 per month this Quarter.

We would appreciate your early decision, so that we
can promptly collect our scattered equipment, inspect
same for possible injuries—needed repairs &c. &c. so the

ready for field use on Wednesday.

2) Would you not also dictate a request to Director Judd

for the loan this Quarter of those instruments & equipment

now belonging to the U. High School & School Office?

That equipment (with additions) would be used by Prof. Myers

& Mrs. H.C. Wright of the School Office, who are to conduct two

divisions in Surveying.

Respectfully yours,

L.C. Dickson

3) Authorize Capt. C. Sauer (now engaged by Dean Salisbury) to employ an auto

for transport of all (?) Surveying & Sketching boards, tripod, etc. (loaned to us)

the bill for auto to be presented to:

P.S. Until telephone can be installed in office 49 4th floor Ryerson

I shall temporarily use Office 39 Ryerson, Local phone 199.

and remain there as much time as possible for ten days.

With Love

Phil
Chicago, October 2, 1918

Dear Mr. Dickson:

This is to request that you recommend to me such arrangements as you regard appropriate for the proper care of surveying instruments in Ryerson Laboratory and the supervision of such by Mr. Neher.

I have already informed you that the use of high school apparatus is approved by Mr. Judd.

Mr. Salisbury has already completed arrangements with Captain Sayner.

These matters are all related to your memo. concerning surveying and map-making left in my office September 29.

Yours very truly,

J.R.A. - L.

Mr. L. E. Dickson
The University of Chicago
Dear Mr. President:

I have the following information on the subject of our equipment and supplies, and I want to make a recommendation for the purchase of additional equipment to support our current operations.

I have interviewed Mr. Johnson, the head of the equipment department, and he has expressed a need for additional supplies and equipment. He has also informed me that the current equipment is outdated and not meeting the requirements of our operations.

I recommend that we authorize the purchase of the following items:

1. A new printer
2. Additional office supplies
3. A new computer

I have attached a report on the current state of our equipment and the proposed equipment in Attachment A. I would appreciate it if you could take a look at it and let me know your thoughts.

Thank you for your time and consideration.

Yours truly,

[Signature]

Mr. [Name]

The University of [Name]
Sep 24.

Dean Angell:

Mr. Breslau of the U. High has taught surveying and will gladly serve the University afternoons if released from appropriate part of his present duties at the U. High School Education. It is urgent that he be so released, for one found to replace him in the released duties (as can be done far more easily than finding some one competent to teach surveying in the University). I have a memorandum of the present instruments owned by U. High School Ed — these are sufficient for say 24 students.

Respt.

[Signature]
Dear [Name],

I received [item] after 11 April and was delighted to see...

[Text is partially legible and contains many abbreviations and unclear words]

[Further text is difficult to read due to the handwriting and handwriting style]
Chicago, September 25, 1918

Dear Mr. Dickson:

I find that it is going to be extremely difficult to permit Mr. Breslich to go for more than one afternoon a week for our surveying work. Could you utilize him advantageously on these terms?

Mr. Breslich reports that Mr. H. C. Wright of the High School department is quite as competent as he for this particular kind of work, and Mr. Judd is willing that we should use him. Perhaps you will be kind enough to get into communication with him and see what his attitude would be. There is also a Mr. E. F. Allen, a new man in the High School faculty, who is quite likely available. You might also be good enough to inquire about him.

Yours very truly,

J.R.A. - L.

Mr. L. E. Dickson
The University of Chicago
Chicago, September 25, 1918

Dear Mr. MacKenzie,

I am glad to have the opportunity to express my appreciation for the work you have done in our department. I am particularly impressed with your efforts in preparing our students for the professional world. Your dedication and commitment to our students are truly commendable.

I am enclosing a letter from Mr. W. H. O'Meara, who has worked closely with our department and has praised your work. He mentions that your teaching style is both effective and engaging, and your students have shown significant improvement in their performance.

I hope you will continue to excel in your work and that your contributions will be recognized. Perhaps you will be in a position to take on more responsibilities in the future.

Yours very truly,

[Signature]

Mr. I. E. MacKenzie
The University of Chicago
Proposals for Surveying, Map Making, and Map Interpretation
for joint course in the Departments of Geography, Astronomy, and Mathematics

Equip 10 or 12 full divisions, the instructors in each working three hours per day for five afternoons, and the students falling into two types as follows:

A division shall be conducted by one experienced surveyor and one experienced assistant (or instrument man), and shall care for 25 or 30 men per day (according to the number of instruments provided - see later on) - the men to fall into two classes (total of 50 or 60 men), viz., Class I meeting three afternoons, three hours per day, and composed only of 20+ year old men. The other, Class II, meeting two afternoons, and composed of 19 year old men (younger if vacancies are left) - thus taking care this fall of the surveying, which cannot be done this winter. Class I shall also take three hours per week (one afternoon?) in Map Interpretation (Geography) - thus completing their twelve hour schedule in Surveying and Map Making. Class II shall not be registered for Map Interpretation this fall, but take the same in the winter six hours per week - thus completing in two quarters their twelve hour schedule in Surveying and Map Making.

On days when weather this fall prevents field work, the men will be cared for in indoor classes by the Departments concerned;
the introduction in each

working time home can for five afternoons and

antiques selling into two phases as follows:

[Seal]
12 divisions, each accommodating two classes of 25 men; total 600 students, or 300 20-year old men and 300 19-year old men.

If 1 or 2 divisions fail us, we shall have to increase the number of men to a class of 30 (making 6 vs. 5 squads of 5 men each, every squad to have a transit or level and full accessory equipment (steel tape, linen tape, range pole, level rod, set-pine and hatchet).
T.C. Pilkington, Secretary of Finance, with copy and copy.

In this connection, some accommodation to the cause of 80 men was made. It was the intention to make 70 men, but only 50 were available for the work. We have had many difficulties in this connection. If I or S. Pilkington fail me, we shall have to turn to the new member of the firm to supply 32 copies of the works and also of the report. Each copy will cost from 20 to 30 men's wages. Government (20 per 100) has paid the rate, but I have not yet.

Date and place.

...
Instruments, etc.

The 4 divisions (C) furnish their entire equipment complete.
The 2 divisions (B) furnish their entire equipment practically complete (probably fully complete).
The 3 divisions (D) agreed to furnish 3 find transits; but with proper transportation to and from the city, can probably furnish full equipment.

For the 3 University divisions, a careful inventory of instruments now at the University (Astronomy, Mathematics, Physics, Department and University High and School of Education) shows we lack equipment to cost about -

$800 (in case of 25 students per division)  
$965 " " " 30 "  

Thus the additional $165 would provide 5 x 3 = 15 more students.

As there are for sale in the city only the instruments we need (buying only medium priced ones), it is highly desirable that the purchase be made at earliest possible moment.

Cost of Instruction

For surveyors from sources (B), (C), D (outside University), the cost is the pro rata of salaries the men now receive from the city or Boards - with no payment for such afternoons as work outdoors is prevented by the weather (except in case of men selected to teach indoor classes). The plan is highly advantageous to the University, as full 15 hours work is done per week at not over half the man's salary, and the use of instruments secured without extra cost.
The following is (a) incomplete, (b) contains errors, and (c) contains incomplete equations.

July 21, 1917.

Mr. David Allan Robertson,
Secretary of War Service,
The University of Chicago.

My dear Mr. Robertson:-

If I can be of any assistance to you in Class (B) under Intelligence (Classification - card files, indexes, etc) I should be glad to have you call on me.

Very truly yours,

[Signature]
July 23, 1917

My dear Mr. Robison:

I was out of the country when the War Service Commission was organized and have had no opportunity to take part in the work. I should be glad to be of any service I can in connection with Mr. Stuyvesant's committee on Scientific Records and Training and the Bunsen on Medical Work and Training.

Sincerely yours,

[Signature]

Edna Q. Jordan
Dear Mr. Robertson:

I would be glad to serve on any of the War Committees to which I might be assigned. I have had some military experience from four years as an Academy Officer in the United States Military Academy. Perhaps also I might be of use on the Medical Affairs Committee.

Yours sincerely,

H. H. Newber
My dear Mr. Robertson:

In reply to the circular letter recently sent out by the University of Chicago War Service, I beg to say that I shall be glad to serve on any committee where I am most needed or can best be used.

Very truly yours,

[Signature]

July 24, 17.
My dear Mr. Robertson,—

Replying to the President's circular letter of July 10th, I would offer to associate myself with the sub-committee on Codes and Ciphers. My actual knowledge of these matters is negligible, but they are more closely related in essence to my professional work than the field allotted to any other of the committees.

Sincerely yours,

J.M. Young.

July 23, 1917.
Mr. General Board.

Regarding the current department's action on the efflux of July 15th, I would like to communicate with you regarding the non-compliance of these matters with the rules and regulations mentioned in the letter. I have written to the secretary and the relevant committee, but they have not been sufficiently addressed. I am in the process of reporting this matter to the relevant authorities.

Sincerely yours,

"Memorandum for President Judson"

In connection with the Military Training for the summer quarter, I recommend the following members of the faculty as competent to assist in certain lines of the work. Suggest after their services are authorized that they be given an official status.

Rudolph Altrocchi  W.J.C. Land
F.D. Bramball     A.P. Matthews
Henry G. Gale      Fred Kerrfield
D. L. Hoffer       Mr. Page
T.A. Knott         A.P. Scott
               A.C. Von Noe'

I think all of the above would be willing to assist without compensation. A number of them are capable of giving instruction in such work as Gallery practice and etc.

In addition to the above names, I recommend Mr. J. M. Clark to be employed on the same basis as Cadet officers.

I think it advisable that at least one of the faculty should participate in the military instruction given during the quarter.

Very truly,

[Signature]

Major Cavalry.

Motor Company
April 9, 1917.

President H. P. Judson,
The University of Chicago.

My Dear Mr. President:

I want you to know that I am ready and anxious for any service that it may be possible for me to render to the country. If there may be any plans formed by the University for a general use of the men on the faculty, I shall be very eager to do my part.

My objection to universal training for military service has been based upon the faith that after this war we may be able to find a more humane foundation for our common life. However, that is not an important question at the present time. We have to meet the present exigency, and I am ready to do my part in whatever seems to be the common judgment of the best way to meet it.

Yours very sincerely,

Theo. G. Soares

The University of Chicago

It is important that you can reflect on this information to see

Your work is excellent.

Secrecy of the Committee

Department of Psychology

Sincerely,
May 24, 1917.

Dear Sir:

You are doubtless aware that President Judson recently appointed a committee on University Service in the War. Among other things, this committee is endeavoring to ascertain in what ways members of the Humanistic and Social Science departments of the University may be of most assistance in connection with the war.

Most of us doubtless felt that the questionnaire which was sent to us some time ago was intended mainly for those who could participate actively in military work in the field. In any event, it did not call definitely for a statement of the services which we might possibly be able to render in other than the purely military activities. The present committee, therefore, has prepared a different form of questionnaire, which is herewith enclosed. Will you kindly fill this out and return it to the writer at faculty exchange? Please feel free to submit any information with reference to yourself which may not be called for by the questions.

Yours very truly,

Mr. James R. Angell,
President's Office,
University of Chicago,
Chicago.

Dear Mr. Angell:

Confirming our telephone conversation of this morning the Chi Psi Fraternity is very glad to offer its Chapter House at the University of Chicago to the University for use by the Students Reserve Training Corps.

The house is located at 5735 University Avenue and contains twelve rooms in addition to three large halls, one on each floor, two baths on the second floor and one on the third.

Figuring forty-five square feet and five hundred cubic feet per man, I estimated that the house would accommodate in the neighborhood of fifty men. The dimensions of these rooms are as follows:

<table>
<thead>
<tr>
<th>Ground Floor</th>
<th></th>
<th></th>

Mr. James R. Angell

This property cost us $25,000.00 upon which there is a first mortgage of $12,000 at 6%, and a second mortgage of $4,000 at 5%. Our taxes amounted to $350.00 last year making our actual carrying charges somewhat over $1300 a year.

If there is any more information that you may desire, I should be glad to have you advise me.

Yours very truly,

Howle W. Murray

P.S. The Active Chapter now pays the Alumni Corporation the monthly rental of $125.00.
Extract from letter of J. B. Leathers, Sheffield University, regarding Professor A. C. McLaughlin:

"We have just had a visit and most enjoyable lecture, from Professor McLaughlin. I did not manage to get much conversation with him myself but I ascertained that he knew and was a neighbour of yours, so I am making this an excuse for writing to you, in the first place to tell you what an excellent impression his visit has made on everyone to whom I have spoken about it, and then to say how to me who have so many friends in the States whom I have not seen or heard from since the war began, and feeling as I have all through that the States have done magnificently in these years, and however much one wished that you had been with us in the flesh as well as in the spirit from much earlier, by waiting till you could come in solid and then doing as, you have made more difference to the final issue that could have been the case in any other circumstances. To me, therefore, his lecture gave the greatest pleasure, because it seemed so powerfully convincing and so certain to make our people get into a similar position towards you on your side of the Atlantic, to that which I have felt all along was the right one and the only possible one, and which everyone else who knew and could understand thought similarly about. I have not heard from people who heard him in London - we are all too busy to move about much or to correspond much - but certainly in Sheffield he has done a great work. It did one's heart good to hear him. Thinking people
I have just had a visit from my most enjoyable friend, Mr. Macfadden. I dined with him last week and I am looking forward to see him again soon. I am making plans to go to London and I expect to see him there.

I have not seen him for some time since the war began and thinking of the past experiences and how much we have gone through together, it is a pleasure to think of the past years and the difference to the day. If you could come to see me and I am certain you would enjoy the company of these dear friends who have been with me through thick and thin, and the joy it brings to know that they have been the ones who have always been there for me.

The love and affection they have for me is overwhelming, and I am grateful for their support and encouragement during these difficult times. I have come to a similar position with your case, and I have made the right choice and the only possible one.

I am not used to being away from people who mean a great deal to me. I have not used to being away from people who mean a great deal to me. I am going to London, and I will be there to make sure that you have a rest.

Thinking of you, I am writing to let you know that I am thinking of you. I am going to London, and I will be there to make sure that you have a rest.
and people who know America are, after all, a very small minority. Everyone who heard him, that did not know America before, knows now much that it is most important he should know and will feel that community of aims and ideals is worth more than anything else to comrades in such an enterprise as this - if there ever was such before.
Anyone who knows America well, after all a very small minority, knows what it is to be important to know people, knows now much more it is more important to know people and to feel that community of spirit and interest in which more than anything else to connect oneself to such an experience as this.

It's been over a very long period.
Sept. 11, 1917

My dear Mr. Robertson,

If there is anything I can do in the way of War Service it would give me great satisfaction. If anywhere, I think my place would fall under the Department of Intelligence, perhaps in subdivision E.

Very truly yours,

F. B. Farboll
September 7, 1915

President Harry Pratt Judson,

The University of Chicago,

Chicago, Ill.

Dear Dr. Judson,

I have applied for admission to the Military Training Camp at Fort Sheridan for the period of September 20 to 30, but according to the enclosed information it is the policy of the War Department to grant no permission for such period only. Being very much interested in the present movement for the increase of American defenses, I strongly desire to be admitted to the Camp. Therefore I respectfully inquire how the administration of the University would consider my application for leave on absence from October 1 to 17 in order that I may serve the full period, September 20 to October 17, at Fort Sheridan.

In case of a favorable consideration of my request I should arrange for other competent instruction in my classes during that time.

Very respectfully yours,

Adolf C. von Noe
September 7, 1916

Chicago, September 9, 1916

Dear Mr. von Noé:

Your note of the 7th inst. with enclosure is received. The enclosure is herewith returned. If you can make arrangements in the Department for the care of your work from October 1st, the period of September 20 to 30, as according to the enclosed information, it is the policy of the War Department to grant no permission to 17th you will be granted leave of absence for the for such period only. Being very much interested in the present movement purpose named. I hope that the camp will have every success in order to serve the full period, September 20 to October 19.

Very truly yours,

University would consider my application for leave on absence from October 1

Mr. Adolf C. von Noé,

at Fort Sheridan.

The University of Chicago.

In case of a favorable consideration of my request I should arrange for other competent instruction in my classes during that time.

Very respectfully yours,
Oriago, September 9, 1918

Dear Mr. [Name],

Thank you for your letter. I am sorry to hear that you are not well. I hope you are able to recover soon.

Regarding the appointment to the position of [specific position], I am writing to let you know that it is currently on hold. Due to unforeseen circumstances, we have had to indefinitely postpone the appointment process. I apologize for any inconvenience this may cause.

Please let me know if you have any questions or if there is anything else I can assist you with.

Sincerely,

[Your Name]
August 29, 1916

President Harry Pratt Judson;

The University of Chicago.

Dear Dr. Judson,

In order to be able of military service to this country in case of a serious crisis I have made application to the Quartermaster General, U.S. Army, Washington, D.C., for a commission in the Quartermaster Officers' Reserve Corps. Since references are required in my case, I should be greatly obliged if you would be willing to recommend my appointment to the Quartermaster General.

I also wrote to Major General Wood asking for the permission to serve part of my time in Plattsburg in the Quartermaster Department of that post, in order to qualify myself as much as possible for this sort of service.

Very respectfully yours,

[Signature]

Dear Mr. von Noe:

Your note of the 29th inst., received, and I have written to the Quartermaster General as requested.

Wishing you all success,

Very truly yours,

Mr. Adolf C. von Noe
The University of Chicago
Chicago, September 6, 1916

Dear Sir:

I am informed that application has been made for a commission in the Quartermaster Officers Reserve Corps by Mr. Adolf C. von Hoe, Assistant Professor on the faculty of the University of Chicago. Mr. von Hoe was a sergeant in the First Illinois Cavalry. He failed to pass the medical examination for regular service in answer to the recent call for the First Cavalry because of nearsightedness. He served his full time in the Austrian army, being mustered out of that service as lieutenant of the cavalry. He is in sound physical health and in my judgment highly competent for such service as that for which he applies. I may add that Mr. von Hoe is a naturalized American citizen.

Very truly yours,

H.P.J.-V.

The Quartermaster General

Netty Prett Gabon
Chicago, June 26, 1917

Dear Mr. von Noé:

Yours of the 6th inst. with regard to the Rifle Club is received. I hardly see how the University can undertake to make back payments of this character. I have been somewhat disappointed in the attitude of many of the students toward this work during the last quarter. Perhaps it is natural, but at the same time the work can only be carried on successfully on the voluntary basis. Moreover, it is the policy of the University when arrangements are made with men to do work for pay to make those arrangements in advance.

Very truly yours,

H. P. J. - L.

Mr. A. C. von Noé
The University of Chicago
Oficenco June 26, 1919

Dear Mr. New York:

Yours of the 6th inst. with regard to

the little grin is received. I hardly see how you
the University can make use to makepark bayments of this
university. I have been somewhat disappointed in the
attitude of many of the students toward this work grant.

The last quarter protest to the statement put at the same
time that work can only be carried on successfully on the

university's part. However, it is true that the boys of the
university were at the suggestion made with men to do work
for pay to make some improvements in advance.

Very truly yours,

Mr. C. New York
The University of Chicago
President Harry Pratt Judson,
Hotel Manhattan,
New York City.

Dear Dr. Judson:

I intend to apply before the end of the summer quarter for a commission as a Major in the Ordnance Officers' Reserve Corps. My defective eyesight bars me from service in the line, but I hope I can pass the physical examination prescribed by the Ordnance Department.

I am requested to enclose with my application three original signed letters of recommendation from persons acquainted with my business or professional standing, and I take the liberty of asking you to give me your recommendation. I have received one such letter from Major Bell, and I believe Mr. Francis W. Parker is also willing to give me one.

The only obstacle to my acceptance for the Service is short-sightedness, which is fully corrected by glasses. This difficulty might be waived if I could explain my case to Major General Barry or have the attention of the Chief of Ordnance in Washington directed to my application. Any suggestion which you would be willing to make in this connection would be greatly appreciated.

Very respectfully yours,

[Signature]
Mr. Adolf C. Van Noe,
University of Chicago,
President Harr, Chicago, Ill.
Hotel Manhattan,
Dear Mr. Van Noe:

Dear Dr. Judson: Your favor of the 13th inst. is forwarded to me from my office. It seems to me that you should have no difficulty in securing an appointment in the Ordnance Officers' Reserve Corps. May I suggest that Dean Marshall has had much business with the Chief of Ordnance in Washington, and that a letter from Mr. Marshall might be of advantage, especially on the matter of your eyesight. Ask him to call particular attention to the fact of your being employed on the Library staff of the University, professional standing, and I take the liberty herewith I am enclosing letter, which I hope may be of service.

I had one such letter from Major Bell, and I believe Mr. Francis W. Parka. Very truly yours.

The only obstacle to my acceptance for the Service is short-sightedness, which is fully corrected by glasses. This difficulty might be waived if I could explain my case to Major General Barry or have the attention of the Chief of Ordnance in Washington directed to my application. Any suggestion which you could be willing to make in this connection would be greatly appreciated.

Very respectfully yours,

Adolf C. von Noe
Mr. Willet C. Van Keer
University of Chicago
Chicago, Ill.

Dear Mr. Van Keer:

You know of the offer that is forthcoming to me from my office. It seems to me that you should have no difficulty in securing an appointment in the Chicago office.

Let me say that I am well acquainted with the system of the University of Chicago and that I have a letter from Mr. Wexford with an introduction, which I hope you may be of service.

With all my best wishes,

Very truly yours,
TELEGRAM  Chicago, July 1, 1916

Colonel M. J. Foreman

PRESIDENT JUDSON UNIVERSITY OF CHICAGO CHICAGO ILLS

FAILED TO PASS MEDICAL INSPECTION FOR FEDERAL SERVICE BECAUSE OF NEARSIGHTEDNESS ALTHOUGH I AM THE BEST SHOT IN THE TROOP. COLONEL FOREMAN PERSONALLY REQUESTED ME TO ASK YOU TO WIRE TO ADJUTANT GENERAL OF US ARMY IN WASHINGTON TO WAIVE MY DISABILITY AND TO PERMIT ME TO JOIN MY REGIMENT IN BROWNSVILLE

A C VON NOE

SERGEANT FIRST ILLINOIS CAVALRY.
President Harry Pratt Judson,
University of Chicago.

Dear Dr. Judson:

March 13, 1918.

I have been elected First Lieutenant in the Illinois Volunteer Training Corps, University Unit, and if you permit so, I shall apply for the commission from the Military Affairs Committee. I believe my duties as First Lieutenant will not interfere with my university work except in the possible case of our being called out by the Governor in the service of the State.

If it is agreeable to you that I should accept the commission, may I ask you to send me a letter of recommendation testifying as to my moral and intellectual standing and general ability, as necessary for an officer? The letter should be addressed to the Military Affairs Committee, I.V.T.C., Chicago, Illinois.

Respectfully yours,

[Signature]
Resident Medical Staff, J. P. Jacobs, M.D.,
University of Chicago.

Dear Dr. Jacobs,

I have been attached to the University of Chicago
the Illinois University Training Corps. We understand
and feel it your part as I report what I have learned
from the Training Corps. I hope to continue
as a student intern and not to be considered
as an expert in the beginning phase of our joint effort and
our responsibility in the service of the people.

If it is at all possible to your staff I suggest
accept the Commission, and I very much to work on a letter
of recommendation and present it to my father and
inform him of the report and information
obtained and necessary effort to be necessary for the above.

The letter should be addressed to the military division

Respectfully yours,

[Signature]
Chicago, March 14, 1918

Dear Mr. von Hoé:

I am very glad to enclose the letter which you requested, and to congratulate you upon your election as First Lieutenant in our University Unit of the Illinois Volunteer Training Corps.

Very truly yours,

H.P.J. - L.

Mr. A. C. von Hoé
The University of Chicago
Dear Mr. Yor Nog:

I am very glad to receive the letter

with your request and to congratulate you upon your

election as Dean. I am grateful to the University of

the Illinois Volunteer Training Corp.

Very truly yours,

H. E. L.

Mr. A. G. Yor Nog

The University of Chicago
Chicago, March 14, 1918

Military Affairs Committee
Illinois Volunteer Training Corps
Chicago

Sirs:

This is to certify that Adolf C. von Hoé is a member of the faculty of the University of Chicago, and in point of character, ability, and experience is highly qualified as a commissioned officer of the Illinois Volunteer Training Corps.

Very truly yours,

H.P.J. - L. President
W.1. P. - I.

Very truly yours,

Dear President Judson:

Since the receipt of your letter I have been thinking much of what I can do in the war service. My own work in science is so remote from practicable applications that I appeal to you to place me wherever you think I can be of service... I want to do something, and have a few hours daily that I will gladly use.

My qualifications for service are about as follows: trained as a physician I have spent years in sanitary work— as special agent of the State of Connecticut in the examination of the sources of water supply; as health officer of the City of New Haven; as member of the Kansas State Board of Health. I have spent six full years of my life in camp, as an engineer and geologist. I can read or speak several languages with more or less fluency.

Perhaps somewhere I can fit in; if so please call upon me. Perhaps, if nothing more, by supplying the place of some younger man in extrateaching.

Sincerely yours,

J. H. Williston
Enclosed please find a copy of your letter.

Since the receipt of your letter I have been thinking much of what I can do to help you. My own work in science is too remote from bakery or agriculture to be of any service. I hope you may be able to secure the advice of some friend who can help you.

Yours truly,

[Signature]
November 7, 1919.

Professor David A. Robertson,
Secretary to the President,
Faculty Exchange.

My dear Mr. Robertson:

In accordance with our recent conversation, I take pleasure in enclosing herewith the first two papers of a series that I expect to publish, dealing with the absorption of gases by charcoal. This work contains in essence the technique which was developed in this laboratory for the activation of charcoal which was expected to be of use solely in the production of high vacuua.

In a manner quite unforeseen by the writer, the material so activated was found to be the most highly efficient absorbant of noxious gases possessed by this country at the time of its entry into the war. The Chemical Warfare Service, basing their production on these results, of course carried them to much greater perfection than it would have been possible to do with the more limited opportunities in men and material in a scientific laboratory.

The President may be interested in filing this fact away in his archives. Please permit me to request that no publicity be given to the matter. As to the other papers on this work, I shall be glad to forward reprints to your office.

Very sincerely yours,

Harvey B. Lemon.
From: Mr. Smith
To: Mr. Johnson

November 1, 1999

Mr. Johnson,

I am pleased to present the following report on the progress made in the implementation of the project. The team and I have been working diligently to ensure that the project meets its objectives. The project is currently on schedule and we expect to complete it within the agreed timeframe.

We have encountered some challenges along the way, but we have been able to overcome them through effective communication and teamwork. The project has also generated positive feedback from stakeholders, which is a testament to our efforts.

Please find attached the progress report for your review. If you have any questions or concerns, please do not hesitate to contact me.

Best regards,

[Signature]

PS: I appreciate your support and look forward to working with you on future projects.
