FACULTIES.

DOUGLAS COLLEGE.

DEPARTMENT OF PHILOSOPHY AND THE ARTS.

HON. ALONZO ABERNETHY, PRESIDENT.

PROFESSOR OF INTELLECTUAL AND MORAL PHILOSOPHY.

JAMES R. BOISE, PH.D., LL.D.*

PROFESSOR OF THE GREEK LANGUAGE AND LITERATURE.

CHARLES MORELY HULL, PROFESSOR OF RHETORIC, ENGLISH LITERATURE AND HISTORY.

ALONZO J. HOWE, M.A.,

PROFESSOR OF MATHEMATICS.

C. GILBERT WHEELER, B.S.,

PROFESSOR OF ANALYTICAL AND APPLIED CHEMISTRY.

JOHN C. FREEMAN, M.A., B.D.

PROFESSOR OF THE LATIN LANGUAGE AND LITERATURE.

RANSOM DEXTER, M.A., M.D.,

PROFESSOR OF ZOOLOGY, COMPARATIVE AND HUMAN ANATOMY AND PHYSIOLOGY.

EDWARD F. STEARNS, M.A.,

ASSOCIATE PROFESSOR OF THE ANCIENT LANGUAGES AND PRINCIPAL OF THE PREPARATORY DEPARTMENT.

ELIAS COLBERT, M.A.,

ACTING SUPERINTENDENT OF THE DRAEGER OBSERVATORY AND INSTRUCTOR IN ASTRONOMY.

VAN BUREN DENSLOW, LL.D.

BOSTON PROFESSOR OF CONSTITUTIONAL AND INTERNATIONAL LAW AND POLITICAL ECONOMY.

* Resigned.

[Instruction in the Danish language will be given when desired by Mr. Olson, and in Spanish and Italian by Prof. Wheeler.]

FACULTY OF LAW.

HON. HENRY BOOTH, LL.D., DEAN,

DEAN OF THE LAW SCHOOL AND PROFESSOR OF THE LAW OF PROPERTY AND PLEADING.

HON. HARVEY B. HURD, TRES. LAW FACULTY,

AND PROFESSOR OF CONSTITUTIONAL AND STATUTE LAW, PRACTICE, EVIDENCE AND PLEADING.

JAMES L. HIGH,

PROFESSOR OF EQUITY JURISPRUDENCE AND PLEADING AND EVIDENCE.

VAN BUREN DENSLOW, LL.D., SECRETARY OF LAW FACULTY,

AND PROFESSOR OF COMMON LAW, CONTRACTS, AND CIVIL AND COMMERCIAL LAW AND EVIDENCE.

N. S. DAVIS, M.D.,

LECTURER ON MEDICAL JURISPRUDENCE.

PROF. ELIAS COLBERT, M.A.,

INSTRUCTOR IN SHORT HAND.
FACULTY OF MEDICINE.

JOSEPH W. FREER,* M.D., PRESIDENT.
Prof. of Physiology and Microscopic Anatomy, 204 Ontario Street.

J. ADAMS ALLEN, M.D., LL.D.,
Prof. of Principles and Practice of Medicine, 503 Michigan Avenue.

DELLASKIE MILLER, M.D., SECRETARY,
Prof. of Obstetrics and Diseases of Women and Children, 606 Wabash Avenue.

MOSES GUNN, A.M., M.D., TREASURER,
Prof. of Principles and Practice of Surgery and Clinical Surgery, 49 Calumet Avenue.

EDWIN POWELL, A.M., M.D.,
Prof. of Military Surgery and Surgical Anatomy, 43 Clark Street.

JOSEPH P. ROSS, M.D.,
Prof. of Clinical Medicine and Diseases of the Chest, 409 West Washington Street.

EDWARD L. HOLMES, M.D.,
Prof. of Diseases of the Eye and Ear, Kentucky Block, cor. Clark and Adams Streets.

HENRY M. LYMAN, A.M., M.D.,
Prof. of Chemistry and Pharmacy, 533 West Adams Street.

JAMES H. ETHERIDGE, M.D., ASS''T SECY,
Prof. of Materia Medica and Medical Jurisprudence, 603 Michigan Avenue.

CHARLES T. PARKES, M.D.,
Prof. of Anatomy, 63 Randolph Street.

ALBERT B. STRONG, M.D.,
Demonstrator of Anatomy, 312 West Indiana Street.

*Deceased.
COURSES OF INSTRUCTION.

I.—CLASSICAL COURSE.

REQUIREMENTS FOR ADMISSION.

(See Preparatory Courses, pages 18–20.)

FRESHMAN CLASS.

FIRST TERM.
1. Greek.—Selections from Greek Authors (Boise & Freeman). Greek Prose Composition (Boise).
2. Latin.—Livy. Selections from the First Book (Chase & Stuart). Exercises in writing Latin. Roman History to the first Samnite war. (Liddell's History and Rawlinson's Manual.)
3. Mathematics.—Loomis' Algebra completed, from Chapter XVIII.

SECOND TERM.
3. Greek.—Selections from Greek Authors (Boise & Freeman). Greek Prose Composition (Boise). Grecian History and Geography.

THIRD TERM.
2. Greek.—Selections from Greek Authors (Boise & Freeman). Lysias (Stevens).
3. Latin.—Selections from Livy. The Captives of Plautus. Roman History from the battle of Zama to the fall of the Republic. (Liddell & Rawlinson.)

SOPHOMORE CLASS.

FIRST TERM.
1. Mathematics.—Natural Philosophy. Snell's Olmsted.
2. Greek.—Homer's Iliad. (Boise's edition.)

SECOND TERM.
1. Latin.—Horace. Latin Prosody. The Lyric Metres. History of the Augustan age. Essays by the Class on subjects connected with the history and literature of the period.

THIRD TERM.
1. History.—Swinton and Green.
2. Greek.—The Antigone of Sophocles, or some other Greek tragedy (Woolsey). Essays by the Class, chiefly critiques on the principal Greek plays. Grecian History continued.
4. German.—A play of Goethe or of Schiller. Mathematics.—Analytical Geometry.

JUNIOR CLASS.

FIRST TERM.
1. English.—Hadley's History of the English Language. Carpenter's English XIV Century.
2. Latin.—Selections from the Annals and Histories of Tacitus. Roman History to the time of Trajan. Essays by the Class. Extemporaria.

SECOND TERM.
1. Rhetoric.—Whately.
2. Greek.—Demosthenes de Corona (D'Ooge). Essays by the Class on the leading events of the fourth century B.C., and other topics connected with the study of oratory.

THIRD TERM.
3. French.—Pasquelle's Edition of Dumas' Life of Napoleon. Latin.—Juvenal, six Satires; or Select Epistles of Pliny. Roman History to Diocletian. Essays by the Class.
UNIVERSITY OF CHICAGO.

SENIOR CLASS.

FIRST TERM.

1. Metaphysics.—Completed.
   Logic.—Jevon and Thompson.
2. Guizot's History of Civilization.
3. Natural History.—Geology and Mineralogy. (Dans.)
   Latin.—Selections from Tacitus. Roman History to the year 476 A.D.

SECOND TERM.

   Natural History.—Geology and Mineralogy completed.

THIRD TERM.

1. Political Economy.
3. German.—A play of Goethe or of Schiller.
   Greek.—Selections from Plato's Republic. Essays by the Class on the leading philosophers and philosophical systems of the ancient world.

II.—PHILOSOPHICAL COURSE.

REQUIREMENTS FOR ADMISSION.

(See Preparatory Course, pages 28-30.)

FRESHMAN CLASS.

FIRST TERM.

1. Mathematics.—Loomis' Algebra completed, from Chapter XVIII.
3. Natural Science.—Elementary Physics.

SECOND TERM.

3. Elementary Astronomy.—Lockyer.

THIRD TERM.

3. Natural History.—Biology.

UNIVERSITY OF CHICAGO.

SOPHOMORE CLASS.

FIRST TERM.

1. Mathematics.—Natural Philosophy. Snell's Olmsted.

SECOND TERM.

1. Physics.—Natural Philosophy.—Snell's Olmsted completed. Spherical Trigonometry.

THIRD TERM.

1. History.—Swinson and Green.
2. Latin.—Selections from Livy. The Captives of Plautus. Roman History from the battle of Zama to the fall of the Republic. (Liddell & Rawlinson.)
3. German.—A play of Goethe or Schiller.

Mathematics.—Analytical Geometry.

JUNIOR CLASS.

FIRST TERM.

2. Latin.—Selections from the Annals and Histories of Tacitus. Roman History to the time of Trajan. Essays by the Class. Extemporaria.

SECOND TERM.

1. Rhetoric.—Whately.
2. Latin.—Horace. Latin Prosody. The Lyric Metre. History of the Augustan Age. Essays by the class on subjects connected with the history and literature of the period.

THIRD TERM.

3. French.—Fouquet's Edition of Damas' Life of Napoleon. Latin.—Juvenal, six Satires; or Select Epistles of Pliny. Roman History to Diocletian. Essays by the Class.
UNIVERSITY OF CHICAGO.

SENIOR CLASS.

FIRST TERM.
1. **Metaphysics.**—Completed.  
   Logic.—Jevon and Thompson.
2. **History.**—Guizot's History of Civilization.  
3. **Natural History.**—Geology and Mineralogy (Dana).  
   Latin.—Selections from Tacitus. Roman History to the year 476 A.D.

SECOND TERM.
1. **Moral Philosophy.**—Calderwood. Lectures.
   Natural History.—Geology and Mineralogy completed.

THIRD TERM.
1. **Political Philosophy.**—Political Economy.
3. **German.**—A Play of Goethe or of Schiller.

III.—SCIENTIFIC COURSE.

REQUIREMENTS FOR ADMISSION.
(Same as for Philosophical Course, except Latin, pages 18-20)

FRESHMAN CLASS.

FIRST TERM.
1. **Mathematics.**—Loemin's Algebra completed from Chapter XVIII.
2. **Natural Science.**—Elementary Physics.
3. **German.**—Otto's Grammar.

SECOND TERM.
1. **Mathematics.**—Geometry completed from Book VI. Plane Trigonometry.
2. **Natural Science.**—Elementary Astronomy.
3. **German.**—Whitney's Reader. Grammar continued.

THIRD TERM.
2. **Natural History.**—Biology.
3. **German.**—Goethe or Schiller.

UNIVERSITY OF CHICAGO.

JUNIOR CLASS.

FIRST TERM.
1. **Mathematics.**—Natural Philosophy. Snell's Olmsted.
2. **English.**—Hartley's History of the English Language. Carpenter's English XIV Century.

SECOND TERM.
2. **Rhetoric.**—Whately.
3. **French.**—The Grammar and Reader continued.  
   Chemistry.—Barker. Lectures.

THIRD TERM.
1. **Mathematics.**—Hamilton. Lectures.
   Astronomy.—Loomis. Lectures.
3. **French.**—Faquelle's Edition of Dumas' Life of Napoleon.

SENIOR CLASS.

FIRST TERM.
1. **Metaphysics.**—Hamilton completed.  
   Logic.—Jevon and Thompson.
2. **Natural History.**—Geology and Mineralogy. Dana.
3. **History.**—Guizot's History of Civilization.  

SECOND TERM.
1. **Moral Philosophy.**—Calderwood. Lectures.
2. **Chemistry.**—Wheeler's Lectures.

THIRD TERM.
1. **Political Philosophy.**—Political Economy.
3. **German.**—Goethe or Schiller.

Note.—The above courses of study are followed with as few deviations from them as possible; but circumstances may arise which may require slight temporary changes.

IV.—COURSE IN ASTRONOMY.

The Dearborn Observatory forms the Astronomical Department of the University. Its objects are to make original researches in Astronomical Science, to assist in the application of Astronomy to Geography, in communicating exact time, and other useful objects, and to furnish instruction in Astronomy to the students of the University, both those in the regular course and those who wish to give special attention to the study.
The principal instruments of the Observatory are:

1. The great Equatorial refracting telescope, made by Alvan Clark & Sons, of Cambridge, Mass., in 1865, and mounted in the Dearborn Tower, which was built by the munificence of the Hon. J. Young Scammell, LL.D. This instrument was the largest refractor in the world till a few years ago; and now has only one superior in the United States. It has recently been refitted and much improved, and the upper portion of the building reconstructed, by the Chicago Astronomical Society. The telescope is fitted with driving-clock, micrometer, spectroscope, and other appliances necessary for first-class work. The dimensions of the Equatorial are:
   - Diameter of Declination Circle, 50 inches; reading by vernier to 5 minutes, and by two microscopes to 10 seconds, of arc.
   - Diameter of Hour Circle, 22 inches; reading by vernier to single minutes, and by microscopes to single seconds, of time.
   - Focal length of Object Glass, 23 feet.
   - Aperture " 18 1/4 inches.

2. A Meridian Circle, of the first class, constructed in 1867, by Messrs. A. Reynolds & Sons, of Hamburg. This instrument has a telescope of six French inches aperture, and a divided circle of forty inches diameter, reading by four microscopes. In plan of construction it is like Bessel's celebrated Königsberg circle, by the same makers; but has some recent improvements in the mode of illuminating the field of view and the wires, and apparatus for registering declinations. Within the past two years a chronograph has been added for making an electrical record of the times of star transits.

The Observatory has a chronometer (Wm. Bond & Son, No. 279), two mercu- rial pendulum clocks, and an astronomical library containing nearly one thousand three hundred volumes and pamphlets.

The course of instruction includes:

1. Instruction in Astronomy to the Undergraduates (see Classical Course).
2. In the determination of time, latitude, and longitude, to students of the Engineering Course.
3. In Higher Mathematics and Astronomy to such students as wish to prepare for positions in observatories, or other scientific establishments, or for professorships of mathematical departments in colleges.

This will include instruction in the following subjects:

1. Modern Higher Geometry, applied to Conic Sections and Spherical Trigonometry.
4. The Method of Least Squares.
5. The Theory of the Motions of the Heavenly Bodies.

Practical exercises with the instruments will take place regularly.

On those who shall pursue a full course of at least two years, shall have passed a satisfactory examination, and shall prepare an original thesis on some astronomical or mathematical subject, the degree of Bachelor of Science will be conferred.

The Observatory is now supplying time signals each day in the year, by telegraph, to several different points in the City of Chicago, and its time is the standard for many other places in the west.

Several of the graduates have already taken high rank as astronomical observers and surveyors. One is director of the Cincinnati Observatory; another, professor of astronomy at the U.S. Observatory at Washington, and others have done good work in surveying boundary lines in the Territories.

The preparation desirable for a student in practical Astronomy consists in a thorough knowledge of practical arithmetic, elementary algebra, and geometry, and plane trigonometry.

IV.—COURSE IN PRACTICAL CHEMISTRY.

In this course provision is made for the thorough and comprehensive study of Chemistry as an art, in the belief that, aside from the practical relations of the science, the educational effect of Laboratory practice is of great value. By such practice the senses are trained to observe with accuracy, and the judgment to rely with confidence, on the proof of actual experiment.

In the Laboratory of this Department, under the direction of Professor Wheeler, aided by competent assistants, the student of applied chemistry will have ample opportunity of becoming practically familiar with the materials, apparatus and processes of the most important chemical arts and manufactures.

A systematic course in Qualitative and Quantitative Analysis will be followed by practical studies with regard to the application of Chemistry to agriculture, mining, metallurgy, assaying, medicine, pharmacy, toxicology, preservation of timber, meats, etc., warming, illumination, ventilation, photography and other useful purposes. On those who shall complete a full course, requiring from two to three years' time, and who shall have passed a satisfactory examination, the degree of Bachelor of Science will be conferred. Certificates will be granted to students who do not graduate, stating the time they have been present, the studies pursued, and the progress made.

The Laboratory is well equipped with modern apparatus. The student will have ample opportunity of visiting the numerous manufacturing establishments of Chicago and vicinity, and witnessing important industrial applications of the science, the study of which he is pursuing.

The Laboratory Fee for special students in Chemistry is $35 per term; for the regular course, $1.00.

Text Books for Reading and Reference:

Craft's Qualitative Analysis.
Elliot and Storer's Manual.
Bowman's Practical Chemistry.
Freehling's Qualitative and Quantitative Analysis.
Miller's Chemistry, Vols. II., III., and IV.
Richardson & Watt's Chemical Technology.
Wheeler's Determinative Mineralogy.
V.—PREPARATORY COURSES.

The Trustees of the University have deemed it advisable to include among its fundamental and permanent arrangements a Preparatory Department. It will be their aim to make this department a first-class school of preparation for College.

The Professors of the University have charge of the instruction in the studies belonging to their several departments.

The requirements for admission are Reading, Writing, Spelling, Intellectual Arithmetic, Practical Arithmetic, English Grammar and Geography.

The requisite studies have been arranged in a course of three years for classical, and two years for philosophical students, as appears by the following schedules:

CLASSICAL COURSE.

FIRST YEAR.

<table>
<thead>
<tr>
<th>FIRST TERM.</th>
<th>SECOND TERM.</th>
<th>THIRD TERM.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mathematics.—Robinson's Elementary Algebra.</td>
<td>Mathematics.—Robinson's Elementary Algebra.</td>
<td>Mathematics.—Loomis' Algebra to Chapter IX.</td>
</tr>
<tr>
<td>English.—Grammar and Analysis.</td>
<td>History.—History of the United States.</td>
<td>Natural Science.—Elements of Natural Philosophy.</td>
</tr>
<tr>
<td>Greek.—Hadley's Greek Grammar commenced.</td>
<td>Greek.—Hadley's Greek Grammar continued.</td>
<td>Greek.—Hadley's Grammar continued.</td>

<td>Freeman's Outlines of History.</td>
</tr>
</tbody>
</table>

FIRST TERM.

| Xenophon's Anabasis, third Book completed. | Greek Prose Composition twice a week (Jones). |
| Greek.—Select Orations of Cicero. Latin Composition. |
| Mathematics.—Loomis' Algebra to Chapter XVIII. |

SECOND TERM.

| Latin.—Virgil's Enéid. Latin Prosody. |
| Greek.—Hadley's Grammar. |
| Homer's Odyssey, the Extracts in Boise and Freeman's Selections from Greek Authors. |
| Greek Prose Composition twice a week. |

THIRD TERM.

| Greek.—Hadley's Grammar. |
| Homer's Odyssey, the Extracts in Boise and Freeman's Selections from Greek Authors. |
| Greek Prose Composition twice a week. |

GREEK.—The preceding course of study is recommended to those who are preparing for this University at other places. As a substitute, however, for Hadley's Grammar, either Goodwin's, Kuehner's or Crosby's Grammar, or Kendrick's revision of Bullion's Grammar, is accepted; and as a substitute for Boise's First Greek Book, either Leighton's Greek Lessons, or Whiton's Companion Book, or Kuehner's Elementary Greek Grammar with exercises, or Kendrick's Greek Ollendorff, or Harkness' or Crosby's First Book in Greek, is accepted.

LATIN.—Either Allen and Greenough's, Harkness', Bulfin & Morris', Andrews & Stoddard's, or Gildersleeve's Latin Grammar, will be accepted. The exercises in Latin Prose Composition should be thoroughly mastered by the student. These exercises should first be written, and afterwards translated orally. In connection with the study of Virgil, Latin Prosody should be learned, and the difference between prose and poetical construction carefully noted.

PHILOSOPHICAL COURSE.

FIRST YEAR.

| Mathematics.—Robinson's Elementary Algebra. |
| Latin.—Latin Lessons commenced. |
| English.—Grammar and Analysis. |
| Greek.—Hadley's Greek Grammar commenced. |
| Latin.—Latin Grammar and Reader. |
| Mathematics.—Robinson's Elementary Algebra. |
| History.—History of the United States. |
| Latin.—Latin Grammar and Reader. Latin Composition. |
| Mathematics.—Loomis' Algebra to Chapter IX. |
| Natural Science.—Elements of Natural Philosophy. |

SECOND YEAR.

| Mathematics.—Loomis' Algebra to Chapter XVIII. |
| Robinson's Higher Arithmetic. |
| Latin.—Grammar, Caesar. |
| Introduction to Latin Composition. |
UNIVERSITY OF CHICAGO.

SECOND TERM.

Freeman's Outlines of History.

THIRD TERM.

Physical Geography.—Gayot's.
Latin.—Select Orations of Cicero. Latin Composition.
Freeman's Outlines of History.

STUDENTS NOT IN COURSE.

Students not wishing to prepare for College, will be admitted into the Preparatory Department, to pursue such studies of the course as they may choose, under the regulations of the Faculty; and special classes will be formed for them when the Faculty shall find it expedient.

GENERAL INFORMATION.

YOUNG WOMEN

Are admitted to the classes, Collegiate and Preparatory, on the same terms and conditions as young men.

A committee of ladies interested in the extension of the privileges of our Colleges to young women is appointed by the Trustees, whose duty it is to hold monthly meetings at the parsonages of the University, for the consideration of questions connected with this subject, to determine the best plans for its execution, and by their advice and co-operation to aid in securing the highest efficiency of this department; also to provide for such special courses of lectures or other instruction as may from time to time be deemed advisable. The rooms assigned to the young women are pleasant and well furnished by this committee.

The College buildings at present contain no dormitories for young women, but suitable accommodations can be obtained when desired in private families, in the neighborhood.

COMMITTEE.

MRS. MARGARET LAWRENCE. MRS. H. O. STONE.
MRS. FERNANDO JONES. MRS. O. B. WILSON.
MRS. H. W. FULLER. MRS. C. B. WAITE.
MRS. M. A. SHOREY. MRS. A. N. CHETLAIN.
MRS. R. E. GOODELL. MRS. G. F. HARDING.
MRS. C. S. MIXER. MRS. SAMUEL WILLARD.
MRS. N. T. GASSETTE.

TERMS AND VACATIONS.

The year is divided into three terms and three vacations. The first term consists of fifteen weeks; the second and third of twelve weeks each. The Christmas vacation is two weeks, the Spring vacation one week, and the Summer vacation ten weeks. Calendar on page 2.

ELECTIVE STUDIES.

Students may reside at the University and pursue studies, for a longer or shorter time, in any of the classes, at their own election; subject, however, to the regulations of the Faculty.
EXAMINATIONS.
Examinations of all the classes are held at the close of each term, and the public are cordially invited to attend them and to judge for themselves of the character of the work done. At any time, also, in the course of the term, all persons who are interested in the studies here taught are invited to visit any of the classes.

DEGREES.
The degree of Bachelor of Arts is conferred upon all students who have completed the prescribed Classical Course of study, and passed a satisfactory examination therein; the degree of Bachelor of Philosophy on such as have completed the Philosophical Course; and the degree of Bachelor of Science upon all who have completed the Scientific, Chemical or Astronomical Course.

Bachelors of Arts of three years’ standing may receive the degree of Master of Arts, provided that since graduation they have sustained a good moral character, and pursued some literary or scientific calling. Candidates for this degree will be expected to make application for it through the President, and to furnish evidence of their qualifications.

SOCIETIES.
There are three societies in the University, conducted by the students—two literary and one religious.

RELIGIOUS EXERCISES.
The duties of each day are opened with religious services in the Chapel of the University, at which all the students are required to be present.

On the Sabbath they are required to attend public worship in the forenoon, with some congregation in the city, selected by themselves, or by their parents. The students also sustain a weekly prayer meeting.

LIBRARIES.
The University Library has been increased recently by valuable acquisitions. The London publishing houses of Sampson, Low & Co., Trübner & Co., and Longman & Co., have generously furnished copies of their recent publications. Meares, Sheldon & Co., of New York, have donated a complete set of their publications.

The Thompson Library, the gift of Hon. H. M. Thompson, contains a very valuable collection of books on horticulture, a complete set of the Bohn Libraries, and many finely illustrated works.

The Tucker Library, presented by the family of the late Rev. Eliza Tucker, D.D., contains upward of five hundred volumes, mostly theological.

The Public Library of the City of Chicago, which, under the judicious and efficient management of the librarian, Mr. Poole, is rapidly becoming one of the best city libraries of the country, is accessible to students of the University free of charge, and is much used by them.

MUSEUM.
Through the liberality of F. H. Avers, Esq., a large and well lighted room, on the second floor of the University building has been fitted up as a museum, with the most modern improvements.

The Department of Human Anatomy and Physiology contains skeletons, maps, a full set of Bocksteiger’s models, etc. The facilities for illustrating Zoology and Comparative Anatomy, both vertebrate and invertebrate, are good.

The Entomological collection consists of over three thousand species.

The Geological Department contains several thousand specimens, judiciously selected. Of Crustacea, Mollusks, Star Fishes, Echinoderm and Corals, there are enough for teaching purposes. Excursions are frequently made by classes in Geology and Botany, under the direction of the professors, for the inspection of rock strata and the collection of specimens in natural history. By the liberality of the managers of the Chicago, Rock Island and Pacific Railroad, excursions have been made during the last year, under the direction of Prof. Clarke, to the most interesting geological locations in the valley of the Illinois River, as far south as Utica. Visits of inspection are also frequently made to the large machine shops, reduction mills, furnaces, etc., which abound in Chicago, and which furnish valuable means of illustration in the application of the sciences to the arts.

A Numismatic Collection, made by the late Charles D. Sandford, and containing 3,500 coins, has been presented to the University by the late Rev. Miles Sandford, D.D.

The museum is under the charge of Prof. Ransom Dexter, who has already done much toward systematizing the work of collecting and arranging, and it is hoped that considerable additions will be made to the collections during the coming year.

CHEMICAL AND PHILOSOPHICAL APPARATUS.
The lectures on Chemistry and Natural Philosophy are illustrated by modern apparatus. Important additions have recently been made, chiefly from the gifts of George Hazeltine, L.L.D., of London, and Messrs. R. O. & H. W. Chamberlain, of Boston, Massachusetts; among them a Runkoff Induction Coil, one of the largest ever imported; a full set of the famous Geissler Tubes, of Hoffman’s Apparatus, and a powerful Grove Battery, together with apparatus useful in the assay of ores.

LOCATION, BUILDINGS, ETC.
The Location of the University is in the south part of Chicago, directly on the Cottage Grove line of the Chicago City Railway. The site was the gift of the late Senator Douglas, and is universally admired for its beauty and healthfulness. The building is unsurpassed for the completeness of its arrangements, especially the student's rooms, which are in suites of a study and two bed-rooms, of good size and height, and well ventilated.
BOARD AND ROOMS.

Board may be obtained in the Club Room of the University, where many of
the students board, at cost, which has been during the past year from $2.50 to
$3.00 per week.

Students who may prefer it, can obtain board in families on reasonable terms,
or they may form clubs and provide for themselves.

<td><strong>$175.00 to $216.50</strong></td>
</tr>
</tbody>
</table>

Students provide their own furniture, except bedsteads, a single bedstead being placed
by the University in each dormitory. The students, also, provide their own
fuel and lights. The use of kerosene and soft coal is prohibited in the University
building. Gas costs about fifty cents per week for each room, and fuel from $10
to $20 per annum for each student. Washing has been, during the past year,
seventy-five cents per dozen.

The rule of the Trustees requires all bills to be paid at the beginning of each
term, before the students enter their several classes; and by failure to comply with
these terms, the student forfeits the privileges of the University.

Parents will take notice that the whole necessary expense for one year, including
wood, lights and washing, varies but little from $300. This has been proved by the
actual experience of students who practice economy. Any material variation from
this amount may be regarded as unnecessary.

HISTORY.

This School was organized as a College of Law under the joint auspices of
the University of Chicago and Northwestern University, in 1872, and, though still
nearly the youngest Law School in the United States, is conceded to be one of the
first in success. Out of forty-three Law Schools reported to the Department of
Education last year, only four claimed a larger roll of students than the Union
College of Law, and among these four none shows larger advantages to the
student, or a more attractive, instructive and thorough course. During its first
year the college had an attendance of sixty students, and graduated fourteen.
During its second year one hundred and three attended, and twenty-six graduated.
During its third year one hundred and thirty-six attended, and fifty graduated.
During its fourth year, 1870–71, which has been very severe on educational institu-
tions, owing to the depressing financial condition of the country, and to other
desires, one hundred and seven students have attended. The instructors now
engaged have become perfected, by experience, in the art of teaching law, which
is, in a degree, a distinct art from its practice in the courts, and requires time and
continued and permanent organization for its highest success.
UNIVERSITY OF CHICAGO.

IMPORTANCE.

The advantages afforded by a College of Law for instruction in the science and practice of Law are appreciated by both the Bar and the public. A systematic course of study, under eminent living teachers, is quite as valuable to the legal student as to the medical or theological. For laying the foundation of a thorough knowledge of the law, the advantages of the Law College far exceed those of an office. In an office it is seldom that the student receives the attention his best interests demand. In the College the professors are specially charged with this work. The value of this instruction is indicated by the fact that about one hundred students had, prior to the establishment of this College, gone yearly from the State of Illinois to the schools of other States, although these schools do not teach our system of practice, nor the statutes and decisions of our State. Now the current is reversed, and students from other States, as well as our own, are seeking legal education in Illinois.

CONDITIONS OF ADMISSION.

Students entering the Junior Class are expected to have at least a good common school education. It is greatly to the interest of the student to advance in general scholarship as far as practicable. A knowledge of Latin is of much service in handling law terms. During the past year many of our students were graduates of Classical Colleges and Universities, and a considerable number of the others had acquired some proficiency in Latin, so that no call arose for instruction in this department. Whenever desired, however, as above, it will be furnished. It is believed that the Law Course as a Professional Course, should be a post-graduate course. Such preparation is recommended, not required.

ADVANCED STANDING.

Students who have attended another Law College one year, or spent one year in the study of law in the office of an attorney, may apply for standing in the Senior Class at the opening of the School year, or during the first half of the first term, and may enter if found competent on examination by the Faculty.

PLAN OF INSTRUCTION.

There are three terms in each year, the first beginning on the 12th of September, and ending on the 19th of December, fourteen weeks; the second beginning on the 2nd of January, and ending on the 27th of March, twelve weeks; and the third beginning on the 3d of April, and ending on the 6th of June, nine weeks. There are two years in the Course. Our plan of teaching, both in the Junior and Senior year, assumes that only an intimate and painstaking acquaintance with elementary text-books can fit the student for the Bar. We resort to lectures as a stimulus to the study of text-books, not as a substitute for it. As a consequence, twenty-nine in thirty of our graduates practice law permanently as a profession. During both years, therefore, our students are daily detilled by question and answer, accompanied by lectures. The following programme of study for the two years embraces at least five hours per day for six days in the week, for thirty-five weeks. Seniors may be present at Junior recitations, and vice versa, but are not examined at the latter. Indeed, it is preferred that each class should attend the instruction given to the other, thereby securing five hours of tuition each day, without being overworked by an excessive amount of reading:

JUNIOR YEAR.

FIRST TERM—FIVE DAYS IN WEEK.

1st hour, 9 to 10 A. M., 1st and 2d Kent's Commentaries........ Hon. H. B. Hurd.
2d hour, 10 to 12 A. M., 1st and 2d Vols. Blackstone........... Prof. Denslow.
3d hour, 1 to 3 P. M., Parsons on Contracts....................... Prof. B. Denslow.
4th hour, 3 to 5 P. M., Competitive Examinations in way of Review...Prof. Denslow.

SECOND TERM.

1st hour, 9 to 10 A. M., Kent's Commentaries and Gould's Pleadings, Hon. H. B. Hurd.
2d hour, 10 to 12 A. M., Greenleaf's Evidence...................... Hon. H. B. Hurd.
3d hour, 1 to 3 P. M., Chitty's Pleadings.......................... Prof. V. B. Denslow.
4th hour, 3 to 5 P. M., Competitive Examinations in way of Review...Prof. Denslow.

SENIOR YEAR.

FIRST TERM—FIVE DAYS IN WEEK.

1st hour, 8 to 9 A. M., Chitty's Pleadings......................... Prof. James L. High.
2d hour, 9 to 10 A. M., Daily, except Wednesday, 1st and 2d Washburn on Real Property................. Judge Henry Booth.
3d hour, 10 to 12 A. M., Daily, except Wednesday, Lecture on Medical Jurisprudence, by N. S. Davis, M.D.
4th hour, 12 to 2 P. M., Evening, Daily, except Wednesday, Lecture on Medical Jurisprudence, by N. S. Davis, M.D.
5th hour, 2 to 4 P. M., Every Wednesday, Lecture on Medical Jurisprudence, by N. S. Davis, M.D.

SECOND TERM.

1st hour, 8 to 9 A. M., Criminal Law............................... Prof. James L. High.
3d hour, 10 to 12 A. M., Daily, every Wednesday, Lecture on Medical Jurisprudence, by N. S. Davis, M.D.
4th hour, 12 to 2 P. M., Evening, Competitive Examinations, by way of Review, in studies of Junior year...................... Prof. Denslow.

THIRD TERM.

1st hour, Equity Pleadings and Practice............................. Prof. James L. High.
2d hour, 9 to 10 A. M., Greenleaf's Evidence, in common with Junior Class.
3d hour, 10 to 12 A. M., Hon. H. B. Hurd.
BOTH YEARS.

Saturday, 8 to 10 A.M., Senior Moot Court ................. HON. H. B. HURD.
Assisted by two Associate Judges. Clerk and Sheriff elected by the Class.
Saturday, 3 to 4 P.M., Junior Moot Court .................. PROF. DENSLOW.
Assisted by two Associate Judges. Clerk and Sheriff elected by the Class.
Instruction in elocution every alternate Saturday during 2d and 3d Terms.

LECTURES.

The lectures delivered during the past year, from 4 to 5 P.M., have been the following: Five by Hon. Leonard Swett, on the Greek: Lawyers, Law, Literature, Poetry, and Oratory; two by John M. Jewett, on the Law of Corporations; two by John Barden, on the Law of Self-defense; and five by George Gardner, on the Law of Chattel Mortgages and Abstracts of Title; one by Emery A. Storr, on the Triumphs of Jurisprudence in Establishing the Law of Libel; five by Judge John A. Jameson, on Sovereignty in the United States; American Contributions, the Constitutional Convention, and Eminent Domain (two); two by L. N. Stiles, on Trials before Juries and Examination of Witnesses; three by Thomas Dent, on Equity Pleadings and Practice; twenty-five by James L. High, on Equity Pleadings, Injunctions and Extraordinary Remedies; five by C. C. Bonney; five by Marshall D. Ewell, on Fixtures; two by Edward Roby, on Real Estate and Tax Titles; five by Judge R. H. Forrester, on the Law of Torts and Negligence and the Statute of Uses; one by George W. Kretzinger, on Legal Precedents; two by Josiah H. Bissell, on the Jurisdiction of the United States Courts; one by Prof. R. L. Cunnoock, on Elaboration; two Elaboratory Readings, by C. Dale Armstrong; one Reading by Prof. McAfferty; forty-five by Hon. H. B. Hurd, on the Statutes of Illinois, and the Court Practice and Decisions in connection therewith; forty-five by Prof. V. B. Denslow, of which twelve were on the Roman Law, fifteen were by way of Review of Blackstone, on the English Common Law, five were on the Constitution of the United States, and several on Commercial Law, Responsible Government, Theories of Governmental Reform, etc.

Moot Court.

That the students may be versed in the practice of law, two Moot Courts are held every Saturday morning, one by the Senior and the other by the Junior Class. During some years a Union Moot Court has also been sustained by the students of both classes. In these they are taught to apply legal remedies, according to the common law and chancery system of practice; to bring suits, draw papers and pleadings, and take the various steps incident to bringing a cause to trial; then to try it according to the rules of evidence, including the arguments, charge, verdict, motion in arrest of judgment, writ of error, etc. Actual cases are selected, and the forms and dignity of a trial in Court preserved. The trial takes place in the presence of the classes, whose members act respectively as counsel, jurors, witnesses and officers of the court, and before a Professor who sits as judge, with the double aim of illustrating the legal principles involved, and explaining the rules of practice. The exercise is always interesting and profitable.

AUXILIARIES.

Short-hand Writing having become of essential service in the practice of Law, arrangements have been concluded with PROF. ELIAS COLBERT, the well known commercial editor of The Chicago Tribune, and with the best short-hand reporter connected with the Press of the Northwest, whereby ample instruction will be afforded during two terms of the coming year, to enable every student to write from 60 to 100 words per minute. This will greatly facilitate the obtaining of employment in offices, not only in Chicago, but throughout the country.

The grammatical accuracy, rhetoric, elocution, and courtesy of deportment of the students will receive such attention as is deemed adapted to correct faults of style, without suppressing individuality, in which so often lies the secret of power. The students organize societies, holding their sessions weekly, for the discussion of questions of law, political policy, and economy, and for becoming acquainted with parliamentary rules.

During the past year this Lyceum has proceeded according to the forms of the U. S. Senate, with standing committees, bills, etc., and all the usual machinery of a legislative body.

BOOKS.

Students will find their own books. The cost of the books used during our first year, as furnished by CALHOUN & Co., of Chicago, was about $75.00; during the second year, about $45.00. Arrangements have been made by which they may be supplied at the lowest trade prices. Many students obtain the use of books from the numerous law offices in the city on favorable terms. Those who buy their books usually prefer to retain them, and thus begin to form a library; but, if they choose, they can sell them at the close of the term, at slightly reduced prices, in which case the net expense will be small.

EXAMINATIONS.

In addition to the daily examinations, the students will be examined during the year in graded competitive examinations, whereby they may test their relative progress in time to prepare for the examinations for degrees, which are held at the close of the year, in the presence of the Faculties and Trustees of both Universities.

Juniors who show a satisfactory acquaintance with the subjects required, will, after one year's study, be advanced to the Senior class. Seniors found qualified, will, after like period, be recommended to graduation.

ADVANTAGES.

1. THE LOCATION of the Law College, in Superior Block, facing on Court House Square, in the heart of the great metropolis of the Northwest, and in the vicinity of all the law offices and of the Courts, State and Federal, which are almost constantly in session, affords unsurpassed advantages to the student who wishes to
obtain employment during office hours, and to become acquainted with every phase
and variety of business.

2. Library.—The students are admitted free to the Law Library of the
Chicago Law Institute, located in the Court House—a library of nine thousand
volumes—a privilege for initiation to which lawyers in practice pay $100, besides
annual assessments of $15.

3. Our Diploma admits the Bar of Illinois. There is no other mode
of admission in the State than on such diploma, or an examination in open
license, or on a foreign license.

4. Prizes.—The Horton Annual Prize of Fifty Dollars will be awarded to
such student of the graduating class as shall be adjudged by an impartial committee
to have prepared the best thesis or brief on some legal topic or question. This
prize for the year 1876-7 was awarded to Alfred H. Walker.

The Callaghan annual prize, of one hundred dollars, will be awarded for the
best examination in the Senior Class. This prize for 1876-7 was awarded to
Newton A. Partridge.

CLASSIFICATION.

1. Students at the Union College of Law shall hereafter be classified as
"regular" attendants, or "casual."

2. No casual attendant shall graduate or receive the Diploma of this School.

3. Students absent from more than one recitation of their class per week, and
not furnishing a satisfactory excuse in writing at the next recitation of the same
class, shall be deemed casual for that week, and checked on the roll as such.

4. Students neglecting to comply with any exercise required of them in the
Most Courts, or in Office Practice, for more than two weeks, shall be deemed casual
for the said two weeks.

5. Students marked as "casual" for half of the weeks of the term, will be
deemed casual for the term; and students casual for two terms will be deemed
chronical for the year.

The roll of the respective classes will be called by the several lecturers at the
hours of 9, 9, 4 and 9.

EXPENSES.

Tuition for one term, in advance........................................ $25 00
Tuition for three terms.................................................. 40 00
Tuition for short term.................................................. 50 00
Graduating fee............................................................. 10 00
Board near College Building:
Day Board, per week................................................. 3 00
Room, not less than two in a room, per week.................. 75 to $ 50
Board, in families, per week........................................ 40 to $ 60
Club boarding, much less.

Address,
V. B. Denslow,
Secretary Union College of Law, Chicago, Ill.

ANNUAL ANNOUNCEMENT

FOR SESSION OF 1877-8.

The Thirty-fifth Annual Session of Rush Medical College will
commence October 2, 1877, and continue twenty-one weeks.
The elegant new college building has been constructed at great expense, and
with the greatest care as regards ventilation and heating, and all else that pertains
to the comfort of the student. The experience of one winter and one summer
session has shown that the aims of the designers of the building have been attended
with results most satisfactory to instructors and pupils.
The upper lecture room or anatomical theatre can accommodate a class of six
hundred. Beneath this is the lower or chemical lecture room. The seats in each
room are opera chairs, arranged in the amphitheatre form.
The Chemical and Physiological laboratories are each provided with all the
apparatus required for the practical study of chemistry and physiology.
The Museum is well provided with Anatomical and Pathological specimens.
The collections illustrative of Comparative Osteology is especially rich in preparations.
This collection of skeletons, if not the largest, is said to be the third in
importance, as regards variety of types, in the United States.

* Deceased.
A large number of most artistic oil paintings have been prepared, illustrating Surgical and Regional Anatomy, Histology, and Pathological changes.

The Faculty can give the most positive assurance that during the whole session there will be no lack of dissecting material, since they have constructed, at great cost, a large brick refrigerator, in which one hundred subjects, gathered during the spring and summer, can be kept perfectly frozen till required by the class.

It is well known that the College is in close proximity to the Cook County Hospital. This hospital, standing on a block of twelve acres of land, has been erected at a cost of $250,000, independent of the lot.

It consists of two large pavilions, four stories high, and one hundred and twenty feet long—a large clinical amphitheatre—separate buildings for the kitchen, laundry, bakery and steam heating apparatus—all connected by long, covered corridors.

The amphitheatre of the Hospital, with a seating capacity for six hundred persons, is the clinic room in which all the surgical and medical clinics are held. Two thousand patients were treated at the Hospital during the past year; two hundred important surgical operations were performed, of which forty were capital amputations.

In the rear of the Hospital is the Mortuary or Necropsy theatre, in which are held all the post-mortem examinations of the Hospital, of which more than 100 were made during the past year.

This department, by recent appointment, has been placed in charge of Prof. I. N. Danforth, under whose supervision the morbid material will be utilized for Pathological instruction. Most ample opportunities will be given for the complete study of the gross as well as of the microscopic appearances produced by disease.

One regular lecture a week during the year will be given by Prof. Danforth on Mortal Anatomy.

The following is the active staff of the Hospital:

**Physicians:**
- J. P. Ross, M.D.
- Thomas Bray, M.D.
- H. M. Lyman, M.D.
- H. A. Johnson, M.D.
- T. D. Fit, M.D.
- W. E. Quinn, M.D.

**Surgeons:**
- R. G. Bogue, M.D.
- E. Powell, M.D.
- A. G. Gunn, M.D.
- C. T. Parker, M.D.

**Oculists:**
- Dr. W. T. Montgomery, Dr. L. Ware.

**Other Clinics:**
- Prof. Gun will continue his regular Saturday afternoon Surgical Clinic at the College throughout the year. An average number of fifteen patients attend this Clinic each Saturday in the year.

There will be a Clinic on Diseases of the Nervous System, by Professor Lyman, every Thursday throughout the year.

**A Medical Clinic will be given every Monday by Dr. Bridge.**

Prof. Ross will deliver each week one didactic lecture, and will give two General Medical Clinics at the County Hospital, and one Clinic on Diseases of the Heart and Lungs at the College. He will also provide for special instruction in physical Diagnosis in the wards of the Hospital.

Prof. Holmes will deliver regular clinical instruction on Ophthalmic and Aural Disease at the Illinois Charitable Eye and Ear Infirmary, N.W. corner of Adams and Peoria streets, every Monday afternoon.

A new operating room for the Infirmary is contemplated, and will probably be completed before October. During the past year 1,603 patients have received treatment at the Infirmary. An excellent opportunity is afforded for studying the diagnosis and the medical and surgical treatment of diseases of the eye and ear.

Professor Holmes will also give private instruction in the use of the ophthalmoscope and adaptation of spectacles.

Extraordinary opportunities are offered to Students and Practitioners for clinical instruction at the Central Free Dispensary, occupying the first floor of the College. More than six thousand different patients received treatment by this Dispensary during the past year. These patients are classified according to their diseases. Every opportunity is afforded for the study of specialties.

Under the direction of the Professor of Clinical Medicine, the advanced students will be divided into classes, each class being assigned for two weeks to one of the Special Departments of the Dispensary, where individual instruction will be given by the attending physicians. The students will be specially drilled in the methodical examination of patients, the taking of histories, and the writing of prescriptions, etc. At the end of the two weeks each class will be transferred to a second Special Department, then to a third, and so on until the entire round of the Departments has been made.

The following are the Clinical Instructors in the Dispensary:

- **Philip Adolphus, M.D.:** Diseases of Women.
- **Prof. Etheridge:** Diseases of Chest.
- **Dr. E. E. Ingalls:** Surgery.
- **Dr. W. S. Karron:** Dermatology and Venereal Disease.
- **Dr. W. G. Graham:** Diseases of Children.
- **Dr. R. S. Hall:** General and Nervous Diseases.
- **Dr. B. B. Freeman:** Dental Disease.

**SPRING COURSE.**

The Faculty ask special attention to the great advantages offered by the Spring Course, beginning the first Wednesday in March, and continuing 16 weeks. It consists of lectures and recitations at the College, and clinical instruction at the Hospital and Dispensaries. The Faculty take much pleasure in stating that the spring Faculty, composed of highly educated lecturers, have ever performed
their duties promptly, and contributed all in their power to the advancement of the class. How highly their efforts are appreciated may be known from the fact that 106 students were matriculated at the commencement of the term Mlast year.

SPECIAL NOTICE.

The Faculty, after mature deliberation, are still convinced that the general system of medical education which has hitherto been pursued in this College affords to the largest number of students the best facilities. There will, therefore, be no radical change in the present course of instruction. Increased resources, however, of illustration have been provided in each department.

The Faculty ask attention to the following suggestions:

While insisting, as heretofore, upon three full years of study, the Faculty desire that as many as possible of the matriculates in this institution shall pursue their studies at this College during the winter and spring terms of at least two, if not three, years. During each of these four (or six) terms, students, who place themselves for this period under the immediate direction of the Faculty, are advised to devote special attention to anatomy, physiology and chemistry, as the ground work of their professional studies; for it is believed that students who are especially well educated in these branches, even though comparatively ignorant of all the others, are far better prepared to enter upon the practice of their profession, and are more capable of perfecting their knowledge by future study and observation, than those who have studied in all departments, but possess only superficial attainments in these fundamental sciences.

At the close of every term, as an incentive to industry, such students will be examined, and to each one will be recommended an appropriate course of study and clinical observation for the ensuing term. The final examination will cover the whole field of study. To every graduate who has faithfully complied with the foregoing provisions, in addition to the ordinary diploma, will be awarded a special certificate of honor, signed by the Spring Faculty and by the Faculty of the College. All who intend to pursue this course are requested to signify such intention at the time of their matriculation.

Students of the College, and those who are pursuing their studies elsewhere with the intention of completing their collegiate course at this institution, are urged to follow, as far as possible, the following schedule of lectures and studies. It is desirable that they should be matriculated at the commencement of the spring course.

The daily order of lectures and clinics at the Hospital and Dispensaries will be arranged in accordance with this schedule, not only to accommodate beginners, but also advanced students and practitioners who desire to review their studies.

As the spring course has become a most important addition to the college work, the period of study required for graduation is divided into six terms. The following schedule of studies has been adapted to the wants and convenience of students during each period of their progress, whether they are in the college or preparing to enter. There is reason to believe that it is of far greater advantage to the student, during his collegiate course, to study and carefully review a single

SCHEDULE OF STUDIES.

FIRST TERM — SPRING.

Dissect viscera; study Long Bones. Surgical clinics at College, Hospital and Dispensary.

SECOND TERM — WINTER.

Surgical Clinics. Dissect External Soft Parts. Study Bones. Practice auscultation and percussion of the normal chest and abdomen.

THIRD TERM — SPRING.

Exercises in normal and abnormal auscultation and percussion. Dissect external soft parts. Special dissection of Pelvis and its organs and fovea. Medical and Surgical Clinics.

FOURTH TERM — WINTER.

FIFTH TERM — SPRING.

LECTURES.—Anatomy, Physiology, Chemistry, Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics, Abnormal Parturition.

Regional Dissections, Chemical Laboratory Work, Toxicology, and Special Researches, Clinics, general and special, Pathology and Post Mortem Examinations.

SIXTH TERM — WINTER.

All lectures and clinics. Regional Dissections, Post Mortem Examinations, General Review.
TEXT-BOOKS FOR STUDY.

Gray's Anatomy, Flint's Physiology, Barker's Chemistry, Bristow's Practice of Medicine, Druitt's Surgery for beginners, Gross' or Erichsen's for advanced students, Leishman's Obstetrics, Ringer's Materia Medica, Green's Pathology, Williams' or Carter's Diseases of the Eye, Gray's Compendium of Anatomy.

GRADUATION.

The following are the requirements for the Degree of Doctor of Medicine, viz.: 1st. The candidate must be twenty-one years of age, and must give satisfactory evidence of possessing a good moral character, with such primary education as is clearly requisite for a proper standing in the public and the profession.

2d. He must have pursued the study of medicine three years, and have attended at least two full courses of lectures, one of which may have been in some of the Spring Term cannot be accounted as "a course of lectures" in this requirement.

3d. He must have attended clinical instruction during at least one college term.

4th. He must have pursued the study of Practical Anatomy, under the direction of a Demonstrator, and to the extent of having dissected each region of the body.

5th. He must notify the Secretary of the Faculty of his intention to become a candidate, depositing the amount of the graduation fee with the Treasurer, on or before the 20th day of January. In case the candidate fail to graduate, the fee is returned to him.

6th. Every candidate must undergo a full and satisfactory written examination on each branch taught in the College.

7th. Graduates of other recognized schools of medicine will be entitled to an additional degree, by passing a satisfactory examination, paying the graduation fee, and giving evidence of a good moral and professional character.

FEES.

Lecture Fee for the Course, including Matriculation Fee...... $65.00
Admission to the Dissecting Room, material free...... 10.00
Graduation Fee...... 5.00

From students of this College, who have paid for two full courses, and from Alumni of this and of other respectable Medical Colleges, the Matriculation Fee ($5.00) only will be required.

BOARD AND ROOMS.

Good board, with rooms, and all the usual accommodations, can be obtained at rates varying from $3.50 to $6.50 per week. By associating in clubs, students may supply themselves with good accommodations at a material reduction from ordinary rates.

DIRECTIONS TO STUDENTS.

Students will sign the Matriculation List, and obtain their tickets at the College, from the Treasurer, Professor Gunn. Students may select their seats in the lecture rooms when they take their tickets, or the Treasurer will select for them, on receipt of the matriculation fee previous to the opening of the Session. TheJanitor may be seen in the College building, and will aid in obtaining board ing places, rooms, etc.

For circular, address the Secretary, Professor J. H. Etheridge, No. 603 Michigan Avenue.

Students will find a good assortment of medical books and surgical instruments in this city. The following books of reference, among others, are recommended:

Chemistry.—Barker, Miller's Elements, Youmans.

Anatomy.—Gray, Grobrecht's, Wilson.

Physiology.—Flint, Dalton, Kues.

Materia Medica and General Therapeutics.—Bartholow, U. S. Dispensatory.

Parrish's Pharmacy, Ringer, Stille, Waring.

Medical Jurisprudence.—Elwell, Taylor, Beck, Casper.

Obstetrics.—Casseubs, Hodge, Leishman.

Diseases of Women.—Thomas, Hewitt, Atthill.

Diseases of Children.—Smith, Vogel, Meigs & Pepper.

Surgery and Surgical Pathology.—Erichsen, Holmes, Druitt, Gross, Page, Bryant.

Practice of Medicine.—Flint, Bristowe, Aitken, Niemeyer, Hartshorne's Watson.

Pathology.—Green, Rindfleisch, Wagner, Billroth.

Clinical Medicine.—Bennett, Trouseau. Graves.

Diseases of the Heart.—Flint, Walsh.

Diseases of the Lungs.—Walsh, Faller.

Surgical Anatomy.—MacLise, Hering.

Microscopic Anatomy.—Stricker, Frey's Compendium, Schaefer.

Ophthalmology.—Williams, Wells, Stellwag.

Otoology.—Roosa, Van Troeltsch.

Military Surgery.—Hamilton.

CONNECTION WITH THE UNIVERSITY OF CHICAGO.

As a department of the University of Chicago, Rush Medical College is entitled to offer to its students admission to the Observatory, Museums, Libraries and Lectures of the University on the same terms as are given to students of other departments.
THEOLOGY.

No theological department is connected directly with the University, so as to be under the same Board of Control; yet the facilities for theological education in the city are scarcely second to those of any other place in the country. There are within easy access from the University three theological seminaries, representing as many of the leading denominations. All of these institutions are thoroughly equipped for the work of instruction. The Baptist Union Theological Seminary is located at Morgan Park.

FACULTY.

G. W. NORTHROP, D. D., PRESIDENT,
And Professor of Systematic Theology.

REV. T. J. MORGAN, D.D.,
Professor of Homiletics and History of Doctrines.

REV. JAMES R. BOISE, Ph.D. LL.D.,
Professor of New Testament Interpretation.

BERNARD MAIMON, M.A.,
Professor of Oriental Languages and Literature.

REV. GALESHA ANDERSON, D.D.,
Lecturer on Church Policy and Pastoral Duties.

REV. J. A. SMITH, D.D.,
Lecturer on Modern Church History.

J. A. EDGREN, B.D.,
Professor in the Scandinavian Department.

The Chicago Theological Seminary (Congregational) is at Union Park, in the West Division.

FACULTY.

REV. SAMUEL C. BARTLETT, D.D.,
New England Professor of Biblical Literature.

REV. FRANKLIN W. FISK, D.D.,
Wisconsin Professor of Sacred Rhetoric.

REV. JAMES T. HYDE, D.D.,
Iowa Professor of Pastoral Theology and Special Studies.

REV. GEORGE N. BOARDMAN, D.D.,
Illinois Professor of Systematic Theology.

REV. THEODORE W. HOPKINS, A. M.,
Swearer and Michigan Professor of Ecclesiastical History.
