Citation

When quoting material from this collection, the preferred citation is: Photomicrographs of Pathologic Preparations, Crerar Ms 269, Special Collections Research Center, University of Chicago Library

Scope Note

A bound collection of images of different types of cells affected by different types of pathogens. The first two-thirds of the volume is composed of stiff cardboard pages, whose images have been labeled by hand. These maladies include tuberculosis, cysts, and cancers. The final third of the volume is composed of pages directly excerpted from Volume 1 of the Bibliotheca Internationalis. These images appear to be hand-drawn, in color, and are labeled in type-written German.
