UNIVERSITY OF CHICAGO,

1873-74.
JANSEN, McCURG & CO.

The Best Books.

We offer the choicest and largest collection in the West of the Masterpieces of Literature,—"The Good Books of To-Day, and the Good Ones of All Time," in all varieties of editions and bindings, from the most modest and inexpensive to the finest productions of the English presses and binderies.

OUR SPECIALTIES ARE:

I. Every School and College Text Book used in the West.
II. The best books and best editions for public and private libraries.
III. Splendid art works for the drawing room, or for wedding and anniversary presents.
IV. Rare and curious editions of old and scarce works.
V. The direct importations of fine and unusual foreign books.
VI. The Choicest English, French and American Papers, Envelopes and Stationery, for Ladies and Gentlemen.

Teachers, Professors, School Officers,
Clergymen and Literary Men,

Will be cordially welcomed to our new and beautiful store, and are invited to make it their resort while in Chicago.

JANSEN, McCURG & CO.,
Importers, Booksellers and Stationers.
117 & 119 State Street, Chicago.

THE LARGEST! THE CHEAPEST! THE BEST!

WORCESTER'S QUARTO DICTIONARY,
THE STANDARD.
WORCESTER'S ROYAL QUARTO DICTIONARY,
(ILLUSTRATED.)

Is a massive volume of 1224 pages, and contains considerably more than Our Hundred Thousand Words in its vocabulary, with their pronunciation, definition, and etymology.

"Just published, new illustrated editions of the Comprehensive and Primary Dictionaries, also Worcester's Pocket Dictionary" Special terms to Schools, School Officers, and Students. Address.

BREWER & TILESTON, Publishers, No. 47 Franklin Street, Boston, or
HENRY B. TOWNE, Agent, 115 State Street, Chicago.

ARTISTIC PHOTOGRAPHY,
BY C. D. MOSHER,
951 WABASH AVENUE,
Has one of the largest PHOTOGRAPH GALLERIES in the West, and is making all kinds of work in Art Photography.

THE BEAUTIFUL "SOUVENIR" A SPECIALTY.

JOHN DAPRATO & BROS.
MANUFACTURERS OF ALL KINDS OF
STATUARY, CENTER PIECES,
MOULDS IN PLASTER WORK.
287 and 289 South Clark Street, Cor. Van Buren, Chicago, Ill.

BALDWIN, McKnight & Richardson,
No. 5 CALHOUN PLACE, in rear of No. 59 Washington St., Chicago.
GOLD, SILVER AND NICKEL PLATERS,
BRASS FOUNDERS,
AND MANUFACTURERS OF
Bank Counter, Stair and Office Railing.
IRON AND PLATED WINDOW SASH, BELL HANGING AND SPEAKING TUBES
HOTEL ANNUNCIATORS, "ELECTRIC" AND "MECHANICAL"
Re-Plating of every description. Jobbing of all kinds done at short notice.
D. APPLETON & CO.'S PUBLICATIONS.

CORNELL'S GEOGRAPHIES.
 Revised Edition—The best, the cheapest, the most popular.
 New Primary Geography $8.00 New Physical Geography $6.00
 New Intermediate Geography $1.50 Outline Maps $1.50
 Surpass all others—1st, in philosophical arrangement; 2d, in gradual progression; 3d, in maps, illustrations, text and execution; 4th, in agreement of maps with text; 5th, in full explanation; 6th, in maps, illustrations, text and execution; 7th, in every feature of a good geography.

This system is simple and economical, and teachers unacquainted with drawing can teach it successfully. It is also a system of fine hand drawing, and thus is of the greatest advantage to pupils for blackboard work, as well as for future field sketching.

FACULTY.

Hon. James R. Doolittle, LL.D., President pro temore.

Joseph Haven, LL.D.,
Acting Professor of Moral and Intellectual Philosophy.

James R. Boise, Ph.D., LL.D.,
Professor of the Greek Language and Literature, and Dean of the Faculty.

William Mathews, LL.D.,
Professor of Rhetoric and English Literature.

Alonzo J. Howe, M.A.,
Professor of Mathematics.

J. William Stearns, M.A.,
Professor of the Latin Language and Literature.

Truman Henry Safford, B.A.,
Professor of Astronomy, and Director of the Dearborn Observatory.

Henry Booth, LL.D.,
Hume Professor of International and Constitutional Law.

C. Gilbert Wheeler, B.S.,
Professor of Analytical and Applied Chemistry.

John C. Freeman, M.A., B.D.,
Associate Professor of Ancient Languages, and Principal of the Preparatory Department.

Nathan Sheppard, M.A., B.D.,
Professor of Logic and Lecturer on Public Speaking.

Charles Judson Roney .................................................. Cheviot, Ohio.
Granville Corey Shirk .................................................. 835 Cottage Grove Av.
Nehemiah Jacob Wheeler ............................................. Marengo.

I. — CLASSICAL COURSE.

REQUIREMENTS FOR ADMISSION.

Candidates for admission to the Freshman Class in the Classical Course are examined in the following studies:

English Grammar and Analysis.
Geography — Ancient and Modern.
History of the United States.
Arithmetic, Algebra through Quadratic Equations, and books I. to VI. of Davies' Legendre, or an equivalent. Algebra to Quadratic Equations will not be reviewed in the course, and must be thoroughly learned from a University Treatise.
Boise's First Greek Book.
Hadley's Greek Grammar.
Xenophon's Analasis — three books.
Greek Prose Composition. (Jones & Boise.) Part I.
Latin Grammar and Reader.
Four books of Cesar's Commentaries, or, Cornelius Nepos.
Six Orations of Cicero.
Six books of Virgil's Aenid.
Harkness' Introduction to Latin Composition, first and second parts, or forty-four exercises of Arnold's Latin Prose Composition.

Candidates for advanced standing, whether from other colleges or not, are examined in the studies previously pursued by the class which they propose to enter.

No person under fifteen years of age will be admitted to the Freshman Class, nor will any one be admitted to an advanced standing without a proportionate increase of age.

Testimonials of good moral character are required in all cases, and every student from another College must produce a certificate of regular dismissal.

To prevent disappointment to the applicant it should be distinctly understood, that a thorough knowledge of the prescribed studies is more likely to insure admission, and to enable the students to reap the full benefits of the Collegiate Course, than a superficial acquaintance with some higher branches of literature and science. A critical knowledge of Arithmetic, Elementary Algebra and Geometry, and the Grammar of the English, Latin and Greek languages, is indispensable.
FRESHMAN CLASS.

FIRST TERM.
1. **Greek.** — Selections from Greek Authors (Boise & Freeman). Greek Prose Composition (Boise).
3. **Mathematics.** — Algebra from Quadratic Equations through the Binomial theorem.

SECOND TERM.
3. **Greek.** — Selections from Greek Authors. (Boise & Freeman). Greek Prose Composition (Boise). Greek History and Geography.

THIRD TERM.
1. **Mathematics.** — Plane Trigonometry completed. Mensuration or Surveying.
2. **Greek.** — Selections from Greek Authors. (Boise & Freeman).
3. **Latin.** — Selections from Livy. The Captives of Plautus. Roman History from the battle of Zama to the fall of the Republic. (Liddell & Rawlinson).

SOPHOMORE CLASS.

FIRST TERM.
1. **Mathematics.** — Algebra completed. Natural Philosophy.
3. **Greek.** — Homer's Iliad. (Boise's edition).

SECOND TERM.
1. **Latin.** — Horace. History of the Augustan Age. Essays by the Class on subjects connected with the history and literature of the period. Exercises in writing Latin.
2. **Physics.** — Natural Philosophy. Snell's Osmias completed.
3. **History.** — Outlines of Universal History.

THIRD TERM.
1. **Rhetoric.** — Whately and Campbell.
2. **Mathematics.** — Spherical Trigonometry with applications to Astronomy. Natural History. — Botany (Gray).
3. **Greek.** — The Antigone of Sophocles, or some other Greek tragedy (Woolsey). Essays by the class, chiefly critiques on the principal Greek plays. Greek History continued.

JUNIOR CLASS.

FIRST TERM.
1. **Metaphysics.** — Sir William Hamilton. Lectures. (Four times a week).
2. **Physics.** — Astronomy. (Four times a week).
3. **Latin.** — Selections from the Annals and Histories of Tacitus. Roman History to the time of Trajan. Essays by the class. Extemporals. (Four times a week).
4. **Greek.** — Demosthenes de Corona commenced.
5. **French.** — Magill's Grammar and Reader. (Three times a week).

SECOND TERM.
1. **Metaphysics.** — The Will. Lectures. (Twice a week).
2. **English Literature.** — Taine. Lectures. (Three times a week).
3. **Chemistry.** — Barker's Elements of Chemistry. (Four times a week).
4. **Greek.** — Demosthenes de Corona completed. Essays by the class on the leading events in the fourth century B.C., and other topics connected with the study of oratory. (Four times a week).
5. **French.** — Magill's Grammar and Reader. (Twice a week).

THIRD TERM.
1. **Mathematics.** — Analytical Geometry. (Six weeks).
2. **Latin.** — Juvenal, six Satires, or Select Epistles of Pliny. Roman History to Diocletian. Essays by the class. (Six weeks).
3. **Natural History.** — Zoology, Anatomy, and Physiology (Nicholson). (Four times a week).
4. **Chemistry.** — Lectures. (Three times a week).
5. **French.** — Magill's Grammar and Reader. (Three times a week).

SENIOR CLASS.

FIRST TERM.
1. **History.** — Guizot's History of Civilization. (7½ weeks).
2. **Natural History.** — Geology and Mineralogy. (Dana). (7½ weeks).
4. **Latin.** — Selections from Tacitus. (7½ weeks). Roman History to the year 476 A.D.
SECOND TERM.

1. Greek.— Selections from Plato (Tyler’s Apology and Crito). Essays by the class on the leading philosophers and philosophical systems of the Ancient world. (6 weeks).
   German.— Whitney’s Reader. (6 weeks).
2. Natural History.— Geology and Mineralogy completed.
3. Logic.— McCosh.

THIRD TERM.

   Themes and Declamations throughout the Course.

II.— SCIENTIFIC COURSE.

REQUIREMENTS FOR ADMISSION.

For the Scientific Course, Students will be examined in the same studies as for the Classical, with the omission of Greek altogether, and of Latin excepting the Latin Grammar and Reader, and four books of Caesar’s Commentaries, or Cornelius Nepos, and in the first part of Harkness Introduction to Latin Composition. In College, they will use the same text-books as those in the Classical Course, so far as the two courses coincide.

FRESHMAN CLASS.

FIRST TERM.

1. Mathematics.— Algebra, from Quadratic Equations through the Binomial Theorem.
2. Latin.— Select Oration of Cicero. Latin Composition.
3. German.— Otto’s Grammar.
   Drawing.— Holmes’s Drawing Books.

SECOND TERM.

   Drawing.— Holmes’s Drawing Books.

THIRD TERM.

   Drawing.— Holmes’s Drawing Books.

SOPHOMORE CLASS.

FIRST TERM.

3. German.— A Play of Schiller.
SECOND TERM.

2. Physics.—Natural Philosophy — Snell's Olmstead completed.
3. German.—A Play of Schiller.

THIRD TERM.

1. Rhetoric.—Whately and Campbell.
2. Mathematics.—Spherical Trigonometry with applications to Astronomy.
   Natural History.—Botany.

JUNIOR CLASS.

FIRST TERM.

2. Physics.—Astronomy.

SECOND TERM.

1. Metaphysics.—Hamilton completed. Lectures.
   English Literature.—Taine. Lectures.
2. Chemistry.—Barker's. Lectures.

THIRD TERM.

1. Mathematics.—Analytical Geometry. (6 weeks.)
   Chemistry.—Barker's. Lectures.

SENIOR CLASS.

FIRST TERM.

1. History.—Guizot's History of Civilization.
2. Natural History.—Geology and Mineralogy (Dana).

SECOND TERM.

1. Natural History.—Geology and Mineralogy completed.
2. Logic.—McCoeth. Lectures.
3. Chemistry.—Laboratory Practice.

THIRD TERM.

1. Political Philosophy.—Political economy. Lectures.
3. Anatomy and Physiology.—The Nervous System. Lectures twice a week. Themes and declamations throughout the course.

UNIVERSITY OF CHICAGO.

III. — COURSE IN ASTRONOMY.

The Dearborn Observatory forms the Astronomical Department of the University. Its objects are to make original researches in Astronomical Science, to assist in the application of Astronomy to Geography, in communicating exact time, and other useful objects, and to furnish instruction in Astronomy to the students of the University, both in the regular course and those who wish to give special attention to the study.

The principal instruments of the Observatory are:

1. The great Equatorial Refractor, made by Alvan Clark & Sons, of Cambridge, Mass., the second largest telescope in this country. This instrument is placed in the Dearborn Tower, built by the munificence of the Hon. J. Young Scammom, L.L.D. The dimensions of the Equatorial are:
   Diameter of Declination Circle, 30 inches.
   Diameter of Hour Circle, 22 inches.
   Focal length of Object Glass, 25 feet.
   Aperture of Object Glass, 18½ inches.

The circles are read by two microscopes each, the hour circle to seconds of time, and the declination circle to ten seconds of space.

2. A meridian circle of the first class, constructed by those eminent artists, Messrs. A. Repsold & Sons, of Hamburg. This instrument has a telescope of six French inches aperture, and divided circle of forty inches diameter; otherwise it is like Bessel's celebrated Kriegersberg circle by the same makers, with some late improvements in the illumination of the field and the wires, and apparatus for registering declinations.

The Observatory has also a chronometer (Wm. Bond & Son, No. 279), a clock by E. Howard & Co., and an astronomical library.

The Course of Instruction includes:

1. Instruction in Astronomy to the Undergraduates (see Classical Course).
2. In the determination of time, latitude and longitude, to students of the Engineering Course.
3. In higher Mathematics and Astronomy to such students as wish to prepare themselves for positions in Observatories, or other scientific establishments, or for professorships of mathematical departments in Colleges.
   This will include instruction in the following subjects
   1. Modern Higher Geometry, applied to Conic Sections and Spherical Trigonometry.
   3. Spherical and Practical Astronomy
   4. The Method of Least Squares.
5. The Theory of the Motions of the Heavenly Bodies.
The authors chiefly referred to on the respective subjects will be
1. Charles, Steiner, Geiser.
2. Salmon, Cournot, Cournot.
5. Gauss, Encke.
Practical exercises with the instruments will take place regularly.
On those who shall pursue a full course of at least two years, shall have
passed a satisfactory examination, and shall prepare an original thesis on some
astronomical or mathematical subject, the degree of Bachelor of Science will be
conferred.
During the past two years the Director has completed a catalogue of Latitude
Stars for the United States Lake Survey, and in connection with U. S. Engineers
and other officers, has determined the geographical positions of Fort Hays,
Kansas, Denver and Pueblo, Colorado, Santa Fe and Fort Union, New Mexico,
Bismarck, D. T., and Evanston, W. T.; and has conducted operations at Chi-
cago for local time in determining the longitudes of Pembina and of Cairo, Ills.
Still more operations of the same kind are in contemplation for the present
summer, so that students who desire to, will enjoy unusual opportunities for
witnessing, and, if properly prepared, for taking part in important operations of
practical Astronomy as applied to geography and geodesy.
The preparation desirable for a student in practical Astronomy consists in a
thorough knowledge of practical arithmetic, elementary algebras, and geometry,
and plane trigonometry, and, if possible, of the German language.

ASTRONOMICAL STUDENTS.
Charles Judson Roney. William Rufus Roney.

IV. — COURSE IN PRACTICAL CHEMISTRY.

In this Course provision is made for the thorough and comprehensive study
of Chemistry as an art, in the belief that, aside from the practical relations of
the Science, the educational effect of Laboratory practice is of great value.
By such practice the senses are trained to observe with accuracy, and the judg-
ment to rely with confidence on the proof of actual experiment.
In the Laboratory of this Department, under the direction of Professor
Wheeler, aided by competent assistants, the student of Applied Chemistry will
have ample opportunity of becoming practically familiar with the materials,
apparatus, and processes of the most important Chemical arts and manufactures.
A systematic Course in Qualitative and Quantitative Analysis will be followed
by practical studies with regard to the application of Chemistry to Agriculture,
Mining, Metallurgy, Assaying, Medicine, Pharmacy, Toxicology, Preservation
of Timber, Meats, etc., Warming, Illumination, Ventilation, Photography and
other useful purposes. On those who shall complete a full course, requiring
from two to three years' time, and who shall have passed a satisfactory examina-
tion, the degree of Bachelor of Science will be conferred. Certificates will be
granted to students who do not graduate, stating the time they have been pre-
sent, the studies pursued, and the progress made.
The Laboratory is quite new, and one of the best equipped in the West. The
student will have ample opportunity of visiting the numerous manufacturing
establishments of Chicago and vicinity, and witnessing important industrial
applications of the science, the study of which he is pursuing.
The Laboratory Fee for special students in Chemistry is $5 per term, for the
regular course, $1.

TEXT BOOKS FOR READING AND REFERENCE.

PRIZES.

JUNIOR CLASS

Prizes, first and second, for excellence in Oratory and Composition combined in original orations, are open to competition by members of the Junior Class.

At the commencement of 1873 these prizes were awarded as follows:

To Reune Runyon Coon, Jr., Pana, Ills., a first prize.

To Robert Morgan Ireland, Macon, a second prize.

SOPHOMORE CLASS

Prizes, first and second, for excellence in English Composition, are open to competition by members of the Sophomore Class. Competitors for the prize must leave their essays at the President’s office on or before the first day of June. Each essay must be signed with an assumed name, and accompanied by a sealed letter containing the true name of the writer, and superscribed by his assumed name.

At the commencement of 1873 these prizes were awarded as follows:

To Richard Benton Twiss, of Davenport, Iowa, a first prize.

To Maurice Blumenfeld, of Chicago, a second prize.

FRESHMAN CLASS

The Keen prizes, first and second, for excellence in Declamation, are open to competition by members of the Freshman Class. The competition for these prizes will take place on the Monday evening preceding Commencement.

At the Commencement of 1873 these prizes were awarded as follows:

To Charles Lundy Lewis, Ottawa, a first prize.

To Benj. Franklin Patt, of Tiskilwa, a second prize.

Committee of Award.—C. R. Blackall, M.D., Rev. J. A. Smith, D.D., Rev. E. J. Goodspeed, D.D.

It has been thought advisable to discontinue the awarding of prizes in the University after the present year.

GENERAL INFORMATION.

TERMS AND VACATIONS.

The year is divided into three terms and three vacations. The first term consists of fifteen weeks; the second and third of twelve weeks each. The Christmas vacation is two weeks, the Spring vacation one week, and the summer vacation ten weeks.

COMMERCIAL INSTRUCTION.

To meet the practical wants of the different classes of students, the Trustees have made arrangements for regular instruction in Penmanship, Book-keeping, and other branches essential to a good commercial education.

MUSIC.

The Department of Music is under the supervision of Dr. George F Root, and students who desire it will have an opportunity for elementary drill, on payment of a small fee.

ELECTIVE STUDIES.

Students may reside at the University and pursue studies, for a longer or a shorter time, in any of the classes, at their own election, subject, however, to the regulations of the Faculty.

LECTURES.

In connection with the regular recitations, lectures are delivered on the following subjects: Chemistry, Natural Philosophy, Geology, Astronomy, Anatomy and Physiology, Zoology, Mental and Moral Philosophy, Greek History and Literature, Roman History and Literature, Verbal Criticism, and History of the English Language.

RHETORICAL EXERCISES.

The College Classes have exercises in Composition once in three weeks. Instruction in Elocution is given to all the students, and declamations are required of all.

EXAMINATIONS.

At the close of every term there are public examinations of all the classes, in both the Collegiate and Preparatory Departments.
The degree of Bachelor of Arts is conferred upon all students who have completed the prescribed Classical Course of study, and passed a satisfactory examination in the degree of Bachelor of Science upon all who have completed the Scientific course, and passed a similar examination. Bachelor of Arts of three years' standing may receive the Degree of Master of Arts, and pursue some literary or scientific calling. Candidates for this degree will be expected to make application for it through the Dean of the Faculty, and to furnish evidence of their qualifications.

SOCIETIES.

There are three Societies in the University, conducted by students—two Literary and one Religious.

RELIGIOUS EXERCISES.

The duties of each day are opened with religious services in the Chapel of the University, at which all the students are required to be present. On the Sabbath they are required to attend public worship in the forenoon, with some congregation in the city, selected by themselves or by their parents. The students also sustain a weekly prayer meeting.

LIBRARIES.

The University Library has been increased recently by valuable acquisitions. The London publishing houses of Sampson, Low & Co., Trübner & Co., and Longmans & Co., have generously furnished copies of their latest publications. Messrs. Sheldon & Co., of New York, have donated a complete set of their publications.

The Thomason Library, the gift of Hon. H. M. Thomason, contains a very valuable collection of books on Horticulture, a complete set of the Bohn Libraries, and many fine illustrated works.

The Tucker Library, presented by the family of the late Rev. Elisha Tucker, D.D., contains upwards of five hundred volumes, mostly theological.

The Hengstenberg Library is now put up in the University, and accessible to students. It contains about thirteen thousand volumes, and is the only one of the most valuable theological libraries in this country, but it is also rich in works of classical literature, belles-lettres, history and philosophy.

MUSEUM.

Important changes have been made within the last year in the department of Science and Art. A large and admirably lighted front room, on the second floor of the University Building, opposite the Society Hall, has been fitted up to contain the Museum, with the most modern improvements, and in elegant style.

The Museum of Human Anatomy and Physiology is well supplied. Its facilities for illustrating and teaching these departments are not surpassed by any similar institution in the country. It contains skeletons, maps, a full set of Bock-Steiger models, and other apparatus ample for the department. The facilities for teaching vertebrate Anatomy and Zoology are also good. The Zoology and Anatomy of the invertebrates can also be finely illustrated from specimens in this museum. In the department of Entomology there are about three or four hundred species of shells, selected from the prominent or typical species of the different families of that division of animals. The department of Entomology is variously and, in some respects, elaborately represented, containing, in beetles alone, over three thousand species. In the Crustacea, and the classes lower, such as Star Fishes, Echinoderms, Worms and Corals, the museum contains specimens enough for teaching purposes.

The Geological Department of the Museum has been greatly increased from several sources. It now contains several thousand specimens, judiciously selected, thus representing the typical geological and mineralogical rocks.

A Numismatic Collection, made by the late Charles D. Sandford, and containing 3,500 coins, has been presented to the University by Rev. Miles Sandford, D.D., of Philadelphia. The museum is under the charge of Prof. Ransom Dexter, who has already systematized the work, and who has a sufficient corps of assistants to carry out the necessary labor with dispatch and precision. He has also, in accordance with a power vested in him by the Board of Trustees of this University, authorized several agents to solicit contributions of scientific materials for this Museum.

CHEMICAL AND PHILOSOPHICAL APPARATUS.

The Lectures on Chemistry and Natural Philosophy are illustrated by modern apparatus. To this important addition have recently been made, chiefly donations from George Hazeltine, Esq., of London, and Messrs. B.O. & H.W. Chamberlain, of Boston, Massachusetts, among them a Runkoff's Induction Coil, one of the largest ever imported, a full set of the famous Geissler's Tubes, and a powerful Grove's Battery, together with apparatus useful in the assay of ores.

LOCATION, BUILDINGS, ETC.

The location of the University is in the south part of Chicago, directly on the Cottage Grove line of the Chicago City Railway. The site was given to the University by the late Senator Douglas, and is universally admired for its beauty and healthfulness.

The building is unsurpassed for the completeness of its arrangements, especially the students' rooms, which are in suites of a study and two bed-rooms, of good size and height, and well ventilated. The accommodations of the University have been greatly enlarged by the completion of the new main building, 156 by 72 feet, a structure erected at a cost exceeding $117,000, the University having contributed $60,000 to the cost. The building is of red brick, 12 stories high, constructed of granite and marble, and is finished in stone. The University owns the land on which the university is situated, and is the only institution in the city that owns its own buildings. The University has a large number of students, and is one of the largest and most prosperous institutions in the country.

The University of Chicago is a public institution, supported by the state of Illinois, and is open to all students without regard to race, religion, or sex. The University has a large number of students, and is one of the largest and most prosperous institutions in the country.
UNIVERSITY OF CHICAGO.

Through the liberality of the different railroads which center at Chicago, classes have had the privilege of making frequent excursions into the country, in order to examine rock strata, and to collect specimens in natural history. These explorations have extended, during past years, to Dubuque and Burlington, Iowa; to Kewanee, LaSalle, and Quincy, Ill.; to the Wisconsin River, and along the Mississippi River, from McGregor to St. Louis.

BOARD AND ROOMS.

Board may be obtained in the Club Room of the University, where many of the students board, at cost, which has been during the past year from $2.50 to $3.00 per week.

The rooms are arranged in suites, consisting of a study and two bed-rooms. Bedsteads, bedding, and furniture in uncleanly condition, will be rigidly excluded. Habits of neatness and order are carefully enjoined on occupants of rooms. Damage to rooms or furniture, other than the ordinary wear, will be charged in the term bills.

Students who may prefer it, can obtain board in families on reasonable terms, or they may form clubs and provide for themselves.

EXPENSES PER ANNUM.

<table>

</tr>
</tbody>
</table>

Students furnish their own fuel and lights. The use of kerosene and soft coal is prohibited in the University building. Gas costs about fifty cents a week for each room, and fuel from $10 to $20 per annum for each student. Washing has been, during the past year, seventy-five cents per dozen.

The rule of the Trustees requires all bills to be paid by the third day from the beginning of each term, and by failure to comply with these terms, the student forfeits the privileges of the University.

Parents will take notice that the whole necessary expenses for one year, including wood, lights, and washing, varies but little from $300. This has been proved by the actual experience of students who practice economy. Any material variation from this amount may be regarded as unnecessary.

GENERAL INFORMATION.

During the past year arrangements have been perfected to give increased efficiency to the Law School, which has been for many years connected with this University. The school has been thoroughly remodeled upon a basis of joint direction and control of the University of Chicago and the Northwestern University. The Universities agree to share equally in the expenses and the support of two Universities and an undivided bar, and enables it to College opened its first session under this joint patronage on the 6th of October, 1873.

IMPORTANCE.

The advantages afforded by a College of Law for instruction in the science and practice of law are appreciated both by the bar and by the public. A systematic course of study, under eminent living teachers, is quite as valuable to the legal student as to the medical or theological. For laying the foundation of the law, the advantages of the Law College far exceed those of an office. In an office it is seldom that the student receives the attention his best interests demand. In the College the Professors are specially charged with this work. The value of this instruction is indicated by the fact that about one hundred students go yearly from the State of Illinois to the practice, or the statutes and decisions of our state. It is believed that this demand for systematic instruction will be fully met hereafter in our Law College.

CONDITIONS OF ADMISSION.

Students entering the Junior Class are expected to have at least a good common-school education. It is greatly to the interest of the student to advance in general scholarship as far as practicable. A knowledge of Latin is of service in handling law terms.

It is believed that the Law Course as a professional course should be a post-graduate course. Such preparation is recommended, not required.

ADVANCED STANDING.

Students who have attended another law college one year, or spent one year in the study of law in the office of an attorney, may apply for standing in the Senior Class, and may enter it if found competent on examination by the Faculty.
THIRD TERM.

1st hour — Lectures on Statutes, and practice in
U. S. Courts ........................................ TRUMBULL and DOOLITTLE
2nd hour — Wills and Probate, General Review. — BOOTH and BRADBELL
Also lecturers on Medical Jurisprudence, Patents, Criminal Law, and other specialties.

BOTH YEARS.

Saturday, 9 to 11 A.M. — Moot Court Trials .................. Prof. DENISLOW
Wednesday, 10 to 11 A.M. — Moot Court Motions .............. Prof. DENISLOW
Saturday, 2 to 4 P.M. — Examples in Conveyancing. Abstracts, Contracts, and Office Practice. — Prof. DENISLOW

Moot Courts.

That the students may be versed in the practice of Law, Moot Courts are held every Saturday morning. In these they are taught to apply legal remedies according to the different forms of action, to bring suits, draw papers and pleadings, and take the various steps incident to bringing a cause to trial; then to try it according to the rules of evidence, including the arguments, charge, verdict, and the forms and dignity of a real trial preserved. The trial takes place in the presence of the classes, whose members act respectively as counsel, jurors, witnesses and officials of the court, and before a professor who sits as judge, with the double aim of illustrating the legal principles involved, and explaining the rules of practice. This exercise is always interesting and profitable.

Auxiliaries.

On Saturday afternoon an example lesson is given in examination of contracts, and drawing contracts, deeds, wills, pleadings, and the legal instruments required in office business.

The grammatical accuracy, rhetoric, elocution, and courtesy of deportment of the students will receive such attention as is deemed adapted to correct faults of style, without suppressing individuality, in which so often lies the secret of power. The students will be encouraged to organize societies, holding their sessions weekly, for the discussion of questions of political policy and economy, and for becoming acquainted with parliamentary rules.

Books.

Students will find their own books. Arrangements have been made by which they may be supplied at the lowest trade prices. Many of the students obtain the use of books from the numerous law offices in the city, on favorable terms. Those who buy their books usually prefer to retain them, and thus begin a library; but, if they choose, they can sell them at the close of the term, at slightly reduced prices, in which case the net expense for books will be small.

Examinations.

In addition to the daily and weekly examinations, the students will be examined at the close of the year in the presence of the Faculties and Trustees of both Universities.

Juniors who show a satisfactory acquaintance with the subjects required will be advanced to the senior class.
Seniors found worthy will be recommended to graduation.

Advantages.

1. The location of the Law College, in Superior Block, fronting on Court-House Square, in the heart of the great metropolis of the Northwest, and in the immediate vicinity of all the law offices and of the Courts, State and Federal, which are almost constantly in session, affords to the student who wishes to obtain employment during office hours, and to become acquainted with every phase and variety of business, advantages unsurpassed.
2. The College is a department of the University of Chicago, and also of the Northwestern University, and the students are admitted free to the libraries of both Universities, and to all public lectures delivered to undergraduates in the Literary Departments of either.
3. Students in the Law College can also unite with any of the regular classes at the Universities, and pursue any of the studies taught there, without additional charge.
4. The students are admitted free to the law library of the Chicago Law Institute, located in the Court-House.

Classification.

1. Students at the Union College of Law shall hereafter be classified as "regular" attendants, or "casuals.
2. No casual attendant shall graduate or receive the diploma of this school, unless certified by the examiners to have passed a remarkably good and unexceptionable examination.
3. Students absent at more than one recitation of their class per week, and not furnishing a satisfactory excuse, in writing, at the next recitation of the same class, shall be deemed casual for that week, and checked on the roll as such, but may remove such check by attendance at three lectures of the class to which they do not belong.
4. Students neglecting to comply with any exercise required of them in the Moot Courts, or in Office Practice, for more than two weeks, will be deemed casuals for the said two weeks.
5. Students marked as "casual" for half the weeks of the term, will be deemed casual for the term, and students casual for two terms, will be deemed casual for the year.

The roll of both classes will be called by the several lecturers at the hours of 9, 10, 4 and 5.

VAN BUREN DENISLOW, Secretary,
Tribune Building, Chicago, Ill.
PREPARATORY DEPARTMENTS.

PREPARATORY DEPARTMENT OF THE UNIVERSITY

The Trustees of the University have deemed it advisable to include among its fundamental and permanent arrangements a Preparatory Department. It will be their aim to make this department a first-class school of preparation for College.

The Professors of the University have charge of the instruction in the studies belonging to their several departments.

The requirements for admission are Reading, Writing, Spelling, Intellectual Arithmetic, Practical Arithmetic, English Grammar and Geography.

The requisite studies have been arranged in a course of three years for classical, and two years for scientific students, as appears by the following schedules:

CLASSICAL COURSE.

FIRST YEAR.

Latin—Latin Lessons commenced.

Mathematics.—Robinson's Elementary Algebra.

Natural Science.—Elements of Natural Philosophy, by the first division of the class.

Drawing.

Greek.—Hadley's Greek Grammar commenced.

Boise's First Greek Book.

Latin.—Grammar.

Arnold's Cornelius Nepos.

Introduction to Latin Composition.

Greeks.—Hadley's Greek Grammar continued. Geometry, Books I. to III.

Boise's First Greek Book, completed, and Xenophon's Analysis commenced.

Second Term.

Greek.—Hadley's Greek Grammar continued. Geometry.

Boise's First Greek Book, completed, and Xenophon's Analysis commenced.

Latin.—Grammar and Cornelius Nepos continued.

Introduction to Latin Composition.

Freeman's Outlines of History.

UNIVERSITY OF CHICAGO.

THIRD TERM.

Latin.—Select Orations of Cicero.

Latin Composition.

Freeman's Outlines of History.

THIRD YEAR.

Greek.—Hadley's Grammar.

Xenophon's Analysis (Boise's edition) three times a week.

Greek Prose Composition twice a week (Jones).

Latin.—Select Orations of Cicero.

Latin Composition.

Mathematics.—University Algebra to Quadratic Equations.

Latin.—Virgil's Aeneid.

Latin Proseody.

English.—History of the United States.

Greek.—Hadley's Grammar.

Ancient Geography.

Mathematics.—Geometry, Books III. to V.

Instruction in Penmanship, Book-keeping, and Elocution will be given during the course.

Greek.—The preceding course of study is recommended to those who are preparing for the University at other places. As a substitute, however, for Hadley's Grammar, either Goodwin's, Kühner's or Crosby's Grammar, or Kendrick's revision of Balliol's Grammar, is accepted; and as a substitute for Boise's First Greek Book, either Leighton's Greek Lessons, or Whiton's Companion Book, or Kühner's Elementary Greek Grammar with exercises, or Kendrick's Greek Ollendorff, or Harkness' or Crosby's First Book in Greek, is accepted.

Latin.—Either Balliol's, or Allen and Greenough's, or Andrews' & Stoddard's Latin Grammar will be accepted as a substitute for Harkness Grammar. The first and second parts of Harkness' Latin Composition, or the first forty-four exercises of Arnold's Latin Prose Composition, should be thoroughly mastered by the student. These exercises should first be written and afterward translated orally. In connection with the study of Virgil, Latin Proseody should be learned, and the difference between prose and poetical constructions carefully noted.

PREPARATORY DEPARTMENT IN WISCONSIN.

The institution hitherto known as Wayland University, located at Beaver Dam, Wisconsin, has passed under the control of the Board of Trustees of the University of Chicago, and will hereafter be conducted as a Preparatory Department of the University. This school has been in successful operation, during the past year, under the direction of E. F. Shears, M.A., a graduate of the University, assisted by a competent corps of instructors. It is the design of the Trustees to make it in every respect worthy of public favor. Competent teachers will be employed, and a complete course of preparatory studies organized, thus affording to those who prefer not to send their sons to the city an opportunity of securing for them the best instruction and preparation for College. The school is open to young people of both sexes, and it is designed, as soon as practicable, to provide separate buildings for the department for young ladies, and to develop a complete collegiate course of studies, graduates from which shall receive the diploma of the University of Chicago. Classes in other branches of study, besides those required in preparation for College, will be organized as circumstances require.

Total students at Beaver Dam, 120.

THE WINNETKA INSTITUTE.

The University has leased the fine building recently erected at Winnetka, Illinois, on the Lake Shore, sixteen miles north of Chicago, for the purpose of maintaining a Preparatory Department at that place.

This school, under the management of B. L. Dodge, and Messrs. Stanley, Sloane and Larsen, has been in successful operation for three years. It is open to both sexes, and has ample facilities for boarders and day pupils. The design is to furnish first-class educational advantages for young ladies and gentlemen.

Total Students at Winnetka, 61.

- Prof. Merrick Lyon, Providence, R.I.
AN ACT INCORPORATING THE UNIVERSITY OF CHICAGO

SECTION 1. Be it enacted by the people of the State of Illinois, represented in the General Assembly, That Stephen A. Douglas, William B. Ogles, William H. BOOT, E. D. Taylor, John H. Kinzie, Robert H. Clarke, John C. Burroughs, Roe, Elijah Gore, Henry G. Weston, Simon G. Miner, Noyes W. Miner, and their associates and successors in office, are hereby constituted a body corporate, being the promoters of the University of Chicago, the object of this incorporation being to promote the sciences, arts, and professions, the education, and the cultivation of the fine and mechanical arts, and to promote the same by open and public lectures, demonstrations, and readings, for the benevolence of the human species.

The said corporation shall have perpetual succession, with power to sue and be sued, to alter the same at pleasure; to buy and sell, and to take and hold real and personal property.

SEC. 2. The persons hereby named are hereby appointed trustees of the said corporation, and the said trustees, upon the call of any three of their number, shall meet for the purpose of organizing this act, they, or a quorum of them, in a regular meeting, shall choose, by ballot, fifteen other persons, to constitute, with themselves and the President of the所述的大学，the full board of trustees of the University.

Eleven members present at any regular meeting of the board of trustees shall be deemed a quorum for the transaction of business. When the number of members present at any meeting is less than ten, the board shall adjourn to another day.

The board shall meet twice in each year, once in the fall and once in the spring, and at such other times as the President may determine.

The President of the University shall preside at all meetings of the board, and in the absence of the President, the Vice President shall preside.

The board shall have power to fix the terms of admission to the University and to prescribe the rules and regulations governing the same.

SEC. 3. The board shall have power to award degrees of the University and to prescribe the courses of study and the requirements for the same.

The board shall be charged with the management and control of the property of the University, and shall have power to fix the rate of tuition and the terms of admission to the University.

SEC. 4. To enable the trustees to perform the duties hereby committed to them, and to secure the ends of this corporation, it is hereby declared unlawful for any person to devise any student of the said University into the practice of gaming, or to furnish to any student any device or instrument for gaming, or any intoxicating liquors. And any billiard room, bowling alley, race course, or other device or instrument for gaming, or any brothel or house of ill fame, or place where intoxicating liquors are sold or furnished (except for medicinal or mechanical purposes), within one mile of the site of said University, is hereby declared a nuisance, and subject to abatement as such.

SEC. 5. In addition to the board of trustees, there shall be a board of regents of the University, to consist of the Governor of the State of Illinois, the Lieutenant Governor, the Secretary of State, the Speaker of the House of Representatives, the Superintendent of Public Instruction, the Judges of the United States Court for the northern and southern districts of Illinois, and of the Supreme Court of Illinois, and of the Circuit Court of Cook County, and the Cook County Court of Common Pleas, and Mayor of the city of Chicago, by virtue of their offices, and of fifteen other persons to be appointed by the board of trustees, one from each of the executive committee of the University, to be chosen from the faculty and the students of the University, to be members of the board of regents.

The board of regents shall meet annually, and the chancellor may, at his discretion, call special meetings, eleven members at any meeting being necessary to constitute a quorum.

SEC. 6. The officers of the board of regents shall be a chancellor and vice chancellor, and may be elected by the board, or by the votes of the faculty, and the students of the University, by a majority of the votes cast. The Governor of the State of Illinois shall be ex officio, chancellor of the University, and the Lieutenant Governor shall be vice chancellor; and in case of the absence of both the chancellor and vice chancellor from the meeting of the regents, the meeting may appoint a president pro temporarily; they shall also elect the secretary, and establish such ordinances and by-laws as they may deem necessary for the government of their own proceedings.

The board shall meet annually, and the chancellor may, at his discretion, call special meetings, eleven members at any meeting being necessary to constitute a quorum.

The board shall have power to award degrees of the University, and to prescribe the courses of study and the requirements for the same.

The board shall be charged with the management and control of the property of the University, and shall have power to fix the rate of tuition and the terms of admission to the University.

otherwise than that the majority of the trustees and the President of the University shall forever be of the some religious denomination as the majority of this corporation, no religious test or particular religious profession shall ever be held as a requisite for admission to any department of the University, or for election to any professorship or other place of honor or emolument in it, but the same shall be open alike to persons of any religious faith or profession. The board may acquire—by gift, grant or devise, or purchase—any real or personal property, and may sell, lease, or otherwise dispose of, any and all property held by the University, in such manner as they may deem most conducive to its interest; provided, that real estate shall not be sold without the consent of a majority of all the trustees. The board may appoint, of its own number, an executive committee of not less than five members, to be charged with the interest of the University in the intervals of the sessions of the board, and may prescribe the duties of such executive committee, and delegate to it all or any portion of the powers of the board.
School and College Text Books

That stand the test of the class-room, and which by use prove their claims to superiority.

ROBINSON'S MATHEMATICS,

The most practical, complete, thorough and satisfactory Series of Mathematics ever published; adopted for exclusive use in many States, and the standard in our best High Schools, Academies and Colleges; more generally used and more favorably known than any other series extant.

The following testimonial to the merits of Robinson's books is from A. J. Howe, Prof. of Mathematics in the University of Chicago, and is cordially endorsed by Prof. J. C. Freeman, Principal of the Preparatory Department:

Chicago, May 8, 1873.

"Robinson's Series of Mathematics is so well known to need an enumeration of its merits. During the last fifteen years I have constantly used in my class room two of three of these books.

I have during this time used all the higher works of the series, and always with the most eminent satisfaction.

"We are now using in the Collegiate and Preparatory Departments of the University, Robinson's Arithmetic, Algebra and Analytical Geometry."

We also publish the following well-known Text Books, viz:

THE AMERICAN EDUCATIONAL SERIES.

We extend a cordial welcome to Teachers, School Officers and Educators generally, and invite correspondence from all who are interested in the use of

FIRST-CLASS TEXT BOOKS.

Teachers and School Officers, desiring to examine any of our publications, with a view to their introduction into schools, if approved—can obtain copies upon favorable terms by addressing us as below; and all orders for Actual First published at lowest introductory prices.

Introduction will be promptly filled at lowest introductory prices.

N.B.—Full descriptive Circulars and One "Educational Reporter," mailed free to teachers upon request.

IVISON, BLAKEMAN, TAYLOR & CO.

Or EDWARD COOK, 133 & 135 State St., Chicago.
I. **PECK'S TREATISE ON MECHANICS.** With Calculus. For the use of Colleges, Academies, and High Schools. 344 pp., half cloth, marbled edges. Price $1.00.

The Inter-Ocean.

Established less than three years ago as a Representative Republican Paper, pledged to

maintain and defend the principles and organization of the National Republican Party, the

INTER-OCEAN was early pushed to the forefront of journalism, and achieved a success

unprecedented in the history of such enterprises. By universal assent it has been assigned

position as

THE LEADING REPUBLICAN PAPER OF THE NORTHWEST.

Not alone on its political character does the INTER-OCEAN set its claims to popular

favor. It aims at the highest excellence in all departments, and in this era of progressive jour-

nalism aspires to position among the best.

The INTER-OCEAN makes especial claim as a FAMILY NEWSPAPER. Its

columns are carefully guarded against objectionable matter, and every effort is made to render

it a pleasant and profitable companion at the home fireside.

THE COMMERCIAL DEPARTMENT is conducted with great care, and everything

possible is done to make the TRADING REPORTS such as the Farmers and Business Men

of the Northwest can rely upon.

THE AGRICULTURAL DEPARTMENT is carefully edited by gentlemen of ability

and experience.

In Literature, Local and General News, Foreign and Domestic Correspondence, and every-

thing that goes to make a FIRST CLASS NEWSPAPER, it is not excelled by any publica-

tion in the country.

The INTER-OCEAN is a

NATIONAL NEWSPAPER,

One that will be found useful to Americans in every part of the globe. While it especially

represents the GREAT INTERESTS OF THE NORTHWEST, it is National in its views and

comprehensive in its new-gatherings. Firm in its political faith it is not bigoted, and in all

discussions aims to be candid, dignified, and above personal abuse.

The INTER-OCEAN has the largest aggregate circulation of any newspaper published

in the Northwest. It is sent to more than 6,500 Postmasters, distributed in every State and

Territory in the United States, in all the British Provinces, and in numerous Foreign States

and Countries.

W. W. KIMBALL,
WHOLESALE DEALER IN
PIANOS & ORGANS

205, 207 & 209 STATE STREET,
(CORNER ADAMS)

CHICAGO, ILL.

From the Standard, Chicago, Baptist paper, April 16, 1876.

Pianos and Organs—W. W. Kimball,—The musical instrument trade of Chicago is one of the largest branches of our commercial business. The sale of pianos alone is immense, embracing all the varieties manufactured in the country. As the head of this trade, with the largest stock, at the spacious and elegant store, 205, 207, 209 State street, stands the house of W. W. Kimball. He has been in business in Chicago for the past sixteen years, and conducts himself mainly in Pianos and Organs. Of the character and reputation of Mr. Kimball as a man and as a citizen generally, it is not necessary to say anything to the people of business and to a city. He stands among the best of our merchants in the characteristics of integrity, enterprise, and honorable dealing.

Pianos are always on hand to suit every taste and every price. Mr. Kimball sells Hall's, Davis & Co.'s, Pianos; modest, when they purchase of this house. Mr. Kimball's Piano's are Great Union Company's Pianos; Smith's American Organs; Kimball's Organs and Kimball's Piano's, instruments which have an established reputation far and wide, based upon excellence in every respect. They are sold in all varieties of sizes and at corresponding prices. The stock is immense, occupying three floors of the spacious store at the corner of State and Adams streets. Mr. Kimball is, therefore, prepared for the coming trade on a scale, to meet the demands of the Northwest, the South, the Far West, or any other section of the country.
