This album, donated by the Tinley Park Historical Society, is devoted primarily to images of the settlement community and other nearby areas in Chicago. The Library scanned the full album, and a copy of the digital files has been provided to the Historical Society.

Pedestal Case: Sister Agnes Johns

Sketchbook albums with inscriptions and drawings by wounded soldiers for Sister Agnes Johns
1916 and 1918-19

Sister Agnes Johns Collection

Sister Agnes Johns, who served at several British medical hospitals during World War I, kept two sketchbook albums filled with poems, drawings, and tributes from her patients. One album was from her year on the island of Malta, where she worked in the Valletta Military Hospital, a facility reserved for the most seriously wounded troops.

A second album covered her nursing service during the final months of the war, including a term at the Croydon War Hospital in Surrey, England. Many of the soldiers at Croydon were in the later stages of recuperation and anxiously awaiting release to return home to family and loved ones.

The Silken Sleeve: A London Legend
 Manuscript, 1841
H. Chambers Collection
Acquisition made possible by support from Joel Wachs, AB '92

Little is known about the author of this sheaf of manuscript poems. "The Silken Sleeve" recounts a tale of love against the rich backdrop of the City of London, with an itinerary that includes Goldsmith's Hall, Westcheap, St. Paul's Cross, and other landmarks. Two other poetic works are appended as separate pieces in the same hand, one titled "The Dying Student" and the other a meditation "On the Fragmental Roman Pavement Discover'd beneath the Foundations of the French Protestant Church in Threadneedle St."

Le Ministre Secrétaire d'État au département de l'Intérieur
Brevet de Libraire, Anne Catherine Siméon Cadennée, 1829
Historical Manuscripts Collection

The early nineteenth century French book trade was known for a number of women who were able to open and successfully operate independent businesses. This license to operate a bookstore was granted to Anne Catherine Siméon Cadennée, a sixty-five-year-old widow.

[Choir Book], Texts for Office and Mass for St. Anne and the Holy Rosary of the Virgin Mary
Latin hand-stenciled book on paper with musical notation
France, ca. 1750-1800
Ms. 1461
T. Kimball Brooker Art Book Fund

A stenciled manuscript presents the reader with a fascinating hybrid, created by hand like a manuscript but printed by mechanical means like a book. This late eighteenth-century example combines the text and music for the Mass and Office for selected church feast days. Its large size indicates it was intended for use by a choir.

Wallbrand Evans crafted these fine calfskin bindings emulating illustrations by Walter Crane (1845-1915) in the Arts and Crafts style, popular in Britain beginning in the late 19th century. The movement, which some see as a reaction against the uniformity of machine-made goods, focused on simple forms that recall medieval, romantic, or folk styles of decoration.

Students/Campus Life/Alumni (Large)

The University Archives documents the history of the University of Chicago, the academic work of its faculty and students, and the life of the campus and community. Some historical materials on student activities and athletics are received from University departments, schools, and centers. Other items are given by students and alumni as personal mementos of their campus experience. A recent appeal to alumni through *The University of Chicago Magazine* prompted generous gifts of student historical items and memorabilia, all welcome additions to the archival collections.

Gender Studies/LGBTQ Case (Medium with L Back)

The University of Chicago has been a center for the study of gender and sexuality since the early 20th century, when Chicago sociologists broadened the examination of social and urban life to include sexuality. In 1996, the University created the Center for Gender Studies to provide a focus for academic research. The following year, professors George Chauncey and Elizabeth Povinelli founded the Lesbian and Gay Studies Project at the Center, since renamed the Center for the Study of Gender and Sexuality. Special Collections is acquiring original materials to support ongoing research and teaching across many fields of gender studies.

Ando Case, Jazz Posters

Howard Courtney is a firm believer that some people are born collectors. He is certainly one of those individuals. Born in Michigan, Howard has pursued interests that have taken him to thirty countries. He started collecting foreign stamps in his youth as he was intrigued with geography and foreign languages. Later, Howard progressed to antiques, which led to Persian carpets, stained glass windows, numerous specialized stamp collections, ancient coinage of the Nabataeans, autographs of famous people and jazz musicians, World War I posters, U.S. Presidential/political posters, Chicago mayoral posters, art, antiquities, World War I trench art, and George Washington Bicentennial philatelic and other memorabilia. Howard's friendship with Famoudou Don Moye of the Art Ensemble of Chicago and many other jazz musicians, led him to develop an interest in original jazz posters and memorabilia. Presented as a gift to the Library, his collection spans more than 3,200 posters with several thousand autographs.

Ando Case, Overton-Lewis

Eva Overton Lewis (1893-1945) was the daughter of Anthony Overton (1865-1946), a well-known businessman and owner of the *Chicago Bee*, a noted African American newspaper. Eva attended the University of Chicago, completing her degree in 1916. While at the University Eva was an active member of Alpha Kappa Alpha Sorority. Eva was initially involved with some of the Overton businesses, including the *Chicago Bee*. After marrying Julian Herman Lewis, MD, PhD, in 1916, she traveled and raised their three children.

Julian Herman Lewis (1891-1989) is thought to be the first African American to hold both an MD and PhD. His groundbreaking research on race and blood typing led to his 1942 book, *Biology of the Negro*, which debunked the racist idea that African Americans were biologically inferior. Dr. Lewis earned his PhD in 1915 and MD in 1917. Later that year he became the first African American to teach at the University of Chicago, where he was a noted expert in immunology.
