2. Chemistry.—Wheeler’s Lectures.

THIRD TERM.
1. Political Philosophy.—Political Economy.
3. German.—Goethe or Schiller.

Note.—The above Courses of Study are followed with as few deviations from them as possible; but circumstances may arise which may require slight temporary changes.
IV.——COURSE IN PRACTICAL CHEMISTRY.

In this course provision is made for the thorough and comprehensive study of Chemistry as an art, in the belief that, aside from the practical relations of the science, the educational effect of Laboratory practice is of great value. By such practice the senses are trained to observe with accuracy, and the judgment to rely with confidence on the proof of actual experiment.

In the Laboratory of the Department, under the direction of Professor Wheeler, aided by competent assistants, the students of applied chemistry will have ample opportunity of becoming practically familiar with the materials, apparatus and processes of the most important chemical arts and manufactures.

A systematic course in Qualitative and Quantitative Analysis will be followed by practical studies with regard to the application of chemistry to agriculture, mining, metallurgy, assaying, medicine, pharmacy, toxicology, presbytery and other useful purposes. On those who shall complete a full course, requiring from two to three years’ time, and who shall have passed a satisfactory examination, the degree of Bachelor of Science will be conferred. Certificates will be granted to students who do not graduate, stating the time they have been present, the studies pursued, and the progress made.

The Laboratory is well equipped with modern apparatus, will have ample opportunity of visiting the numerous manufacturing establishments of Chicago and vicinity, and witnessing important industrial applications of the science, the study of which he is pursuing.

The Laboratory Fee for special students in chemistry is $35 per term; for the regular course, $1.00.

TEXT BOOKS FOR READING AND REFERENCE.

Craft’s Qualitative Analysis.
Bowman’s Practical Chemistry.
Pressey’s Qualitative and Quantitative Analysis.
Miller’s Chemistry, Vols. II. and III.
Richardson and Watt’s Chemical Technology.
Wheeler’s Determinative Mineralogy.

V.—PREPARATORY COURSES.

The Trustees of the University have deemed it advisable to include among its fundamental and permanent arrangements a Preparatory Department. It will be their aim to make this department a first-class school of preparation for College.

The Professors of the University have charge of the instruction in the studies belonging to their several departments.

The requirements for admission are Reading, Writing, Spelling, Intellectual Arithmetic, Practical Arithmetic, English Grammar, and Geography.

The requisite studies have been arranged in a course of three years for classical and two years for philosophical students, as appears by the following schedules:

THIRD YEAR.

Greek.—Hadley's Grammar.
Greek Prose Composition twice a week.—Jones.
Latin.—Select orations of Cicero.
Mathematics.—Loomin's Algebra to Chapter XVIII.

FIRST TERM.

Greek.—Hadley's Grammar.
Xenophon's Anabasis. Third Book completed.
Greek Prose Composition twice a week.—Jones.
Latin Composition.
Mathematics.—Loomin's Algebra to Chapter XVIII.

SECOND TERM.

Greek.—Hadley's Grammar.
Arrian's Ambassisa three times a week, the Extract in Boise
and Freeman's Selections from Greek Authors.
Greek Prose Composition twice a week.
Latin.—Virgil's Aeneid. Latin Prosody
Mathematics.—Geometry, Books I to III, inclusive.

THIRD TERM.

Greek.—Hadley's Grammar.
Homer's Odyssey, the Extracts in Boise and Freeman's Se-
lections from Greek Authors.
Greek Prose Composition twice a week.
Mathematics.—Geometry, Books IV to VI, inclusive.

GREEK.—The preceding Course of Study is recommended to those who
are preparing for this University at other places. As a substitute, how-
ever, for Hadley's Grammar, either Goodwin's, Kuchner's, or Crosby's Grammar, or
Kendrick's revision of Bullion's Grammar, is accepted; and as a substitute for
Boise's First Greek Book, either Leighton's Greek Lessons, or Whiton's Com-
ppanion Book, or Kuchner's Elementary Greek Grammar with exercises, or
Kendrick's Greek Ollendorff, or Hardness' or Crosby's First Book in Greek, is
accepted.

LATIN.—Either Allen and Greenough's, Harkness', Bullion and Morris',
Andrews and Stoddard's, or Gildersleeve's Latin Grammar, will be accepted.
The exercises in Latin Prose Composition should be thoroughly mastered by
the student. These exercises should first be written and afterwards translated
orally. In connection with the study of Virgil, Latin Prosody should be
learned, and the difference between prose and poetical construction carefully
noted.

THIRD TERM.

Mathematics.—Loomin's Algebra to Chapter IX.
Latin.—Grammar and Reader. Latin Composition.
Natural Science.—Elements of Natural Philosophy.
GENERAL INFORMATION.

YOUNG WOMEN

Are admitted to the classes, Collegiate and Preparatory, on the same terms and conditions as young men.

A committee of ladies interested in the extension of the privileges of our Colleges to young women is appointed by the Trustees, whose duty it is to hold monthly meetings at the parlor of the University, for the consideration of questions connected with this subject, and by their advice and co-operation to aid in securing the highest efficiency of this department; also to provide for such special courses of lectures or other instruction as may from year to year be deemed advisable. The rooms assigned to the young women have been pleasantly furnished by this committee.

The College buildings at present contain no dormitories for young women, but suitable accommodations can be obtained when desired in private families, in the neighborhood.

COMMITTEE.

Mrs. J. S. Dickerson.

TERMS AND VACATIONS.

The year is divided into three terms and three vacations. The first term consists of fifteen weeks; the second and third of twelve weeks each. The Christmas vacation is two weeks, the Spring vacation one week, and the Summer vacation ten weeks. Calendar on page 2.

ELECTIVE STUDIES.

Students may reside at the University and pursue studies, for a longer or shorter time, in any of the classes, at their own election; subject, however, to the regulations of the Faculty.

EXAMINATIONS.

Examinations of all the classes are held at the close of each term, and the public are cordially invited to attend them and to judge for themselves of the character of the work done. At any time, also, in the course of the term, all persons who are interested in the studies here taught are invited to visit any of the classes.

DEGREES.

The degree of Bachelor of Arts is conferred upon all students who have completed the prescribed Classical Course of study, and passed a satisfactory examination therein; the degree of Bachelor of Philosophy on such as have completed the Philosophical Course; and the degree of Bachelor of Science upon all who have completed the Scientific or Chemical Course.

Bachelors of Arts of three years' standing may receive the degree of Master of Arts, provided that since graduation they have sustained a good moral character and pursued some literary or scientific calling. Candidates for this degree will be expected to make application for it through the President, and to furnish evidence of their qualifications.

SOCIETIES.

There are three societies in the University, conducted by the students—two literary and one religious.

RELIGIOUS EXERCISES.

The duties of each day are opened with religious services in the Chapel of the University, at which all the students are required to be present.

On the Sabbath they are required to attend public worship in the forenoon, with some congregation in the city, selected by themselves, or by their parents. The students also sustain a weekly prayer meeting.

LIBRARIES.

The University Library has been increased recently by valuable acquisitions. The London publishing house of Sampson, Low & Co., Trübner & Co., and Longman & Co., have generously furnished copies of their recent publications. Messrs. Sheldon & Co., of New York, have donated a complete set of their publications.

The Thompson Library, the gift of Hon. H. M. Thompson, contains a very valuable collection of books on horticulture, a complete set of the John Libraries and many finely illustrated works.

The Tucker Library, presented by the family of the late Rev. Eliza Tucker, D. D., contains upward of five hundred volumes, mostly theological.

The Public Library of the City of Chicago, which under the judicious and efficient management of the librarian, Mr. Poole, is rapidly becoming one of the best city libraries of the country, is accessible to the students of the University free of charge, and is much used by them.
DEARBORN OBSERVATORY.

The Dearborn Observatory forms the Astronomical department of the University. Its objects are to make original researches in Astronomical Science, to assist in the application of Astronomy to Geography, in communicating exact time, and other useful objects, and to furnish instruction in Astronomy to the students of the University, both those in the regular course and those who wish to give especial attention to the study.

The principal instruments of the Observatory are:

1. The great Equatorial refracting telescope, made by Alvan Clark & Sons, of Cambridge, Mass., in 1861, and mounted in the Dearborn Tower, which was built by the munificence of the Hon. J. Young Scammell, LL.D., and now has only one superior in the United States. It has recently been reared and much improved, and the upper part of the Tower has been reconstructed, by the Chicago Astronomical Society. The telescope is fitted with driving-clock, micrometer, spectroscope, and other appliances necessary for first-class work.

   Diameter of Declination Circle, 30 inches; reading by vernier to 10 seconds, of arc.
   Diameter of Hour Circle, 22 inches; reading by vernier to single minutes, and by two microscopes to 10 seconds, of arc.
   Focal length of Object Glass, 23 feet.
   Aperture 18½ inches.

2. A MERIDIAN CIRCLE, of the first class, constructed in 1867, by Messrs. A. Repsold & Sons, of Hamburg. This instrument has a telescope of six French inches aperture, and a divided circle of forty inches diameter, reading by four microscopes. In plan of construction it is like Bessel's celebrated Königsburg circle, by the same makers; but it has some recent improvements in the mode of illuminating the field of view and the wires and apparatus for registering declinations. A chronograph has been added for making an electrical record of the times of star transits.

   The Observatory has a chronometer (Wm. Bond & Son, No. 279), two mercurial pendulum clocks, and an astronomical library containing nearly one thousand three hundred volumes and pamphlets.

   Instruction in Astronomy to the Undergraduates is at present given by the Superintendent. (See Classical Course).

   The Observatory is now supplying time signals each day in the year, by telegraph, to several different points in the City of Chicago, and its time is the standard for many other points in the West.

   Several of the graduates have already taken high rank at astronomical observers and surveyors. One is director of the Cincinnati Observatory; another professor of astronomy at the U.S. Observatory at Washington; and others have done good work in surveying boundary lines in the Territories.
CHEMICAL AND PHILOSOPHICAL APPARATUS.

The lectures on Chemistry and Natural Philosophy are illustrated by modern apparatus. Important additions have been made, chiefly donations from George Haseltine, LL.D., of London, and Messrs. B. O. & H. W. Chamberlain, of Boston, Massachusetts; among them a Reunkeff Induction Coil, one of the largest ever imported; a full set of the famous Geisler Tubes, of Hoffman’s Apparatus, and a powerful Grove Battery, together with apparatus useful in the assay of ores.

LOCATION, BUILDINGS, ETC.

The Location of the University is in the south part of Chicago, directly on the Cottage Grove line of the Chicago City Railway. The site was the gift of the late Senator Douglas, and is universally admired for its beauty and healthfulness. The building is unsurpassed for the completeness of its arrangements, especially the students rooms, which are in suites of study and two bedrooms, of good size and height, and well ventilated.

THEOLOGY.

The University has no theological department; yet the facilities for theological education in the city are scarcely second to any other place in the country. There are within easy access from the University three theological seminaries representing as many of the leading denominations.

The Baptist Union Theological Seminary is located at Morgan Park.

Rev. G. W. Northrup, D.D., President.

The Chicago Theological Seminary (Congregational) is at Union Park, in the West Division.

Rev. George N. Boardman, D.D., President.

The Presbyterian Theological Seminary of the Northwest is located in the North Division, at the corner of Halsted Street and Fullerton Avenue.

Rev. Francis L. Patton, President.

BOARD AND ROOMS.

Board may be obtained in the Club Room of the University, where many of the students board, at cost, which has been during the past year $3.00 per week.

Students who may prefer it, can obtain board in families on reasonable terms, or they may form clubs and provide for themselves.

Students provide their own furniture, except bedsteads, a single bedstead being placed by the University in each dormitory. The students, also, provide their own fuel and lights. The use of soft coal is prohibited in the University building. Gas costs about fifty cents per week for each room, and fuel from $10 to $20 per annum for each student. Washing has been during the past year, seventy-five cents per dozen.

The rule of the Trustees requires all bills to be paid at the beginning of each term, before the students enter their several classes; and by failure to comply with these terms, the student forfeits the privileges of the University.

Parents will take notice that the whole necessary expense for one year, including board, lights and washing, varies but little from $300. This has been proved by the actual experience of students who practice economy. Any material variation from this amount may be regarded as unnecessary.
COLLEGE OF LAW.

JOINT BOARD OF MANAGEMENT.

Hon. Thomas Hoyne, LL.D., President.
James Frake, A.M., LL.B., Secretary.
Hon. Harvey B. Hurd, Treasurer.

In behalf of the University of Chicago,
Hon. Thomas Hoyne, LL.D.
Galusha Anderson, D.D.
Hon. Henry Strong, LL.D.
Joseph F. Bonfield, A.M.

In behalf of the Northwestern University,
James Frake A.M., LL.B.

Oliver H. Horton, LL.B.
Oliver Marcy, LL.D.

Faculty.

Hon. Henry Booth, LL.D.
James L. High, A.M., LL.D.
Hon. Marshall D. Ewell, LL.D.
Hon. Harvey B. Hurd.
Nathan S. Davis, M.D. LL.D.

CONDITIONS OF ADMISSION.

Students entering the Junior Class are expected to have at least a good common school education. A knowledge of Latin is desirable, but is not required.

ADVANCED STANDING.

Students who have attended another Law College one year, or spent one year in the study of law in the office of an attorney, may apply for standing in the Senior Class at the opening of the School year, or during the first half of the first term, and may enter it if found competent, on examination by the Faculty.

LECTURES.

In addition to the regular course of instruction, lectures are given by members of the Faculty, members of the Bar, and others.

The following were given during the past year:

MOOT COURTS.

That students may be versed in the practice of law, two Moot Courts are held every Saturday—one by the Senior, and the other by the Junior Class. During some years a Union Moot Court has also been sustained by the students. In these they are taught to apply legal remedies, according to principles, briefs, etc., and take the various steps incident to bringing a cause, either to the court, or in arrest of judgment, writ of error, etc. Actual practice is required in these moot court exercises.

SOCIE TIES.

The students also organize societies, holding their sessions weekly, for the discussion of questions of law, political policy, and economy, and for becoming acquainted with parliamentary rules. During the past year this Lyceum has proceeded according to the forms of the U. S. Senate, with standing committees, bills, etc., and all the usual machinery of a legislative body.

BOOKS.

Students will find their own books. Arrangements have been made with the publishing house of Callaghan & Co., by which they will be supplied at the lowest trade prices. Many students obtain the use of books from the numerous law offices in the city, on favorable terms.

EXAMINATIONS.

In addition to the daily examinations, the students will be examined during the year in graded competitive examinations, whereby they may test their relative progress in time to prepare for the examinations for degrees, at the close of the year, in the presence of the Faculties and Trustees of both Universities.

Juniors, who show a satisfactory acquaintance with the subjects required, will, after one year's study, be advanced to the Senior Class. Seniors found qualified, will, after a like period, be recommended for graduation.

DEGREES.

The degree of Bachelor of Laws is conferred on those who complete the course of studies herein prescribed.

ADVANTAGES.

The location of the Law College, in Parker Block, 95 and 97 Washington street, in the heart of the great metropolis of the Northwest, and in the vicinity of all the law offices and of the Courts, State and Federal, which are almost constantly in session, affords unsurpassed advantages to students who wish to obtain employment during office hours, and to become acquainted with every phase and variety of business. The hours of class exercises are so arranged that students can employ the business hours of the day as clerks in attorneys' offices without interfering with their studies.

LIBRARY.

The students are admitted free to the Law Library of the Chicago Law Institute, located in the Court House, a library of over nine thousand volumes, a privilege for initiation to which lawyers in practice pay $100, besides annual assessments of $15.00.

DIPLOMA.

Our Diploma admits to the Bar of Illinois, if the student has taken the full course of two years in this school. Attendance for a shorter period is credited to the applicant for admission to the Bar on examination before the Appellate Court. There is no other mode of admission in the State than on such diploma, or an examination in open Court, or on a foreign license.
PRIZES.

The Horton Annual Prize of Fifty Dollars will be awarded to such student of the graduating class as shall be adjudged by an impartial committee to have prepared the best thesis or brief on some legal topic or question. The Callahan Annual Prize of One Hundred Dollars will be awarded for the best examination in the Senior Class. An Annual Prize of Twenty-five Dollars will be awarded for the best examination in the Junior Class.

ATTENDANCE.

1. Students at the Union College of Law shall hereafter be classified as "regular" attendants, or "casual."
2. No casual attendant shall graduate or receive the Diploma of this school.
3. Students absent from more than one recitation of their class per week, and not furnishing a satisfactory excuse in writing, at the next recitation of the same class, shall be deemed casual for that week, and checked on the roll as such.
4. Students neglecting to comply with any exercise required of them in the moot courts for more than two weeks, will be deemed casual for the said two weeks.
5. Students marked as "casual" for half of the weeks of the term, will be deemed casual for the term; and students casual for two terms will be deemed casual for the year.

The roll of the respective classes will be called by the several lecturers at the hours of 8, 9, 4, and 5.
