LAW STUDENTS, 28.

X R.—The above is a very small attendance, comparatively. The reason is, that the fire of October 9th, 1871, destroyed the Law School building and scattered the students among the other Western Law Schools. The Law School has, notwithstanding its loss in the great fire, resumed its session in Boone Block, with all its former advantages.
GENERAL ADVANTAGES.

The superior facilities furnished by Law Schools, for instruction in the science and practice of Law, are now fully appreciated by the profession and the public. A regular, systematic course of study, under experienced teaching, is admitted to be as indispensable to the attorney as to the medical or theological student. Experience has shown that a better preparation for the Bar may be had in the Law School in one year, than is ordinarily obtained in an office in two or three. In an office the student usually receives but little attention. The distinguished counsellor is too exclusively and too probably employed with his clients to afford the necessary time, even if he have the necessary patience or skill, to solve the doubts of the student, who, amid ceaseless embarrassments and interruptions, blindly gropes his way through the pages of Coke and Blackstone.

The force of these considerations has been keenly felt in the West, where, till lately, there has been no school of preparation for the Bar; and, therefore, to fill this chasm in our educational institutions, and furnish an opportunity for a thorough training, without the expense of traveling abroad for the purpose, this school has been established.

PLAN OF INSTRUCTION.

The training of a lawyer, in order to secure complete success, should be of a three-fold character. First—he should have a critical acquaintance with the principles of Law, as a science; secondly—the power to make a ready application of those principles in practice as an art; and, lastly, a gracefull eloquence, a fluent, easy, and forcible style of extemporaneous speech, without which, however solid his acquirements, it is scarcely possible for him to attain eminence at the Bar.

The plan of the school contemplates the attainment of the several objects, in the mode best adapted to each. For the mastery of the science, reliance is placed upon the reading of the best legal works, under proper instructions together with daily examinations in the classes upon the subjects studied. For the sake of variety, lectures, also, are given in certain departments of jurisprudence, but not to such an extent as to form a prominent feature of the plan.

There are, at all times, in the school, three regular classes, according to the different degrees of proficiency, and each student is at liberty to attend in any one or all of the classes. The professors meet each of these classes in the lecture room daily, for an examination or lecture, devoting from three to four hours to the various exercises.

In order that the students may be versed in the practice of Law, Moot Courts, etc., are held. In these he is familiarized with the application of legal remedies and the different forms of actions, the bringing of suits, the drawing of papers and the various stages in the preparation of a cause pleaded, and with all the various steps and stages in the preparation of a cause for trial; then with the trial, involving the application of the rules of evidence, with the argument of counsel, the charge, the verdict, motion in arrest of judgment, etc. In all these various stages the forms of a real case are preserved; and as the trial takes place in the presence of the class, who act in the capacity of counsel, jurors, witnesses or officers of the court, and before the class, he has the double object of illustrating important legal principles as well as explaining the rules of practice—it is easy to see that the exercises become in a high degree interesting and profitable.

Besides this, the student is also instructed from time to time, in the drawing of contracts, deeds, wills, and all the legal forms usual in an attorney's office. Lastly, to impart the grace of a finished eloquence, and an easy, forcible style of extemporaneous delivery, declamations, drill speeches, and debates, under the instruction of a professor, will form a part of the exercises of the school.

A Congress, comprising a Senate and House of Representatives, with speakers and committees, etc., has been organized by the students, which holds its sessions once a week, for the discussion of subjects of governmental policy, thus affording additional opportunities for practice in speaking, as well as for becoming acquainted with parliamentary rules and tactics.

TERMS, DIPLOMAS, ADMISSION TO THE BAR, ETC.

There are three terms in the year, of thirteen weeks each. The first term begins on the third Wednesday in September; the second, on the first Wednesday in January; and the third, on the second Wednesday in April. A full day in January; and the third, on the second Wednesday in April. A full day in January; and the third, on the second Wednesday in April.

Tuition fees are $75 in each case payable in advance. Students who enter for a part of a term pay in proportion to the time spent. No other preparation is required than a good common English education.
COURSE OF READING.

A well selected course of reading has been adopted, comprising the best elementary works and digests in the several departments of Law and Equity. The Text Books are as follows:

INTERNATIONAL LAW—
- Woolsey's International Law.

Books of Reference—
- Vattel's Law of Nations.
- Wheaton's International Law.
- Grotius on the Laws of War and Peace.

COMMENTS—
- Blackstone (Cooley's), 4 Books.
- Kent, 4 vols.

CONSTITUTIONAL LAW—
- Kent's Commentaries, vol. 1, p. 204—484.
- Selden's Constitutional Law

Books of Reference—
- The Federalist.
- Story on the Constitution.

REAL ESTATE—
- Blackstone, Book II.
- Washburn on Real Property, 3 vols.
- Statutes of Frauds and of Uses.

Books of Reference—
- Adams on Ejectment.
- Angell on Water-courses.
- Coke on Littleton.
- Coke on Mortgages.
- Cruikshank on Real Estate (Greenleaf).
- Dart on Vendors.
- Hillard on Real Property.
- Hillard on Mortgages.

COMMERCIAL AND MARITIME LAW—
- Parson's Mercantile Law.
- Story on Partnership.
- Story on Promissory Notes.

Books of Reference—
- Abbott on Shipping.
- Beneficent's Admiralty.
- Byles on Bills.
- Collyer on Partnership.
- Counsell's Admiralty.

JURISPRUDENCE AND PRACTICE—
- Jarman on Will.
- Preston on Estates.
- Preston on Conveyancing.
- Saunders on Uses and Trusts.
- Sugden on Powers.
- Sugden on Vendors and Purchasers.
- Taylor's Landlord and Tenant.

COMMERCIAL AND MARITIME LAW—
- Parson's Mercantile Law.
- Story on Partnership.
- Story on Promissory Notes.

Books of Reference—
- Abbott on Shipping.
- Beneficent's Admiralty.
- Byles on Bills.
- Collyer on Partnership.
- Counsell's Admiralty.

INSURANCE—
- Dyer on Insurance.
- Edwards on Bills and Notes.
- Edwards on Bills.
- Phillips on Insurance.
- Story on Bailment.

Pleading and Practice—
- Stephen on Pleading.
- Gould " "

Books of Reference—
- Coulson's United States Practice.
- Saunders on Pleading and Evidence.

EVIDENCE—
- Greenleaf's Evidence, 3 vols.

Books of Reference—
- Phillps on Evidence.

EQUITY JURISPRUDENCE AND PRACTICE—
- Willard's Equity Jurisprudence.
- Barbour's Chancery Practice.

Books of Reference—
- Adams's Equity.
- Daniel's Chancery Practice.
- Eden on Injunctions.
- Funbanque's Equity.

CRIMINAL LAW—
- Blackstone's Commentaries, Book IV.
- Whatton's American Criminal Law.

Books of Reference—
- Archbold's Criminal Law.
- Barbour's Criminal Law.
- Russell on Crimes.

Students will find their own books, and arrangements have been made by which they may be supplied at the lowest trade prices. Many of the students obtain the use of books from the numerous law offices in the city, on favorable terms. Those who buy their books usually prefer to retain them, and thus begin a library, but, if they choose, they can sell them at the close of the term, at slightly reduced prices, in which case the net expense for books will be small.
BOARDING.

Good board may be had, in ordinary times, in boarding houses and private families, at fair prices, varying from $4 to $6 per week. Students who desire to economize can club together, hire a room, and board themselves at less expense.

ADVANTAGES OF LOCATION.

The location of the School, in the heart of the great Metropolis of the Northwest, within a few rods of the Court House, and in the immediate vicinity of the Courts, State and Federal, which are almost constantly in session, afford to the student who wishes to become acquainted with every phase and variety of business, advantages unsurpassed by those of any similar institution in the United States. The School Room is in Boone Block, No. 133 LaSalle Street.

CONNECTIC WITH THE UNIVERSITY.

This School is a branch of the University of Chicago, and the students are admitted free to the libraries of the University, and to all public lectures delivered to undergraduates in the Literary Department.

Students in the Law Department can also unite with any of the regular classes at the University, and pursue any of the studies taught there, without additional charge.

The Students are also admitted, on certificate of the Dean of the Faculty, to the large Law Library of the Chicago Law Institute, located in the Court House.

Communications should be addressed to J. A. Hunter, Esq., Counsellor at Law, Room 44, Central Union Block, corner of Market and Madison Streets.

COLLEGIATE DEPARTMENT.

FACULTY.

REV. JOHN C. BURROUGH, D. D., LL. D., PRESIDENT,
AND PROFESSOR OF MORAL AND INTELLECTUAL PHILOSOPHY.

REV. ROBERT E. PATTISON, D. D.,
VICE-PRESIDENT.

JAMES R. BOISE, Ph. D., LL. D.,
PROFESSOR OF THE GREEK LANGUAGE AND LITERATURE.

WILLIAM MATHEWS, LL. D.,
PROFESSOR OF RHETORIC AND ENGLISH LITERATURE.

ALONZO J. HOWE, M. A.,
PROFESSOR OF MATHEMATICS.

J. WILLIAM STEARNS, M. A.,
PROFESSOR OF THE LATIN LANGUAGE AND LITERATURE.

TRUMAN HENRY SAFFORD, B. A.,
PROFESSOR OF ASTRONOMY, AND DIRECTOR OF THE DEARBORN OBSERVATORY.

HENRY BOOTH, LL. D.,
HONOR PROFESSOR OF INTERNATIONAL AND CONSTITUTIONAL LAW.

J. W. FOSTER, LL. D.,
LECTURER ON CLASSICAL PHYSICS.
UNIVERSITY OF CHICAGO.

C. GILBERT WHEELER, B. S.,
PROFESSOR OF ANALYTICAL AND APPLIED CHEMISTRY.

PROFESSOR OF GEOLOGY AND MINERALOGY.

JOHN C. FREEMAN, M. A.,
ASSOCIATE PROFESSOR OF ANCIENT LANGUAGES, AND PRINCIPAL OF THE PREPARATORY DEPARTMENT.

WILLIAM J. BEAL, M. A., B. S.,
PROFESSOR OF BOTANY AND ZOOLOGY.

GEORGE F. ROOT,
PROFESSOR OF MUSIC.

C. E. RICHARD MULLER, M. A.,
TUTOR IN GERMAN.

W. W. EVERTS, JR., B. A.,
ACTING TUTOR IN GERMAN.

RANSOM DEXTER, M. D.,
LECTURER ON COMPARATIVE ANATOMY.

ALBERT M. BACON,
INSTRUCTOR IN ELOCUTION.

H. H. HOLMES,
INSTRUCTOR IN DRAWING.

Instruction in Spanish, Italian, and the Scandinavian languages will be given to any who desire it, by Professor Wheeler.

Instruction in French has been given, during the past year, by Professors Boise and Mathews.

* Temporarily absent in Europe.

Byron L. Smith ............................. 415 Wabash av.
Edwin W. Stevens .......................... Maquacqua.
John H. Storms ............................ Middleton, Ohio.

Students in Partial Courses .............. 19.
REQUIREMENTS FOR ADMISSION.

Candidates for admission to the Freshman Class in the Classical Course are examined in the following studies.

- English Grammar and Analysis.
- Geography—Ancient and Modern.
- History of the United States.
- Arithmetic, Algebra through Quadratic Equations, and books I to VI of Davies' Legendre, or an equivalent. Algebra to Quadratic Equations will not be reviewed in the course and must be thoroughly learned from a University Treatise.
- Boise's First Greek Book.
- Hadley's Greek Grammar.
- Xenophon's Anabasis—three books.
- Greek Prose Composition. (Jones & Boise.) Part I.
- Latin Grammar and Reader.
- Four books of Caesar's Commentaries, or, Cornelius Nepos.
- Six Orations of Cicero.
- Six books of Virgil's Aeneid.
- Halkness's Introduction to Latin Composition, first and second parts; or forty-four exercises of Arnold's Latin Prose Composition.
- Candidates for advanced standing, whether from other Colleges or not, are examined in the studies previously pursued by the class which they propose to enter.

No person under fifteen years of age will be admitted to the Freshman Class, nor will any one be admitted to an advanced standing without a proportionate increase of age.

Testimonials of good moral character are required in all cases; and every student from another College must produce a certificate of regular dismissal.

To prevent disappointment to the applicant, it should be distinctly understood that a thorough knowledge of the prescribed studies is more likely to insure admission, and to enable the student to reap the full benefits of the Collegiate Course, than a superficial acquaintance with some higher branches of literature and science. A critical knowledge of Arithmetic, Elementary Algebra and Geometry, and the Grammar of the English, Latin and Greek languages, is indispensable.

1. Greek—Selections from Greek Authors (Boise & Freeman). Greek Prose Composition. (Jones & Boise.)
3. Mathematics—Algebra from Quadratic Equations through the Binomial theorem.

SECOND TERM.

3. Greek—Selections from Greek Authors (Boise & Freeman.) Greek Prose Composition (Jones & Boise.) Grecian History and Geography.

THIRD TERM.

2. Greek.—Selections from Greek Authors. (Boise & Freeman.)
3. Latin.—Selections from Livy Roman History from the Battle of Zama to the fall of the Republic.

SOPHOMORE CLASS.

FIRST TERM.

3. Greek.—Homer's Iliad. (Boise's edition.)

SECOND TERM.

1. Latin.—Horace. History of the Augustan Age. Essays by the Class on subjects connected with the history and literature of the period. Exercises in Writing Latin.
2. Physics.—Natural Philosophy Snell's Olmstead,
3. History.—Weber.
UNIVERSITY OF CHICAGO.

THIRD TERM.

1. Rhetoric.—Whately and Campbell.
2. Mathematics.—Spherical Trigonometry with applications to Astronomy.
3. Natural History.—Botany (Gray).
4. Greek.—The Antigone of Sophocles, or some other Greek Tragedy (Woolsey). Essays by the class, chiefly critiques on the principal Greek plays.
5. Latin.—Horace. Epistles and Art of Poetry. Essays by the class.

JUNIOR CLASS.

FIRST TERM.

1. Metaphysics.—Sir William Hamilton. Lectures. (Four times a week.)
2. Physics.—Astronomy. (Four times a week.)
3. Latin.—Selections from the Annales of Tacitus. Roman History to the death of Nero. Essays by the class. Extemporals. (Four times a week.)
4. Greek.—Demosthenes de Corona commenced (Champlin.)
4. French.—(Three times a week.)

SECOND TERM.

1. Metaphysics.—The Will. Lectures. (Twice a week.)
2. English Literature.—Shaw. Lectures. (Three times a week.)
3. Chemistry.—Baker's Elements of Chemistry. (Four times a week.)
4. Greek.—Demosthenes de Corona commenced. Essays by the class on the leading events in the fourth century B.C., and other topics connected with the study of oratory. (Four times a week.)
4. French.—(Twice a week.)

THIRD TERM.

1. Mathematics.—Analytical Geometry. (6 weeks.)
2. Latin.—Juvenal, six Satires. History of the Flavian Epoch. Essays by the class. (6 weeks.)
3. Natural History.—Zoology, Anatomy and Physiology. Milne Edwards. (Four times a week.)
4. Chemistry.—Lectures. (Three times a week.)
4. French.—(Three times a week.)

UNIVERSITY OF CHICAGO.

SENIOR CLASS.

FIRST TERM.

1. History.—Guizot's History of Civilization. (7 1/2 weeks.)
2. Natural History.—Geology and Mineralogy. (Dana.) (7 1/2 weeks.)
4. Latin.—Selections from Tacitus. (7 1/2 weeks.)
4. German.—(7 1/2 weeks.)

SECOND TERM.

1. Greek.—Selections from Plato (Tyler's Apology and Crito). Essays by the class on the leading philosophers and philosophical systems of the Ancient World. (6 weeks.)
2. German.—(6 1/2 weeks.)
3. Natural History.—Geology and Mineralogy completed.
4. Logic.—McCosh.

THIRD TERM.

1. Political Economy.—Political Philosophy.
3. German.
II.—SCIENTIFIC COURSE.

REQUIREMENTS FOR ADMISSION.

For the Scientific Course Students will be examined in the same studies as for the Classical, with the omission of Greek altogether, and of Latin, excepting the Latin Grammar and Reader, and four books of Caesar’s Commentaries, or Cornelius Nepos, and in the first part of Harkness’s Introduction to Latin Composition. In College, they will use the same text-books as those in the Classical Course, so far as the two courses coincide.

FRESHMAN CLASS.

FIRST TERM.

1. Mathematics.—Algebra, from Quadratic Equations through the Binomial Theorem.
4. Drawing.

SECOND TERM.

4. Drawing.

THIRD TERM.

3. German.—Heyse's Leitfaden zum grundlichen Unterricht. Forque’s Un-
dine. Exercises from Ahn’s Method.
4. Drawing.

UNIVERSITY OF CHICAGO.

SOPHOMORE CLASS.

FIRST TERM.

3. German.—Schiller's William Tell. German Composition. Heyse's Leit-
faden.

SECOND TERM.

1. History.—Weber.
2. Physics.—Natural Philosophy. Snell's Ohmstead.
3. German.—Tieck, Die Elfen. Das Rothkappehen. German Composition ;
   Heyse's Leitfaden.

THIRD TERM.

1. Rhetoric.—Whately and Campbell.
2. Mathematics.—Spherical Trigonometry with applications to Astronomy.
   Natural History.—Botany.

JUNIOR CLASS.

FIRST TERM.

2. Physics.—Astronomy.
3. French.

SECOND TERM.

1. Metaphysics.—Hamilton completed.
   English Literature.—Shaw. Lectures.
2. Chemistry.—Baker’s. Lectures.
3. French.

THIRD TERM.

1. Mathematics.—Analytical Geometry. (6 weeks.)
2. Natural History.—Zoology, Anatomy and Physiology (Milne Edwards).
3. Chemistry.—Baker’s. Lectures.
4. French.
FIRST TERM.
1. History.—Guizot's History of Civilization.
2. Natural History.—Geology and Mineralogy (Dana).

SECOND TERM.
1. Natural History.—Geology and Mineralogy completed.
2. Logic.—McCosh.

THIRD TERM.
1. Political Philosophy.—Political Economy.
Composition and Declamations throughout the course.

III.—Course in Astronomy.

The Dearborn Observatory forms the Astronomical Department of the University. Its objects are to make original researches in Astronomical Science, to assist in the application of Astronomy to Geography, in communicating exact time, and other useful objects, and to furnish instruction in Astronomy to the students of the University, both those in the regular course and those who wish to give special attention to the study.

The principal instruments of the Observatory are:
1. The great Equatorial Refractor, made by Alvan Clark & Sons, of Cambridge, Mass., the largest telescope in this country. This instrument is placed in the Dearborn Tower, built by the munificence of Hon. J. Young Scammon, L.L.D. The dimensions of the Equatorial are:
   - Diameter of Declination Circle, 30 inches.
   - Diameter of Hour Circle, 22 inches.
   - Focal Length of Object Glass, 23 feet.
   - Aperture of Object Glass, 18½ inches.

   The circles are read by two microscopes each, the hour circle to seconds of time, and the declination circle to ten seconds of space.

2. A meridian circle of the first class constructed by those eminent artists, Messrs. A. Kepzold & Sons, of Hamborg. This instrument has a telescope of six French inches aperture, and divided circle of forty inches diameter; otherwise it is like Bessel's celebrated Konigsberg circle, by the same makers, with some late improvements in the illumination of the field and the wires, and apparatus for registering declinations.

   The observatory has also a chronometer (Wm. Bond & Son, No. 279), a clock by E. Howard & Co., a chronograph, by Gray & Barton, of Chicago, and an astronomical library.

   The Course of Instruction includes:
   1. Instruction in Astronomy to the Undergraduates (see Classical Courses).
   2. In the determination of time, latitude and longitude, to students of the Engineering Course.
   3. In higher Mathematics and Astronomy to such students as wish to prepare themselves for positions in Observatories, or other scientific establishments, or for professorships of mathematical departments in Colleges.

   This will include instruction in the following subjects:
   1. Modern Higher Geometry, applied to Conic Sections and Spherical Trigonometry.
4. The Method of Least Squares.
5. The Theory of the Motions of the Heavenly Bodies.

The authors chiefly referred to will be on the respective subjects
1. Chasles, Steiner, Geiser.
2. Salmon, Courtenay, Petrie.
5. Gauss, Encke.

Practical exercises with the instruments will take place regularly.
On those who shall pursue a full course of at least two years, shall have
passed a satisfactory examination, and shall prepare an original thesis on some
astronomical or mathematical subject, the degree of Bachelor of Science will be
conferred.

ASTRONOMICAL STUDENTS.
Alice F. Conkey, B. A., (Lawrence University) ....................... Appleton, Wis.
Sarah M. Glazier, B. A., (Vassar College, N. Y.) .......... 7 S. Muyan St.
William M. Harrington ........................................ Observatory.
Wm. A. Metcalfe, M. A., (Lawrence University, Wis.) .......... University.

*Now Assistant in U. S. L. C. Survey.

IV.—COURSE IN PRACTICAL CHEMISTRY.

During the present year arrangements were completed for the organization of
a course in Practical Chemistry. In this course provision is made for the thor-
ough and comprehensive study of Chemistry as an art, in the belief that, aside
from the practical relations of the Science, the educational effect of Laboratory
practice is of great value. By such practice the senses are trained to observe
with accuracy, and the judgment to rely with confidence on the proof of actual
experiment.

In the Laboratory of this Department, under the direction of Professor Wheeler,
aided by competent assistants, the student of Applied Chemistry will have ample
opportunity of becoming practically familiar with the materials, apparatus,
and processes of the more important Chemical arts and manufactures.

A systematic Course in Qualitative and Quantitative analysis will be followed
by practical studies, with regard to the applications of Chemistry to Agriculture,
Mining, Metallurgy, Assaying, Medicine, Pharmacy, Toxicology, Preservation of
Timber, Meats, etc., Warming, Illumination, Ventilation, Photography, and
other useful purposes. On those who shall complete a full course, requiring
from two to three years' time, and who shall have passed a satisfactory examina-
tion, the degree of Bachelor of Science will be conferred. Certificates will be
granted to students who do not graduate, stating the time they have been pres-
cent, the studies pursued, and the progress made.

The Laboratory is quite new, and one of the best equipped in the West. The
student will have ample opportunity of visiting the numerous manufacturing
establishments of Chicago and vicinity, and witnessing important industrial
applications of the science, the study of which he is pursuing.

TEXT-BOOKS AND WORKS FOR READING AND REFERENCE.

Craft's Qualitative Analysis.
Bowman's Practical Chemistry.
Frenzeni's Qualitative and Quantitative Analysis.
Miller's Chemistry, Vols. II and III.
Richardson & Watt's Chemical Technology.
PRIZES.

JUNIOR CLASS.

The Myers and Chandler prizes, first and second, for excellence in Oratory and Composition combined in original orations, are open to competition by members of the Junior Class.

At the Commencement of 1871 these prizes were awarded as follows:

To John L. Jackson, Rock Island, a first prize.
To Orrin. B. Clarke, Warsaw, a second prize.
Committee of Award.—Sydney Howard Gay, Esq., George Payson, Esq., Rev. F. D. Rickerson.

SOPHOMORE CLASS.

The Griggs prizes, first and second, for excellence in English Composition, are open to competition by members of the Sophomore Class. Competitions for the prize must leave their essays at the President's office on or before the first of June. Each essay must be signed with an assumed name, and accompanied by a sealed letter containing the true name of the writer, and superscribed with his assumed name.

The subjects for the next Academic Year are:

Thomas Carlyle.
Revolutions in English Literature.
The Genuineess of Shakespeare's Plays.

FRESHMAN CLASS.

The Keen prizes, first and second, for Excellence in Declamation, are open to competition by members of the Freshman Class. The competition for these prizes will take place on the Monday evening preceding Commencement.

At the Commencement of 1871 these prizes were awarded as follows:

To James C. Mitchell, of Chicago, a first prize.
To Howard B. Grose, of Ballston Spa, N. Y., a second prize.
Committee of Award.—Rev. C. Day Noble, Rev. Robert D. Shephard.

GENERAL INFORMATION.

TERMS AND VACATIONS.

The year is divided into three terms and three vacations. The first term consists of fifteen weeks, the second and third of twelve weeks each. The Christmas vacation is two weeks; the Spring vacation one week, and the Summer vacation ten weeks.

COMMERCIAL INSTRUCTION

To meet the practical wants of the different classes of students, the Trustees have made arrangements for regular instruction in Penmanship, Book-keeping, and other branches essential to a good commercial education.

ELECTIVE STUDIES.

Students may reside at the University and pursue studies, for a longer or shorter time, in any of the classes, at their own election, subject, however, to the regulations of the Faculty.

LECTURES.

In connection with the regular recitations, lectures are delivered on the following subjects: Chemistry, Natural Philosophy, Geology, Astronomy, Anatomy and Physiology, Zoology, Mental and Moral Philosophy, Greek History and Literature, Roman History and Literature, Verbal Criticism, and History of the English Language.

RHETORICAL EXERCISES.

The College Classes have exercises in Composition, once in three weeks. Instruction in Elocution is given to all the students, and declamations are required of all.

EXAMINATIONS.

At the close of every term there are public examinations of all the classes, in both the Collegiate and Preparatory Departments.
DEGREES.

The Degree of Bachelor of Arts is conferred upon all students who have completed the prescribed Classical Course of study, and passed a satisfactory examination, and the Degree of Bachelor of Science upon all who have completed the Scientific Course, and passed a similar examination.

Bachelors of Arts of three years' standing may receive the Degree of Master of Arts, provided that since graduation they have sustained a good moral character, and pursued some literary or scientific calling.

SOCIETIES.

There are three Societies in the University, conducted by the students—two Literary, and one Religious.

RELIGIOUS EXERCISES.

The duties of each day are opened with religious services in the Chapel of the University, at which all the students are required to be present.

On the Sabbath they are required to attend public worship in the forenoon, with some congregation in the city, selected by themselves or by their parents. The students also sustain a weekly prayer meeting.

ILLUSTRATIVE APPARATUS.

The University Library has been increased recently by valuable acquisitions. The London publishing houses of Sampson, Low & Co., Trübner & Co., and Longman & Co., have generously furnished copies of their late publications.

Messrs. Sheldon & Co., of New York, have donated a complete set of their publications.

The Thompson Library, the gift of Hon. H. M. Thompson, contains a very valuable collection of books on Agriculture, a complete set of the New Library, and many fine illustrated works.

The Tucker Library, presented by the family of the late Rev. Elisha Tucker, D. D., contains upwards of five hundred volumes, mostly theological.

The Henstenberg Library is now put up in the University, and accessible to students. It contains about thirteen thousand volumes, and is not only one of the most valuable theological libraries in this country, but it is also rich in works of classical literature, belles lettres, history and philosophy.

The Geological Museum has been lately increased by collections made by the Natural History Society of the University, by a set of specimens illustrating the geology of Illinois, contributed by the State, and by collections made by Dr. Dexter, Prof. Buels and others.

The Mechanical Museum contains several hundred models of machines and patents in the departments of Agriculture, Chemistry, Civil Engineering, manufactures, etc., and will be largely increased during the coming year.

A Museum of Comparative and Human Anatomy and Physiology has been commenced, under the charge of Dr. Dexter, and comprises at present, skeletons of most of the orders of existing vertebrates, with many specimens of invertebrates.

A Numismatic Collection, made by the late Charles D. Sandford, and containing 3,000 coins, has been presented to the University by Rev. Miles Sandford, D. D., of Philadelphia.

Chemical and Philosophical Apparatus.—The Lectures on Chemistry and Natural Philosophy are illustrated by modern apparatus. To this important addition have recently been made, chiefly donations from George Haseltine, Esq., of London, and Messrs. B. O. & H. W. Chamberlain, of Boston, Massachusetts, among them a Ramkoff’s Induction Coil, one of the largest ever imported, a full set of the famous Geissler’s Tubes, and a powerful Grove’s Battery, together with apparatus useful in the assay of ores.

LOCATION, BUILDINGS, ETC.

The location of the University is in the south part of Chicago, directly on the Cottage Grove line of the Chicago City Railway. The site was the gift of the late Senator Douglas, and is universally admired for its beauty and healthfulness. The building is unsurpassed for the completeness of its arrangements, especially of the students’ rooms, which are in suites of a study and two bed rooms, of good size and height, and well ventilated. The accommodations of the University have been recently greatly enlarged by the completion of the main building, 136 by 72 feet, a structure erected at a cost exceeding $177,000, and believed to be second in convenience and elegance to no other educational edifice in the country. In this building there are a large Chapel, rooms for the various Scientific Departments, and also the Preparatory, spacious and airy recitation rooms, elegant suites for the Literary and Religious Societies, and additional dormitories for the students.

Through the liberality of the different railroads which centre at Chicago, classes have had the privilege of making frequent excursions into the country, in order to examine rock strata, and to collect specimens in Natural History. These explorations have extended, during past years, to Dubuque and Burlington, Iowa; to Kewanee, LaSalle and Quincy, III. ; to the Wisconsin River, and along the Mississippi River, from McGregor to St. Louis.

BOARD AND ROOMS.

Board may be obtained in the Club Room of the University, where many of the students board, at cost, which has been during the past year from $2.50 to $3.00 per week.

The rooms are arranged in suites, consisting of a study and two bed rooms. Bedsteads, bedding and furniture in Uncleanly condition, will be rigidly excluded. Habits of neatness and order are carefully enjoined on occupants of rooms. Damage to rooms or furniture, other than the ordinary wear, will be charged in the term bills.
Students who may prefer it can obtain board in families on reasonable terms, or they may form clubs and provide for themselves.

EXPENSES PER ANNUM.

<table>

<tr>
<td>Total</td>
<td>$190.00 to $255.50</td>
</tr>
</tbody>
</table>

Students furnish their own fuel and lights. The use of kerosene and soft coal is prohibited in the University building. Gas costs about fifty-five cents a week for each room, and fuel from $10 to $20 per annum for each student. Washing has been, during the past year, from 60 to 75 cents per dozen.

The rules of the Trustees require all bills to be paid by the third day from the beginning of each term, and by a failure to comply with these rules, the student forfeits the privileges of the University.

Parents will take notice that the whole necessary expenses for one year, including wood, lights, and washing, vary but little from $500. This has been proved by the actual experience of students who practice economy. Any material variation from this amount may be regarded as unnecessary.

Students are also furnished with books in the University Hall, at cost, which, during the past year, has been $4.00 per week. Several of the officers and their families reside in the building, and board at this table.

PREPATORY DEPARTMENTS.

PREPATORY DEPARTMENT OF THE UNIVERSITY

The Trustees of the University have deemed it advisable to include among its fundamental and permanent arrangements a Preparatory Department. It will be their aim to make this department a first-class school of preparation for College.

The Professors of the University have charge of the instruction in the studies belonging to their several departments.

The requirements for admission are Reading, Writing, Spelling, Intellectual Arithmetic, Practical Arithmetic, English Grammar and Geography.

The requisite studies have been arranged in a course of three years for classical, and two years for scientific students, as appears by the following schedules.

CLASSICAL COURSE.

FIRST YEAR.

<table>
<thead>
<tr>
<th>Term</th>

</tr>
<tr>
<td></td>
<td>Introduction to Latin Composition.</td>
</tr>
</tbody>
</table>
SECOND TERM.

Greek.—Hadley's Greek Grammar continued.

Boise's First Greek Book.

Latin.—Harkness's Grammar and Cornelius Nepos continued.

Harkness's Introduction to Latin Composition.

THIRD TERM.

Greek.—Hadley's Grammar continued.

Xenophon's Anabasis (Boise's edition) three times a week.

Greek Prose Composition twice a week (Jones & Boise).

Mathematics.—Geometry.

Latin.—Cornelius Nepos. Latin Composition.

THIRD YEAR.

Greek.—Hadley's Grammar.

Xenophon's Anabasis three times a week.

Latin.—Select Orations of Cicero.

Latin Composition.

Mathematics.—University Algebra to Quadratic Equations.

Greek.—Hadley's Grammar.

Greek Prose Composition twice a week.

Latin.—Virgil's Aeneid. Latin Prosody.

English.—History of the United States.

Greek.—Hadley's Grammar.

Xenophon's Anabasis three times a week.

Greek Prose Composition twice a week.

Ancient Geography.

Mathematics.—Geometry.

Instruction in Penmanship, Book-keeping, and Elocution will be given during the course.

GREEK.—The preceding course of study is recommended to those who are preparing for this University at other places. As a substitute, however, for Hadley's Grammar, either Goodwin's, Kahn's or Crosby's Grammar, or Ken- drick's revision of Bucklin's Grammar is accepted; and as a substitute for Boise's Greek Grammar with exercises, or Kendrick's Greek Ollendorf, or Harkness's Crosby's First Book in Greek, is accepted.

SECOND YEAR.

FIRST TERM.

Mathematics.—Robinson's Elementary Algebra.

Latin.—Harkness's Introductory Latin Book commenced.

SECOND TERM.

Latin.—Harkness's Introductory Latin Book completed.

Mathematics.—Robinson's Elementary Algebra completed.

THIRD TERM.

Latin.—Harkness's Grammar and Reader. Latin Composition.

Mathematics.—Robinson's new University Algebra.

Robinson's Higher Arithmetic.

Cornelius Nepos.

Harkness's Introduction to Latin Composition.

Mathematics.—Higher Arithmetic completed.

English.—History of the United States.

Latin.—Harkness's Grammar. Latin Composition.

Cornelius Nepos.

Mathematics.—Chauvinet's Geometry, Books I to III.

Latin.—Cornelius Nepos. Latin Composition.

This course of study has been followed during the past year. It is designed, however, to extend the course to three years, and make it an adequate preparation for the best polytechnic schools.

STUDENTS NOT IN COURSE.

Students not wishing to prepare for College will be admitted into the Preparatory Department, to pursue such studies of the course as they may choose, under the regulations of the Faculty: and special classes will be formed for them when the Faculty shall find it expedient.

Preparatory Department in Wisconsin.

The institution hitherto known as Wayland University, located at Beaver Dam, Wisconsin, has passed under the control of the Board of Trustees of the University of Chicago and will hereafter be conducted as a Preparatory Department of the University. This school has been in successful operation, during the past year, under the direction of E. P. Stearns, M. A., a graduate of the University, assisted by a competent corps of instructors. It is the design of the Trustees to make it in every respect worthy of public favor. Competent teachers will be employed, and a complete course of preparatory studies organized, thus affording to those who prefer not to send their sons to the city an opportunity of securing for them the best instruction and preparation for College. The school is open to young people of both sexes, and it is designed, as soon as practicable, to provide separate buildings for the department for young ladies, and to develop a complete collegiate course of studies, graduates from which shall receive the diploma of the University of Chicago. Classes in other branches of study, besides those required in preparation for College, will be organized as circumstances require.

The Winnetka Institute.

The University has leased the fine building recently erected at Winnetka, Illinois, on the Lake Shore, sixteen miles north of Chicago, for the purpose of maintaining a Preparatory Department at that place.

This School, under the management of A. M. Bacon and Mrs. M. S. Tolman Bacon, teachers of large experience, has been in successful operation for one year. It is open to both sexes, and has ample facilities for boarding pupils. The design is to furnish first class educational advantages for young ladies and gentlemen.

The musical department is conducted by Madam Eugene Rice, of Chicago.
