University of Chicago,

1874-75.
ANNUAL CATALOGUE
OF THE
UNIVERSITY OF CHICAGO.

OFFICERS AND STUDENTS
FOR THE
ACADEMIC YEAR 1874-5.

CHICAGO:
PRINTED FOR THE UNIVERSITY AT DERRY HAND & CO.'S STEAM PRINTING HOUSE, 111 MADISON ST.
1875.
CALENDAR.

COLLEGIATE DEPARTMENT.

1875—June 24. Term Examinations begin.
" 27. Baccalaureate Sermon, by the President.
" 28. Address before the Literary Societies.
" 29. Class Day Exercises.
" 29. Oration and Poem before the Society of Alumni.
" 30. COMMENCEMENT.

VACATION OF TEN WEEKS.

1875—Sept. 10. First Term begins. Examination of Candidates for Admission.
Dec. 3. Junior Exhibition.
" 20. Term Examinations begin.
" 22. Exhibition by the Preparatory Classes.
" 23. First Term ends.

VACATION OF TWO WEEKS.

1876—Jan. 7. Second Term begins.
March 10. Sophomore Exhibition.
" 27. Term Examinations begin.
" 30. Second Term ends.

VACATION OF ONE WEEK.

1876—April 7. Third Term begins.
May 19. Freshman Declamations.
June 28. Commencement.

DEPARTMENT OF LAW.

1875—Sept. 15. First Term begins.
Dec. 23. First Term ends.

VACATION OF TEN DAYS.

1876—Jan. 3. Second Term begins.
March 24. Second Terms end.

VACATION OF TEN DAYS.

1876—April 3. Third Term begins.
June 29. Third Term ends.

DEPARTMENT OF MEDICINE.

1875—October 6. Winter Course begins.
1876—February 23. Winter Course ends.
1876—March 1. Summer Course begins.
June 30. Summer Course ends.

BOARD OF TRUSTEES.

HON. WM. B. OGDEN, LL.D., PRESIDENT.
HON. J. Y. SCAMMON, LL.D., 1ST VICE-PRESIDENT.
HON. ARTEMAS CARTER, 2ND VICE-PRESIDENT.
HON. HENRY GREENERBAUM, TREASURER.
REV. JUSTIN A. SMITH, D.D., SECRETARY.
REV. LEMUEL MOSS, D.D., TRUSTEE, EX OFFICIO.
REV. J. C. BURROUGHS, D.D., LL.D., TRUSTEE, EX OFFICIO.

Term Expires in 1875.

WILLIAM WILSON ........................................ Menominee, Wis.
HON. J. R. DOOLITTLE .................................. Racine, Wis.
E. NELSON BLAKE ........................................ Chicago, Ill.
RALPH A. LOVELAND .................................... “
M. D. BACON ............................................. Waukesha, Wis.
LUCIUS BLAKE ........................................... Racine, Wis.
INCREASE C. BOSWORTH ................................... Elgin, Ill.

Term Expires in 1876.

HON. W. B. OGDEN ........................................ Chicago, Ill.
D. VOLENTINE ............................................ Aurora, Ill.
H. A. RUST ................................................ “
S. P. CRAWFORD ........................................ Oaksho, Wis.
A. R. MEEKER ............................................ Rockford, Ill.
ARTEMAS CARTER .......................................... Chicago, Ill.

Term Expires in 1877.

REV. E. J. GOODSPREAD .................................... Chicago, Ill.
WILLIAM SHANNON ....................................... Shannon, Ill.
HENRY FARNHAM .......................................... New Haven, Ct.
W. F. COOLBAUGH ......................................... Chicago, Ill.
FERNANDO JONES .......................................... “
W. E. SMITH ................................................ “
ISRAEL WILLIAMS ......................................... Milwaukee, Wis.

Term Expires in 1878.

HON. THOMAS HOYNE ...................................... Chicago, Ill.
O. W. BARRETT ............................................. “
J. K. POLLARD.................................Winnieka, Ill.
ROBERT HARRIS.............................Chicago, Ill.
W. M. DERBY..............................
CHRISTOPH HOTZ...........................
H. M. THOMPSON...........................

Term Expires in 1879.
Hon. J. Y. SCAMMON, LL.D..................Chicago, Ill.
Hon. L. D. BOONE, M.D.....................
LAFAYETTE H. SMITH........................
Rev. J. A. SMITH, D.D......................
JOSEPH F. BONFIELD........................

Term Expires in 1880.
GEO. C. WALKER.............................Chicago, Ill.
HENRY GREENEBAUM........................
F. E. HINCKLEY.............................
W. M. HATCH...............................Bloomington, Ill.
EDWIN H. SHELTON.........................Chicago, Ill.
H. O. STONE...............................

EXECUTIVE COMMITTEE.

L. D. BOONE, CHAIRMAN.
Rev. J. A. SMITH, D.D., SECRETARY.
Fernando Jones.
Henry Greenebaum.
Rev. E. J. Goodspeed.
Hon. James R. Doolittle.
Henry A. Rust.
H. M. Thompson.
Hon. Thomas Hoyne, LL.D.
Robert Harris.
Rev. J. C. Burroughs, D.D., LL.D.
Rev. Lemuel Moss, D.D.

Hon. H. M. Thompson, Librarian.
Prof. Ransom Dexter, M.D., Curator of the Museum.
E. S. Bastin, M.A., Registrar.

BOARD OF REGENTS.

His Excellency John L. Beveridge, Gov. Chancellor, ex officio.
Hon. E. M. Haines, Speaker of the House, ex officio.
Hon. H. D. Colvin, Mayor of Chicago,
Hon. Geo. M. Harlow, Secretary of State,
Hon. E. M. Etter, State Supt. Public Instruction, ex officio.
Hon. Henry W. Blodgett, Judge U.S. District Court, ex officio.
Hon. Samuel H. Treat,
Hon. Pinkney H. Walker, Asst. Justice U.S. Dist. Court,
Hon. Sidney Breese, Chief Justice Supreme Court,
Hon. Benj. R. Sheldon, Associate Justice Supreme Court,
Hon. John M. Scott,
Hon. WM. C. Allister,
Hon. John Scholfield,
Hon. A. M. Craig,
Hon. WM. A. Porter, Chief Justice of Superior Court,
Hon. Joseph E. Gary, Associate Justice Superior Court,
Hon. John A. Jameson,
Hon. S. M. Moore,
Hon. W. W. Farwell, Chief Justice of Circuit Court,
Hon. Erastus S. Williams, Asst. Justice Circuit Court,
Hon. John G. Rogers,
Hon. Lambert Tree,
Hon. Henry Booth,

Term Expires in 1875.
Hon. I. N. Arnold, Chicago.
Rev. Robert Collyer, Chicago.
Rev. J. M. Gibson, Chicago.
Rev. Charles Button, Batavia.
M. P. Jewett, LL.D., Milwaukee, Wis.

Term Expires in 1876.
Gen. M. Brayman, Green Lake, Wis.
John P. Reynolds, Chicago.
Hon. Lyman Trumbull, Chicago.

Term Expires in 1877.
Rev. David Swing, Chicago.
Rev. H. N. Powers, Chicago.
Hon. John A. Logan, Chicago.
Rev. E. P. Goodwin, Chicago.
COLLEGIATE DEPARTMENT.

FACULTY.

LEMUEL MOSS, D.D., PRESIDENT.

PROFESSOR OF INTELLECTUAL AND MORAL PHILOSOPHY.

JAMES R. BOISE, Ph.D., LL.D.,

PROFESSOR OF THE GREEK LANGUAGE AND LITERATURE.

WILLIAM MATHEWS, LL.D.,

PROFESSOR OF RHETORIC AND ENGLISH LITERATURE.

ALONZO J. HOWE, M.A.,

PROFESSOR OF MATHEMATICS.

JOHN C. FREEMAN, M.A., B.D.,

ACTING PROFESSOR OF THE LATIN LANGUAGE AND LITERATURE, AND PRINCIPAL OF THE PREPARATORY DEPARTMENT.

TRUMAN HENRY SAFFORD, B.A.,

PROFESSOR OF ASTRONOMY, AND DIRECTOR OF THE DREXER OBSERVATORY.

C. GILBERT WHEELER, B.S.,

PROFESSOR OF ANALYTICAL AND APPLIED CHEMISTRY.

RANSOM DEXTER, M.A., M.D.,

PROFESSOR OF ZOOLOGY, COMPARATIVE AND HUMAN ANATOMY AND PHYSIOLOGY.

ORRIN B. CLARK, M.A.,

ACTING PRINCIPAL OF THE PREPARATORY DEPARTMENT.

ELIAS COBERT,

HONORARY ASSISTANT DIRECTOR OF THE DREXER OBSERVATORY.

[Assistance in instruction, within the year, has been rendered by the following persons: In Greek and German, by Mrs. Alice B. Wood, B.A.; in German and French, by Miss Esther H. Boise; in Greek, by Miss Clara H. Boise; in German, by Dr. Adolph Lawry; in Physical Geography and Elementary Botany, by E. S. Bastin, M.A.]

I.—CLASSICAL COURSE.

REQUIREMENTS FOR ADMISSION.

Candidates for admission to the Freshman Class in the Classical Course are examined in the following studies:

- English Grammar and Analysis.
- Geography—Ancient and Modern.
- History of the United States.
- Arithmetic, Algebra through Quadratic Equations, and Books I to VI of Davics' Legendre, or an equivalent. Algebra through Quadratic Equations will not be reviewed in the course, and must be thoroughly learned from a University Treatise.
- Boise's First Greek Book.
- Hadley's Greek Grammar.
- Xenophon's Anabasis—three books.
- Greek Prose Composition. (Jones & Boise.) Part I.
- Latin Grammar and Reader.
- Four books of Cesar's Commentaries; or Cornelius Nepos.
- Six Orations of Cicero.
- Six books of Virgil's Aeneid.
- Allen's Latin Composition, or Harkness' Introduction to Latin Composition, first and second parts; or forty-four exercises of Arnold's Latin Prose Composition.
- Actual equivalents for the books or parts of books named above will be accepted; but exact conformity to these requirements is greatly preferred, and candidates for admission should prepare themselves accordingly.

Candidates for advanced standing, whether from other colleges or not, are examined in the studies previously pursued by the class which they propose to enter.

No person under fifteen years of age will be admitted to the Freshman Class, nor will any one be admitted to an advanced standing without a proportionate increase of age.

Testimonials of good moral character are required in all cases; and every student from another College must produce a certificate of regular dismissal.

To prevent disappointment to the applicant it should be distinctly understood, that a thorough knowledge of the prescribed studies is more likely to insure admission, and to enable the student to reap the full benefits of the Collegiate Course, than a superficial acquaintance with some higher branches of literature and science. A critical knowledge of Arithmetic, Elementary Algebra and Geometry, and the Grammars of the English, Latin and Greek languages, is indispensable.
ANNOUNCEMENTS.
I. With the University Year beginning in September, 1876, a fourth year will be added to the Course in the Preparatory Department. (See Page 8.)
II. With the University Year beginning in September, 1877, the Requirements for Admission will be increased. In addition to the requirements mentioned above, on page 7, there will be demanded:
   1. In Greek, two books of Homer, or their equivalent.
   2. In Latin, one book of Caesar's Commentaries; two orations of Cicero.
   3. Elementary French and German.
   4. Elements of Physiology.
   5. Outlines of General History.
   6. Physical Geography.
III. The College Course will be somewhat elevated and broadened (particularly in next year's Catalogue), especially in the studies of History and the English Language, with opportunities for optional studies after the Sophomore Year.

FRESHMAN CLASS.

FIRST TERM.
1. Greek. — Selections from Greek Authors (Boise & Freeman). Greek Prose Composition (Boise).
3. Mathematics. — Loomis's Algebra completed, from Chapter XVIII.

SECOND TERM.
3. Greek. — Selections from Greek Authors (Boise & Freeman). Greek Prose Composition (Boise). Greek History and Geography.

THIRD TERM.
2. Greek. — Selections from Greek Authors (Boise & Freeman).
3. Latin. — Selections from Livy. The Captives of Plautus. Roman History from the battle of Zama to the fall of the Republic. (Liddell & Rawlinson.)

JUNIOR CLASS.

FIRST TERM.
1. Zoology, Anatomy, Physiology.
2. Physics. — Astronomy. (Four times a week.)
3. Latin. — Selections from the Annals and Histories of Tacitus. Roman History to the time of Trajan. Essays by the Class. Extemporaria. (Four times a week.)
Greek. — Demosthenes de Corona commenced.
French. — Magill's Grammar and Reader. (Three times a week.)

SECOND TERM.
   English Literature. — Taine. Lectures. (Three times a week.)
2. Chemistry. — Barker's Elements of Chemistry. (Four times a week.)
3. Greek. — Demosthenes de Corona commenced. Essays by the Class on the leading events of the fourth century B.C., and other topics connected with the study of oratory. (Four times a week.)
French. — Magill's Grammar and Reader. (Twice a week.)
THIRD TERM.

1. Intellectual Philosophy.
   Latin. — Juvenal, six Satires: or Select Epistles of Pliny. Roman History to Diocletian. Essays by the Class. (Six weeks.)
2. Natural History. — Botany. (Six weeks.)
3. Chemistry. — Lectures. (Three times a week.)
   French. — Magil's Grammar and Reader. (Three times a week.)

SENIOR CLASS.

FIRST TERM.

1. Logic.
2. Guizot's History of Civilization. (7½ weeks.)
   Natural History. — Geology and Mineralogy. (Dana). (7½ weeks.)
3. Latin. — Selections from Tacitus. (7½ weeks). Roman History to the year 476 A. D.

SECOND TERM.

1. Moral Philosophy.
2. Greek. — Selections from Plato (Tyler's Apology and Crius). Essays by the Class on the leading philosophers and philosophical systems of the ancient world. (6 weeks.)
   German. — Whitney's Reader. (6 weeks.)
3. Natural History. — Geology and Mineralogy completed.

THIRD TERM.

1. Political Economy.

II. — SCIENTIFIC COURSE.

REQUIREMENTS FOR ADMISSION.

For the Scientific Course, Students will be examined in the same studies as for the Classical, with the omission of Greek altogether, and of Latin excepting the Latin Grammar and Reader, and four books of Caesar's Commentaries, or Cornelius Nepos, and in the first part of Harkness' Introduction to Latin Composition.
In College, they will use the same text-books as those in the Classical Course, so far as the two courses coincide. (See "Announcements," page 8.)

FRESHMAN CLASS.

FIRST TERM.

1. Mathematics. — Loomis's Algebra completed, from Chapter XVIII.

SECOND TERM.

THIRD TERM.

SOPHOMORE CLASS.

FIRST TERM.

3. German. — A Play of Schiller.
UNIVERSITY OF CHICAGO.

SECOND TERM.
1. Rhetoric.—Whately or Bain.
2. Physics.—Natural Philosophy—Snell's Olimsted completed. Spherical Trigonometry.
3. German.—A play of Schiller.

THIRD TERM.
1. History.—Thalheimer.

JUNIOR CLASS.

FIRST TERM.
1. Zoology, Anatomy, Physiology.
2. Physics.—Astronomy.

SECOND TERM.
2. Chemistry.—Barker's. Lectures.

THIRD TERM.
1. Intellectual Philosophy.
2. Natural History.—Botany.
   Chemistry.—Barker's. Lectures.

SENIOR CLASS.

FIRST TERM.
1. Logic.
2. History.—Guizot's History of Civilization.
3. Natural History.—Geology and Mineralogy (Dana).

SECOND TERM.
1. Moral Philosophy.
2. Natural Philosophy.—Geology and Mineralogy completed.
3. Chemistry.—Laboratory Practice.

THIRD TERM.
1. Political Philosophy.—Political Economy.
   Themes and declamations throughout the course.

III.—COURSE IN ASTRONOMY.

The Dearborn Observatory forms the Astronomical Department of the University. Its objects are to make original researches in Astronomical Science, to assist in the application of Astronomy to Geography, in communicating exact time, and other useful objects, and to furnish instruction in Astronomy to the students of the University, both in the regular course and those who wish to give especial attention to the study.

The principal instruments of the Observatory are:
1. The great Equatorial Refractor, made by Alvan Clark & Sons, of Cambridge, Mass., the second largest telescope in the country. This instrument is placed in the Dearborn Tower, built by the munificence of the Hon. J. Young Scammon, I. I. D. The Dimensions of the Equatorial are:
   Diameter of Declination Circle, 30 inches.
   Diameter of Hour Circle, 22 inches.
   Focal length of Object Glass, 23 feet.
   Aperture of Object Glass, 18 inches.

   The circles are read by two microscopes each, the hour circle to seconds of time, and the declination circle to ten seconds of space.
2. A meridian circle of the first class, constructed by those eminent artists, Messrs. A. Repsold & Sons, of Hamburg. This instrument has a telescope of six French inches aperture, and divided circle of forty inches diameter; otherwise it is like Bessel's celebrated Königstberg circle by the same makers, with some late improvements in the illumination of the field and the wires, and apparatus for registering declinations.

   The Observatory has a chronometer (Wm. Bond & Son, No. 279), a clock, by E. Howard & Co., and an astronomical library.

   The course of Instruction includes:
   1. Instruction in Astronomy to the Undergraduates (see Classical Course).
   2. In the determination of time, Latitude and longitude, to students of the Engineering Course.
   3. In higher Mathematics and Astronomy to such students as wish to prepare themselves for positions in observatories, or other scientific establishments, or for professorships of mathematical departments in colleges.

   This will include instruction in the following subjects:
   1. Modern Higher Geometry, applied to Conic Sections and Spherical Trigonometry.
4. The Method of Least Squares.
5. The Theory of the Motions of the Heavenly Bodies.
The authors chiefly referred to on the respective subjects will be:
1. Chasles, Steiner, Geiser.
2. Salmon, Courtemay, Cournot.
5. Gauß, Ecke.

Practical exercises with the instruments will take place regularly.

On those who shall pursue a full course of at least two years, shall have passed a satisfactory examination, and shall prepare an original thesis on some astronomical or mathematical subject, the degree of Bachelor of Science will be conferred.

During the past three years the Director has completed a catalogue of Latitude Stars for the United States Lake Survey, and in connection with U. S. Engineers and other officers, has determined the geographical positions of Fort Hays, Kansas; Denver and Pueblo, Colorado; Santa Fe and Fort Union, New Mexico; Bismarck, D. T., and Evanston, W. T.; and has conducted operations at Chicago for local time in determining the longitudes of Pembina and of Cairo, Ills. Other work of the same kind will be undertaken in the future, so that students who desire it, and are properly prepared therefor, will probably have the opportunity of taking part in important operations in practical Astronomy, as applied to geography and geodesy.

Several of the graduates have already taken high rank as astronomical observers and surveyors. One is Director of the Cincinnati Observatory; another professor of Astronomy at the U. S. Observatory at Washington; another occupies a position in the government Observatory in Sweden, and others have done good work in surveying boundary lines in the Territories.

The preparation desirable for a student in practical Astronomy consists in a thorough knowledge of practical arithmetic, elementary algebra, and geometry, and plane trigonometry; and if possible of the German language.

IV.—COURSE IN PRACTICAL CHEMISTRY.

In this Course provision is made for the thorough and comprehensive study of Chemistry as an art, in the belief that, aside from the practical relations of the science, the educational effect of Laboratory practice is of great value. By such practice the senses are trained to observe with accuracy, and the judgment to rely with confidence on the proof of actual experiment.

In the Laboratory of this Department, under the direction of Professor Wheeler, aided by competent assistants, the student of Applied Chemistry will have ample opportunity of becoming practically familiar with the materials, apparatus and processes of the most important Chemical arts and manufactures.

A systematic Course in Qualitative and Quantitative Analysis will be followed by practical studies with regard to the application of Chemistry to Agriculture, Mining, Metallurgy, Assaying, Medicine, Pharmacy, Toxicology, Preservation of Timber, Meats, etc., Warming, Illumination, Ventilation, Photography and other useful purposes. On those who shall complete a full course, requiring from two to three years' time, and who shall have passed a satisfactory examination, the degree of Bachelor of Science will be conferred. Certificates will be granted to students who do not graduate, stating the time they have been present, the studies pursued, and the progress made.

The Laboratory is quite new, and one of the best equipped in the West. The student will have ample opportunity of visiting the numerous manufacturing establishments of Chicago and vicinity, and witnessing important industrial applications of the science, the study of which he is pursuing.

The Laboratory Fee for special students in Chemistry is $5.00 per term; for the regular course, $1.00.

TEXT BOOKS FOR READING AND REFERENCE.

Craft's Qualitative Analysis.
Bowman's Practical Chemistry.
Presenius' Qualitative and Quantitative Analysis.
Miller's Chemistry, Vols. II. and III.
Richardson & Watt's Chemical Technology.
V. PREPARATORY COURSES.

The Trustees of the University have deemed it advisable to include among its fundamental and permanent arrangements a Preparatory Department. It will be their aim to make this department a first-class school of preparation for College. The Professors of the University have charge of the instruction in the studies belonging to their several departments.

The requirements for admission are Reading, Writing, Spelling, Intellectual Arithmetic, Practical Arithmetic, English Grammar and Geography.

The requisite studies have been arranged in a course of three years for classical, and two years for scientific students, as appears by the following schedules:

CLASSICAL COURSE.

FIRST YEAR.

Natural Science. Elements of Natural Philosophy, by the first division of the class.

SECOND YEAR.

Mathematics. Loomis's Algebra to chapter IX.

THIRD YEAR.

Latin. Grammar.
Allen & Greenough's Caesar and Quintus Curtius.
Introduction to Latin Composition.

Greek. Hadley's Greek Grammar continued. Geometry, Books I to III.
Boise's First Greek Book completed, and Xenophon's Anabasis commenced.

Introduction to Latin Composition.
Freeman's Outlines of History.

GREEK.—The preceding course of study is recommended to those who are preparing for this University at other places. As a substitute, however, for Hadley's Grammar, either Greenough's, Kuehner's, or Crosby's Grammar, or Kendrick's revision of Bullion's Grammar, is accepted; and as a substitute for Boise's First Greek Book, either Leighton's Greek Lessons, or Whiton's Companion Book, or Kuehner's Elementary Greek Grammar with exercises, or Kendrick's Greek Ollendorff, or Hardware's or Crosby's First Book in Greek, is accepted.

LATIN.—Either Allen & Greenough's, or Hardness, or Bullion Morris's, or Andrews & Stockard's Latin Grammar, will be accepted. The exercises of Arnold's Latin Prose Composition should be thoroughly mastered by the student. These exercises should first be written, and afterward translated orally. In connection with the study of Virgil, Latin Prosody should be learned, and the difference between prose and poetical constructions carefully noted.
UNIVERSITY OF CHICAGO.

SCIENTIFIC COURSE.

FIRST YEAR.

FIRST TERM.
- Mathematics.—Robinson's Elementary Algebra.
- Latin.—Latin Lessons commenced.
- Natural Science.—Elements of Natural Philosophy.

SECOND TERM.
- Mathematics.—Robinson's Elementary Algebra.
- Latin.—Latin Grammar and Reader.
- Mathematics.—Loomis's Algebra to Chapter IX.

THIRD TERM.
- Latin.—Grammar and Reader. Latin Composition.
- History.—History of England by the first division of the class.

SECOND YEAR.

FIRST TERM.
- Mathematics.—Loomis's Algebra, to Chapter XVIII.
- Robinson's Higher Arithmetic.
- Latin.—Grammar. Cæsar and Q. Curtius.
- Introduction to Latin Composition.

SECOND TERM.
- Mathematics.—Geometry, Books I to III inclusive.
- English.—History of the United States.
- Freeman's Outlines of History.

THIRD TERM.
- Mathematics.—Geometry, Books IV to VI inclusive.
- Physical Geography.
- Latin.—Select Oration of Cicero. Latin Composition.
- Freeman's Outlines of History.

STUDENTS NOT IN COURSE.

Students not wishing to prepare for College, will be admitted into the Preparatory Department, to pursue such studies of the course as they may choose, under the regulations of the Faculty; and special classes will be formed for them when the Faculty shall find it expedient. (See "Rules and Regulations," page 30.)

SPECIAL ANNOUNCEMENT.

With the University Year beginning in September, 1876, the foregoing course will be somewhat modified, and a fourth year will be added. (See "Announcements" on page 8 of this Catalogue.) The fourth year, to be added, will embrace the following studies, viz.:

First Term.—Greek; French; Physical Geography; Rhetoric and Composition (once a week.)

Second Term.—Latin; German; Physiology; Rhetoric and Composition.

Third Term.—Greek and Latin; French and German; Elements of Moral Philosophy; Rhetoric and Composition. (Full particulars will be given in next year's Catalogue.)

UNIVERSITY OF CHICAGO.

RESIDENT GRADUATES.

James Goodman .......... University of Chicago .......... 65 Dearborn St.
Henry Clay Mabie ......... " " .................. Oak Park.
Henry Barzillai Waterman .... Yale College .......... Union Theo, Sem.

Herbert Ayers......................... 269 South Park Avenue.
William Moore Belden................ Milwaukee, Wis.
Nicholas Eriksen......................... 59 Veddor Street.
Edward Wilson French.................. 459 Vernon Avenue.
Ira Edwin Howard......................... Omro, Wis.
Vere Baker King......................... 105 Vincennes Avenue.
Harry Archibald Grayson Stewart........ Morris.
George Stanley Raycraft................ Sterling.
James William Patterson............... Joliet.
GENERAL INFORMATION.

TERMS AND VACATIONS.

The year is divided into three terms and three vacations. The first term consists of fifteen weeks; the second and third of twelve weeks each. The Christmas vacation is two weeks, the Spring vacation one week, and the summer vacation ten weeks.

ELECTIVE STUDIES.

Students may reside at the University and pursue studies, for a longer or shorter time, in any of the classes, at their own election; subject, however, to the regulations of the Faculty. (See Rules and Regulations, page 39.)

RHETORICAL EXERCISES.

The College Classes have frequent exercises in composition. Instruction in elocution is given to all the students, and declamations are required of all.

EXAMINATIONS.

At the close of every term there are public examinations of all the classes, both collegiate and preparatory.

YOUNG WOMEN.

Are admitted to the classes, collegiate and preparatory, on the same terms and conditions as are young men. The College buildings contain no dormitories for young women, but suitable accommodations can be secured, when desired, in the neighborhood, in private families.

DEGREES.

The degree of Bachelor of Arts is conferred upon all students who have completed the prescribed Classical Course of study, and passed a satisfactory examination therein; and the degree of Bachelor of Science upon all who have completed the Scientific Course, and passed a similar examination.

Bachelors of Arts of three years' standing may receive the Degree of Master of Arts, provided that since graduation they have sustained a good moral character, and pursued some literary or scientific calling. Candidates for this degree will be expected to make application for it through the President, and to furnishing evidence of their qualifications.

UNIVERSITY OF CHICAGO.

SOCIEITIES.

There are three Societies in the University, conducted by the students—two literary and one religious.

RELIGIOUS EXERCISES.

The duties of each day are opened with religious services in the Chapel of the University, at which all the students are required to be present.

On the Sabbath they are required to attend public worship in the forenoon, with some congregation in the city, selected by themselves or by their parents. The students also sustain a weekly prayer meeting.

LIBRARIES.

The University Library has been increased recently by valuable acquisitions. The London publishing houses of Sampson, Low & Co., Trübner & Co., and Longmans & Co., have generously furnished copies of their recent publications. Messrs. Sheldon & Co., of New York, have donated a complete set of their publications.

The Thompson Library, the gift of Hon. H. M. Thompson, contains a very valuable collection of books on Agriculture, a complete set of the Bohn Libraries and many fine illustrated works.

The Tucker Library, presented by the family of the late Rev. Eliab Tucker, D.D., contains upwards of five hundred volumes, mostly theological.

The Hempstead Library is now put up in the University, and accessible to students. It contains about three thousand volumes, and is not only one of the most valuable theological libraries in the country, but it is also rich in works of classical literature, history and philosophy.

MUSEUM.

A large and admirably lighted front room, on the second floor of the University Building, opposite the Society Hall, has been fitted up to contain the Museum, with the most modern improvements, and in elegant style.

The Museum of Natural History, in the department of the sub-kingdom of Mollusca, there are about three or four hundred species of shells, selected from the prominent or typical species of the different families of that division of animals. The department of Entomology is variously and, in some respects, elaborately represented, containing, in beetles alone, over three thousand species. In the Crustacea, and the classes lower, such
as Star Fishes, Echinoderms, Worms and Corals, the museum contains specimens enough for teaching purposes.

The GEOLOGICAL DEPARTMENT of the Museum has been greatly increased from several sources. It now contains several thousand specimens, judiciously selected, thus representing the typical geological and mineralogical rocks.

A NUMISMATIC COLLECTION, made by the late Charles D. Sanford, and containing 5,000 coins, has been presented to the University by the late Rev. Miles Sanford, D.D.

The museum is under the charge of Prof. Ransom Dexter, who has already systematized the work, and who has a sufficient corps of assistants to carry out the necessary labor with dispatch and precision. He has also, in accordance with power vested in him by the Board of Trustees, authorized several agents to solicit contributions of scientific materials for the Museum.

CHEMICAL AND PHILOSOPHICAL APPARATUS.

The Lectures on Chemistry and Natural Philosophy are illustrated by modern apparatus. To this important additions have recently been made, chiefly donations from George Hazeltine Esq., of London, and Messrs. B. O. & H. W. Chamberlain, of Boston, Massachusetts; among them a Runkoff's Induction Coil, one of the largest ever imported; a full set of the famous Geissler's Tubes, and a powerful Grove's Battery, together with apparatus useful in the assay of ores.

LOCATION, BUILDINGS, ETC.

The location of the University is in the south part of Chicago, directly on the Cottage Grove line of the Chicago City Railway. The site was the gift of the late Senator Douglas, and is universally admired for its beauty and healthfulness. The building is unsurpassed for the completeness of its arrangements, especially the students' rooms, which are in suites of a study and two bed-rooms, of good size and height, and well ventilated. The accommodations of the University have been enlarged by the completion of the main building, 130 by 72 feet, a structure erected at a cost exceeding $175,000, and believed to be second in convenience and elegance to no other educational edifice in the country. In this building there are a large Chapel, rooms for the various Scientific Departments, and also the Preparatory Department, spacious and airy recitation rooms, elegant suites for the Literary and Religious Societies, and dormitories for the students.

Through the liberality of the different railroads which center at Chicago, classes have had the privilege of making frequent excursions into the country, in order to examine rock strata, and to collect specimens in Natural History. These explorations have extended, during past years, to Duluth and Burlington, Iowa; Kewanee; LaSalle and Quincy, Ill.; to the Wisconsin River, and along the Mississippi River, from McGregor to St. Louis.

BOARD AND ROOMS.

Board may be obtained in the Club Room of the University, where many of the students board, at cost, which has been during the past year from $2.50 to $3.00 per week.

The rooms are arranged in suites, consisting of a study and two bed-rooms. Bedsteads, bedding, and furniture in uncleanly condition, will be rigidly excluded. Habits of neatness and order are carefully enjoined on occupants of rooms. Damage to rooms or furniture, other than the ordinary wear, will be charged in the term bills.

Students who may prefer it, can obtain board in families on reasonable terms, or they may form clubs and provide for themselves.

EXPENSES PER ANNUM.

Board (in clubs) from $2.50 to $3.00 per week ...... $97.50 to $117.00
Tuition .............................................. 70.00
Room rent (not including vacations) ...... 20.00 to 20.00
Incidentals ................................. 6.00 to 8.00
Library fee, fifty cents per term .................. 1.50 to 1.50

Total ............................................. $195.00 to $216.50

Students provide their own furnishing except bedsteads,—a single bedstead being placed by the University in each dormitory. The students also provide their own fuel and lights. The use of kerosene and soft coal is prohibited in the University building. Gas costs about fifty cents a week for each room, and fuel from $10 to $20 per annum for each student. Washing has been, during the past year, seventy-five cents per dozen.

The rule of the Trustees requires all bills to be paid strictly in advance, before the students enter their several classes; and by failure to comply with these terms, the student forfeits the privileges of the University. (See "Rules and Regulations," page 30.)

Parents will take notice that the whole necessary expense for one year, including food, light, and washing, varies but little from $300. This has been proved by the actual experience of students who practice economy. Any material variation from this amount may be regarded as unnecessary.
RULES AND REGULATIONS.

RULE I. All term bills must be settled strictly in advance.
RULE II. No deduction in tuition will be allowed on account of absence, except for a continued absence of more than six weeks, and that by reason of sickness, of which satisfactory proof will be required.
RULE III. Any student who is absent from his recitations, or from the University, for more than two weeks at any one time, except on account of sickness, or for other reasons satisfactory to the Faculty, will forfeit his position in his class, and with it all other privileges of the University.
RULE IV. Excuses for absence from recitation must be rendered to the Professor in charge; for absence from the Institution and from Chapel, to the President.
RULE V. Three unexcused absences on the part of any student during any term will render the student liable to censure or suspension.
RULE VI. Any student taking a partial course must arrange his course with the President at the beginning of each term.
RULE VII. Students will be assigned to their rooms by the Registrar, and no student can change his room without permission of the Registrar.
RULE VIII. Day students cannot occupy the private rooms of resident students except with the special permission of the Registrar, and upon the payment of a suitable room rent.
RULE IX. No repairs or alterations can be made in any room except upon the order of the Registrar, to whom all damages must be immediately reported.
RULE X. No burning fluid, or kerosene, or other oils for burning, can be used by any student except upon permission of the Registrar.
RULE XI. Students are responsible for the care of their rooms, and of the University property in their possession, and they will be required to give receipt for such property to the Registrar.
RULE XII. No student will be allowed to carry away from the city any key, book or other article belonging to the University.
RULE XIII. No student will be permitted to room in the building during the summer vacation, except by the permission of the President.

LAW DEPARTMENT.

UNION COLLEGE OF LAW
OF THE UNIVERSITY OF CHICAGO AND THE NORTHWESTERN UNIVERSITY.

JOINT BOARD OF MANAGEMENT.

THOMAS HOYNE, CHAIRMAN.
GRANT GOODRICH.
WIRT DEXTER.
CHAS. H. FOWLER.
LEMUEL MOSS.
ROBERT QUEAL.
JOSEPH F. BONFIELD.
V. B. DENNSLOW, SECRETARY.
PHILIP MYERS, TREASURER.

FACULTY.

HON. JUDGE HENRY BOOTH, LL.D.,
DEAN OF THE LAW SCHOOL, AND PROFESSOR OF THE LAW OF PROPERTY AND PLEADING.

HON. LYMAN TRUMBULL, LL.D.,
PROFESSOR OF CONSTITUTIONAL AND STATUTE LAW, AND PRACTICE IN THE U. S. COURTS.

HON. JAMES R. DOLITTLE, LL.D.,
PROFESSOR OF EQUITY JURISPRUDENCE AND PLEADING AND EVIDENCE.

VAN BUREN DENNSLOW, ESQ.,
PROFESSOR OF CONTRACTS AND CIVIL AND CRIMINAL PRACTICE.

PHILIP MYERS, M.A., ESQ.,
PROFESSOR OF COMMERCIAL LAW.

HON. J. B. BRADWELL,
LECTURER ON WILLS AND ESTATES.

N. S. DAVIS, M.D.,
LECTURER ON MEDICAL JURISPRUDENCE.
The Trustees of the two Universities have long felt the demand for a Law School in Illinois that should be worthy of the State and the Northwest. Since the above school passed under the energetic joint management of the University of Chicago and the Northwestern University, it has become one of the leading schools of legal study in the country. It enters upon its second year with upwards of eighty students, and promises within a brief period to equal any other in numbers, as it is already second to none in its thoroughness and variety of instruction.

IMPORTANCE.

The advantages afforded by a College of Law for instruction in the science and practice of Law are appreciated by both the Bar and the public. A systematic course of study, under eminent living teachers, is quite as valuable to the legal student as to the medical or theological. For laying the foundation of a thorough knowledge of the Law, the advantages of the Law College far exceed those of an office. In an office it is seldom that the student receives the attention his best interests demand. In the College the professors are specially charged with this work. The value of this instruction is indicated by the fact that about one hundred students had, prior to the establishment of this College, gone yearly from the State of Illinois to the schools of other States, even though these schools do not teach our system of practice, nor the statutes and decisions of our State. It is believed this demand for systematic instruction will be fully met hereafter in our College of Law.

CONDITIONS OF ADMISSION.

Students entering the Junior class are expected to have at least a good common school education. It is greatly to the interest of the student to advance in general scholarship as far as practicable. A knowledge of Latin is, however, of so much service in handling law terms, that a child in Law Latin is formed and has become one of the regular classes of the School. It is believed that the Law Course as a Professional course should be a post-graduate course. Such preparation is recommended, not required.

ADVANCED STANDING.

Students who have attended another Law College one year, or spent one year in the study of law in the office of an attorney, may apply for standing in the Senior class, and may enter it if found competent on examination by the Faculty.

PLAN OF INSTRUCTION.

There are three terms in each year, the first beginning on the fifteenth of September and ending on the twenty-fifth of December, fourteen weeks; the second beginning on the first Monday in January, and ending on the Friday last but one before the first Monday in April, twelve weeks; and the third term beginning on the first Monday in April, and ending at the expiration of ten weeks. There are two years in the Course. Our plan of teaching begins in the Junior year, with the study of text-books, in which the students are daily drilled by question and answer. From thence it passes, in the Senior year, to lectures on specific topics or principles of the law, with the statutes and decisions bearing on them; concluding with the study of leading cases—the lectures alternating with examinations. The following programme of study for the two years embraces four hours per day for six days in the week, for thirty-six weeks. Seniors may be present at Junior recitations, and vice versa; but are not examined at the latter. Indeed, it is preferred that each class should attend the instruction given to the other, thereby securing four hours of tuition each day without being overworked by an excessive amount of reading.

JUNIOR YEAR.

FIRST TERM—FIVE DAYS IN WEEK.

1st hour, 8 to 9 A.M., or 2 to 3 P.M., at student's option.----1st
and 2d vols., Blackstone
2d hour, 4 to 5 P.M.—On Mondays, Tuesdays and Wednes-
days, 1st and 2d Kent.--------------------Prof. Denslow.
On Thursdays and Fridays, Stephen's Pleadings.-----------------Prof. Myers.

SECOND TERM.

1st hour.----Chitty or Parsons on Contracts.---------------------Prof. Denslow.
2d hour.—On Mondays, Tuesdays and Wednesdays, 3d and
4th Kent.--------------------------Prof. Myers.
On Thursdays and Fridays, Chitty's Pleadings.---------------------Prof. Denslow.

THIRD TERM.

1st hour.—Langdell's Select Cases and Wharton's Criminal Law.----Prof. Denslow.
2d hour.—On Mondays, Tuesdays and Wednesdays, Green
Leach's Evidence.--------------------------Prof. Myers.
On Thursdays and Fridays, Chitty's Pleadings.---------------------Prof. Denslow.

SENIOR YEAR.

FIRST TERM—FIVE DAYS IN WEEK.

1st hour, 9 to 10 A.M.—Equity Jurisprudence and Leading
Equity Cases.--------------------------Hon. Jas. R. Doolittle.
Constitutional and Statutory Law.--------------------------Hon. Lyman Trumbull.
2d hour, 5 to 6 P.M.—1st and 2d Washburn, in connection
with Leading Cases on Real Property.--------------------------Judge Henry Booth.
SECOND TERM.

1st hour.—Statutory Law and Adams on Ejectment ... Hon. Lyman Trumbull, Equity Pleadings and Chancery Practice ... Hon. Jas. R. Doolittle.

2d hour.—Washburn and Wharton's Criminal Law ... Judge Henry Booth.

THIRD TERM.

1st hour.—Lectures on Statutes and Practice in United States Courts ... Hon. Lyman Trumbull and Doolittle.

2d hour.—Wills and Probate, General Review ... Hon. Booth and Bradwell.

CLASS IN LATIN DAILY AT 9 TO 10 A.M.

BOTH YEARS.

Saturday, 8 to 10 A.M.—Moot Court Trials ... Prof. Dennis.

Wednesday, 11 to 12 A.M.—Moot Court Motions ... Prof. Dennis.

Saturday, 4 to 6 P.M.—Examples in Conveyancing, Abstracts, Contracts and Office Practice, (or Special Lectures) ... Prof. Dennis.

Also lectures on Medical Jurisprudence, Patents, Criminal Law, and other specialties. During the past year, among others, the following members of the Chicago Bar have delivered Special Lectures, viz: Wirt Dexter, Esq., on "Things a young lawyer needs to know, as much as to know the Law"; C. H. Reed, Esq., States Attorney, on the "Practice in Criminal Cases"; C. C. Bonney, Esq., on the "Early Practice in Illinois"; Thos. Dent, Esq., on "Equity"; Jas. P. Root, Esq., on "Parliamentary Law," and on the "Taxing Power"; Obidiah Jackson, Esq., on "Contesting Taxes." Judge M. R. M. Wallace, on the "Practice in Probate Courts"; Jas. L. High, Esq., on the "Law of Injunctions"; Emory A. Storr, Esq., (four lectures) on the "English Constitution, as illustrating the merits and demerits of unwritten constitutions"; Thos. Hoyne, Esq., on the "Rule of Insurance in cases of Homicide, Same or Insane;" E. R. Hurd, Esq., on "Courtesies and Dower as affected by the Statutes of Illinois;" A. M. Morse, Esq., on "Limitations on the Jurisdiction of Courts;" Gen. I. N. Stiles, on "How to try a Cause;" Josiah H. Bissell, Esq., on the "Jurisdiction of the Federal Courts;" George W. Kretzinger, Esq., on the "Effect of Evidence;" Lewis L. Coburn, Esq., on "Patent Law;" Hon. N. R. Graham, on "Fixtures;" Edward Roby, Esq., on "Sources of Title, including Indian Tit;" Hon. William Bross, on "Where to Practice Law;" Ex-Asst. Attorney General Bickley, on "Evidence;" Gen. R. Biddle Roberts, on "Evidence;" and others.

Lectures on Political Economy have also been given by Prof. Dennis, and on Eloquence by Profs. Lyman and Armstrong.

As the classes increase in numbers they are divided into sections, so as to combine personal and thorough instruction to every student.

Moot Courts.

That the students may be versed in the practice of Law, Moot Courts are held every Saturday morning. In these they are taught to apply legal remedies, according to the different forms of action; to bring suits, draw papers and pleadings, and take the various steps incident to bringing a cause to trial; then to try it according to the rules of evidence, including the arguments, charge, verdict, motion in arrest of judgment, writ of error, etc. Real cases are selected, and the forms and dignity of a real trial preserved. The trial takes place in the presence of the classes, whose members act respectively as counsel, jurors, witnesses and officers of the courts, and before a Professor who sits as judge, with the double aim of illustrating the legal principles involved, and explaining the rules of practice. The exercise is always interesting and profitable.

AUXILIARIES.

On Saturday afternoon there is either a special lecture by some eminent member of the Chicago Bar, or an example lesson is given in examination of abstracts of title, and drawing contracts, deeds, wills, pleadings, and legal instruments required in office business.

The grammatical accuracy, rhetoric, elocution, and courtesy of deportment of the students will receive such attention as is deemed adapted to correct faults of style, without suppressing individuality in which so often lies the secret of power. The students organize societies, holding their sessions weekly, for the discussion of questions of political policy and economy, and for becoming acquainted with parliamentary rules.

BOOKS.

Students will find their own books. Arrangements have been made by which they may be supplied at the lowest trade prices. Many students obtain the use of books from the numerous law offices in the city, on favorable terms. Those who buy their books usually prefer to retain them, and thus start a library; but, if they choose, they can sell them at the close of the term, at slightly reduced prices, in which case the net expense for books will be small.

EXAMINATIONS.

In addition to the daily and weekly examinations, the students will be examined at the close of the year in the presence of the Faculties and Trustees of both Universities.

Juniors who show a satisfactory acquaintance with the subjects required, will, after one year's study, be advanced to the Senior class. Seniors found worthy, will, after like period, be recommended to graduation.

ADVANTAGES.

1. The location of the Law College, in Superior Block, fronting on Court House Square, in the heart of the great metropolis of the Northwest, and in the vicinity of all the law offices and of the Courts, State and Federal, which are
almost constantly in session, affords to the student who wishes to obtain employment during office hours, and to become acquainted with every phase and variety of business, advantages unsurpassed. Board and rooms are furnished in College Buildings at as low rates as are to be had in the most secluded village in the country.

2. The College is a Department of the University of Chicago, and also of the Northwestern University, and the students are admitted free to the libraries of both Universities, and to all public lectures delivered to undergraduates in the Literary Departments of either.

3. Students in the Law College can also unite with any of the regular classes at the Universities, and pursue any of the studies taught there without additional charge.

4. The students are admitted free to the Law Library of the Chicago Law Institute, located in the Court House, a privilege for which lawyers in practice pay one hundred dollars.

5. Our Diploma admits to the Bar of Illinois. There is no other mode of admission in the State than on this diploma, or on examination in open Court, or on a foreign license.

**CLASSIFICATION.**

1. Students at the Union College of Law shall hereafter be classified as "regular" attendants, or "casual."

2. No casual attendant shall graduate or receive the Diploma of this School.

3. Students absent from more than one recitation of their class per week, and not furnishing a satisfactory excuse in writing, at the next recitation of the same class, shall be deemed casual for that week, and checked on the roll as such.

4. Students neglecting to comply with any exercise required of them in the Court, or in Office Practice, for more than two weeks, will be deemed casual for the said two weeks.

5. Students marked as "casual" for half the weeks of the term, will be deemed casual for the term; and students casual for two terms will be deemed casual for the year.

The roll of both classes will be called by the several lecturers at the hours of 8, 9, 4 and 5.

**EXPENSES.**

Tuition for one term, $25.00
Tuition for two terms, 40.00
Tuition for three terms, 50.00
Graduating Fee, 10.00
Board in College Building:
Day Board, per week, 3.00
Room, not less than two in a room, per week, .75 to 1.50
Board in families, per week, 4.00 to 6.00
Club Boarding, much less.

Chemical Physics, 697 Wabash Avenue.

ALBERT STRONG, M.D.,
General Therapeutics, 312 W. Indiana Street.

PHILIP ADOLPHUS, M.D.,
Clinical Instructor in Gynecology at Central Dispensary.

ANNUAL ANNOUNCEMENT

FOR 1875-6.

Since the last Session, Rush Medical College has become the Medical Department of the University of Chicago; and this Announcement of the Session of 1875-6, and Catalogue of 1874-5, go out to the Profession in connection with, and form a part of, the Annual Catalogue of the University of Chicago. By this relation the Students of the Medical College will be entitled to admission to the Museum and Observatory of the University, on the same terms as are required from the Students of the Department of Art and Science.

A new College building has also been commenced, on the north-east corner of Harrison and Wood Streets, diagonally opposite to the new County Hospital buildings, which are in course of erection. The close connection with the great Hospital of the West, which has, during the last three years, secured to the Students of Rush Medical College such ample clinical instruction, is thus put upon a permanent footing.

Lectures will commence in the old rooms, on the present Hospital grounds, corner of Arnold and Eighteenth Streets, but it is expected to hold the graduating exercises in the new College Building. Should the patients in the Hospital be transferred to the new Hospital before the close of the Session, Rush College will, also, move simultaneously.

Lectures will commence on Wednesday, Sept. 29th, and continue twenty weeks. Immediate contiguity with the largest Hospital in the West affords facilities to the students of Rush College which will far more than compensate the plain, but comfortable, building which we are compelled to occupy until the Hospital is moved to its new location.

The physiological laboratory is the largest of the kind found in the western medical schools, if not in the country.

The lecture-room will seat, comfortably, over three hundred students, each seat being numbered. This plan enables the student, by sending to the Treasurer of the Faculty the matriculation fee in advance of the Session, to secure a desirable seat, and forestall the rush for seats which characterizes the ingress of the class to the lecture-room in colleges where this system does not prevail.

The Trustees and Faculty consider that the permanent proximity of the County Hospital, which characterizes Rush Medical College, and the requirements of the college for graduation, fully comply with the spirit of the age, and the demand of the profession for practical training of medical students. Cook County Hospital must ever be the largest hospital in Chicago, and the municipal character of the charity will necessarily furnish the greatest variety of diseases and accidents.

CLINICS.

Special attention is called to the large opportunity offered to the students and
practitioners to attend clinical instruction. Not a day passes but one or more clinics, with copious material for illustration, can be enjoyed.

The Gynecological clinic will occur on Mondays and Thursdays. The cases furnished by the "Central Dispensary" are numerous and multiform, all of which will be available with Dr. Adolphus in the operating room, and enjoy the benefit of a varied and instructive view of diseases of women, such as can be taken advantage of only in small classes. The facilities thus offered for instruction in this important department are superior.

Prof. Gunn conducts his weekly Saturday afternoon clinic throughout the year. Operations and advice free. Patients received from the city or country.

Prof. Ross and Powell conduct the County Hospital Medical and Surgical Clinics on Tuesday and Friday afternoons as heretofore.

Prof. Holmes will give regular clinical instruction lectures at the Illinois Charitable Eye and Ear Infirmary. More than one thousand patients were treated at this institution during the past year. Students will have rare opportunities of witnessing important surgical operations, and of studying clinically diseases of the Eye and Ear.

During the other days of the week, not mentioned above, the members of the Cook County Hospital Staff give clinics in the Hospital Amphitheater.

Excellent opportunities will be afforded to classes for the study of Auscultation and Percussion in the wards of the Hospital.

GRADUATION.

The following are the requirements of the Degree of Doctor of Medicine, viz:
1st. The candidate must be twenty-one years of age, and give satisfactory evidence of possessing a good moral character.
2d. He must have pursued the study of medicine three years, and attended at least two courses of Lectures, one of which must have been in this Institution.
3d. He must have attended clinical instruction during, at least, one college term.
4th. He must have pursued the study of practical anatomy, under the direction of the Demonstrator, and to the extent required by the rules of the college.
5th. He must notify the Secretary of the Faculty of his intention to become a candidate, and deposit the amount of the graduation fee with the Treasurer, on or before the 20th day of January. In case the candidate fails to graduate, the fee is returned to him.
6th. Every candidate must undergo a full and satisfactory examination on each branch taught in the college.
7th. Graduates of other respectable schools of medicine will be entitled to an ad eundem degree, by passing a satisfactory examination, paying the graduation fee, and giving evidence of a good moral and professional character.

FEES.

Lecture Fees for the Course, including Matriculation Fee and admission to Dissecting Room: $65.00
Hospital Tickets: $5.00
Graduation Fee: $5.00

From Students of this College who have paid for two full courses, and from Alumni of this and other respectable Medical Colleges, the Matriculation Fee only ($5.00) will be required.

BOARD AND ROOMS.

Good board, with rooms, and all the usual accommodations, can be obtained at reasonable rates in this city as in any other city. By associating in clubs, students may supply themselves with good accommodations at a material reduction from ordinary rates.

DIRECTIONS TO STUDENTS.

Students will sign the Matriculation List, and obtain their tickets of the Treasurer, Professor Gunn. Students may select their seats in the lecture room when they take their tickets, or the Treasurer will select one for them, on the receipt of the matriculation fee, previous to the opening of the Session. The Junior may be seen in the College building, and will aid in obtaining board places, rooms, etc. For circular, address the Secretary, Prof. DeLancey Miller, 926 Wabash Avenue; or Prof. J. H. Etheridge, Assistant Secretary, 603 Michigan Avenue.

SPRING AND SUMMER INSTRUCTION.

Special attention is called to the Summer Course. By a series of competitive trials, by lectures, before the Faculty and class during the fall of 1872, and also during the past winter, several new Lecturers were added to the Spring Faculty, swelling the entire number to thirteen, and embracing some of the best talent procurable in the West.

Under the direction of the Faculty, the Spring and Summer Course, beginning the first Wednesday of March, and ending on the 30th of June, is annually conducted, consisting of lectures, recitations, and clinical observations at the Hospitals and College Dispensary. It is not intended to be in lieu of a regular course, but is established to afford greater facilities to students desiring to remain in the city during the summer for the benefit of clinical advantages.

This course is free to Matriculants of the College.

There are also abundant facilities, connected with the College, for the pursuit of special studies, by Private Courses, under competent Instructors, and for Private Examinations on the subjects treated in the public lectures, of which the student may avail himself, as his inclination and advantage may dictate.

Students will find a good assortment of medical books and surgical instruments
in this city. The following books of reference, among others, are recommended:

Chemistry.—Barker, Elliott & Storer. Roscoe, Mueller’s Elements.

Anatomy.—Gray, Gobrecht’s Wilson.

Physiology.—Flint, Dalton, Draper.

Medical Jurisprudence.—Elwell, Taylor, Beck, Casper.

Obstetrics.—Meadows, Churchill, Cazaux.

Diseases of Women.—Thomas, Hewitt, Attibill.

Diseases of Children.—Smith, Vogel, Meigs & Pepper.

Surgery and Surgical Pathology.—Erickson, Holmes, Druitt, Gross, Paget, Byant.

Practice of Medicine.—Flint, Aitken, Niemeyer, Hartshorn’s Watson.

Clinical Medicine.—Bennett, Trouseau, Graves.

Diseases of the Heart.—Flint, Walsh.

Diseases of the Lungs.—Walsh, Fuller.

Surgical Anatomy.—Maclise, Hering.

Microscopic Anatomy.—Stricker, Koelliker.

Ophthalomology.—Williams, Wells, Stellwag.

Otoology.—Roosa’s Von Troelitch.

Military Surgery.—Hamilton.

PREPARATORY SCHOOL IN WISCONSIN.

This institution, formerly known as Wayland University, located at Beaver Dam, Wisconsin, has passed under the control of the Board of Trustees of the University of Chicago, and will hereafter be conducted as a Preparatory Department of the University. This school has been in successful operation during the past year, under the direction of E. F. Stearns, M.A., a graduate of the University assisted by a competent corps of instructors. It is the design of the Trustees to make it in every respect worthy of public favor. Competent teachers will be employed, and a complete course of preparatory studies organized, thus affording to those who prefer not to send their sons to the city, an opportunity of securing for them people of both sexes, and it is designed, as soon as practicable, to provide separate course of studies for the department for young ladies, and to develop a complete collegiate scale of studies, graduates from which shall receive the diplomas of the University of Chicago. Classes in other branches of study, besides those required in the preparation for college, will be organized as circumstances require.
